MAKE THE CHANGE.

Would be a Convenience to This Section.

The Atlantic & North Carolina railroad is now running double daily passenger trains between Goldsboro and Morehead for the accommodation of people going to the seashore. Both these trains go down in the afternoon, their schedules being only about two hours apart. The regular train passes Kinston about 4:30 o'clock and the new train about 6:30 o'clock.

The passenger train on this branch of the Coast Line from Weldon to Kinston reaches the latter place about 8 o'clock, an hour and a half after the last train on the A. & N. C. road has passed going to Morehead. THE REFLECTOR asks the authorities of the A. & N. C. road if they cannot change the schedule of this last train and let it connect with the Coast Line train at Kinston. As we understand it their last train going down has no other connection to make, so that running the train a little later would not interfere with their travel from Goldsboro, but it would give them many more passengers from this road.

By having this connection people could leave Weldon and all intermediate points late in the afternoon and go straight through to Morehead. Our people here could leave Greenville after the business of the day is over and could reach Morehead in three hours. Many more people from this section would go to Morehead if they could get advantage of such connection. It would be especially convenient for going down Saturday night and spending Sunday at the seashore. On the return trip the extra train from Morehead reaches Kinston in time to connect with the train on this road, so that making the afternoon train a little later is all that is needed to give good connection both ways. We hope the officials of the Atlantic & North Carolina road can see their way to make this change.

OVER THE COUNTRY.

While being taken to the gallows, William Wilson, colored, was respited at Eastman, Ga. Another has confessed.

Colonel Toplin drove a mule team 800 miles to attend the Rough Riders' reunion at Las Vegas, N. M.

More artillery will be furnished the army in the Philippines.

Col. E. Miles, First Infantry, has been ordered to report for retirement, on account of bad health.

Major Brennan, of the First Montana Regiment, who died at Manila Friday, had been ill of Bright's disease for three months.

H. B. Plant, President of the Plant System of Railroads and Steamboats, and also of the Southern Express Company, died last week.

The town of Laurel, Del., was almost wiped out by fire Saturday morning.

Curing Tobacco.

Mr. L. S. Edwards, of Chicod township, put in a barn of tobacco on the 22nd, the tobacco belonging to himself, J. C. Stokes and Ed. Edwards. This is the first barn reported for the season.

A LARGE HOUSE.

The Strause Factory Nearing Completion.

The immense tobacco factory and stemmery of Strause Brothers is now near enough completed for people to get a good idea of the appearance and immensity of the building. THE REFLECTOR reporter stopped out there this morning and was shown through by contractor Hill C. Linthicum. The walls of the building are all up, the roof on and the force of carpenters are busy laying the floors, while the masons are running the walls to the power house in the rear.

It is an immense one-story building, having a floor space of 40,000 feet. It has a frontage on Tenth street of 250 feet, the two wings extending back 160 feet, the connecting section between them being 80 feet deep. In the square between the wings is the location of the power house.

Asking Mr. Linthicum something of the material used in this building, he said there were 500,000 brick, 250,000 feet of lumber, two tons of nails, two tons of window weights, 1,300 feet of window cord, 1,600 panes of glass, 100 boxes of tin, and smaller quantities of other material. Work commenced on the building the 10th of May and it will be completed the 10th of July, a wonderfully short time in which to put up a structure of such size. The cost will be about \$15,000.

The building will be fitted with the most improved machinery for handling leaf tobacco, and when completed there will be none in the South to surpass it. It will also have an electric plant for lighting the building, and there are two railroad side tracks to it for delivering and receiving shipments. It is as near fire proof as a building of this size could well be made.

Such a factory is creditable to Greenville, and we congratulate the enterprising firm of Strause Brothers for having such a splendid plant.

The Fourth of July at Seven Springs.

For several years the 4th of July has been a big day at Seven Springs, and this year the managers of the old Seven Springs Hotel are making preparation for the biggest celebration in the history of the hotel. In addition to the usual basket picnic that day, there will be a match game of base ball between the LaGrange and Goldsboro teams.

At night there will be the usual dance. Good music has been secured.

S-say on Clothes.

We are writing about Clothes because we are "THE KING CLOTHIER." It is our "line" and we are proud of it. The Child, the Boy, the Youth, and the grown-up Man, all have a prominent place in our mind. Our CHILDREN DEPARTMENT was somewhat disfigured by the fire but we still have some rare bargains in it that are the real stuff. For instance we can sell you a BOPS 2-PIECE SUIT for 65 cents or a PAIR of PANTS for 10 cts. Now ain't that Bar-

gains? If you see the goods you'll agree with us. These Suits fit, they are stylish, strongly sewed and made of good material. There is a great

future for the boy who wears our Clothes. Provided his habits are as correct as his clothes. And in Mens Wear, too, we are "roosting on the highest limb." The fire destroyed a great many of our Suits but we have them from \$2.50 up. We can fit you.

