WINE OF CARDUI

For Mothers!

The discomforts and dangers of child-birth can be almost entirely avoided. Wine of Cardui relieves expectant mothers. It gives tone to the genital organs, and puts them in condition to do their work perfectly. That makes pregnancy less painful, shortens labor and hastens recovery after child-birth. It helps a woman bear strong healthy children.

McElree's Wine of Cardui

has also brought happiness to thousands of homes barren for years. A few doses often brings joy to loving hearts that long for a darling baby. No woman should neglect to try it for this trouble. It cures nine cases out of ten. All druggists sell Wine of Cardui. \$1.00 per bottle.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

Mrs. LOUISA HALE, of Jefferson, Ga., says: "When I first took Wine of Cardui we had been married three years, but could not have any children. Nine months later I had a fine girl baby."

Ignorance In Tax Paying.

Does the average tax paying citizen, when he is called upon to pay his municipal, county and State taxes, really understand what he is paying taxes upon, and does he know the details and items of the several amounts charged against him.

This may seem an absurd question, yet if the inquiry is made to the tax payer in a year when his taxes are increased, he will find it difficult to tell whether the increase is on account of local affairs or on account of national affairs.

On this line an exchange says: "One of our best citizens came in the office last night after having read the paper at home and was very much disturbed at reading that a tax had been imposed on his business and that he must pay the same this month. 'I'll tell you,' he declared, 'its all on account of this Philippine war. Here we are sending out there killing up those people and taxing our own people to do it.'"

And as the exchange further says, this citizen, "could not understand the tax when he was told that he contributed nothing toward the maintenance of the war unless he used whisky or tobacco besides the war tax on checks, telegrams and papers of that character."

The fact is that the tax payer really pays too little attention to the matters which control and govern the amount of his taxes which he is called upon to pay and only when the day of final settlement comes, when he must pay or get into trouble, then is the protest entered when it is too late, and all in vain.

The time to apply the remedy commences with putting city, county and State affairs in the hands of business men and not politicians, and the protest against taxes should be instituted before the expenses are incurred which compel the collection of the tax.

As long as citizens and tax payers remain indifferent to those selected to control public affairs, there should be no protest made when tax paying time comes.

When the management of public affairs becomes more practical, more business like, and less given into the hands of the politicians, then will there be fewer complaints made by tax payers, and more results made visible to the tax payers, from the tax he pays, and some satisfaction in paying taxes which show results.—New Berne Journal.

Not a Good Picture.

Literature of the approaching meeting of the Teachers Assembly at Morehead is being broadly distributed over the State. One page of a pamphlet sent out contains what purports to be a photograph of our townsman, Prof. W. H. Ragsdale, who is President of the Assembly. To those who don't know him the photograph may pass as all right, but those who do know him well can see at a glance how his good looks are spoiled in that picture. All the same, the Professor will make the best presiding officer the Assembly has ever had, as those who attend the coming meeting will find out.

WINTERVILLE DEPARTMENT.

NEWS/HAPPENINGS AND BUSINESS NOTES.

WINTERVILLE, May 17, '99.

Fonnie Highsmith, of Mt. Olive, is here visiting relatives.

There is some talk of our having stock law in town.

A. D. Cox is building some new stables also building a shed to his house.

A. G. Cox is shipping Strause Bros. about twenty thousand brick per day. Those wishing to purchase are invited to examine them.

Barnes Summerell and wife, of Ayden, came on the train yesterday morning, and are visiting Mrs. Summerell's parents here.

Claud Chapman, from near Vanceboro, was up here yesterday giving orders for tobacco flues. He thinks to sell about a hundred sets.

G. W. Parker is away but the fence business is here to stay. Why? Because people keep coming after fence. Send on your orders.

Don't forget your kitchen and dining room. B. F. Manning & Co. have not done so, but have just received a nice line of crockery ware as well as stoves.

Winterville Cigar Co. might puff its cigars till dooms day, and it would do no good, what we want is to get the smokers to puffing them.

The bird flew Through the flue; But in flying through, It lost some of its flue.

Guess the above is rather more flue than some of you knew, or at least are used to; but before you get through, try our Tobacco Flue, and see how that will do.

