### ABOUT THE SPRINGS.

#### More Guests Arriving—Some of The Happenings.

Seven Springs, N. C. July 18.—The crowd continues to increase here by the arrival of more guests at the hotel. Several came last night and more arrived tonight. Among these are E. V. Deans, Miss Jula Bullock, of Wilson; Rev. J. H. Griffith and family, A. Mitchell, Miss Minnie Ashford, of Kinston; Mrs. Warren Johnson, Miss Mary Lou Kerr, of Clinton; Mrs. G. W. Pope, Mrs. Mary F. Howard, Misses Eudora Wallace and Jodie Owens, of Morehead City; C. E. Fay, of New Bern.

Others have written that they will be here tomorrow and quite a number are engaging rooms ahead for a stay here in August.

Churchwell brothers gave a charming musical concert last night that the guests enjoyed exceedingly.

A very heavy rain storm visited this section early last night but the weather cleared during the night and today was delightful.

One of the editor's little girls is the champion water drinker, for her size, at the springs. She gets ahead of a majority of the grown people.

Domino playing is quite popular among the older men. Messrs J. B. Cherry and J. D. Cox hold the belt so far, but Mr. C. D. Rountree and the editor crowd them close for it.

Jarvis Sugg is the best courter on the hill, but in this particular Proprietor Smith is a close second.

Mr. John Y. Moore, of Wilson, tells the best hunting story of any of the guests. Mr. J. C. Hadley, of the same town, is also a good story teller of incidents in his younger days.

An attractive widow from the neighborhood visited the springs today and inquired if "Uncle Gus" had arrived. He don't know what he is missing over this way.

### OVER THE COUNTRY.

The Standard Shoe Machinery Company, at Boston, Mass., has been organized with \$5,000,000 capital, and has already absorbed six companies.

The Sloop Great Western, in which Howard Blackburn, of Gloucester, Mass., is attempting to cross the ocean, was sighted off Sable Island June 24.

General A. J. Warner, president of the Bimetallic League, believes that Bryan will be the next Democratic Presidential nominee, and that the chief issue will be the Philippine war.

Attorney General F. S. Monnet, of Ohio, has begun proceedings against the National Steel Company for violating the Trust law.

The schooner Levin Insley ran down a canoe at Norfolk, Va., and Richard, David and Carey Allmound, its occupants, were drowned.

In a quarrel at Meyer, Ill., John W. Allen, aged 12, struck James Jamer, a playmate, on the chin with his fist and killed him.

Sergeant Hollie Bryan, Battery M. First United States Artillery, was drowned while bathing off Sullivan's Island, Charleston, S. C.

### WILL LANGLEY TELL ALL?

#### One of the Negroes Charged With the Turnage Murder Taken to Greenville.

Cephas Langley, one of the alleged Turnage murderers, who has been confined in Wake jail for safe keeping for several months, was taken to Greenville, N. C., this morning by Sheriff Mooring of Pitt county.

Langley was arrested on the strength of a confession from Elijah Joyner, who implicated the former in the crime. Since his confinement in Wake jail Joyner has revised his confession, and he now asserts that he committed the crime himself and that Langley had no connection with or knowledge of it.

Sheriff Mooring has taken Langley to Pitt at the request of relative of Turnage. It is believed there that Joyner had accomplices, but Langley is not generally believed to have been connected with the crime. It is the opinion in Pitt that Joyner has told Langley more than he has made public in his confession, and it is hoped that he will tell all that Joyner has said since his confinement here. It would not be safe to take Joyner to Pitt, because there is a considerable element there who think he should be lynched. It was with difficulty that he was taken out of the county by officers for safe keeping.—Raleigh Post July 19th.

Sheriff Mooring came in last night with Langley. The Raleigh papers will insist that a lynching was averted with great difficulty in Pitt when the facts are as we have given them before that no efforts were made to lynch anybody.

### The Meeting Closed.

The meeting, which had been in progress for a week, at the Presbyterian church closed last night. There was one addition to the church at last night services. The meeting has been one especially beneficial to Christians. The preaching of Drs. Payne and Morton was of a very high order and purely gospel sermons. Such labors of such men can only be fruitful of much good to any town. All who attended the services are glad that this opportunity has come to them, and have been strengthened encouraged for their future work.

