If you want a small farm of 10 acres of A. G. Cox's fine land, write or see him.

L. N. Edward's little baby is very sick. There seems to be no hope of its recovery.

W. L. House has begun work on his new house. We hear of several new houses to be built here at once.

Mrs. J. E. Crow and Miss Mina Birch, of Goldsboro, with Miss Bessie Garris, were up here Monday visiting friends.

Don't you need a wagon? We have one or two on hand, and keep making all the time.

A. G. Cox Mfg. Co.

Our agent, J. E. Green, thinks to relieve agent at Williamston and have relief agent take his place here for a few days.

Mr. A. J. Petty, who has been up in his old section several weeks, visiting Raleigh, Durham, Pittsboro, &c., returned here Monday night.

Mr. Lewis Kittrell has been having some brick hauled to his new house this week. Thinks to have it completed soon, and we hope he will move into it himself.

If it is more convenient for you, have your horse shod at Winterville. A. G. Cox Mfg. Co. have an expert for that business, and if you come once, he has you for a regular customer.

Some inquiries are being received from those anticipating coming to Winterville to school as to board &c. All needful preparations will be made to furnish board as before at lowest rates, for the advantage of boys and girls who could not come otherwise.

STRICTLY OUR SPECIAL.

While we try to keep a full line of Dry Goods and Groceries so as to furnish our customers what they want, yet the best Flour at \$4 per barrel is strictly our specialty. Can you do better than this elsewhere? B. F. MANNING & Co.

STATE NEWS.

Happenings in North Carolina.

The Mormons have a church in Raleigh.

W. R. Ellis, Superior Court Clerk of Davie county, died Monday.

The railroads will make a rate of one cent a mile to the State fair in October.

The Raleigh News and Observer has commenced its 47th volume. It is a good paper.

A farmers institute for Edgecombe county will be held at Tarboro on Thursday and Friday of this week.

A man who swore falsely in Stanley county Superior Court was sent to the penitentiary for six years.

The negro who recently killed a policeman in Concord has been captured in South Carolina and brought back to this State.

Whedbee--Lipscomb Cards.

Cards are out announcing the marriage of Mr Harry W Whedbee and Miss Sallie Lipscomb on the evening of Oct. 4th at 9 o'clock in the Baptist church of this place. We understand that no cards will be issued in Greenville but all the friends and acquaintances of the contracting parties are invited to be present. Immediately after the ceremony a public reception will be held at Hotel Macon.

Colored Man Killed.

Addison Parker, a colored man who worked for the Eureka Lumber Co., on their tram road a mile above Falkland, was killed about six o'clock Tuesday evening. The man was helping to unload a lot of cross ties as the train was moving slowly to distribute the ties, and one of the timbers knocked him off the car so that he fell on the track right in front of the wheels. The front trucks run over his head crushing it terribly. The man lived but a short while after the accident. The remains were brought here this morning and sent by train to Washington.

Gen. Joe Wheeler

Is now taking in the situation around Manila. Now let Uncle Sam relieve Otis and give the Old Buttermilk Ranger a half chance and you'll very soon hear the insurgents calling for the calf rope. The name Buttermilk Ranger was given to our cavalry during the '60s. An army to be victorious must have confidence in their leader. Take the record of General Jackson. Why the soldiers under him knew no such thing as defeat, and to just say that Jackson's in the rear was enough to throw consternation in the camp of the enemy. Confidence is just as important in the commercial world, and the mere mention of the name

FRANK WILSON

creates a panic in the mercantile arena. We cannot understand how we can always get in the rear of their prizes, but this is easily explained. For we have a leader that knows every hog path that leads to the different manufacturing plants of this country, and keeps posted. In this way you see we only buy from first hands, thereby saving the middle man's profit. Our buyer will soon arrive in Greenville and then—

WEDNESDAY, SEPTEMBER 13, 1899

Decline in all Crops.

The September crop report, covering all sections of the State, was completed yesterday at the Department of Agriculture.

The September report shows a deterioration in the condition of all crops since the last report issued by the department August 1st. The reports are based on letters received from regular correspondents in every section of the State.

The condition of cotton averages 75 per cent, which shows ten per cent damage since the last report and twenty-five per cent damage since the issuance of the July report.

Tobacco has sustained the greatest damage. The condition of tobacco was 101 when the August report was issued. Now it is 87. The crop promised to be the largest ever known, and even yet the yield will be unusually large.

Corn has deteriorated since the August report one per cent; field peas three per cent; peanuts two per cent; turnips nine per cent; cabbage six per cent and apples four per cent. Potatoes are the same.

