Our people are interested in temperance. Several meetings have been held.

Addresses have been delivered by both of the college presidents and by some of the resident pastors.

Parents and children are signing a temperance pledge. Many pupils in the schools have signed it.

If parents and children will abstain from all intoxicants, in a few years our country will be full of sober people.

There will be no saloons, as there will be no demand for them.

A. D. BETTS.

Better Than Ever.

Kayton's Komediens, who are filling a week's engagement here, have made their company stronger and better than ever. They engaged two of the specialists out of Fields & Hanson's minstrel troupe, and will also have a third specialist to arrive on the train this evening in time for tonight's performance. Don't miss it tonight and you will see the best entertainment of the week.

Matinee Saturday afternoon and closing performance Saturday night.

Man Killed.

Daniel Fleming, colored, one of the hands of the Greenleaf Johnson Lumber Co., at Whichard station, was killed Thursday night while the train was coming out of the woods for the station. One of the logs rolled over endways striking him on the head breaking his skull. Another negro was struck but not seriously hurt.

If several cottages to rent for a moderate price were built in the next few months they would find occupants as fast as completed.

FRIDAY, OCTOBER, 27, 1899.

Every paper that has expressed an opinion on the matter, so far as we have noticed, has said that the Senatorial discussion should rest until after the election, at least until the Constitutional Amendment is voted upon. THE REFLECTOR will suggest a plan by which the Press can stop this discussion, and stop it more effectually than in any other way.

A BRIEF HISTORY

Of the Junior Order of United American Mechanics.

BY H. C. LINTHICUM.

The wonderful progress and influence of the Junior Order United American Mechanics have earned for it the prominent position it now occupies among the beneficial fraternities of the United States. There are many causes for its rapid growth and influence. Its intrinsic merit as an organization which teaches and exemplifies the principles of brotherly love and friendship, its precepts inspire all with the divine idea of the brotherhood of man, and bring to the surface the generous impulses which tend to pleasant, harmonious relations to our fellow-man.

When this is found the secret place of nature is struck, and may be worked into productiveness of mental and moral being. The true friend is born for adversity. His grip has the tenacity of steel. Not when prosperity attends our steps, and honors wreath our brow

but when conditions have changed and the summer has turned into winter of adversity does this plant shoot forth like the pine amid alpine snows. Virtue expressive of truth and right relative with God and man affects all our relations with society. It is what gravitation is to the solar system, and without it society could not exist. Truth is absolutely necessary to civilization as much as sunlight, air or food, "for man does not live by bread alone." Cultivate the principles of our order and live them in our lives, and you see as far as possible that they are incorporated into our National Government. As a paternal and benevolent order it is purely American, watching over and caring for the wants of our brothers when sick and disabled and to shield the widow and orphans of deceased brothers as would the eagle her young and tender brood. What nobler attribute can man have than that he shall love his brother! This is what the order teaches. In the years through which the thread of our records run we have added thoughts and deeds, which fill the mind and give incentive to the members, until their hearts bear deep stamped the impress of our motto, "virtue, liberty and patriotism," and which make sweet and lasting the relations in which the members of our order are united.

The Junior Order is the most patriotic exponent of the virtue of the greatest nation on the face of the globe, composed as it is, of representative American patriots, having its beginning in the patriotic impulses that gave freedom to people and drove the haughty tyrant from this glorious land of ours and wherever our organization holds sway we are one in object, one in brotherhood and one in name.

Founded on the 17th day of May 1853, at Germantown, Pa., in the Concord school house. The order now embraces within its 2,500 Councils throughout the country over 250,000 members, many of whom are well known journalists, lawyers and some of the most influential men in trade and commerce in the United States.

Our order pays out yearly about \$1,500,000 to suffering humanity.

OUR ORDER DECLARED.

The constant landing upon our shores of the hordes of ignorant, vicious and lawless criminals of the old world should be viewed with alarm by the loyal and patriotic citizen of this country. We affirm a warm and hearty welcome to all emigrants who desire to better their condition and become a part and parcel of our nationality, but we have not one square inch of room for the anarchist, the socialist and nihilist, or for any one who is not willing to bow allegiance to that flag, which is powerful enough to shield and protect them as well as us, in the exercise of all civil and religious liberty.

That no person who is engaged in active wholesaling or retailing alcoholic or spirituous liquors as a beverage shall be received to membership.

