STATE NEWS.

Happenings in North Carolina.

The next Legislature will be asked to submit the dispensary question to a vote of the people of Cumberland county.

The strikers in the cotton mills at Durham are on the verge of starvation and an appeal has been made far help for them.

Mr. Charles Coppedge was killed by the train out near Whitehead's Crossing in Halifax county on Saturday night. His head was badly mangled and was no doubt hit by the cow-catcher.

The west-bound train bearing the members of the State Press Association was delayed two hours at Old Fort by the derailment of freight cars two miles from there, up the mountain. No lives were lost.

At 4 o'clock yesterday afternoon, during the heavy storm, lightning struck a telephone wire connected with the 'phone in J. H. Emery's store on West Trade street, below the Southern depot, and set on fire the wall papering which ignited a lot of papers and inflammable stuff piled upon some boxes. The alarm was turned in and the fire departments promptly responded and put out the fire. The damage was slight.

Lighting also struck the basement of the church steeple of the Lutheran church on North Tryon street, between Seventh and Eighth streets knocking off a part of the wood work and a number of brick. The part of the wall where the lighting struck was blackened and scorched.—Charlotte Observer.

The following is from Town Topics:

Under no circumstances can mob law be justified in a civilized community; but it is only fair to say that the negroes of New York have brought trouble upon themselves by the outrageous insolence of their behavior on the streets, in tenement houses and in the cars. They have not been satisfied with being considered as good as white people; they have assumed to be superior. The Republican party committed a gross crime against the republic by giving them votes before they were educated to the franchise, and the Republicans are always coddling and petting them by appointments in the national departments as janitors, porters and letter carriers in order to win their ballots. Puffed up by this political favoritism and presuming upon it, the negroes have made certain sections of New York uninhabitable for the whites, and in consequence of the prevalence and arrogance of negroes white persons find it unpleasant to pass along Sixth, Seventh and Eight avenues, between Twenty-third and Forty-fifth streets after night fall. No other racial quarter of the city—not even the Chinese quarter—is so barred against the majority of our citizens. While these facts do not justify negro-baiting, they show that to some extent an application of the law of retaliation.

We publish this not as any endorsement of the indiscriminate and outrageous violence upon the negroes in New York during the growing anti-negro sentiment at the North.—Charlotte Observer.

The wife of a Methodist minister in an Indiana town has been married three times. Her first husband was named Robins, the second Sparrow and the present one is Quayles. There are two little Robins, one little Sparrow and two little Quayles, and they live, on Bird street. Their fellow townsmen design them as the game family.

Betting on the Election.

The betting on the election is a bad factor in politics just now. On July 11 it was 4 to 1 on McKinley. Since then these odds have declined gradually; but day before yesterday they were at the enormous disproportion of 2½ to 1. Such overweening confidence of success on one side is not justified. It is foolishness, and it tends to increase the chances of success for what is called the "short end," for the reason that it spreads the already too pervading sense of surety which to-day threatens to paralyze the Republican vote.

The Democratic party is at the tremendous disadvantage of asking the country to delicate itself to repudiation, and to submit to rebellion against its authority—the plea which was made from the same source in the time of the civil war. But there is in the Democracy a worship of the party name that doesn't concern itself with the actual issues of politics; and further than that, there is in Bryanism, the genius of rebellion against the existing peace of society, a passion which four years ago, when the splendid anti-repudiation carried thousands of Democrats into the Republican camp, swelled the Democratic vote to a greater size than had ever been cast before. What that vote may become next fall no one knows, notwithstanding some people are betting 2½ to 1 that it will fail to elect its candidate.

The rational odds on McKinley are no more than 5 to 4, or less, say 10 to 9, and even these should be the other way unless there soon runs through the Republican party and the casual supporters of the principles that it stands for an understanding of the danger which is in Bryanism and a resolve to overcome it by the individual effort of every man. Wake up, all!—New York Sun.

Fire in Greensboro.

