An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

The above figures tell a remarkable story; they represent almost exactly the per centage of cures made by
RHEUMACIDE
the wonderful new constitutional cure for RHEUMATISM. The other two per cent. were not curable, or failed to take medicine according to directions. Thousands have been cured. In view of the fact that many physicians think that rheumatism is incurable, and that most remedies fail, it must be true that RHEUMACIDE is the greatest medical discovery of the age. Particulars and testimonials of many well known people sent free to all applicants.

Bethel Odd Fellows.

The celebration of the 80th anniversary of Odd Fellowship at Bethel Wednesday, April 26th. was largely attended and much enjoyed by all. Bethel lodge and members from Parmele, Robersonville and Greenville lodges met at the lodge room and marched to the Methodist church where the anniversary ceremonies took place. At the conclusion of the ceremonies Gov. T. J. Jarvis was introduced by Mr. A. Ward and a very fine address was delivered. The audience was dismissed and repaired to the grove adjoining the church where the largest dinner we ever saw was prepared and everybody invited to partake. We partook and when full were asked to "have some more won't you." We had to decline for we were too full for utterance. The good people of Bethel know how to treat their guests, for everything was done that could be done to make every one enjoy themselves. Sol Jones said that the Greenville folks did not know how to eat. He had three barbecued hogs left. We don't know, Sol, whether they can eat or not, but we got mighty nervous about some of our South Greenville boys.

Sharpers on the Road.

Charlotte, N. C., April 25.—Secretary John W. Miller, of the State Banker's Association, has received notice of several swindlers operating in this State and warns the public against them.

One calling himself W. T. Magee, of Danville, Va., sold goods to farmers in Person county and took notes. He sold the notes to a bank and has not been heard from since.

In Alamance county one R. C. Adams, claiming to be from Virginia, rented houses to settle, bought \$100 worth of furniture and tendered a \$135 check on a Staunton, Va., bank in payment. The check turned out to be bogus. They have disappeared.

Rev. Mr. Vann Hurt.

Rev. R. T. Vann happened to a painful accident last Sunday night. When about to retire he blew out the hall lamp and turned to go into his room, when he fell over a sofa that had been placed in the hall during his absence the week before. He had not been accustomed to see the sofa there and forgot it for the moment and fell over it. His face was scratched some and one eye badly blackened by the fall. The hurt was so painful it made him sick almost all night.—Scotland Neck Commonwealth.

Town Charter.

Since the bill was introduced in the last Legislature to amend the charter of the town of Greenville, THE REFLECTOR has made several efforts to get a copy of it. We have at last succeeded and today begin giving it to our readers, knowing there are many who will be interested in it.

A bill is to be introduced in the next Congress authorizing the issue of silver certificates of the denomination of 10, 25 and 50 cents. It is urged that such fractional currency would be useful for the transmission of small sums through the mails. There is no doubt that such currency would be convenient for a large number of people.

His Conversion Paid Well.

Judge Ewart established a precedent in the Federal court at Statesville Tuesday that will have a tendency to swell the ministerial ranks in the mountains. A man from Wilkes was convicted of selling liquor without license, and his lawyer, Marsh Mott, in pleading for mercy, set up in extenuation of the crime, that his client had within the last two years joined the church and is now a preacher, and preaches every Sunday. Judge Ewart, who is the biggest hearted man we ever saw on the bench, thought such a radical reformation should be rewarded, and rightly, we think, let the man off with the costs.—Newton Enterprise.

The Fun Makers.

The Fun Makers Company, which gave three regular performances and a matinee here last week is rightly named. They gave our people several hours of downright fun and laughter, in which was also some real good acting. Nothing offensive or approaching the vulgar was seen while the company was here, the deportment of the actors on and off the stage being excellent.—Lumberton Robesonian, April 26th.

The Fun Makers, above referred to, will appear at the opera house Monday night and balance of week. Change of play nightly. Matinee Saturday 3 P. M. Popular prices, 10, 20 and 30 cents.