"Breathes there a man so stout or slim That clothers fall of fitting? Let him take heart, for if he tries In our store he'll find his size. No shape or style do we omit To fit men who are hard to fit."

We guard the QUALITY of our stock with sleepless vigilance. Never is a poor article allowed in our stock. New line of

The Pulpit and The Pew.

Between a minister and his congregation there is an action and a reaction, so that the minister makes the congregation, and the congregation makes the minister. When one speaks of a minister's service to his people one is not thinking of pew rents, and offertories, and statistics, and crowds; nor of schools, and guilds, and classes, and lectures. The master achievement of the minister is to form character and to make men. The chief question, therefore, to consider about a minister's work is: What kind of men has he made?

And one, at least, of the most decisive questions by which the members of a congregation can be judged is: What have they made of their minister? By that one does not mean what salary they may give him, nor how agreeable they may be to him, but how far he has become a man and risen to his height in the atmosphere of his congregation. Some congregations have ruined ministers by harassing them till they lost heart and self-control and became peevish and ill-tempered. Some congregations, again, have ruined ministers by so humoring and petting them that they could endure no contradiction and become childish. That congregation has done its duty most effectively which has created an atmosphere so genial, and yet so bracing, that every good in its minister has been fostered, and everything petty killed.—Ian Macclaren in the July Ladies' Home Journal.

The Incessant Influence of Advertising.

The effects of sound, businesslike advertising are not always apparent at once; yet from the moment of the appearance of a business announcement in a widely read newspaper its influence is constant, as the advertiser invariably soon discovers. Scientists speak of those mysterious ethereal heat waves which are either too quick or too slow to affect the eye or the ear, but which are readily detected by the sense of feeling. In like manner the right sort of advertising radiates in incessant waves influences which are at first imperceptible, but which ultimately have their effect upon the people whom they are designed to reach. In fact, advertising is the one great force which arouses in the public mind a close interest in the doings and the wares of the progressive merchant.—Philadelphia Record.

LOST.—Many golden opportunities have been lost by those who suffer from rheumatism. By taking Rheumicide now they will be permanently and positively cured.

Don't Fidget.

Useless tricks of moving fingers and toes when the body should be quiet are all exhausting, partly because the disposition that prompts them proceeds from wrong physical conditions. A perfectly healthful and phlegmatic person has no desire to rock fiercely or pace erratically during the execution of some small task that should bring into play no muscles save those of the hands. You often see the muscles of the jaw moving on a face which should be quiet, showing a pressure of the teeth, moved most likely, to the time of a tune which is running in the mind.

To condemn the sluggard in toto has too long been the fashion. He has one trick that the nervously energetic might with profit emulate—that of relaxation. When you rest do it as absolutely as he.

In lying in a reclining chair, keep the feet from rocking and the fingers from tapping. In driving for pleasure let go of your tense muscles, let the horses do the work and you listlessly lean on the carriage cushions. In all leisure, relax every muscle, from the tips of the fingers and toes to those of the face, like one asleep. This absolute and voluntary relaxation is a great sleep winner. Try it but once and you will try in again from pleasure as its results.

If the muscles of the eyelids and forehead flutter beyond control when closed for sleep lay over them a bit of folded black gauze or veiling. This has been known to induce sleep, even, in the daytime, to most persistently wakeful people.—Franklin Times.

Preventing Hail.

A Rome correspondent writes: The idea of dissipating storm clouds by discharges of cannon has been successfully put into operation at Colpeio, in the province of Bergamo, which was lately visited by two hurricanes, accompanied by heavy clouds which threatened a hailstorm.

About 40 discharges were fired on the first occasion and 30 on the second. The effect of the concussion was most marked on the second storm. The black clouds were broken and dissipated by the atmospheric disturbance, and watchers stationed to observe the results reported that the threatened storm had been driven back. What is certain is that while hail fell in all the neighboring districts not a particle descended on Colpeio on either occasion.

The cannon was loaded with 3 cwt. of powder and plugged with paper. After the explosion, which was effected by a fuse, a column of smoke rose vertically into the air to the height of about a mile, bearing a current of warm air, which penetrated the clouds.—Detroit Free Press.

Think it Public Property.

