ORDER AT THE DEPOT.

A Good Ordinance Adopted.

At the special meeting Monday afternoon the Town Council adopted an ordinance that will put a stop to the boisterousness around the depot, and will also prevent hotel porters and hack runners from crowding around in the way of passengers getting on and off trains. The ordinance reads as follows:

It shall be unlawful for any agent or porter of any hotel or boarding house, for any owner, agent or driver of any hack or other vehicle, or for any other person at the depot or railroad station in this town to obstruct the way to such station or the platform or sidewalk of such station or car so as to hinder or prevent the free and uninterrupted access to or departure from such station or car, or those attending or receiving them at such station. It shall be unlawful for any person at such station to make any unnecessary loud outcry or clamor, or to solicit custom or employment in a tone louder than a conversational one, or to take hold of any passenger's person, clothing, baggage or property, unless previously requested by such passenger to do so. No such porter, agent, driver or owner of any hack or other vehicle shall go upon any such platform or sidewalk, or beyond the posts erected by the railroad to mark the limit of such persons, for the purpose of soliciting custom or employment, unless authorized to do so by the police officer on duty at such station; nor shall any person loiter or loaf around such depot or station after being warned not to do so by the policeman on duty. Any persons violating the provisions of this ordinance shall on conviction before the Mayor be fined \$5 or be imprisoned ten days.

SHELTERS AND SIGNS.

Town Council Says They Must Come Down.

At its special meeting Monday afternoon the Board of Councilmen unanimously adopted the following ordinance:

It is hereby declared to be a nuisance to erect, maintain or keep a wooden shelter over any sidewalk in the town on Evans street between Second and Fifth streets, or to erect, maintain or keep any sign, post or other obstruction upon or over said sidewalks or streets between said points. Any person violating this ordinance shall upon conviction before the Mayor, be fined \$5 for each day such shelter, sign or post or other obstruction may remain. This section shall not apply to telegraph and telephone poles or tie posts which are located, erected and maintained by permission of the street committee. This ordinance shall take effect and become operative on the 10th day of May, 1899.

Going to Washington

The Osceola Band will go to Washington, May 10th, to attend Memorial Day exercises and will give a concert there that night. They will charter a steamer and expect to take down a crowd from Greenville.

TOWN MATTERS.

Councilmen Making New Laws.

The Town Council held a special meeting Monday afternoon and adopted two new ordinances, one for the purpose of securing order about the depot and the other prohibiting shelters, signs or other obstructions to the sidewalks of Evans street between Second and Fifth streets. Both these ordinances are published in full in this issue of THE REFLECTOR.

The Council granted permission to Strause Bros. to extend their railroad siding across Tenth and Eleventh streets to their factory.

The Mayor was directed to notify all liquor dealers of the town that they must close their places of business at night by the hour required in the new town charter. (11 o'clock.)

The committee was authorized to offer \$22.50 per month for a man to attend to the fire engine horses and to do the street hauling.

TUESDAY, APRIL 25, 1899.

Congressman Baird, of Louisiana died Saturday afternoon in Washington. He had just finished his first term in Congress and had been re-elected to the next Congress.

The dispatches tell that Spain now wants to help the United States. Lieut. Gilmore and the fourteen of the Yorktown's crew who were recently captured by the insurgents, were on an expedition to release some Spanish prisoners held by the rebels, and to show appreciation of this Spain has asked permission for the remaining Spanish troops in the Philippines to join the American forces in finding and releasing the captives, if they are yet alive. However, Spain is treacherous, and if allowed to take a hand in this matter it should be done with a good deal of surveillance.

WASHINGTON LETTER.

From Our Regular Correspondent.

Washington, D.C., April 24, '99 Major Lee, who has been the personal representative of Gen. Miles before the Court of Inquiry, made a speech summing up the evidence taken during the inquiry that any lawyer might have been proud of. He showed that every allegation made by Gen. Miles has been fully sustained by good evidence, but if the Algerites are correct in their outline of the report, which the Court will make in a few days, probably this week, the evidence is to be ignored, Alger and Eagan white-washed, and Gen. Miles and the officers who dared to tell the truth about the beef furnished the army, censured. If that sort of a report is submitted, a wave of indignation is likely to sweep over this country that when compared with that which followed the white washing of Alger by the War Commission, will be as a tornado to a summer zephyr. The people of this country have decided this case on the evidence, and if Mr. McKinley is unwise enough to allow his friendship for Algerism and his dislike for Gen. Miles to cause him to use his official influence to get a report contrary to the evidence, so much the worse for Mr. McKinley. The country has been disposed, through all the dirty mess, to believe in the personal integrity of Mr. McKinley and that he was the victim of his political obligations to Alger, but public opinion cannot be made to stand too great a strain.