WEDNESDAY, MAY 17, 1899

Is not that National Peace Jubilee the government has set to be held in Washington, the latter part of this month, a misnomer or a burlesque? We fail to see where the peace comes in when thousands of our soldiers are still fighting in the Philippines and Cuba is just on the verge of a revolt against the authority of the United States in that Island. Peace (!) Jubilee! It is enough to make a body smile.

The Merchant Who Knows How to Advertise.

These are times of enterprise, of intense rivalries and of contentions among men. It would, therefore, be surprising if in the business world, where firm resolution and decisive action are essential, the merchant should not be constantly on the alert to adopt the best methods for the advancement of his affairs. It has been finely said that "emulation is a handsome passion; it is enterprising, but just withal." And it may be said in this connection that the tradesman who should not endeavor to emulate and also to surpass competitors whose systems of business are progressive and profitable would find himself in the rear. The methods of the keen and intelligent merchant are worthy of emulation; for he knows how to sell his goods because he knows how to advertise them.—Philadelphia Record.

Much Needed in North Carolina.

The reorganization committee of the North Carolina Agricultural and Mechanical College has determined to establish a textile department in the institution, and it is announced that there are bright prospects for the establishment of a thoroughly modern textile school in connection with the college. In arranging for such a department as a feature of the department of civil engineering, the authorities of the college are doing much to make certain the founding of a school which is much needed in North Carolina, and which, it is recognized, will do much toward increasing the efficiency of that State as a cotton manufacturer. The friends of the movement have apparently not been discouraged by the failure of the legislature to make the desired appropriation for it, and it is hoped that by the next meeting of the lawmakers such a beginning shall have been made as to make it imperative upon them to give it State support.—Manufacturers' Record.

A French birdologist says if all the insect eating birds were removed from the earth it wouldn't take the bugs, &c., more than nine years to eat up everything green on the face of it.

Take Interest in Matters.

We want every tax paying voter in Greenville to read the article on another page headed "Ignorance in Tax Paying." People are often heard complaining about the taxes they have to pay, while they show no interest whatever in who is selected to conduct the government of the town and to levy the taxes. An election will be held in Greenville on the first Monday in June to select a Board of Aldermen who will have control of the town and levy the taxes that you have to pay. Now the time to show your interest is in the selection of the right men for Aldermen when your ward nominating conventions are held, and not wait until after the men are in office and then complain when something is not to your liking.

After Alexander Dumas' death, which occurred about two years ago, papers were found in his possession which established the fact that the beautiful story of "Camille," or "the fate of a coquette," was the romance of his own life, he being the original Armand. Camille, who in life was known as Marie Duplessis died at the age of 22. Dumas was said to visit the cemetery, La Chaise, one day in the year called "the day of the dead" and plant white Camellias, her favorite flower, on her grave.

Could Apply the Parable.

It is not always safe to talk in parables to the young, as the following school board story shows: A correspondent states that one of his pupils caused him some annoyance by uncoothness of speech, dirty boots, and so on, says our correspondent: "I drew a verbal portrait for the class of the man who did not shine in the world of polite society. 'You cannot fail to know him,' said I, 'for he never cleans his boots nor washes before meals. He speaks and drinks when his mouth is full and generally uses his knife in place of his fork.'"

"Gradually the lad whom this story was designed to profit showed an awakening interest and put out his hand to speak. In reply to my query, 'Well?' 'I know him,' said he. 'He's our lodger!'" —London Chronicle.

Treating Lockjaw.

Recently a young man in New Jersey was treated successfully for tetanus by the injection of serum into the brain. That is not the method of treating lockjaw out in Missouri. Several years ago a citizen of Liberty, Mo., was suffering from tetanus. Local physicians failed to relieve him, and Dr. Wood of Kansas City, a gruff old gentleman, was called. Arriving at the home of the patient he found the room full of sympathizing neighbors. The physician proceeded toward the sick man and remarked, "Why in don't you shut your mouth?" at the same time giving him a severe "chuck" under the chin. The effect of the blow caused the mouth to close, and the man soon recovered.—Chicago Post.

IT CAN'T BE DONE.

