### WAR IN CHINA.

#### The Americans Suffer Terribly.

Tien-Tsin, July 13, via Che Fu, July 15, and Shanghai, July 16 — At 2 o'clock this afternoon 2,000 of the allied troops were attempting to storm the wall of the city. The attack began at daylight. Its success is doubtful. The Chinese on the walls are estimated conservatively at 20,000. They are pouring a terrific hail of artillery, rifle and machine gun fire upon the attackers. The Americans, Japanese, British and French troops are attacking from the West and the Russians from the East. The Americans suffered terribly. As the Associated Press representative left the field, the chief surgeon of the Fifth Infantry said a conservative estimate was that 25 per cent of the Americans were hit. Colonel Liscum is reported to have been mortally wounded as he was walking in front of the troops. Major Regan and Captains Buckmilles, Wilcox and Noyes are among the wounded. The marine losses include Captain Davis, killed, and Butler, Leonard and several others wounded. Officers declared that it was hotter than Santiago.

When the correspondent left the Americans were lying in the plain between the wall and river under an enfilading fire and direct fire. It was difficult for them to advance or retire. The correspondent counted 300 wounded men of all nationalities.

#### No More Doubt About It.

Washington, July 16.—Without exception, today, the foreign representatives in Washington accepted as certain that the foreign legations and ministers at Peking have been wiped out. At the same time there is not a word confirmatory from any of the foreign officers and the conclusion is based on the accumulating unofficial data that the slaughter occurred about July 6 or 7. Even among the high Chinese officials hope has been about given up, but they maintain that there is no official information and that they are as much in the dark as others.

#### Broke Out.

Noah Hardy and George Taylor, two negroes who were tried before Mayor Moye for fighting and put to work on the streets to pay the cost, broke out of the guard house Monday night.

Both were confined in the same cell and escaped by prizing up some planks in the floor and cutting a hole with a knife. The negroes have not been seen since they broke out.

Taylor was arrested once before for disorderly conduct and ran away before he had worked out all the cost in the case, but came back a day or two before his last arrest.

The frog may be in the swim and the grasshopper always on the jump, but it takes the mosquito to get in the push.

It the proposed Amendment to the Constitution is unconstitutional, why is it that Butler and Pritchard are fighting it so hard? Why not leave it for the courts to decide?

How's this?—Dr. Cox says that at Mr. J. W. Garris's about a year ago a bottle of milk which they had suspended in the well to keep cool dropped to the bottom. Last week the well was cleaned out and the milk was found to be nice and sweet, but soured and turned to clabber in about one hour after being removed.

WEDNESDAY, JULY 18, 1900.

The fusionists have not yet named their ticket in Pitt county. The fact of the business is they see they have not the ghost of a chance of electing anybody, and it is just a waste of ammunition for them to put out a ticket and see it buried under 500 or more majority. If there are any populists waiting with the idea of voting for a black-and-tan ticket they had as well come on and go with the Democrats where they belong, and help make the majority for the Amendment and the Democratic ticket that much larger.

We hear that some people have the idea that nothing but the Constitutional Amendment is to be voted on at the August election. This is a great mistake. All State officers, all Legislative officers, all county officers and all township officers are to be elected on the 2nd day of August. In fact we vote for everything then but for President and for Congressmen. The Amendment is the overshadowing issue of the campaign, but all the officers above referred to must be voted for at the same time with it. Every voter should be sure to keep this in mind and see that none of the ballots are missing. A list of the officers to be voted for on the first Thursday in August is printed in every issue of THE REFLECTOR.

A case of newspaper corruption has just been disclosed that puts to shame anything that has occurred in North Carolina. For some time it has been noticed that the Asheville Gazette had been filling its columns with matter favorable to the Republicans and against the Constitutional Amendment, while it at the same time pretended to be a Democratic paper. It now turns out that the paper had sold its principles to the Republicans, the agreement being between the editor of the Gazette on one side and Holton and Pritchard for the Republican committee on the other side, that in consideration of \$5,000 to be paid in installments of \$1,000 each, the editorial utterings and policy of the Gazette was to be controlled by the Republican committee. This has all been exposed in an affidavit made by a minority stock holder of the paper.

Indelible Ink at Reflector Book Store.

Don't lose sight of the State ticket. Every officer on it must be elected in August.

Don't lose sight of the county ticket. Every man on it must be elected in August.

Don't lose sight of the township ticket. Every officer on it must be elected in August.

Don't lose sight of the Constitutional Amendment. That must be carried in August.

Don't lose sight of your duty on election day. Be a white man and stand by your race.

### Butler Drove Him Crazy.

Senator Marion Butler might have gazed at the depot Friday morning upon a poor, deranged hulk of what was one time a sane, consecrated servant of God. A man who has tolled for the salvation of souls until the winter of life has whitened his hair and has gone at last to spend perhaps the remaining days of his life in solitude and wretchedness in the Morganton asylum.

"God has given me a mission," said this unfortunate man, "that mission is to whip Marion Butler. I must do it, I must do it," he repeated.

The gentleman referred to is Rev. James S. Lamron, of Rockingham county, a Baptist minister of high standing in his county and a man who commanded the respect of all who knew him.

Rev. Lamron is 64 years old but is yet a vigorous man. He developed a strong antipathy to Senator Marion Butler (most probably on account of Butler's enmity to the rule of white men in North Carolina) and the desire to avenge the State by visiting physical punishment upon Butler is ever present. —Salisbury Truth.

