WEDNESDAY, SEPTEMBER 6, 1899

The Kansas City Journal facetiously announces that a lawsuit is threatened in Brown county Kan., because the ears of corn in one farmer's field have grown so large that they pushed the line fence over forty feet onto his neighbor's farm.

Governor Russell's pardon mill grinds neither slowly nor exceedingly fine. His abuse of the pardoning power invested in the chief executive has done much to convince the people that a change in the law in this particular is not only desirable but almost a necessity.—Durham Herald.

Miss Lizzie Steed Davis, sister of Mrs. W. H. McCabe, and Miss Lizzie R. Davis, both of whom have been visiting Mrs. W. H. McCabe, left yesterday for Kansas City, Mo., to enter the Methodist training school. Both these young ladies are from the same county (Warren) are of the same name and are going to the same training school, yet they had never met until their meeting in Durham.—Durham Herald.

Rev. Dr. Len. Broughton, of Atlanta, has engaged Rev. Dwight L. Moody, the famous evangelist, to assist him in a series of meetings to be held in Atlanta in September. This, it is believed, is to be the beginning of a big fight which Mr. Broughton is going to inaugurate against the liquor traffic in that city.

## Trains May Go via Danville.

Mr. H. E. Hutchens, superintendent of the old Atlantic and Danville road, becomes superintendent of the line, which is to be known as the Danville Division of the Southern. From Danville to Norfolk is 203 miles, making 251 miles from Greensboro. By the present route, via Raleigh, it is about 265 miles. While it is not yet known, it is expected that all trains to Norfolk will eventually go by Danville, thus getting rid of the trackage arrangement with the Coast Line people from Selma to Pinner's Point.—Winston Sentinel.

The cotton crop for the year ending August 31st, last, was 11,274,840 bales. Considering the reduction of acreage, estimated by the government to be fully eight per cent, and the injury to the crop in various sections, it does look like the present crop cannot exceed 10,000,000 bales, if it reaches that figure. We feel confident now, from latest reports, that the final return will be much nearer the 10,000,000 than the 11,000,000 figure.—Raleigh Post.

## POINTED PARAGRAPHS.

The mustache is merely a bang on the lip.

The lawyer helps those who are able to help him.

Children who cry for the moon want the earth later on.

Every man believes in the total depravity of some other man.

A man isn't always cool when he shivers in the hour of danger.

Fame is so short-lived that it's really not worth striving for.

Two-thirds of the stealing done nowadays goes under another name.

Lots of people are poor because they buy too many things they don't need.

It's a pity the self-made man isn't permitted to select his own material.

The man who thinks he knows it all doesn't know what other people think of him.

By the time a man succeeds in reaching the top of the ladder he is too old to enjoy the scenery.

A woman's idea of a minute's rest is to lean over the back fence and gossip with a neighboring woman for an hour.

To a woman marriage is something between a sentiment and a situation; to a man it is something between a sensation and a sacrifice.

## Will Buy Tobacco from Farmers.

Madison, Wis., September 3.—The American Tobacco Company will hereafter buy leaf tobacco direct from Wisconsin farmers and will erect a big depot in Madison for storing and sorting its purchases. N. P. Strause, of North Carolina, a tobacco expert and head buyer of the Company, is now here negotiating for a site on which to erect the depot. This move will drive many small dealers out of the field.

## The Public's Curiosity.

Curiosity is commendable when it is rightly directed. It is worth while for business men to note this fact. No matter how long a merchant's establishment may have been in existence, there is curiosity in the minds of a goodly portion of the public as to the goods he may have for sale; and the more he may advertise the greater will be the public satisfaction. If, therefore, he shall choose a first class newspaper in which to persistently exploit his wares he will find that his business announcements will make purchasers anxious not only to know about the articles advertised but to possess them.—Philadelphia Record.

