### STATE NEWS.

#### Happenings in North Carolina.

Herrings sold in Plymouth last week at \$1 per thousand. It has been many years since they sold that cheap.

Dr. James C. Blasingame, of Knoxville, Tenn., has been elected President of the Baptist Female University at Raleigh.

Mr. Bob Wallace has 58 acres of wheat that will average three feet in height. It is the finest wheat in the State, he and his neighbors say.—Charlotte Observer.

Last year Miss Mollie Tugman, of Meat Camp, raised a gourd that, when taken from the vine, weighed 59 pounds, measured 68 inches circumference and holds 16 gallons. How is that?—Boone Democrat.

The members of the First North Carolina Regiment, recently mustered out, arrived at their homes Sunday. Several towns where companies went from prepared royal welcomes for the boys on their return.

#### Marriage License.

During the past two weeks, since our last report, Register of Deeds Moore issued nine marriage licenses to the following parties:

##### WHITE.

Needham Askew and Rebecca Weathington.

Geo. B. Hughes and Willie Ficklen.

J. S. Spain and A. Oliver Johnston.

T. J. Worthington and Lena Campbell.

Luke L. Ward and Nannie Ward.

Richard Pippin and Mollie J. Fields.

##### COLORED.

W. M. Cox and Patience Garriss.

Alonzo Jenkins and Annie Johnson.

Cesar Corbett and Bettie Johnson.

#### Methodist Services.

On Sunday the pastor, Rev. N. M. Watson, made the following announcement of services in the Methodist church:

Rev. J. M. Terrell, of Conetoe, will preach next Sunday morning.

Presiding Elder, B. R. Hall will preach next Sunday night.

Rev. R. B. John, of Newbern, a former pastor here and former Presiding Elder of this district, will arrive on Wednesday, May 3rd, and for a week following will preach a series of sermons especially to church members. The pastor says this meeting is not intended for an ingathering but for an upbuilding.

#### Tripple Link Fraternity.

Quite a number of Odd Fellows from Greenville will go to Bethel Wednesday to participate in the anniversary celebration of the lodge at that place.

The Parmele lodge will have its celebration that night, Wednesday, and Dr. D. L. James, of Greenville, will deliver the address.

Greenville Odd Fellows and Daughters of Rebekah will have their celebration on Friday night, and invitations have been sent to the Bethel, Parmele and Robersonville lodges.

### OVER THE COUNTRY.

Florists around Chicago, Ill., estimate their losses by the recent freeze at \$1,000,000.

The managing committee of the Chicago Platform Democrats' Dollar Dinner at New York deary that any negro sat at the table.

The Dolphin has arrived at Charleston and the training ship St. Mary's has sailed from New York on a summer cruise.

Ex-Gov. Atgeld, of Illinois, is critically ill.

The jury in the Lake City, S. C., lynching case failed to reach a verdict and a mistrial was the result.

#### Pianos. Pianos. Pianos.

We can sell you a beautiful Piano, height 4 feet 9 inches, width 5 feet 2 inches, depth 2 feet 3 1/2 inches, new improved overstrung upright scale, three unison throughout, full metal plate, full front swing music desk, large richly hand carved panel, Boston fall-board continuous hinges on top and fall, first class action with fine repetition, ivory or celluloid keys, made in mahogany walnut and oak cases, double vaneered, this Piano would only have to be examined to convince you that it is equal to any piano that you could buy elsewhere for \$250, but our price is only \$175. We would not deceive our customers by telling them that the former price of this Piano was \$300 or that it had ever been sold at any such figure, in fact we would advise that you purchase a high grade Piano. If you are contemplating the purchase of a nice Piano you cannot afford to buy before you get our prices on such makes as the Chickering, Ivers & Pond, & Wegman Pianos. Write for our beautiful catalogue.

#### Helping Bethel.

Sunday morning in the Baptist church Rev. A. W. Setzer read an appeal in behalf of the church at Bethel, whose house of worship was completely destroyed by the cyclone in March, and asked for a collection to help them rebuild. About \$25 was given for this purpose by the congregation. They could not have contributed to a more worthy cause.

#### Clearing Main Street.

The town authorities are having all the remaining shade trees on the business portion of Evans street, between the Court House and Five Points, cut down. We understand that they are also going to have the sidewalks along the same portion of the street cut down to a uniform width and will have all wood sheds in front of the stores removed. These changes will alter the looks of the street very much.

