MONDAY, JULY 17, 1899.

Boston negroes have organized against the McKinley administration. The leaders in the movement claim that it means the overthrow of Imperialism and the Republican party.

The Young People's Union which closed its session Sunday in the city of Richmond adopted a resolution opposing the Seating of B. H. Roberts, Senator-elect from Utah, who is an avowed polygamist.

### Etiquette of Cards.

It has always been a general rule that so long as a girl was unmarried and lived at home she had no separate visiting card, but shared that of her mother, under whose name her own appeared. This rule still holds in society, but so many girls nowadays are engaged in professional careers which cause them to strike out a line of their own and make a different set of acquaintances from that of their mother that the rule has in such cases become very much modified.

If a girl's mother is dead, the daughter's name is printed below her father's on the usual lady's card, never on a man's card, and if the father and mother are both dead and the young lady resides with a brother her name is printed below his, also on a lady's card.

Inquiries in case of illness or after a death on the the bereaved family should never be omitted. The lady inquiring should leave a card with "To inquire" written upon it. If a new and undesirable acquaintance presumes to call first on another lady, the latter can check the unwelcome intimacy by leaving cards after a long interval instead of returning the call.

The card should be a thin white piece of pasteboard, absolutely plain, without border or ornament of any kind. This card should be exactly three and one-half by two and one-half inches in size, and the name should be in the center in copper-plate characters. The address should be in the lower left hand corner and in rather smaller characters of the same description.

### A Salubrious Tale.

"Briggs is awfully hoarse this morning."

"Yes. You know how damp it was last night! Well, Briggs and his wife stood on the corner waiting for a street car, and Briggs' wife started in to say something, and Briggs stood there for fully a half hour with his mouth open trying to get in a word edgewise. That's where he got his hoarseness."—Cleveland Plain Dealer.

### Had His Good Points.

It is generally supposed that preachers are mighty solemn folks and look upon fun and levity as wholly bad. Nothing is farther from the truth. Preachers are like other men, and most men enjoy a joke. Famous preachers have been famous jokers also. And of all good, innocent jokes preachers are fondest of those gotten off at the expense of each other. The other day a preacher was telling one like this, at the same time getting some fun and illustrating a very painful truth: "A certain preacher had been sent to a charge for three successive years, and his congregation was very fond of him. So much so, indeed, that Bro. Smith, an influential lay member, took it upon himself to go to conference for the purpose of having an interview with the Bishop and getting him to send the preacher back for the fourth and final year. When he told the Bishop his mission, the following conversation ensued:

"Bishop—'Well, you want Bro. B. to go back this year do you?'"

"Bro. Smith—'Yes, sir. We like him very much and want to keep him as long as possible.'"

"Bishop—'Well, that's good, Bro. B. is a fine preacher, I suppose?'"

"Bro. Smith—'No, only common.'"

"Bishop—'Good pastor, then?'"

"Bro. Smith—'Not unusual; don't visit as much as he ought to.'"

"Bishop—'Great financier, I suppose?'"

"Bro. Smith—'No; he never takes up a collection.'"

"Bishop—'Well, what on earth is there about him to recommend him so?'"

"Bro. Smith—'Well, I just tell you, Bishop. Bro. B. can get along on the least and have the most left of anybody in the world, and we want him another year.'"  
—Monroe Journal.

### The Biggest Bath Yet.

The finest public bath in the world is—no, not in New York.

It is the Sutro Bath of San Francisco, a monument to the memory of a public-spirited mayor of the city.

The Sutro Bath is almost as big as Madison Square Garden. It is 500 feet long and 254 feet wide; 100,000 square feet of glass disposed in its roof admit the light of day to its interior.

A great swimming tank stretches nearly the whole length of the building, 350 feet long and 150 feet wide. It is amply long enough for spirited swimming races. Numerous smaller tanks are stowed about; altogether, they hold nearly two million gallons of water.

The great house is built on a solid rock foundation, hollowed out to sea level. Pure salt water is admitted in vast quantities, permitted to "settle" in settling reservoirs, and then passed through the tanks. There are 517 private dressing rooms and club rooms, with capacity for nine bathers each. Nearly two thousand lockers are provided.

Above the tanks are seven toboggan slides, nine spring boards, three trapezes, one high dive and thirty swinging rings. For non-bathers there are seats provided at one end, and a museum to while away their time in. The seats will accommodate 7,400 spectators and the restaurant will feed 1,000 people at once.

From any place in the building you can hear the waves of the open sea breaking upon two massive riprap breakwaters outside, which contain 750,000 cubic feet of rock. The engines which pump the water in and out are of enormous size. They supply 6,000 gallons every

minute, fresh, clean and of the true sea temperature, at low tide. At high tide the tanks are flooded without pumping.

### General and Particular.

Only one man in 203 is over six feet in height.

Fully 100,000 inhabitants of London are night workers.

The world's agriculture occupies the attention of 280,000,000 men.

It is estimated that one crow will destroy 700,000 insects every year.

The average amount of sickness in human life is nine days out of the year.

It is estimated that about 2,000,000 bicycles have been made in Europe and America.

A healthy baby increases to treble its weight at birth in the course of the first three months.

"Cyrano de Bergerac" has been performed for the 300th time at the Port St. Martin theater in Paris. Over 150,000 copies of the text have been sold in France.

Every year about 280,000 conscripts are added to the Russian army. In times of peace it numbers 1,000,000 men, and is the largest standing army in existence.

The latest development of the art of advertising has appeared in Sweden. The advertisers have actually captured the backs of the Swedish national bank note.