## Hicks For September.

Mr. Irl Hicks, the weather prognosticator, tells us September is the month which the season shifts to opposite ends of our little terrestrial sphere and one must look for great and violent activity among the elemental forces. The first storm period for September lies between the 2nd and 7th. During the first part of the period a warm wave will move out from the western part of the continent, and it depends upon either continental or equatorial storms whether the wave will be followed by warm or cooler weather. The globe will pass through a magnetic crisis from about the 9th to the 15th. As this will be special perturbation, there will be magnetic and electrical phenomena out of the normal order. We can also look for phenomenally warm weather. Meteorological perturbation touching 17th, 18th, 19th. Severe and dangerous equinoctial storms not improbable. Look for sudden change to cooler. Reactionary storm period, 22nd; marked storm condition, 20th to 24th, and dangerous gales probable on land and sea. Storm period likely about 27th to 29th.

Since July 4th last about 9500 volunteer troops have been brought back to the United States from Manila. There now remain a Tennessee and an Iowa regiment—about 1900 men in all—and these have been relieved from active duty by regular troops, and will shortly sail for home. The men of the regular army discharged from service in the Philippines under general order No. 40 have returned and after the volunteer regiments named shall have departed from Manila the force at the disposal of the commanding General will remain practically intact, save for casualties in battle and disease, until July 1, 1901. With the twenty regiments of volunteers soon to be sent as re-enforcements, the Federal military establishment in the Philippines will be powerful enough to work its will in the islands long before the period of enlistment shall have expired.—Philadelphia Record.

There have been seventeen Governors elected in Ohio since the end of the civil war in 1865. Of this number four were Democrats. The time is ripe for the election of a Democrat this year in the evolutionary ups and downs of Buckeye politics, the last Democrat—Governor Campbell—having been elected ten years ago; but Mr. McLean's chances are very dubious. He has money to spend; but he is not backed by a united party, and he is mounted upon a shaky platform. The only thing that can be safely predicted of the Ohio canvass this year is that it is sure to be a very lively one.—Philadelphia Record.

Superintendent Mebane has written to the Superintendent of Public Instruction in Pennsylvania to recommend some good graduate from the Indian school in that State to take a position among the Croatan Indians in Robeson county. The instruction the Croatans have thus far received has not been satisfactory.—Raleigh Times Visitor.

AYDEN ITEMS

AYDEN N. C., Sept. 6, 1899.

The Free Will Baptist Seminary opened Monday with nine, with good prospects of a large number to enter next week. Prof. Davis who had charge of the school last year was re-elected for this term but declined to accept just a short time before the school was to begin. Rev. Thos. E. Peden, of Ohio, was elected principal, and he did not have time to advertise his school which accounts for the small opening. Miss Meta Early has charge of the primary department. Mr. Peden and Miss Early are a strong team and your children will get good attention if placed in this school.

Carolina Christian College opened Monday. Sixty-three pupils are enrolled, with many new ones coming in daily. This term bids fair to eclipse any former term. Prof. A. J. Manning is principal, Miss Maude Koonce and Mrs. Minnie Manning assistants other teachers will be employed at once. This is the best opening in the history of the school and this will be by far the best session. Since last session the buildings have been enlarged and improved. The College is prepared to give special courses and can prepare pupils for any profession or avocation in life.

Little Joe, infant son of Dr. Joe Dixon, died Sunday morning of cholera infantum, after an illness of six days. He was a bright little babe 15 months old. The sympathy of the community are with the parents in their bereavement. At 5 o'clock the body of the little babe was laid to rest in the Ayden cemetery, Rev. C. W. Howard conducting the burial ceremony.

Mrs. J. A. Davis and Miss Annie Smith, our popular lady milliners, left for Baltimore today to buy their fall stock of millinery.

Rev. W. L. Bilbro began a series of meetings at the Baptist church Monday night. Rev. Mr. Kesler, of Rocky Mount, is doing the preaching. Both are excellent preachers and we trust much good will be accomplished.

Mr. J. H. Harris has six children in bed with typhoid fever, and another just able to be up.

Mr. Robert Nelson, Jr., died near here Monday with fever. He leaves a wife and one child, having lost his baby about 2 weeks ago.