We affirm our devotion to the Public School system of this country. We believe in compulsory education, and that all teaching in our schools should be in the English language, to the end that future generations may be able to take their places in the ranks of our country's workers, educated in the history, customs and manners of Americans.

We guarantee to every man the liberty or worshipping God according to the dictates of his own conscience, and would give every assistance to protect all in the exercise of this liberty, but we object most strenuously to the interfer-

ence of any church, no matter under what name it may exist, in temporal affairs of this country.

We believe that the Bible should be taught in our public schools, not to teach sectarianism, but to inculcate its teachings. It is the recognized standard of all moral and civil law.

We therefore believe that our children should be educated in its teachings, but that no dogma or creed should be taught at the same time. We believe that patriotism and love of country should be instilled into the hearts of children, and that with the sacred words of God, mother and home; and children should be taught that our flag is the symbol of all that makes home for us here on earth. We would place a flag upon every public school in our land, and a Bible within, and the object lesson therein set forth should be a beacon light in every storm which threatens to engulf us.

In this noble and patriotic work we ask the cordial and hearty cooperation of all good citizens. In this grand work we need the helping hand of all organizations holding the same views and principles. Remembering united we stand, divided we fall.

Our Country is our Motto, we affirm our allegiance to our order in united and intelligent action in carrying out these principles.

THE "NECESSARY" MAGAZINE

The best-informed men and women in the world use the AMERICAN MONTHLY REVIEW OF REVIEWS to keep well informed, and call it the "necessary" and "indispensable" magazine. In the busy rush of to-day ambitious men and women must know about the important questions of the month, and not only this, they want to know about them at the right time. When the whole country is puzzled over the gigantic combination of trusts, a well-informed article is printed in the AMERICAN MONTHLY, giving the facts, and its editor discusses the theory; when the Dreyfus affair is in everyone's mouth, the best story of Dreyfus and the great case comes out in this magazine.

Every month, in "The Progress of the World," Dr. Albert Shaw gives a comprehensive picture of the world's history during the previous thirty days. In the departments, the valuable articles and books that have been published during the past month are reviewed and quoted from, so that the readers of the AMERICAN MONTHLY can get the gist of them. In every issue nearly a hundred pictures are printed, including the portraits of the men and women who are making the history of the month.

To be thoroughly well informed helps any man or woman in his or her work. A subscription to the AMERICAN MONTHLY REVIEW OF REVIEWS represents an investment for the best kind of profit, as well as entertainment. One subscriber has just written: "Count me a life subscriber, and when you send me a number beyond the limit of my subscription and secure no renewal from me, consider it a notice of my death."

Price 25 cents per number, \$2.50 a year.

A sample copy will be sent on receipt of ten cents in stamps.

There has been much discussion as to when the twentieth century begins. The Chicago Tribune has appealed to Prof. W. H. M. Christie, director of the Royal Observatory at Greenwich, for an authoritative statement on the subject, and he says it begins on the 1st of January, 1901. "It has been generally agreed," says Prof. Christie, "to call the first year of the christian era anno domini 1, not A. D. 0, and consequently the second century begins with A. D. 101, 100 years after the beginning of the first year, and so on for the succeeding centuries." This settles the question and settles it right at that.—Charlotte Observer.

The city of Copenhagen, Denmark, is overrun with rats, and is trying to exterminate the pests by offering a small bounty on each rat killed. In the first week 6094 rodents were officially recorded as having been slaughtered; the number grew to 6616 in the second week, and to 6780 in the third. When the number shall have reached 10,000 per week it is thought that some impression will have been made on the army of rats. Meanwhile rat catching is a popular and lucrative sport with the youth of the town.

Unless you want to stop your business don't think of stopping advertising. If you stop the latter the former will stop itself.

A good ad. first catches attention, then awakens thought and then half the battle is over.

The reason some ads. are not read is there is nothing in them to focus the public eye.

You can get money out of advertising, but you must first put some in.

Today is the best time to advertise. Tomorrow you might not be able to do so.

Advertising brings business. Luck sometimes does the same thing, but it can't be depended upon.

The middle classes are the greatest readers of advertising. They read advertisements as a matter of domestic economy, so as to make dollars go to the utmost limit.

It is what you say in your ad. that draws customers. Whether you hold them or not depends on what you do afterwards.

Advertising does wonders when intelligently carried on and backed up by good business management.