In Germany 42,251 persons under 18 years of age were convicted of crime or misdemeanor in 1767. Of these 22,544 were sentenced for theft, 7,537 for violence to the person, and 3,667 for fraud.

### Villian Still Pursues Her.

A suit at Oklahoma City has brought out a most curious train of circumstances. A woman secured a divorce from her husband together with a large amount of alimony. The divorced husband then entered into an agreement with a good-looking young man in the neighborhood whereby the young man was to pay court to the woman marry her, get control of all her property and divide it with the divorced husband. The young man carried out his agreement to the letter and then fled the country. The suit is now brought by the woman to recover the property of which she had been defrauded by the conspiracy. Did ever a novelist conceive of an improbable plot such as this one sworn to in a court of justice?

YES, it is the index to health. If you have bad blood you are likely to learn that you have Rheumatism, one of the most horrible diseases to which man kind is heir. If this disease has just begun its work, or if you have been afflicted for years, you should at once take the wonderful new cure.

### RHEUMACIDE

Thousands have been cured. The summer season is the best time to take a rheumatic remedy. Nature will then aid the medicine in effecting a permanent, constitutional cure. People with bad blood are subject to catarrh, indigestion and many other diseases. To be healthy the blood must be pure. RHEUMACIDE is the Prince of blood purifiers. Sold at Wooten's Drug Store. \$1.

### TYPE AND PRESS.

### WHO WANTS IT? SPEAK QUICK.

THE REFLECTOR recently purchased two printing office outfits and has a quantity of surplus material that will be sold cheap. There is a cylinder press large enough to print a nine column paper, in splendid condition, and a quantity of Small Pica, Long Primer, Brevier and Nonpariel body type. We can furnish a complete outfit large enough for a six or seven column paper.

Specimens of the body type are shown in this advertisement, the type being taken from the case just as it runs, so it shows for itself how well it prints. This is the Small Pica size of which there is 1 pair of cases.

Then here is a paragraph set from the Long Primer size. We have 4 pairs of these cases. In buying this type you do not get something that is worn out and cast aside, but a good serviceable type, capable of much wear.

Here is something a little smaller, Brevier size. There are 2 pairs of these and it is a bargain for somebody interested in printing. It may not come but once in a lifetime that an opportunity is given for buying type as cheap as we will sell these lots.

Again we have 1 pair of cases of this Nonpariel size, a very useful type in any printing office. Cases will be sold with the type of all sizes. Any printer who can use any or all of this type can make us a spot cash offer. While we prefer a customer for a whole outfit, press and type, one case of type will be sold if no more is wanted.

HUGH SHEPPARD, Agent Wilmington Steam Laundry.

Mr. and Mrs. J. L. Fleming will return to-morrow morning on the train from Morehead. A public reception will be had at Hotel Macon to-morrow evening from 9:30 to 12 o'clock to which all friends of the parties are cordially invited.

### Bluffed the Barber.

Your hair is getting thin, sir, said the local barber to a customer yesterday afternoon. Yes, replied the gentleman addressed, I've been treating it with anti-fat. I never liked stout hair. But you really should put something on it, persisted the tonsorial artist, in a most earnest manner. I do every morning, replied the customer. May I ask what, replied the barber. "My hat," said the patron. Thereafter was silence.

### Shot to Death in a Cell.

Gainesville, Ga., July 15.—A mob of about thirty men surrounded the Hall county jail early this morning and by a clever ruse tricked the sheriff into admitting them to the jail, after which five of them went to the cell of Si. Smith, the murderer of Judge W. B. Snell, of Atlanta, and shot him to death, riddling his body with bullets and spattering his blood on the cell walls. The mob pretended to be a sheriff's posse from Gwinnett county, with a prisoner who they wanted to lodge in the Hall county jail for safe keeping. The leader of the mob said he was the sheriff of Gwinnett and the unsuspecting sheriff of Hall county, W. B. Munday, admitted the men. After their bloody work the mob quickly dispersed. The Governor will be asked to offer a reward for the capture of the men composing the mob. There is great indignation among the people here that such a crime was committed.

Smith was asleep when the mob entered. Without warning or arousing him, one of the mob deliberately leveled his pistol at the sleeping form and emptied it, one of the first bullets piercing the heart of the victim. The other men opened fire on the prisoner and when they ceased firing the victim's body had been riddled with bullets.

### An Encouraging Sign.

We are glad to note the high character and capacity of the men who are being selected as superintendents of schools in the various counties. Wake set an excellent example in electing Prof. W. G. Clements, a gentleman splendidly equipped in capacity and character, Durham followed by electing Prof. Massey, Franklin by electing Mr. Bruce White. Wilson by electing Prof. Jas. W. Hays, and Pitt by electing Prof. W. H. Ragsdale, president of the Teacher's Assembly and other counties by selecting men of like character and position.

The efficiency of the public schools is more important than anything else in North Carolina. Their efficiency largely depends upon the county superintendents. It is an encouraging sign when men of known fitness and free from partisanship, who enjoy the confidence of the people are chosen for this important office.

### Went to Ocracoke.

There was a nice party left here Saturday for Ocracoke on the steamer Myers. They were: J. S. Tunstall, J. J. Evans, J. N. Hart, Chas. Cobb, W. H. Tucker, W. R. Parker, Rat Rountree and C. Tillman. They will have an outing for about ten days and the fish had better look out.

A Few Points

wherein the Julia Marlowe styles differ from other shoes.

They fit like a glove. They never pinch the foot. They are beautiful in design. They fit high or low insteys. They yield to every action of the foot. They conform in vital points to the shape of the wearer's foot instead of pressing the foot into the shape of the shoe.