Greensboro, N. C., Aug. 29.—About 11 o'clock today fire broke out in the basement of the L. Richardson Drug Company's wholesale house in South Elm street. In the basement were several barrels of oils, varnishes and other combustibles, and the fire raged fiercely. The fire was caused from a lantern an employee was holding while drawing from a barrel of Japan dryer. After an hour's fighting the firemen stopped the flames with comparatively small damage to the building, which is the property of W. O. Doggett. The L. Richardson Drug Company carries a stock of about \$35,000, with \$17,000 insurance. Their goods are damaged to the amount of \$8,000 or \$10,000. Two ladies employed up stairs were cut off by the blinding smoke, but were rescued by the hook and ladder boys. One of them, a Mrs. Gallahan, sustained a severe cut in the face by being struck with a ladder.

Heard in the Composing Room.

An exchange gives this unique order of the editor to the foreman of a sample of printing office phraseology: "Billey, put George Washington on the galley and finish up that murder commenced yesterday. Set up the ruins of Hercules and distribute the small-pox. You needn't finish the runaway matter. Look up Jeff Davis and slide Ben Butler into hell and leave the pie alone until after dinner. Put the lady's form to press and go to the devil and put him to work on Deacon Fog's article on eternal punishment."

It is the purpose of the management of the State Fair to emphasize in the future, the educational department. The premium list for the present year has been enlarged and enriched. Among the valuable premiums offered is a school library of thirty-four bound volumes of standard authors, which has been donated for that purpose. The premiums offered the schools and colleges are for general exhibits; those offered pupils are for penmanship, map-drawing, industrial and mechanical work, art, &c.

Four premiums are offered for essays, subjects: The Best Book I have Read this Year, and Why I Like It; "North Carolina and Her Resources." First and second premiums on each subject.

The educational exhibit will be in the most prominent part of the main building, facing main entrance. Friday, October 26th, is to be educational day, and a special program for that day is being arranged that will be of interest to all but especially to students and teachers and parents who are interested in our educational exhibit.

Mr. Charles J. Parker, manager of the Educational Bureau, who was for nearly three years secretary of the State Teachers' Assembly, will be director of the department. He will give his personal attention to the exhibit, seeing that they are in proper place, well cared for and returned.

For premium list and full particulars address Mr. Parker at Raleigh.

Those Hyde County Fires.

The papers all over the country are publishing under big headlines the statement made by Dr. Capehart, that enormous fires in Hyde county destroy trees and soil. The soil is pithy and burns like tinder. One farm, valued at \$10,000, is so burned away that its owner says it is not now worth \$100. Fire is burning far underneath the surface in many places. Dr. Capehart is informed as a farmer was driving along a highway the soil gave way under him and he and his horse fell into a pit and were burned to death. The smoke extends many miles at sea and by obscuring the light at Oregon Inlet, has caused two wrecks in a fortnight.—Raleigh News and Observer.

Why Drummers Favor Bryan.

No wonder the drummers are against McKinley. The trusts have cut off 60,000 commercial travellers. Mr. Quim, in a recent speech in New York, gave the estimate and added.

"According to a conservative estimate the taking from the road of so many commercial travellers means annual loss to the country of \$114,000,000, which has been withdrawn from the annual distribution of money in legitimate channels of trade."

The hotel men and the livery men have been directly most injuriously affected, but business men have also felt it. Prices have gone up and in no case has the failure to employ traveling salesmen helped the consumers or the merchants.—News and Observer.

The white Republicans appear to be a unit in declaring they are heartily glad that the negro Congressman Geo. H. White is going to leave. Some of them say he ought to settle in Washington, which they term the paradise of the negro. One Republican said that the negroes "boss" Washington now, but that some day before long there will be a demonstration by the whites there which will make the brother in black take a back seat and be mighty glad to get that.—Charlotte Observer.

A Distressing Affair.

Rockingham, Aug. 28.—Herman Baumgarten, the little 4-year-old boy of Mr. Louis Weill, of this place, shot himself at the residence of Mr. James T. LeGrand this morning, carrying off one side of his head, resulting in his death a few hours later.