#### The Bugs Survive and Thrive.

Potato bugs seem to have come right along with the plants this season. It is useless to argue any more that freezes kill out the bugs when they survive such a winter as we have just passed through. It looks like there was enough freezing to kill every bug in the land.

## Does Not Look Favorable.

"The outlook for the next crop of cotton is already superseding in popular interest the marketing of the balance of the old crop. Although some doubt yet exists as to the final results of the crop of 1898, the market has ceased to be materially swayed by old-crop influences, and is largely governed by the reports from the country as to the preparations for planting the crop of 1899 and the progress made by that portion of the crop already planted in more southerly districts.

Owing to the favorable weather which has prevailed during the past week or two, field work has progressed at a rapid rate, and people of sanguine temperament are disposed to think that the many weeks lost will be speedily made up. That is, of course, entirely problematical. The known facts are that the purchases of commercial fertilizers are considerably smaller than last year, and the preparations for planting the crop have been very much delayed. Whether these drawbacks will have any material effect upon the acreage finally planted remains to be seen, but that the crop can be as vigorous or as productive with less fertilizing does not appear reasonable. The late start may undoubtedly be made up by uncommonly favorable weather, but it undoubtedly subjects the crop to more vicissitudes than it would ordinarily encounter, with a reasonable certainty of rendering the harvest a late one.—New Orleans Picayune.

## Worn By Blue and Gray.

"Thirty years ago," says Rev. David McRea, of Dundee, Scotland now in this country, "I paid a visit to Mrs. Stonewall Jackson at her home, and by her was presented with the overcoat which her husband wore when he received his death wound. It was a heavy rubber-faced garment, and the fatal bullet hole and stains of blood were plainly visible. I took the precious relic of the great Confederate hero back to my home in Dundee, Scotland, but en route to New York I met General Howard, of the Federal army, and told him the story. He was immensely interested, spoke warmly of General Jackson's military genius and superb courage, and finally wound up by saying: 'Well, Mr. McRea, since you have the overcoat, I think I will have to give you one that I wore in the same battle. I am not ranking myself with Jackson, but I want you to have a souvenir of both sides.' So he gave me his uniform coat, embellished with the Federal brass buttons and shoulder straps. I thanked him heartily,

and after I reached home I had them both placed in the fine public museum at Dundee. There they have hung all these years, the blue and the gray, side by side, one bullet torn and bloody, the other bright and whole. I propose on my return to have the two coats transferred to the museum at Edinburg.—New York Tribune.

## Attempt to Frighten Illiterate Whites.

The latest scheme of the fusionists to defeat the proposed suffrage amendment is to intimidate or frighten illiterate white men, by telling them that the "grandfather" clause will be declared unconstitutional and void and the remainder of the amendment will be enforced.

Of course the amendment will be voted upon and adopted as a whole and if one part of it is enforced all of it will be. And if one part is unconstitutional none of it will be enforced.

When pie eating fusionists assert that the Democrats are opposed to illiterate poor white men voting, it is well to ask them who gave the poor white men in this State the right to vote? Our older readers will remember that the Democratic party, over forty years ago, gave "free suffrage" to all white men in North Carolina and removed the property qualification. And the Democratic party is certainly not now going to take away the right of suffrage from a large class of its own voters.—Chatham Record.

Since the adjournment of the Legislature many errors have been discovered in the laws passed by that body—the errors in the revenue law being especially noticeable. The fusion Legislatures of '95 and '97 made a record for ridiculous errors which attracted the attention of the whole State and were much criticized by the Democratic press. It is not pleasant to criticize the work of our own Legislature but common justice and common fairness demand it, and we agree entirely with the Scotland Neck Commonwealth in the following:

"Perhaps a Democratic newspaper is not expected to say it, but candor compels the Commonwealth to observe that the last Legislature made many ludicrous mistakes which seem inexorable. Almost every day some mistake made in copying the laws is published. As the laws are being published these mistakes are coming to light, some of them; and perhaps others that we do not hear of. To say the least of it, there seems to have been gross negligence somewhere in allowing so many mistakes to creep in."