### Opening August 1st.

The opening of the tobacco season is close at hand and the warehouses are being cleaned up preparatory for the reception of the golden weed, every thing will be in apple-pie order and on Tuesday morning, August 1st, the houses will be prepared to handle every pound that is brought in. This will be a lively season for the warehouses expect to handle 10,000,000 pounds.

There are distressing reports of the ravages of the army worm in many of the eastern counties of North Carolina. They are said to resemble a small caterpillar. Some farmers are trying the virtue of Paris green upon them. They are said to move in a straight line across the fields sapping the life out of all vegetation in their reach.—Free Will Baptist.

## A HOTEL OF ALUMINUM.

Can be Closed Up to the Size of a Baggage Car.

One of the most remarkable of the recent inventions upon which the Patent Office authorities have been called to pass judgment is a traveling hotel, the designer of which thinks he has filled a long-felt want by constructing a portable habitation for traveling circuses or campaign parties who do not wish to be at the mercy of local hotel keepers.

The hotel on wheels is made of aluminum, and is so constructed as to fold up like a railroad car, and to appear, when closed, to be an ordinary baggage car. When the stopping place is reached, and the travelers wish to camp for the night, the sides of the car are let down by means of a series of levers.

The inventor has divided his traveling hotel into compartments, so that the party, if a large one, can be separated in the various sections of the building, occupying if they wish, apartments en suite or a single room. The rooms are to be fitted up in the modern style, with all conveniences, including electric light, electric bells, electric cooking apparatus, and the inventor is even working on a system that he thinks will enable the occupants of the hotel to reach the upper story by means of an electric elevator.

The furniture designed for the car is, of course, mostly of the folding variety, and can be stowed away in a very small compass when not in use. When the stopping place is reached the car is to be detached from the train and taken to a convenient siding, where ample room for the spreading of the sides and the elevation of the roof that form the hotel.—Cincinnati Commercial Gazette.

## "Thrash That Fool Father."

The preacher who is the father of prizefighter Jeffries is still gabbling about Jim and insisting that "the Lord won that battle at Coney Island," the victory being "but another step in the direction that the Lord would have Jim to go." "Oh," the Rev. Jeffries adds, "if Jim would only fight for the Lord as hard as he did for the belt, what a power he would be!" It is to be hoped that when Jim begins fighting for the Lord he will, the first thing, thrash that fool father of his.—Louisville Courier-Journal.

## An Incident of a Tragedy.

Our dispatches have briefly noted the killing of Wm. M. Flanagan, Republican senator from Powhatan county, Va., at Powhatan Court House, on the 3rd, by Wm. G. Pilkinton, Democrat, as the result of a political feud. The Richmond papers have elaborate accounts of the tragedy, which occurred in the corridor of the court house, less than a hundred yards from the dead man's home. Flanagan's family was on the scene in a moment and the grief of the widow is described as uncontrollable and pitiful. By physical force she had to be restrained from throwing herself under the bloody body. This dramatic incident is reported by the dispatch correspondent: "Suddenly Mrs. Flanagan asked to be shown the man who had killed her husband. Some one pointed to Pilkinton, a short distance away in the custody of the deputy. She advanced toward him. 'Why did you kill my good husband?' she cried wildly. Pilkinton spoke calmly. 'Madam,' he said, 'Mr. Flanagan advanced on me and was beating me.' Bystanders took the poor woman to her home."

The courteous reply of the gentleman himself laboring under a great sorrow, for he says in his statement to the press:

"At the instant that I heard the report of the shot I received a stinging blow on the forehead, and for a moment I thought I had shot myself. I wish now that I had. It is an awful thing to be forced to take a human life, and I would much rather that I lay dead now than to be forced to the realization that I have dyed my hands with the blood of my fellowman. I am not so much distressed about the death of Mr. Flanagan, but I am distressed to think that I have made his wife a widow and his large family of little children fatherless. I have the deepest sympathy for them. I have a little girl at home who is the light of my life, but as much as I love her, I should rather see her lying dead before me than to be forced to the realization that I have killed a man."

This realization cannot be an agreeable sensation to a man of sensitive nature; and thus in such a case there may be two grier-stricken households, and the keenness of the grief may be longer-lived in that of the slayer than in the household of the slain.—Charlotte Observer.