There was a double-barreled breech-loading shot-gun in the hallway and little Herman, seeing it, began to play with it, none of Mr. LeGrand's family being in that part of the house and not knowing that Herman was there at all. In some way both barrels of the gun were discharged and the load struck Herman just above the right ear, plowing a gash about four inches long and one inch wide, taking the skull away and causing the brain to ooze out. The family are grief-stricken, Mrs. Weill being almost prostrated.

The whole town sympathises greatly with them in this most horrible accident.

No blame is attached to any one.

Wyatt G. Hicks Killed.

Another Raleigh boy has sacrificed his life in defense of the flag in foreign lands. His name is Wyatt G. Hicks, of Company I, Fourteenth Infantry. He was killed in the recent battle at Yong Tsuag, China. He was a son of Mr. Wiley Hicks, of this city, and was about 19 years of age. He volunteered for service in the United States army about two years ago, and was sent to the Philippines for service, and was subsequently transferred to China for service. Those familiar with his military record say that he was a brave soldier who never flinched from any services no matter how dangerous.—Raleigh Post.

The teachers for the Masonic school have arrived and school will open Monday.

HIGGS & TAFT.

Messrs. Higgs & Taft,
Greenville, N. C.

Gentlemen:

We wish to thank you for your order of a complete carload of our Stoves and Ranges. The "Great White Enamel Line" is evidently in favor with the Greenville people and if the demand increases, as it has in the past, we may expect to send you a train load in the near future.

A good cook is the best judge of a stove or range and we must believe that from the intelligence shown in selecting their cooking and heating apparatus, the housewives of Pitt County know that Buck's Stoves and Ranges are best for every purpose, and we believe that they cannot be fooled into buying "Cheap John" goods that have only the recommendation of cheap first cost.

Don't forget to impress upon your customers that our 5 year and 15 year guarantee is made in good faith and you may back it with your own reputation. Wishing you an abundant fall and winter trade, we remain, Yours truly,

Two New Cases of Plague in Glasgow.

Glasgow, Scotland, Aug. 29.—Two girls and a boy, members of insulated families, have fallen victims of the bubonic plague, though the medical authorities assert that the attacks are less virulent than in cases which have already proved fatal. In the event of a further spread of the disease, Glasgow shipping will be probably quarantined.

Post Office Plundered.

St. Joseph Mich., August 29.—Over \$5,000 in cash, stamps and postal cards were stolen from the postoffice last night by professional cracksmen. The robbers entered the Federal building through a skylight, lowered themselves down the elevator shaft to the second story, and cut through the floor below. A hole was bored into the vault and the combination lock was forced. They cleaned the vault out completely and for several hours to-day there was a stamp famine in the city. There is no clue.

Wilmington, N. C., Aug. 29.—The following card was issued today to the Democratic voters of North Carolina:

I respectfully inform you that I am a candidate for the nomination to United States senate, which is to be made by the primaries on the 6th of November next, and as such I solicit your vote. If either of the candidates for that position has served the Democratic party and the State of North Carolina longer and better, and has done more to establish white supremacy, and is otherwise better fitted for the place than myself, I think he ought to be preferred to me. Whether that be the case or not is for the people to decide, and I shall bow to their decision.

ALFRED MOORE WADDELL.

A Bright Young Man.

A lady went down the street to do some shopping the other day and on reaching home discovered that she had left her umbrella in some of the stores. She went to her 'phone and rang up one of our prominent grocery stores when one of the bright clerks answered her call and asked her what was wanted. She asked him if she had left an umbrella there. The clerk told her to wait a minute and he would see. Finding one there he opened it, taking it to the 'phone and holding it up asked her if that was the one.

The New Jersey mosquito held the record until the Alaska mosquito was discovered, with which it compares about as a sparrow does to a vulture. It is fortunate however, that the Alaska product is not given to long flights nor to prospecting.—Wilmington Star.