The Landmark is of the opinion that the gross negligence is due to the custom of selecting legislative employes—clerks, etc.—with reference to their political influence rather than with regard to their fitness for the positions in which they are placed. This is a custom that ought to be changed.—Statesville Landmark.

Wife beaters in Germany are punished in a peculiar and yet sensible way. They are not imprisoned, as in this country, but are arrested, every Saturday after their week's work is over, and kept in durance until Monday. This is done regularly every week until their sentence has expired, the object, of course, being that the delinquent may during the week earn money for the support of his family.

## Pay Of Law-Makers.

The law-makers in Austria and France are paid \$5 a day; in Greece the Senators get \$100 a month and the Deputies \$50; in Germany members of both houses receive about \$2.50 a day; in Denmark the members of the "Landsting" each receive about \$3 a day; in Belgium each member of the Chamber of Representatives gets \$85 a month; in Portugal the Peers and Commons are paid the same sum, which is about \$355 a year; in Spain the members of the Cortes are not paid for their services, but enjoy many advantages and immunities; in Switzerland the members of the National Council get \$2.50 a day and the Council of States, the lower house, \$1.50; in Italy the Senators and Deputies are not paid at all but are allowed traveling expenses. England is the only country where members of Parliament are not only unpaid, but have no special rights or privileges.—Good Words.

## Education In The Home.

"When one finishes school or college one is only beginning to learn, and what better post-graduate courses could one have than the practical application of ideas through the medium of friends and family?" inquires Frances Evans, in the May Ladies' Home Journal. "As far as education is concerned the best family friend is the dictionary. When you see some one in a family consulting the dictionary whenever a doubtful word or phrase comes up in the course of conversation you will find the members intelligent people as far as facts can educate. We may not be able to aid each other in the 'higher education' of philosophy, science and ethics, but one thing is certain; we can form family alliances against ignorance of the three R's as well as geography, spelling and good English. Slang has its uses, no doubt, but if American parents do not give some heed to the English talked by their children at home, Americans a hundred years hence will have absolutely forgotten their mother tongue.

## North Carolina Industries.

The State of North Carolina is attracting much attention at present on account of the remarkably large number of new cotton mills being erected in addition to those already in operation. They include improvements and new plants at Elkin, Greensboro, Harlem, Red Springs, Mt. Mourne, Lexington, Tarboro and Raleigh. In preparing a summary of these enterprises in this State the Manufacturers' Record gives as a reason the advantages which North Carolina towns possess for the textile industry. According to a correspondent of the Record, ten years ago Charlotte had a population of about 10,000 and one cotton mill. Today its population is more than 28,000 and its twelve cotton mills are running day and night in the manufacture of cotton yarns, gray cloths, ginghams, toweling, webbing, sashcord, hosiery, batting and wadding. Its five clothing factories are utilizing every hour of daylight to keep up with their orders. These factories are the direct result of the cotton mills, while as an auxiliary feature

of textile life there are the four firms which contract to design, build and equip cotton mills complete, and which are kept busy, while the five machinery and supply houses are shipping goods every day.—Baltimore Sun.

The absence of a child from school in Switzerland, unless in case of illness, is punishable by a fine, the amount of which is daily increased. ## TETTER ON THE HANDS.

For several years I was a sufferer from tetter on my hands. It would come in little watery pimples and the itching was almost more than I could stand. The skin was tender and the itching would swell so I could hardly bend my fingers. Sometimes my hands would become perfectly raw from scratching or breaking of the pimples. When I was in this condition I tried one half dozen bottles of Mrs. Joe Person's Remedy and some Wash in 1884, and by the time I took it my hands were cured, and I am now well of the trouble. It has since broken out a little at times, but not enough to inconvenience me or make me try more medicine. I am now well. **MRS. M. E. KING.**

# BE CURED OF GRIP!

The Wonderful Results Obtained in the Case of Supt. Davidson.

Now, what is the grip?  
Can it be avoided or prevented?  
And can it be cured?

Grip is characterized by a continued fever, by a tendency to inflammation of the membranes of the digestive and often the respiratory tracts, by pain in the muscles, and by debility.