The following is the September report giving the average condition of crops in the State:

Cotton, present condition, 75 per cent; damage since last report, 10 per cent; tobacco, present condition, 87 per cent; corn, present condition, 85 per cent; field peas, present condition, 83 per cent; potatoes (sweet) present condition, 86 per cent; (late Irish) present condition, 73 per cent; peanuts, present condition, 85 per cent; sorghum, present condition, 85 per cent; turnips, present condition, 73 per cent; cabbage, (late), present condition, 67 per cent; apples, present condition, 45 per cent.—Raleigh Post.

Probably 40,000 Negroes Can Vote.

Charman Simmons thinks that between 25,000 and 30,000 colored men in the State can vote under the proposed amendment. We would suppose at least that number can vote if the amendment should pass, as it will. After 30-odd years of public schooling, at the expense of the whites, there ought to be nearer 40,000 who can vote, being able to read and write. The whites have expended not less than \$8,000,000—probably \$10,000,000—of their own money to qualify negroes to read and write. We give this from the wide-awake Democratic chairman:

"It is estimated that between 25,000 and 30,000 negroes in the State can now comply with the test. There are probably in the State two or three thousand negro voters who are direct descendants of what

were known before the war as "free negroes," who were entitled to vote in this State under the constitution as it existed prior to 1835. These will be entitled to vote under the 5th section. There are probably a few hundred negroes in the State who were residents prior to 1867, of states in which negroes were allowed to vote, and they also can vote under the 5th section. The balance of the negroes will not be able to vote until they have qualified themselves under the 4th section by learning to read and write."—Wilmington Messenger.

Unless all signs fail Wm J Bryan will again be the nominee of the Democratic party for president. Bryan in the last election was very popular with the masses. He is honest and his enemies say so. The people may decide this time to elect an honest man. Such a thing is not at all improbable. Bryan has the distinction of being the most stubbornly sincere and conscientious man in public life in the United States at this time.

Four Things to Know.

In Massachusetts more money is invested in cotton mills than in any other manufacturing industry, but the making of boots and shoes yields the most valuable product.

Over 1,000 houses in London are tenantless because they are supposed to be haunted.

A Chicago rat-catcher is reputed to make \$6,000 a year at the business.

St. Louis is the greatest mule market in the world.

It is Tenacious.

Nothing in the world is more tenacious than newspaper circulation. An old newspaper seldom loses its circulation through competition. If others get circulation, it is usually not at the expense of an old newspaper, but at the expense of the reading public. If they get business, it is not at the expense of an old established paper's rates, but at the expense of business men who pay twice, or something like it, for the same thing, that is for the same or almost the same circulation.—Quebec Daily Telegraph.

A Necessary Element of Trade.

The remarkable evolution of newspaper advertising from the crude and quaint efforts of a century ago to the extensive and descriptive character of the business announcements of the present is illustrative of the growth and extension of commercial enterprises. This modern system of advertising has become a necessity and inseparable element of domestic trade, and its universal value and application are fully recognized by the progressive merchant. He uses the columns of a popular newspaper on the principle that everything which may be legitimately sold or exchanged may be advertised, and carries out his belief by giving to the public ample and constant information regarding the wares he may have for sale.—Philadelphia Record.

Large bottles, (containing nearly a quart of medicine) for sale by all druggists at \$1 per bottle. B. B. B. is always ahead of other blood remedies for curing blood humors. Try B. B. B.

The Way to Make Money.

The way to make money in business is invariably to have the best article of its special kind in the market; not merely as good as some others, but better. There is always a public ready to pay a fair price for the best of anything. Never key a price too high, but on the other hand never key it too low. A reasonable profit is every man's right in business. Small profits are of consequence only when an immense business is done. But with the best article of its kind, what may be termed "a profitable profit" is always possible.—Ladies Home Journal.

The Only Coin of the Confederacy.

"The government of the Southern Confederacy issued millions of dollars of paper money, but it never turned out any coin worth speaking of, said Mr. M. D. Harwell, of New Orleans, at the Normandie.

"Arrangements were made in 1861 with a Philadelphia engraver to make a set of dies for the coining of money of the same denominations as those in use in the United States at that time. But the dies were never completed further than for the 1-cent coins, as at this point the engraver was arrested and all his equipment confiscated. A very few of the 1-cent pieces had been struck off. This was, I believe, the first and only attempt made by the Confederacy to get out a supply of its own metallic money."—Washington Post.

No Need to Make ANY MISTAKES

IN STYLES IF YOU TRADE AT THE RIGHT PLACE.

And if this store was not entitled to that designation, we would not be doing the business we do. You are not supposed to be "up" on every late fashion plate and change, but we are. And we do so keep up to date. It is not enough for us to sell you anything and everything.

We are impelled by business Honesty and Principle to sell you the latest and most stylish of goods.

This is our duty as progressive merchants and we aim to meet the same on all occasions.

Our stock is in style, new style, this season's style.

When you buy here, therefore, be assured of one certain basic fact: you are procuring the latest, you are wearing what was made to wear at just this time, and, therefore, the most fashionable to be had.

J. B. CHERRY & CO.