### Getting at the Marrow.

In a conspicuous advertisement in the Sampson Democrat, the White Supremacy Club, of Clinton offers "\$100 in cash to any native born white man in Sampson county who will be disfranchised by the amendment because he cannot read and write" and tells where the money is deposited. This is getting at the marrow of the matter and is a guaranty of good faith which cannot be called in question. It is a perfectly safe proposition, as those who make it know. There is not a native born white man in the State, however ignorant, who will be disfranchised by the amendment and those who assert the contrary are lying and they know it. —Charlotte Observer.

The desperation of the fusionists is beginning to know no bounds. With the failure to disrupt the democratic party by every falsehood known, they were enraged, and their rage increased as they saw the democrats in solid line when the campaign had gotten underway good and the mists had been cleared away. But this is nothing compared with their chagrin and disappointment when they beheld the beginning of a large exodus from their ranks of the best and most honorable men of their party. The populist as a party, have deserted them, and many of the best republicans are doing so every day. —Greensboro Record.

A lively canvass is in progress in Florida on the question of removing the State capital from Tallahassee to some other city. Tallahassee will make a strong fight to retain the capital, while St. Augustine and Jacksonville will put forth strong efforts to secure it.

### The Facts of History and the Present Contest.

It is a truism that that government which most concerns the people is the government which is nearest to them—thus, in the order named, municipal, township, county, State. Unless these are safe, honest and prudent, protecting life and safeguarding property, progress and prosperity are hindered and serenity and contentment surrender to uneasiness and unrest. These propositions will not be denied, and in them is to be found the supreme arguments for the adoption next month of the constitutional amendment and the election of the Democratic township, county, legislative and State tickets. As to the first, the black man has proved himself a failure as a voter; he has never acquired an idea concerning the responsibilities which go with the ballot; he votes invariably with the worst whites and thus against his own interests as well as those of the white race; as a voter he must go—it is better even for himself that he should. As to the rest, North Carolina has once tried Republican rule straight—this was in the last half of the 60s—and next, Republican rule with an admixture—this was in the 90s. What the first brought the State, history teaches in letters of living light; what state of affairs attended the second, is familiar history to those now living. Both the experiments were disastrous in their result and odious in their memory to people ambitious of good government—of economy in the conduct of public affairs; of public and private peace and prosperity.

In view of the record, it is difficult to imagine why there should be any doubt—if there is any—as to the result of the forthcoming election, apart from the theory that the people of North Carolina have lost the faculty of recollection and taken leave of their senses. Their highest personal and public interests are involved in the contest; they must know it; and surely when they do know it, it can never be said of them they are insensible to those things which make for their own welfare or lack the manhood to apply the means, in the face of all threats and bullying, which will save them a duplication of the experiences which the State has already twice suffered as the result of misgovernment in the majority of its towns and counties and in all of its departments at Raleigh. —Charlotte Observer.

When the negroes elect a white man to an office we have negro rule and likewise when negroes hold office we have negro rule. This is bound to be so. The office holder is bound to represent the people who elect him. He is bound to respect, and love and admire and praise and feel near to the people who put him in office. Then it is just as plain as noon day sun that we have negro rule when white men are elected by negro rule. The negroes say this is true, and also say that they would not vote such a ticket if they did not know it. On this subject no white man can dispute a negro's word. —Lexington Dispatch.

There were but 5,300,000 people in America when this century opened, France had five times as many people; Germany, and even Austria, had four times America's population; Italy had three times as many, and so had Great Britain. Even Spain had double our number of people, and little Portugal was almost our rival in numbers. We have more people now than any European nation except Russia, which alone leads us.

### Changed Her Mind.

Miss Hanna Meyer came all the way from Austria to Montaua to marry Christopher Schmidt and then wedded the best man, Joseph Kunz. Mr. Schmidt made \$65 out of the transaction. This happened in Stockett, a coal-mining town near Great Falls.

Miss Meyer's change of mind came at the altar. The wedding guests had assembled, when she announced that she did not love Schmidt enough to marry him, but preferred Kunz. While the guests waited the bridegroom and the best man negotiated. Kunz agreed to pay Schmidt \$65 and the ceremony proceeded with the positions of the two reversed.—Great Falls, Mont.

The train to Norfolk over the Southern that has been running via Selma is to be changed and after the 22nd will run via Danville. The Southern had an arrangement with the Coast Line for the use of its tracks, but was unable to haul passengers between Selma and Norfolk, depending on its through traffic for work. Therefore it has not been very profitable.

It is said that within the past five years the Chinese have purchased in England 71 big guns, 123 field guns, and from Germany 460,000 Mauser rifles, and 3,000,000 pounds of ammunition and hired fellows to teach them how to shoot too. The impression is that some of these instructors are with them yet helping them to take aim at the other fellows.—Wilmington Star.

**People Read "Ads."**

The advertiser of today does not have to resort to wiles to lure the people into reading his announcements. While serving his own interest, he confers a favor on them by the information he has to give. They read his advertisement as they do anything which tells them something which they want to know.—Philadelphia Record.

**Bright Outlook.**

The speakings that the county candidates are having at night in various parts of the county are well attended, and good work is being done both for the ticket and the amendment. They have appointments two or three nights every week, and those who go out hear some good speeches.

**Fine Apples.**

Today Mr. C. M. Ross brought THE REFLECTOR some of the finest apples we have seen this season. His father, the late Elder Alfred Ross, whom everybody called "Uncle Alfred," used to as regularly as the summer come around bring us some of his apples that he called "June sweetenings," and it took our mind back to his visits when his son came in and said "Here are some of father's June sweetenings."

The Chinese may worship graven images, but just at present they are far from being idle.

The coal dealer usually makes enough in winter to have an ice time during the summer months.