The grip in individual cases varies from a slight indisposition to severe forms with grave symptoms—these variations depending wholly upon the health, age, temperament or nervous condition of the person. Those predisposed to rheumatism suffer great pain in the muscles; persons of nervous temperament become low spirited, often have hysteria, and, if not closely watched, have been known to commit suicide. Several cases of this sort have been reported this month in the newspapers. Headache is a constant symptom. The bowels are generally constipated. Whatever form the disease takes there is invariably extreme prostration. The danger to persons in previous healthful condition is slight.

It has been absolutely proven that there is one certain preventive of serious cases of grip; and that there is one remedy for persons suffering with it, or beginning to be convalescent from its attack.

The unexampled public demand for Paine's celery compound during the last two months—and the pro-

prietors of this remedy have never known so great a call for it—has been due to its use by thousands of people for whom it has been prescribed by intelligent physicians, to restore the patient's vitality, to purify the blood of the enervating poison, to restore the nervous system to healthy action and to strengthen the vital organs.

A person will continue to suffer from the evil effects of grip for many months unless he attacks the disease by getting rid of the unnatural unhealthy poisons in the system supplying the body with new blood, arousing the healthful action of the kidneys, liver and digestive organs, and nourishing and upbuilding the over-exerted and debilitated nervous system. All this and just this Paine's celery compound will do. In the multitude of cases where it has been used, it has never failed.

A case well known in Chicago is cited. Mr. Frank E. Davidson, who is one of the most brilliant and best known engineers in the world, had just finished the plans for the great intercepting sewer system of Chicago, which is to divert the entire sewerage of the city from Lake Michigan, through the famous Chicago drainage canal, and down the Mississippi. Superintendent Davidson had worked for months on this scheme. He was well nigh exhausted and took to his bed with an attack of the grip. After a

while the disease not having left him, he was advised to try Paine's celery compound. He was soon back at his office in the department of public works, a well man, and forthwith wrote a letter to the proprietors of the remedy, in which he says:

"I had been told by friends of the wonderful results obtained by them from the use of Paine's celery compound. After my severe attack of the grip I determined to try it. I have already found that my friends' reports were not at all exaggerated, and I wish to join most cheerfully with them in recommending the remedy to others."

Hundreds of grateful letters have been written to the proprietors of Paine's celery compound since the appearance of grip this year, telling of the perfect recoveries it has effected. The letters come from men and women of many conditions. Few persons are so poor they cannot afford to have this great remedy constantly in the house, and none are so prosperous that for their health's sake they can afford to be without it.

When so many men and women whose words carry the utmost weight in the communities in which they live testify as they do to the great benefit they have received from Paine's celery compound, there can be no hesitancy in trying it. A single trial is the test which is confidently invited.

## HIGGS & TAFT'S LOCAL COLUMN.

Monday, April 16th we expect 40 rolls of Matting, special large shipment this season. Don't forget that we are the largest matting dealers in the county.

Monday, April 16th, we expect 500 pairs John Kelly's Slippers. These goods are too well known for us to talk about their merits.

Wednesday, 19th, we expect a large shipment of Hamburg edging, Ladies, wait and see them.

During the week we expect the most beautiful line of pictures ever seen in the city.

During the present month we will receive a car load of "Buck's Cook Stoves," said to be finest stoves in the world. Two small ranges will be given away as an advertisement. Condition will be published later.

We now have on hand the handsomest line Bed room suites, sideboards, tables, and chairs ever seen in Greenville. Crescent Chainless Bicycles for \$50.00.

Respectfully,

HIGGS & TAFT

### WINE OF CARDUI

#### THE NEW WAY.

WOMEN used to think "female diseases" could only be treated after "local examinations" by physicians. Dread of such treatment kept thousands of modest women silent about their suffering. The introduction of Wine of Cardui has now demonstrated that nine-tenths of all the cases of menstrual disorders do not require a physician's attention at all. The simple, pure

taken in the privacy of a woman's own home insures quick relief and speedy cure. Women need not hesitate now. Wine of Cardui requires no humiliating examinations for its adoption. It cures any disease that comes under the head of "female troubles"—disordered menses, falling of the womb, "whites," change of life. It makes women beautiful by making them well. It keeps them young by keeping them healthy. \$1.00 at the drug store.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

W. L. ADDISON, M. D., Cary, Miss., says: "I use Wine of Cardui extensively in my practice and find it a most excellent preparation for female troubles."
