The University.

The growth and expansion of the University should be a matter of pride to every North Carolinian. In efficiency, patronage and public favor it is now second to none in the South. Its requirements are exact, its standard rigid, its tone of life high and manly. Its academic roll is the largest in the South, and in all its history it has never been so close to the people, and so able to serve them. Ambitious and needy boys should remember its motto is, Equality, Opportunity and Self-help.

FOURTH OF JULY.

Well Behaved Crowd in Town.

The colored people celebrated the fourth here Wednesday as usual. The town was full of colored people from early in the day until a late hour at night. After the racing between the two colored fire companies and other amusement on the streets they had a grand cake walk at night in the Farmers Warehouse until a late hour.

The crowd was well behaved. Not a single arrest was made during the whole day for drunkenness or any other cause, and Mayor Moyer says he did not have to issue a single warrant. Two extra police were on and they with the regular force patrolled the town until midnight. This speaks well for the behavior of the colored people.

They Stand The Test.

That is what Every Pair of

Dutchess Pants

Is guaranteed to do. Can you imagine a severer test than to tie one leg of a pair of pants to the ceiling and swing a keg of nails weighing 110 pounds to the other leg? That is the test seen in our window and hundreds of people have looked in wonder.

Dutchess Pants

are built to stand any kind of service and a guarantee goes with every pair—10 cents if a button pulls off or \$1 if they rip. Get the best when you buy and be sure you get the Dutchess! None genuine without the name on the button.

THURSDAY, JULY 5, 1900.

The returns from the potato crop this season are most disappointing. The exceptional farmer has got out even while the majority are losers. An instance of potato profits was an incident witnessed in a barber shop here last evening, when a patron was approached by the boot black and asked: "Wan't a shine, sir?" "Tell you what, boy, I will give you the profits on 90 barrels of potatoes I shipped last week for a shine." The boy refused the proffer and took the usual "nick."—New Bern Journal.

Evolutions of Advertising.

Newspaper advertising is the product of an evolutionary process. At first the news journals only mentioned, as of interest to the public, the arrival of wares for sale. Then the merchant developed a preference for making such announcements themselves. The great display "ads" of to-day are sequential upon the primitive warehouse paragraphs. Advertisements are read for the information they give, and naturally belong in newspaper columns.—Philadelphia Record.

A Sensible Kansas Girl.

A Kansas girl graduate who had been given the theme "Beyond the Alps Lies Italy" promulgated the following: "I do not care a cent whether Italy lies beyond the Alps or in Missouri. I do not expect to set the river on fire with my future career. I am glad I have a good, very good education, but I am not going to misuse it by writing poetry or essays about the future woman. It will enable me to correct the grammar of any lover I may have, should he speak of 'dorgs' in my presence or say he went somewhere. I will also come handy when I want to figure out how many pounds of soap a woman can get for three dozen eggs at the grocery. So I do not begrudge the time I spent in acquiring it. But my ambitions do not fly so high. I just want to marry a man who can 'lick' anybody of his weight in the township, who can run an eighty acre farm and who has no female relatives to come around and try to boss the ranch. I will agree to cook dinners for him that won't send him to an early grave, and lavish upon him wholesome affection, and see that his razor has not been used to cut broom wire when he wants to shave. In view of all this I do not care if I do get a little rusty on the rule of three and kindred things as the years go by."

The Treasury surplus during June increased \$17,895,159, and the surplus of receipts for the year was \$81,229,777.

The Presidential Count.

With the nomination of Mr. Bryan and a running mate, the political entries for the presidential handicap will have been closed and politicians will begin to figure on the probable results in the country. In order to estimate results in 1900 from a reasonable starting point, it is well for voters to be equipped with a record in the election of 1896, which was as follows:

State	Plurality	Votes
California	2,797	8*
Connecticut	53,545	6
Delaware	3,630	3

It will be seen that in 1896 President McKinley received 271 electoral votes and Mr. Bryan 176. In the opinion of many people Delaware's 3 votes, Kentucky's 13 and Maryland's 8 are more likely to go for Bryan this year than for the Republican nominee. With these changes the count would stand McKinley 248 and Bryan 198. But there is in addition to these the growing conviction that New York is good fighting ground for the Democrats, and even some of the Republican authorities believe this State will be lost to McKinley. The Chicago Times Herald declared the morning after the nomination of McKinley and Roosevelt that the Republicans would now have to bestir themselves and elect their ticket without New York. If the Empire State should vote for Bryan he would have 235 votes and McKinley only 212. New York will be the exciting battleground of the campaign and will enjoy its old distinction of the pivotal State. The men who cannot figure out the possibility of Bryan's election under the circumstances, with these figures before him, is a mighty poor Democrat.—Augusta Chronicle.