A man who has built up one of the finest newspaper businesses in the State says:

"My greatest difficulty in journalism is to make people understand that a newspaper is not public property, that it does not belong to the public, but is a private enterprise, under the control of its owner and manager. People insist on using the columns of a paper at their own will, and are angry if they are refused admission on their own terms. They dictate as they would not think of doing to any other business men; and cannot understand that their demands should not be acceded to, regardless of the policy or the interests of the paper in question."—Newspaperdom.

Love the Farm and Farm Home

"The only drawback to any intelligent country community enjoying educational and refining privileges is lack of co-operation between the farmers themselves," writes Mrs. John B. Sims, of "Entertaining in the Country," in the July Ladies' Home Journal. "Whenever a farming community realize that in themselves lie the means of educating their sons and daughters to love the farm and the farm home, and that because one does not have the privileges of the town or large city there is no reason why he should stagnate either mentally or socially, they will have solved the problem of how to live happily and contentedly on a farm."

Democrats cannot be too careful in considering the moral character of the men, whom they appoint or elect to any office or position whatever. The Fusionists have been severely criticised, and deservedly so, because of the bad character of many of the men elected or appointed by them to office. The people have a right to expect the Democrats to do better than the Fusionists did. No man should be appointed to any position or elected to any office simply because he is a Democrat. And he should not only be qualified to discharge his duties properly, but he should also be a man of good moral character.

We regret, therefore, to note that among the fertilizer inspectors recommended for appointment is a man, against whose moral character the most serious charges have been publicly made. We venture the prediction that he will be very promptly dismissed.—Pittsboro Record.

A novel case was tried at the Federal Court at Charlotte last week. The defendant was indicted and tried for "obstructing the United States mail and punishing the mail carrier," but was acquitted as he ought to have been.

The facts of the case were that, last August, a negro mail rider stopped at a farmer's watermelon patch and stole some of his melons. The farmer saw him and whipped him. And for this he was indicted in the Federal Court.—Pittsboro Record.

Wm. T. and Jno. F. Stiles of Wichita, Kansas, are twins fifty-four years of age. They married twin sisters, live in the same house and are engaged in the same business, running jointly a real estate agency.

Manufactured ice looks just as cool as the other sort, in which respect it is quite like the rose that would smell as sweet by any other name.

That one-half of the world does not know how the other half lives, proves that there are some persons who attend strictly to their own business.

BETHEL EPARTMENT.

CONDUCTED BY C. H. JAMES.

BETHEL, N. C. June 24, '99.

The larger part of the potato crop has been shipped.

Blount Bros. has just opened a new kiln of fine brick.

Miss Bertha Hammond, of Conee, is visiting our town.

The M. E. church has just been newly painted and repaired generally, which adds much to its appearance.

Work has begun on rebuilding the Baptist church which was demolished by the cyclone. The contractor says he will soon have it up again.

There was an ice cream party in town last night given in honor of Misses Emma Harris and Geneva Gardner, of Greenville, who have been visiting here a few days.

Mr. Elisha Bryant, who was so badly wounded here a few weeks ago by those negro outlaws while he was so faithfully trying to discharge his duty as town police, died Tuesday evening last. Dr. Laughinghouse accompanied by Deputy Sheriff J. J. Mason come over from Greenville Wednesday to hold a post mortem examination. They found the skull badly broken and quite a large piece driven well down in the brain. After the examination the jury decided that he died from the effects of the wound wrought by the outlaws three of whom are now in Greenville jail and one not yet caught. It is very strange to relate that as bad as Mr. Bryant was injured, part of his brains coming out while dressing the head wound, and being cut through the lungs in two places he so much recovered that he was able to walk about town several days before inflammation took place six weeks after the assault.

Mr. Bryant was a good, sober industrious young man, having just married a young wife. It is the saddest thing perhaps that ever happened in Bethel and we do hope that every honest man in the State will aid in every way to catch the imp who caused so much sorrow in our little town.

WINE OF CARDUI
MONTHLY SUFFERING.

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, sides hips and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

McLEEE'S Wine of Cardui

makes menstruation painless, and regular. It puts the delicate menstrual organs in condition to do their work properly. And that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs \$1.00 at the drug store. Why don't you get a bottle to-day?

For advice, in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

.....
Mrs. ROZENA LEWIS,
of Denaville, Texas, says:
"I was troubled at monthly intervals with terrible pains in my head and back, but have been entirely relieved by Wine of Cardui."

WINE OF CARDUI

TYPE AND PRESS.

