### An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP Co. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package. CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. the wonderful new constitutional cure for RHEUMATISM. The other two per cent. were not curable, or failed to take medicine according to directions. Thousands have been cured. In view of the fact that many physicians think that rheumatism is incurable, and that most remedies fail, it must be true that RHEUMACIDE is the greatest medical discovery of the age. ### BEAT HIS WIFE

#### And Got in Jail—Two Damsels Scrap.

John Whitfield, of color, was before Mayor Forbes this morning on the charge of beating his wife. After looking into the case the Mayor told John he might make a contribution of \$10 and costs to help along the finances of the town. But the wife beater's tribulations did not end here. He had no sooner got out of the Mayor's court than Justice of the Peace W. H. Long had him under a peace warrant. As a result of the latter's court John was asked to give a bond to keep the peace. And right there was where John caught it. His friends, if he had any, were not in evidence when signing time came, and through failure to give the required bond he had to take quarters in Sheriff Mooring's hotel.

Two colored damsels, Addie Telfair and Hettie Nobles, were also before Mayor Forbes this morning for having a fracas and hair pulling between themselves. It seems that one of them was most in fault and she was allowed to pay the costs for both.

### OVER THE COUNTRY.

The personal effects of the late Magician Hermann were disposed of at a three days' sale in New York for about \$45,000.

The aggregate assessed valuation of all railroad property in Kansas \$59,022,280, an increase of \$94,189 over last year.

The body of Mrs. Martha White, who lived alone in the woods near Webster Centre, Mass., was found in her little hut, and marks on the head indicate foul play.

On the ground that he acted in self-defense, a Coroner's jury exonerated David F. Faeld, of St. Louis, Mo., who last Thursday shot and killed his negro servant.

While Harrison MacMahon and son, Jerome, were crossing railroad tracks near Kenton, O., a train struck their carriage, killing the father and fatally injuring the boy.

George Murphy, who carried a grip containing \$1,000 in silver was arrested at Louisville as the man who a week ago robbed the Adams Express Company's office at Greensburg, Ky.

### Liberal Payers.

Some people talk about newspapers receiving complimentary tickets to shows, entertainments, etc. The people are certainly not posted. The newspapers pay more for tickets than any other class of people, and there is absolutely no such thing as a complimentary ticket ever given a printing office. Pay cash for your advertising and the paper could buy the tickets and have money left. If the merchant should give a dollar's worth of sugar for a fifty cent ticket to a show, you would call him a fool. The newspaper columns are just as valuable to the editor as the sugar is to the merchant. See.—Durham Sun.

In politics a man who accepts a call to serve his country with resignation rarely renounces it in the same way.

### MARRIAGE AT WASHINGTON

Washington, N. C., May 23.—At noon today Hon. W. E. Fountain, of Tarboro, and Mrs. Mary Bryan, of Tarboro, were happily married at the home of Mr. and Mrs. C. B. McKeel in this city. The marriage was very quiet, only the immediate members of the family being present. The bride is a sister of Mrs. McKeel. The ceremony was performed by the Rt. Rev. Nathaniel Harding, of St. Peter's Episcopal church. The ring used in the ceremony was a magnificent cluster of diamonds, the groom's gift to the bride. The bride was given away by her brother-in-law, Mr. McKeel.

### Information From Advertisements.

Advertising has become so firmly established as a regular and important feature of the home newspaper that the domestic economy of the household would be sadly disarranged if the usual interesting and needed business announcements should cease to be published. The advertisements save time and worry. They supply information of the sort which leads to purchases, and which consequently makes advertising pay.—Philadelphia Record.

### Nothing But Cats.

Sunday night about 10 o'clock, it was thought that some one was on the inside of the Mallory Cheroot factory, on Parrish street, as suspicious sounds had been heard. The matter was reported to E. C. Hackney, who fired a gun to attract attention of the Police. Officers Cagle and Cutts and a considerable crowd gathered, and a search was instituted in the factory. Nothing but two Thomas cats were found.—Durham Sun.

### Another Relection on Pitt.

The two negroes brought here Friday from Pitt county, charged with the murder of Tompage and the burning of his store, as noted in yesterday's Post, were in a very filthy condition. Yesterday they were forced to take a bath and clothe themselves in clean and new suits.—Raleigh Post.

### John Thompson.

John Thompson, the comedian, arrived this morning and will entertain you at the opera house tonight. He has been here before and several of our citizens remember him. He will make you laugh. So you now have a chance to laugh and grow fat.

TUESDAY, MAY 23, 1899.

Wonder how it would strike the Peace Jubileites now gathered in Washington City if a cable message should arrive telling of a big insurgent victory in the Philippines. Such a message is very improbable, but there is no peace yet.

We did not know before that Charlotte ever failed on anything undertaken in that enterprising city, but we see from the News that the company organized there to build a large opera house has formally disbanded. Somehow that does not read like a Charlotte item.

Pickpockets do not seem to be particularly choice in these days about the company they get in to carry on their work. It used to be that they were heard from most at Presidential inaugurations and great political gatherings, but now at most any kind of large assembly of people or even on crowded trains the slick fingered gentry ply their trade. They touched quite a number of visitors to the recent Confederate reunion at Charlotte, and many delegates to the German Baptist Association at Roanoke, Va. have fallen victims to the pickpockets and been relieved of pocket books.

A lot of Boston women are going to hold a convention soon to protest against lynching in the South. Now won't they fix things? They would be more womanly if they were to protest against the horrible crimes committed against their own sex and which have been the cause of most of the lynchings in the South. The idea of a lot of women, most of them without homes or children, calling such a convention. Bosh! Every decent person deplors lynchings. But every decent person deplors, still more, the causes which bring them about.—Winston Sentinel.