The statement of the public debt issued shows a decrease during June of \$14,897,553.

To Avoid Cotton Fires.

The awful catastrophe in Hoboken which started from the ignition of a loose cotton bale again calls attention to the danger involved in storing or transporting cotton in the non-compressed bales. There is no one article, not even petroleum, sent from this country over sea that carries with it so much liability to take fires cotton packed in the ordinary manner. In tanks petroleum may be isolated from all danger, but ordinary cotton bales cannot be loaded compactly enough to remove the possibility of fire through carelessness or friction or spontaneous combustion. Yet compressed to the hardness of a rock, and to one-sixth the dimensions of the bales as usually packed, there is no safer cargo than cotton.

Several methods are in use to effect such compression—one, which was astonishingly successful having been exhibited at the late Export Exposition in this city. There is no reason why one of these methods should not be put into use with every bale of cotton shipped. In no other manner may the constantly present danger of fire at sea on ships carrying cotton be minimized.

If the marine underwriters and the steamship companies themselves shall be so blind to their own interests as not to compel the adoption of one of the methods of baling cotton by compression, then every intending passenger should refuse to take passage on a ship carrying that staple.—Philadelphia Record.

Gen. J. S. Carr for Vice President.

Kansas City, July 3.—The North Carolina delegation met at headquarters, at the Coates House, tonight, and made the following selections: For member of committee on credentials, A. D. Watts; for member of committee on permanent organization, Dr R H Speight; for member of committee on rules and order, W C Dowd; for member of committee on platform, A C Avery; for member of national committee, Josephus Daniels; for honorary vice president, J R Blair; for honorary secretary, E N Green; for member of committee to notify President, J A Brown, with H McD Robinson alternate; for member of committee to notify Vice President, L Harvey, with T M Arrington, alternate; for chairman of delegation, E J Hale.

The delegation arrived here this evening and is in fine shape. All of the delegation are here except Judge A W Graham, of Oxford, and R P Walker, of Asheville. It was decided to place General Julian S Carr in nomination for Vice President. Mr S M Gattis, of Hillsboro, will place General Carr in nomination.

The attention of our readers is called to the advertisement of The North Carolina State Normal and Industrial College appearing elsewhere in these columns. This college places the best educational advantages within the reach of the young women of the state at a cost ranging from \$92 to \$132.

We notice that 490 young women representing every section and nearly every county in North Carolina were enrolled as students during the session of 1899-1900. Of these 299, according to their own statements, would have attended no other college; 172 of them defrayed their own expenses; 40 of them earned most of their expenses by work in the dining-room and laundry; 105 of them had taught before entering college; 427 of them were prepared partially or entire-

ly in the public schools. Any young woman upon taking the pledge to teach after leaving the college two years in some public school or private school of the state will receive free tuition. All free tuition students cannot secure boarding places in the dormitories, but each county is entitled to a certain number of appointments to these places. The entire expenses including the use of text-books of a young woman holding such an appointment would be \$92 for the college year.

This county is entitled to 2 places in the dormitory.

An increase of from \$50 to \$100 each have been ordered in the railway mail service employes' salaries.

HEARD AND SEEN IN WASHINGTON.

WASHINGTON, N. C., July 4, 1900
 The Parson's Mill, at the mouth of Blount's Creek, was burned

down on Sunday morning. No insurance that I hear of. Loss about \$5,000. The mill will be rebuilt.

We had the pleasure of a trip with Capt. A. W. Styron on Sunday last, on the steamer Lillie. She is now running from Washington to Ocracoke on Saturday nights, and returns Sunday nights. The steamer has been put in thorough order and is neat and comfortable. Belhaven has handled about 80,000 barrels of potatoes this season, and about one half of them came from Aurora and vicinity.

Rumor has it that the steamer R. L. Myers will be taken off her route temporarily, for repairs and the steamer Tar River run in her place.

Mr. Chas. Powell, engineer of steamer May Russell, is seriously ill.

The young people of the Church of Christ had a lawn party on Friday last.

Mr. Thos. Hodges, of Pitt, was in our town on Monday.

H E Hodges was in an affray a day or two since as was a Mr. Leggett. The particulars I have not learned.

A. Latham is down on Pungo river serving as engineer on steamer Geo M Hill, for a few days.

The steamer Lillie took the Hyde mail down this morning.

W H Wilkinson has launched his steamer, the Lena.

Mrs. John D Bullock, of Rocky Mount, is visiting Mrs. A Latham.

Belhaven and Scranton have electric lights in the Alleghany Company's stores, mills and offices, and the Norfolk and Southern R R has water works at Belhaven.

The workers here for the Amendment tell me that the sentiment for it has improved much. Many wayward ones are coming into the fold. JIM NASTIC.