## Good Terrapin Story.

Mr. A. T. Vinson, of Gracey, has a good terrapin story that is entitled to a place with the many that are now going the rounds of the Kentucky press. About a year ago he found a very large terrapin in his field, and was especially attracted by some peculiar marks upon its back. Upon close examination he found that a couple of twenty-penny nails had been driven into it. He pulled the nails out and sent the poor creature on its way rejoicing. Last week he ran across the same identical terrapin making its way back to the place where it was seen a year ago. The wounds in the flesh had entirely healed, but the holes in the shell were as plain as the day the nails were pulled out.—Kadiz (Ky.) Record.

## FIVE STAMPS.

Sold at Auction in St. Louis For Large Price.

Five postage stamps were sold at auction on the courthouse steps yesterday at noon by Gustav Richter, of the Missouri Safe Deposit company, and were bid in by James B. Moberly for \$725.

The stamps were what are known as the St. Louis Postoffice stamps of the issue of November 5, 1845. They were printed in accordance with a suggestion printed in the Missouri Republican July 17, 1845.

This is one of the most valuable and scarcest stamps of all of the United States issues, and can be found only in the albums of the most noted collectors.

Three 5-cent and two 10-cent stamps were in the lot, and they were the most valuable pieces of paper of their sizes ever sold in St. Louis.

This was the first lot offered for sale since the big find at Louisville several years ago, when a fireman discovered about seventy-five of these stamps among a lot of old envelopes he was about to consign to the furnace. He was attracted by their oddity and saved them for a friend who was a stamp collector. The friend, so the story goes, rewarded the fireman by buying him a can of beer. The stamps were sent to a St. Louis stamp firm and brought \$10,000.—St. Louis Republic.

## TYPE AND PRESS.

### WHO WANTS IT? SPEAK QUICK.

THE REFLECTOR recently purchased two printing office outfits and has a quantity of surplus material that will be sold cheap. There is a cylinder press large enough to print a nine column paper, in splendid condition, and a quantity of Small Pica, Long Primer, Brevier and Nonpariel body type. We can furnish a complete outfit large enough for a six or seven column paper.

Specimens of the body type are shown in this advertisement, the type being taken from the case just as it runs, so it shows for itself how well it prints. This is the Small Pica size of which there is 1 pair of cases.

Then here is a paragraph set from the Long Primer size. We have 4 pairs of these cases. In buying this type you do not get something that is worn out and cast aside, but a good serviceable type, capable of much wear.

Here is something a little smaller, Brevier size. There are 2 pairs of these and it is a bargain for somebody interested in printing. It may not come but once in a lifetime that an opportunity is given for buying type as cheap as we will sell these lots.

Again we have 1 pair of cases of this Nonpariel size, a very useful type in any printing office. Cases will be sold with the type of all sizes. Any printer who can use any or all of this type can make us a spot cash offer. While we prefer a customer for a whole outfit, press and type, one case of type will be sold if no more is wanted.

### America Amazes Germany.

Berlin, July 15.—The Cologne Volks-Zeitung calls attention to the continuous increase of exports from the United States, while the imports are continually declining, and confesses that the United States is growing more and more independent of foreign countries. It says: "In the iron industry already, the United States is strong enough to beat England and Germany."

### Bread Cast Upon the Water.

Some time ago a tramp passed through Rocky Mount and it was in cold weather. A gentleman there gave him a pair of rubbers. The gentleman received a letter from the tramp a few days ago and the tramp said he was out in the Klondike and had struck it rich and would remember him for his kindness. The Rocky Mount Motor of this week says: "Sure enough the Circle City man has sent his friend a nice present in the shape of a scarf pin made from a six pennyweight nugget of virgin gold. This he writes, is the first of others to follow."

### Fire in Hotel Ponder.

Last Friday night about 9 o'clock, there was quite a sensation caused among the guests at Hotel Ponder, at Ocracoke, upon the discovery of fire in the ceiling of the dance hall.

Some of the active cool headed ones at once rushed up stairs and cutting a hole in the floor, threw water upon the flames and soon extinguished them.

The fire started from the head of a large oil lamp which had been hung too near the ceiling.

The damage was slight.—New Berne Journal.