**WHO WANTS IT?
SPEAK QUICK.**

THE REFLECTOR recently purchased two printing office outfits and has a quantity of surplus material that will be sold cheap. There is a cylinder press large enough to print a nine column paper, in splendid condition, and a quantity of Small Pica, Long Primer, Brevier and Nonpariel body type. We can furnish a complete outfit large enough for a six or seven column paper.

Specimens of the body type are shown in this advertisement, the type being taken from the case just as it runs, so it shows for itself how well it prints. This is the Small Pica size of which there is 1 pair of cases.

Then here is a paragraph set from the Long Primer size. We have 4 pairs of these cases. In buying this type you do not get something that is worn out and cast aside, but a good serviceable type, capable of much wear.

Here is something a little smaller, Brevier size. There are 2 pairs of these and it is a bargain for somebody interested in printing. It may not come but once in a lifetime that an opportunity is given for buying type as cheap as we will sell these lots.

Again we have 1 pair of cases of this Non pariel size, a very useful type in any printing office. Cases will be sold with the type of all sizes. Any printer who can use any or all of this type can make use a spot cash offer. While we prefer a customer for a whole outfit, press and type, one case of type will be sold if no more is wanted.

BLOOD TELLERS.

YES, it is the index to health. If you have had blood you are likely to learn that you have Rheumatism, one of the most horrible diseases to which man kind is heir. If this disease has just begun its work, or if you have been afflicted for years, you should at once take the wonderful new cure.

RHEUMACIDE
Thousands have been cured. The summer season is the best time to take a rhematic remedy. Nature will then aid the medicine in effecting a permanent, constitutional cure. People with bad blood are subject to catarrh, indigestion and many other diseases. To be healthy the blood must be pure. RHEUMACIDE is the Prince of blood purifiers. Sold at Wooten's Drug Store. \$1.

BUCK'S JUNIOR RANGE

Every little girl wants it, and one little girl shall have it. On the 15th of July we will present it to the little girl under fourteen years of age, who cuts out the greatest number of Buck's Trade Marks in the advertisement below and brings them to our store. They must be done up in neat packages and the number and name written plainly on each package. Now girls get your friends to help you, save every Trade Mark and see who can win the prize.

CUT THIS OUT.

Confidence Leads in Success.

Self-confidence is a mighty factor in the commercial world, as in all walks of life. The business man who has faith in his own ability and resources may be sure of ultimate success. The career of Benjamin Franklin is one of the finest exemplifications of this fact. When this great American suggested his belief in the possibilities of electricity the Royal Society of London ridiculed his ideas; but after his memorable kite experiment he was made a Fellow of that same Royal Society. Thus it is, in the matter of advertising, with the doubting Thomases and the confident Franklins among the merchants. The latter are sure of the possibilities of profitable returns from good newspaper advertisements, and their confidence is never misplaced in this respect.—Philadelphia Record.

It is a Warning.

During the tobacco season there are a number of dead beats who make it their business to get money from the warehousemen of Wilson on the pretense of having tobacco. Last fall a negro tried that game, and got money from three or four of the warehousemen. This morning he was sent to jail for six months and will have to work on the roads. His sentence would have been made heavier but for the fact that he has a family to look after.—Wilson News.

Masonic installation and picnic tomorrow.

Greenville will have a big crowd tomorrow.

The dust got settled in short order today.

Mullets 5 cents per pound at S. M. Schutz's.

The rain will give crops an extra bound in growth.

Prospective picnickers hope there will be no rain tomorrow.

Take care of the pennies and the dollars will take care of you.

Evans street where all the buildings are going up presents a busy scene.

The days have passed the turning lap and are now growing a little shorter.

People wishing for rain, and most of us were, got as fine a one today as could be wished for.

Pretty hot, isn't it? But just imagine how you'd feel if you had to shovel snow this weather!

Today the stand and tables were put up on the Academy grove in readiness for the picnic tomorrow.

You know the best ween you see it. That is our kind.

HUGH SHEPPARD, Agent Wilmington Steam Laundry.

Masonic Picnic.

The Masonic picnic and public installation of officers takes place tomorrow. The members of Greenville Lodge and all visiting Masons will meet at the hall at 10 o'clock where they will form a procession and headed by the Osceola Band will march to the Academy grove. At the grove the installation will take place, followed with an address by Hon. L. I. Moore. Dinner will also be served in the grove.

A Big Fraud.

One of the biggest that has struck this town in a long time, was the sucker that sold the white looking pots, kettles and pans. He warranted them not to break or burn. Complaints are galore around town now that nearly all who have used a pot, now has a broken pot.

We should look up the pot man and have him refund our money, or else "pot" him in jail as a fraud.—Spring Hope Messenger.