**Educate Your Bowels With Cascarets.**  
Candy Cathartic, cure constipation forever. 10c, 25c. If C. C. C. fail, druggists refund money.

The receipts of cotton at Houston, Texas, since the first of September, 1898, passed the point of 2,500,000 bales Friday last. This is a wonderful record, and places Houston ahead of either Galveston or New Orleans as a cotton receiving and distributing point. Ten years ago the receipts of cotton at Houston did not exceed a half million bales a year.

## WASHINGTON LETTER.

From Our Regular Correspondent.  
Washington, D. C., May 22, '99  
Washington is decked out in Inauguration togger for the three day Peace Jubilee, which begins tomorrow, and the additional beauty given by nature furnishes another argument in favor of changing Inauguration day from March to about this season of the year, when Washington is at its best, both for looks and for the comfort of visitors.

Mr. McKinley is finding the hot water in which he has been ever since he has got back to Washington much more uncomfortable than that in which he bathed at the hot springs. The mess in Cuba, where the Cuban army is almost on the verge of open revolt, is not conductive to his peace of mind; but it is no more than might have been expected from the policy that he has allowed Alger to attempt to carry out over there. Some go as far as to charge that Alger is trying to drive the Cuban army into revolting for purposes of his own, although it is difficult to imagine what purposes he could have that would be served by such a misfortune as that would necessarily prove to be.

When Mr. McKinley went away he expressed the opinion that Aguinaldo would surrender and peace be established in the Philippines before his return, but he found things very much as they were when he left Washington. Aguinaldo is still trying to negotiate and is still being refused by Gen. Otis.

Friends of the several candidates for Speaker are trying to force Mr. McKinley to declare himself and there is a sort of understanding that in order to square himself in both the East and West, he has said that either Sherman or Henderson would be perfectly acceptable to him. This understanding has resulted in the formation of a combine of Henderson and Sherman supporters for the purpose of shutting out all other candidates, but that is not satisfactory to the other candidates. Payne is in Washington kicking hard against being left out in the cold, and declaring that he intends to remain in the field until the last, regardless of orders from Boss Platte, Mr. McKinley or anybody else. The friends of Hopkins also declare that he will not allow himself to be froze out. It is all very well for these gentlemen to talk, but the question is how can they help themselves; as soon as it becomes generally known that neither is wanted by the administration, neither will have any supporters left.

The most amusing feature of the Speakership campaign is the frantic efforts of what may be slangily called the "Reed push," to retain their grip upon the plums in the House organization. Their latest was an appeal to the ex-Czar to defer his resignation until after he is elected Speaker and has named the committees. Whatever else he may be, Mr. Reed is not a fool. He knows that at best his election to be speaker again would have been doubtful—not a few believe that to have been his real reason for retiring, and that neither he nor any other man would stand a ghost of a show to be elected Speaker when it would be known that his only object was to put the organization of the Committees into the hands of his friends and then get out.

Although everybody knew that Senator Kean, of New Jersey, was a railroad and corporation lawyer, and therefore naturally inclined to favor trusts of all sorts, he surprised many by publicly declaring, while he was in Washington a day or

two ago, that the people of New Jersey would not support any party that condemned trusts, because the trusts organized under state laws paid so much money into their Treasury. Surely it is time to do some hard thinking when a Senator publicly states his belief that his state has been bought by the trusts—to be exact, Mr. Kean's words were: "The annual revenue from the tax on the capital of all corporations created under our laws now amounts to between \$800,000 and \$900,000. You can readily see that the people who benefit from this influx of wealth are not apt to be antagonistic to the corporations that contribute it."

According to current gossip, Secretary Alger is ungrateful along with his numerous other faults. He has announced himself a candidate for Senator McMillan's seat, and the latter has announced his candidacy to succeed himself, it is said at request of Mr. McKinley. So the country is likely to see the man who has been kept in the Cabinet against the almost general protest of the country, running for the Senate as an anti-McKinley candidate. This is explained by friends of Mr. McKinley by saying that the President is bound by promises to keep Alger in the Cabinet, unless he will voluntarily resign, but is determined to get even by keeping him out of the Senate.

### The Amendment.

We commented two or three weeks ago upon the short-sightedness of the Republicans in seeking to prejudice their followers against the proposed amendment to the Constitution of North Carolina. We called attention to the fact that the former have always claimed that but for the negro issue the Democratic party would be in a hopeless minority in this State, but now that it is proposed to eliminate this issue from politics and give all parties a chance to appeal to the virtue, intelligence and good judgment of the white people upon their merits, they fancy they see a chance to win a temporary victory by misrepresenting the purpose and effect of the amendment, and esteem it of more value than they do the future welfare of the State. The whole matter was summed up in the statement that the Democratic party preferred to discuss live economic problems and wanted to remove the possibility of another campaign like the last one, and if the negro is an issue in North Carolina after 1900 it will be only because the Republican and Populist politicians are afraid to submit their principles to the arbitrament of a white jury.—Webster Weekly.

### Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets,—beauty for ten cents. All druggists. Satisfaction guaranteed, 10c, 25c, 50c.

Rheumacide is a thorough, permanent, constitutional cure for rheumatism. The acids in the blood which cause the disease are thoroughly eradicated. Is also the best blood purifier, laxative and tonic.

When we see the sweatshops abolished in our great Northern cities, the whitecaps exterminated in the Middle Western States, the wife-beaters and torturers of helpless children everywhere punished as they deserve, it will be time to concentrate our altruistic solicitude on the South. We commend to our Northern contemporaries the parable of the mote in the neighbors eye.—Washington Post.