NO ONE CAN REMAIN WELL, NO CHRONIC DISEASE CAN BE CURED UNLESS THE STOMACH IS FIRST MADE STRONG AND VIGOROUS.

This is plain because every organ in the body depends on the stomach for its nourishment. Nerve, bone, sinew, blood are made from the food which the stomach converts to our use.

How useless to treat disease with this, that and the other remedy and neglect the most important of all, the stomach.

The earliest symptoms of indigestion are sour risings, bad taste in the mouth, gas in stomach and bowels, palpitation, all-gone feeling, faintness, headaches, constipation; later comes loss of flesh, consumption, liver and heart troubles, kidney diseases, nervous prostration, all of which are the indirect result of poor nutrition.

Any person suffering from indigestion should make it a practice to take after each meal one of Stuart's Dyspepsia Tablets, allowing it to dissolve in the mouth and thus mingle with the saliva and enter the stomach in the most natural way. These Tablets are highly recommended by Dr. Jennison because they are composed of the natural digestive acids and fruit essences which assist the stomach in digesting all wholesome food before it has time to ferment and sour.

Stuart's Dyspepsia Tablets are sold by druggists, full sized packages at 50 cents. They are also excellent for invalids and children. A book on stomach diseases and thousands of testimonials of genuine cures sent free by addressing F. A. Stuart Co., Marshall, Mich.

98.

The above figures tell a remarkable story; they represent almost exactly the per centage of cures made by

RHEUMACIDE

the wonderful new constitutional cure for RHEUMATISM. The other two per cent. were not curable, or failed to take medicine according to directions. Thousands have been cured. In view of the fact that many physicians think that rheumatism is incurable, and that most remedies fail, it must be true that RHEUMACIDE is the greatest medical discovery of the age. Particulars and testimonials of many well known people sent free to all applicants.

TETTER ON THE HANDS.

For several years I was a sufferer from tetter on my hands. It would come in little watery pimples and the itching was almost more than I could stand. The skin was tender and the itching would swell so I could hardly bend my fingers. Sometimes my hands would become perfectly raw from scratching or breaking of the pimples. When I was in this condition I tried one half dozen bottles of Mrs. Joe Person's Remedy and some Wash in 1884, and by the time I took it my hands were cured, and I am now well of the trouble. It has since broken out a little at times, but not enough to inconvenience me or make me try more medicine. I am now well. MRS. M. E. KING.

WIN A STOVE!

There is an exhibition at our store a full nickel plated

BUCK'S JUNIOR RANGE

Every little girl wants it, and one little girl shall have it. On the 15th of July we will present it to the little girl under fourteen years of age, who cuts out the greatest number of Buck's Trade Marks in the advertisement below and brings them to our store. They must be done up in neat packages and the number and name written plainly on each package. Now girls get your friends to help you, save every Trade Mark and see who can win the prize.

CUT THIS OUT.

Buck's Trade Mark.

HIGGS & TAFT.

The purpose of this contest is to make this Trade Mark known in every household so that it may never be forgotten. It will be printed in all our advertisements. It is prominently displayed upon every one of Buck's Stoves and Ranges and carries with it the broadest guarantee of excellence. No stove can possibly be made which is better than any one of The Great White Enamel Line. We sell them in preference to all others, and carry a full line of all kinds and sizes. Ask to see Buck's Stoves and Ranges.

The audience was again pleased last night with the performance of the Emma Warren Company. The acting of the company is very clever. Tonight they will give "Michael Strogoff," a six act Russian drama that is full of interest.

Higgs & Taft are going to present a handsome Junior Buck Range to the little girl who cuts the most of the Buck trade mark out of their advertisement. See what it says, girls, and go to work for the prize. You can ask your parents and friends to give you their copies of THE REFLECTOR, or you can buy extra copies of the paper, and all the Buck trade marks you get will count.

Seven Springs.

An advertisement of this popular health resort appears in THE REFLECTOR today. People of this section are partial to Seven Springs, for they know of the excellence of those health giving waters. Proprietor G. F. Smith has made many improvements about the hotel and surroundings. Water works have been put in and additions have been made to the buildings. There is pleasure as well as health at Seven Springs, and all who go to this resort are benefitted.