The republican managers are trying to get Mr. Hobart to announce that, owing to his health, he will not be a candidate for re-nomination, but he has so far declined to do so, although his health is really in a serious condition.

Boss Platt and some other New York republicans think that "Teddy" Roosevelt would be effectually shelved if made the tail of the McKinley ticket, and Mr. McKinley, who is a little bit afraid of Teddy as a rival for the first place, is said not to be averse to the idea, provided that Hobart, whom he really likes, can be persuaded to voluntarily take himself out of the way.

Politicians have no difficulty in reading the play made by Gov. Stone, of Pennsylvania, when he appointed Quay Senator, immediately following his acquittal by a Philadelphia jury of the charge of conspiracy to rob the state. That appointment was not made with any expectation that the accompanying credentials would ever be used in Washington. Gov. Stone and Mr. Quay both know that the Senate has repeatedly, within the few years, denied the right of a governor to fill a vacancy in the Senate which the legislature of the state has failed to fill, after having had an opportunity to do so. The appointment was made for its moral effect upon the republicans of the Pennsylvania legislature, which is likely to be called in extra session, nominally for other reasons, but in reality solely for the purpose of giving Quay another chance for getting himself re-elected.

Admiral Schley is understood to contemplate asking an investigation of the implied charges and innuendoes made against him by the Sampson clique in the Navy Department. If he does, he will not ask it of the Navy Department, but will go direct to Congress and ask that a thorough investigation be made by a non-partisan committee.

The Hanna McKinley men are already beginning to see that the retirement of Czar Reed doesn't call for as much rejoicing on their part, as they thought it did when it was first made public. It will remove a powerful enemy from the pathway of the administration, but there is danger that the scramble for the Speakership, which has already started, may create a number of smaller enemies who may be able to do more damage to administration plans and politics than one big enemy like Mr. Reed. Boss Hanna is not in any doubt about his success in naming the next Speaker, but he is growing very much afraid of the sore spots that will be left among the disappointed when his choice becomes known. A prominent republican Senator, discussing this matter with a friend said: "I shall miss my guess if Hanna and McKinley do not both bitterly regret the retirement of Reed before the new Speaker has got fairly used to the position." Mr. Payne, of New York, notwithstanding that Mr. Sherman, of the same state was to be the Eastern candidate for Speaker, has shied his castor in the ring and declared himself a candidate. There will be lots of fun, and possibly some good political capital for the democrats in the coming fight over the Speakership.

Owing to a call of the German Ambassador at the State Department, Capt. Coghlan, of the Raleigh has received a strong official hint not to repeat the story he told at a New York banquet about the way in which Admiral Dewey humbled the German Naval Commander in Manila Bay, last year, when the Germans tried to get a little up-pish. It is denied that the German Ambassador made any complaint about Capt. Coghlan's story, but of course, everybody knows that it is a part of diplomacy to deny anything and everything whenever it is deemed policy to do so.

Factories Help The Farmers. Apprehension has been expressed that growing manufacturing interests will tend to the disadvantage of the farming interests of the South. Observation of facts do not prove such to be the case, but show a contrary result. The population engaged in manufactures become customers of farmers for their crops of food stuffs. These markets for perishable products become of great advantage to farmers and the improvement in farming interests are readily noticeable in the vicinity of manufacturing towns. Of course more work is required but the work of raising fruits, vegetables, chickens, eggs, milk and butter and taking these to the factory villages where markets are found is not by any means disagreeable work. This can all usually be done by a thrifty farmer without materially interfering with the production of the usual cotton crop. It would seem as if manufactures benefit the neighboring farmers in about as large proportion as they do those owning stock in them or engaged in operating them.—Charlotte Observer.

Mr. W. M. Wilson is well known to many of our readers. He has undergone a strange experience lately. About ten months ago he accidentally struck his head against a post. He was looking in another direction from the post when he ran against it, consequently the shock was great, although at the time no serious injury resulted. A few weeks after the accident his hair, beard, eyebrows and eyelashes began to drop out. This continued until he was as bald as an orange.

A little later on his hair began to grow on his head and instead of the natural color it was white, not gray, but white as cotton. In the same manner his beard, eyebrows and lashes were white. He remained this way until a week or so ago, ten months after he received the shock, when his hair began to assume its natural color, a dark brown, and in a month or so Mr. Wilson will, in all probability, be the same as his friends knew him a year ago.