Blood Hounds.

THE REFLECTOR has many times in the past suggested that this county, and every county as to that, ought to possess some blood hounds. The crime committed at Dongola Wednesday morning shows the need of them, and the County Commissioners could wisely take steps to supply this need. We hope they will do so at their next meeting.

Man and Wife Both Drop Dead.

We hear that on Wednesday afternoon near Kilquick, in Edgecombe county, a woman went out to the well to draw a bucket of water and fell dead by the well. A messenger was sent for her husband, who was away from home at the time. He got in his buggy and started home, but fell dead before reaching there. We could not learn the names.

Scrap.

Frank Forbes and Will Randolph, both colored, had a scrap this afternoon, and one of them came off with a knife slit across one ear and cheek and a cut from a beer bottle on his head.

The future of a business that has been established and built up by advertising depends on the judicious continuance of that advertising. Just because a man has made a success, made his name and goods famous from Maine to California, he should not try to economize on his advertising appropriation or discontinue it altogether, believing that thereafter the article will command a trade without the use of printer's ink. It has been tried time and time again, and doesn't work that way.—The Advertising Man.

Sec. 6. That the first election to be held under this act for Aldermen shall take place on the first Monday in June, 1899, and that the persons now composing the present board of Councilmen shall continue in office until the persons chosen at said election be qualified, and the said Board of Councilmen shall be clothed with all the powers and authority herein given to

TETTER ON THE HANDS.

For several years I was a sufferer from tetter on my hands. It would come in little watery pimples and the itching was almost more than I could stand. The skin was tender and the itching would swell so I could hardly bend my fingers. Sometimes my hands would become perfectly raw from scratching or breaking of the pimples. When I was in this condition I tried one half dozen bottles of Mrs. Joe Person's Remedy and some Wash in 1884, and by the time I took it my hands were cured, and I am now well of the trouble. It has since broken out a little at times, but not enough to inconvenience me or make me try more medicine. I am now well. MRS. M. E. KING. Burlington, N. C., May 27, 1896.

A Folding Pilothouse.

The steamer Falls City, which runs on the Ohio river, has a pilothouse which folds together like an accordion. It reminds one of the old stump speech which predicts the day of "coffeepots that shut up like jackknives."

The boat was named for the city of Louisville. The pilothouse was built in layers, in such a manner that it can be removed in a jiffy and put back without trouble, and all the time remain stable. The pilot pulls out a staple here and a small iron rod there, and first thing he knows the whole structure collapses like a dress hat or a barrel with one stave out and the hoops loose.

It is well that this is so, for whenever they call out "Low bridge!" on the Kentucky or Ohio river it means that the smokestacks must be unjointed and let down to a horizontal position, and as in the case of the Falls City, the pilothouse folded up.

This latter trick came in very handy a few days ago at the Warthville bridge on the Kentucky river. There was a cry of "Low bridge!" and the boat was put in readiness to go under. Pilot Pat Laitch was compelled to duck his head, but even at that the topmost handle of his wheel missed the bottom girder of the bridge only about two inches.

A New Orange.

The Washington correspondent of the Chicago Record says: "An orange tree that will grow and bear fruit as far north as St. Louis and Philadelphia is promised by the officials of the agricultural department. The destruction of orange crops and groves in recent years through frosts in northern Florida directed the attention of Secretary Wilson to a search for some measure of relief for the owners who have been suffering financial loss. He has been superintending the crossing of the Florida orange and the Japanese trifoliata, a hardy variety of fruit and now has several thousand of the hybrid plants, which will be set out during the present spring. The experts believe that the new orange will survive frost and a moderate amount of cold and are confident that the experiment will result in producing trees in which the excellence of the Florida orange will be combined with the hardiness of the Japanese plant. If the experiment succeeds, the department will materially assist in re-planting the orange industry, not only in Florida, but in other southern states, and will at the same time assure the orange eaters of an unending supply."