Of course the white hair changed Mr. Wilson's appearance. Very few people recognized him here, where he was well known. One time he went into the bank here and it was with great difficulty that he made the cashier identify him. If he had wanted to get money out of the bank instead of making a deposit he could not have done so.—High Point Enterprise.

TETTER ON THE HANDS.

For several years I was a sufferer from tetter on my hands. It would come in little watery pimples and the itching was almost more than I could stand. The skin was tender and the itching would swell so I could hardly bend my fingers. Sometimes my hands would become perfectly raw from scratching or breaking of the pimples. When I was in this condition I tried one half dozen bottles of Mrs. Joe Person's Remedy and some Wash in 1884, and by the time I took it my hands were cured, and I am now well of the trouble. It has since broken out a little at times, but not enough to inconvenience me or make me try more medicine. I am now well. MRS. M. E. KING. Burlington, N. C., May 27, 1896.

BE CURED OF GRIP!

The Wonderful Results Obtained in the Case of Supt. Davidson.

Now, what is the grip? Can it be avoided or prevented? And can it be cured? Grip is characterized by a continued fever, by a tendency to inflammation of the membranes of the digestive and often the respiratory tracts, by pain in the muscles, and by debility. The grip in individual cases varies from a slight indisposition to severe forms with grave symptoms—these variations depending wholly upon the health, age, temperament or nervous condition of the person. Those predisposed to rheumatism suffer great pain in the muscles; persons of nervous temperament become low spirited, often have hysteria, and, if not closely watched, have been known to commit suicide. Several cases of this sort have been reported this month in the newspapers. Headache is a constant symptom. The bowels are generally constipated. Whatever form the disease takes there is invariably extreme prostration. The danger to persons in previous healthful condition is slight. It has been absolutely proven that there is one certain preventive of serious cases of grip; and that there is one remedy for persons suffering with it, or beginning to be convalescent from its attack. The unexampled public demand for Paine's celery compound during the last two months—and the pro-

prietors of this remedy have never known so great a call for it—has been due to its use by thousands of people for whom it has been prescribed by intelligent physicians, to restore the patient's vitality, to purify the blood of the enervating poison, to restore the nervous system to healthy action and to strengthen the vital organs. A person will continue to suffer from the evil effects of grip for many months unless he attacks the disease by getting rid of the unnatural unhealthy poisons in the system supplying the body with new blood, arousing the healthful action of the kidneys, liver and digestive organs, and nourishing and rebuilding the over-exerted and debilitated nervous system. All this and just this Paine's celery compound will do. In the multitude of cases where it has been used, it has never failed. A case well known in Chicago is cited. Mr. Frank E. Davidson, who is one of the most brilliant and best known engineers in the world, had just finished the plans for the great intercepting sewer system of Chicago, which is to divert the entire sewerage of the city from Lake Michigan, through the famous Chicago drainage canal, and down the Mississippi. Superintendent Davidson had worked for months on this scheme. He was well nigh exhausted and took to his bed with an attack of the grip. After a

while the disease not having left him, he was advised to try Paine's celery compound. He was soon back at his office in the department of public works, a well man, and forthwith wrote a letter to the proprietors of the remedy, in which he says: "I had been told by friends of the wonderful results obtained by them from the use of Paine's celery compound. After my severe attack of the grip I determined to try it. I have already found that my friends' reports were not at all exaggerated, and I wish to join most cheerfully with them in recommending the remedy to others." Hundreds of grateful letters have been written to the proprietors of Paine's celery compound since the appearance of grip this year, telling of the perfect recoveries it has effected. The letters come from men and women of many conditions. Few persons are so poor they cannot afford to have this great remedy constantly in the house, and none are so prosperous that for their health's sake they can afford to be without it. When so many men and women whose words carry the utmost weight in the communities in which they live testify as they do to the great benefit they have received from Paine's celery compound, there can be no hesitancy in trying it. A single trial is the test which is confidently invited.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants. By a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

The above figures tell a remarkable story; they represent almost exactly the percentage of cures made by

RHEUMACIDE

the wonderful new constitutional cure for RHEUMATISM. The other two per cent. were not curable, or failed to take medicine according to directions. Thousands have been cured. In view of the fact that many physicians think that rheumatism is incurable, and that most remedies fail, it must be true that RHEUMACIDE is the greatest medical discovery of the age.