The Next Senate.

The Republicans will have a total membership in the senate of the Fifty-sixth congress of 51, exclusive of a senator from Pennsylvania, and not counting Stewart, Jones and Kyle, who will vote with the Republicans on all questions except silver. The total opposition will number 35, which, with the vacant seats of states having made no choice, make up the total of the 90 members of the upper chamber. This gives a Republican majority of 16 over all, counting Stewart, Jones and Kyle in the opposition, and 22 when included in the Republican column.

In Nebraska a Republican succeeds a Populist; in Montana a Democrat succeeds a Silver Republican, and in Maryland, Wisconsin, New York, North Dakota, New Jersey, West Virginia and Indiana Democrats go out and Republicans take their seats.—Washington Post.

Tolstoi's Vanity.

Professor Lombroso, the great Italian "physiocriminologist," while visiting Russia recently, met Tolstoi, and this is what he says of that eminent writer: "As I entered the room I saw him sitting at his writing table in old, patched clothes. I am an admirer of Tolstoi, but I believe he is ill. I received the impression that he is very vain. You have only to look at the shoes he has on his feet. The leather was everywhere torn and in holes, all done artificially in order that he might have an opportunity of mending them in his skillful way."—Philadelphia Saturday Evening Post.

A Long Pneumatic Tube.

A pneumatic tube to transmit mail between New York and Philadelphia is under serious consideration, and the project will probably be introduced in the next congress. A pressure of eight pounds to a 12 inch tube would give a speed of 35 miles an hour and 200 pounds of pressure a speed of 150 miles an hour. Each carrier, 34 inches long and 11 inches wide, would convey 100 pounds, and, dispatched at intervals of ten seconds, giving a carrying capacity of 432 tons daily. At present a letter mailed in one of these cities for the other is seldom delivered on the day it is posted.

Careful estimates show that each year there are interred within the limits of the city of London about 130,000 human bodies.

Nelson and the Spaniards.

There is an amusing anecdote about that gruff sea dog, Nelson. Two Spanish captains came on board, with a request to be allowed to see "the greatest seaman in the world." Nelson grumbled, but gave in and went on deck, forgetting that "at that moment his legs were bound up at the knees and ankles with pieces of brown paper soaked in vinegar and tied on with red tape."

This had been done to allay the irritation arising from mosquito bites. Quite forgetting his name and the extraordinary appearance which it presented, Lord Nelson went on deck and conducted the interview with the Spanish captains with such perfect courtesy that his singular appearance was quite obliterated by the charm of his manner, and the Spaniards left the ship with their high opinion of him thoroughly confirmed.

The Observing Youngsters.

Mildmay has never been in the habit of punishing his children, leaving that disagreeable duty to his wife, but the other day one of his numerous progeny became very unruly, and he was obliged to say:

"Flora, if you don't keep quiet I shall have to whip you."

"Pooh!" retorted the little 8-year-old, with a contemptuous toss of her dainty head, "you isn't the mother."

English Royal Marriages.

The English royal marriage act is one of the time honored absurdities which survive in spite of common sense and enlightened public opinion. By it the matrimonial choice of the English princes is practically restricted to the swarms of "the German hive" and the proverbially handsome English women are forbidden. The law was first enacted in 1772 at the persistent command of George III, as "being thereunto incited," first, by the marriage in 1776 of his brother, the Duke of Gloucester, to the Countess Waldegrave (Maria Walpole), and second, by the taking to wife by a young brother, the Duke of Cumberland, in 1771, of the widow of Colonel Christopher Berton.

The first provision of the act forbids to the descendants of George II matrimony without the consent of the crown under the great seal, and the second provision being made to cover the marriage of princesses abroad. The great provision has been the especial object of raillery. It empowers the king, above the age of 25, and the queen, the crown, and the royal council.
