Of course our readers remember that Mr. Smith was elected Superintendent of the Home by the Democratic Board of County Commissioners when they took charge of the county on the first Monday in December, two years ago. That he has conducted the Home at a much less expense than his predecessor speaks well for his excellent management. It should be borne in mind also that prices on everything will average about 15 per cent. higher this year than heretofore. The expense for the month of December this year had to be approximated, based on the figures for the same month in former years.

The incoming Board of Commissioners will have to elect a Superintendent of the Home at their meeting next Monday, and THE REFLECTOR believes it voices the sentiment of a large majority of the people of the county in saying the Board could not do better than to re-elect Mr. Smith to that position.

A Call to Brooklyn.

We see from the Washington Messenger that Rev. F. H. Harding, Rector elect of St. Paul's church, of Greenville, has received a call as assistant minister to the church of the Messiah at Brooklyn, N. Y. This is a high compliment for a man of Mr. Harding's years and shows that his ability is recognized.

Military Company.

There will be a meeting of the Greenville Light Infantry Friday afternoon at 3 o'clock. Every member be present. Business of importance, election of officers, issuing uniforms, etc.

WASHINGTON LETTER.

From Our Regular Correspondent.
WASHINGTON, D. C., Nov. 26th.
"Whatever else is left undone, hurry with the army bill." That is the sum and substance of what Mr. McKinley says to every prominent republican Senator and Representative, who goes to the White House. The reason he wishes the legislation for the increase of the army hurried is, that he has received a hint that the decision of the U. S. Supreme Court will be against the constitutionality of the Porto Rico act, which would mean that the U. S. would have to relinquish ownership of the Philippines, and would consequently have no use for a large standing army. He wishes to get the big army provided for before the court hands down its decision, and it will not be surprising if the Attorney General so manipulates the case as to prevent its conclusion until after the end of this Congress, as Mr. McKinley might prefer not having Congress in session should the decision be averse. This story sounds incredulous, but it is being seriously talked about in political circles, and there have been other cases in which administrations have been given advance hints of important decisions of the Supreme Court. Any member of the court can usually make a pretty nearly correct guess of how his colleagues will stand upon important decisions from their talk in a general way to each other. Whether the whole story is correct or not, it is absolutely certain that Mr. McKinley is plainly showing his anxiety of the speedy passage by Congress of the army bill.

Representative Champ Clark, of Missouri, returned to Washington, feeling as chippy as usual. He said: "I am not downcast or discouraged by the licking we got. The most unpleasant feature is it will take us six or eight years to get the Senate. As to the proposition to reorganize the democratic party, it is a fact in natural history that the tail cannot wag the dog; and same is true in politics.

The party does not need reorganizing to begin with. It is thoroughly organized, and even if it were to be reorganized, it would not be from the outside. We want every body to come in that feels like helping us, but we have a perfect organization of our own." Of the probable work of this session of Congress Mr. Clark said: "I think this will be an extremely busy session. The main thing the republicans will do will be to ratify the Hay-Pauncefote treaty and pass a Nicaragua Canal bill, in accordance with it, and to pass Mark Hanna's shipsubsidy bill. If the Supreme Court decides the Porto Rican act unconstitutional, then the republicans will run races with us as to which will drop the Philippines first. But if it is decided to be constitutional, then this session of Congress will have to pass some kind of a bill for the government and control of the islands. This, with the routine measures and the new apportionment under the last census will make it an exceedingly busy session."

The reception of the proposition advanced by the radical republicans to reduce the representation of the Southern states which have restricted negro suffrage, has been of such general condemnation that it has been abandoned for the present session and will not figure in the re-apportionment bill which will doubtless become a law in the near future but some of its advocates hint their intention to try to get the question before the long session of the next Congress.

OUR RALEIGH LETTER

Ladies Appeal to Legislature for Separation of Races in Street Cars.

Special Correspondent of Reflector.

RALEIGH, N. C., Nov. 26 1900.

A movement is afoot to ask the legislature to require street cars to separate negroes from the white passengers. There is no question of the desirability of such a "movement," and it ought to succeed. In steam railroad cars, before the separate coach was exacted, white people did not have to share seats with negroes—they merely rode in the same coaches. But on street cars there are always a lot of the worst class of negroes who purposely fling themselves into seats partially occupied by whites—the lewd negro wench and half drunk negro "dudes" are famous for it—and refined, sensitive ladies have it to bear at present. They have borne it too long already.

SOUTHERN MILLS VERSUS NORTHERN AGENTS.

The South's leading manufacturing industry is now well "up against" the Northern sharks, yclept "Yarn Merchants' Association," who have for years been reaping the lion's share of the profits derived from the sale of the Southern cotton mill products.

The commission which they have exacted (5 and 3 per cent.) have been exorbitant, but they have not been satisfied with that, and have "speculated" on various occasions on the goods not owned by them, and thus swelled their own plethoric purses at the expense of the Southern mill owners—and the latter have had to submit.

Now the Southern spinners are this week winding up their fight for a fair division of legitimate profits. The board of governors of their association are perfecting the plans to compel a reduction of commissions to 4 and 2 per cent., and the limitation of commission houses to 10 or less.

The yarn merchants telegraphed the governors at their meeting in Charlotte a night or two ago that they "positively could not entertain any proposition to reduce the present rate of commissions."

But our folks are now in a position to carry out their plans, despite the opposition of the present agents of their mills in the North. They have secured the signatures of a majority of mills and spindles to the "concentration plan," and will simply appoint new agents at the new rates. That is understood to be the purpose, although the proceedings of the board of governors are kept "secret," as far as possible, for the present.

MINOR MENTION.

Chairman Simmons has appointed the following committee in pursuance of the resolution passed by the State committee last August, to

draft the then proposed bill to "legalize" State primaries for State officers, U. S. Senators, Congressmen, etc.: Heriot Clarkson (chairman), T. J. Jarvis, J. S. Manning, C. B. Watson, T. W. Mason. Owing to the revulsion of public sentiment since, and the fact that the Legislature will be overwhelmingly against the enactment of such a law, the work of the committee will probably not amount to much, although a bill will be drafted as ordered.

Charlotte is to have another new cotton mill, to cost \$200,000, which will give that city and suburbs 14 mills, I believe. E. A. Smith is president of the new company.

Cotton came up to ten cents last week, and if it doesn't stay there or go beyond it, don't sell is my advice to growers. Every pound you have will bring that or more, if you will only not rush it on the market for less.

The official count shows that the highest vote received by a Bryan elector in this State was 157,752, and the highest vote cast for a McKinley elector was 138,081. Bryan's majority over McKinley is therefore 19,671, which is 405 more than his majority in 1896.

The Gattis-Kiugo trial now in progress at Oxford will consume a week or more of time yet, and it is attracting marked attention. Brilliant array of counsel on each side. Gattis sues for \$100,000 damages for "defamation of character," and two very rich men are parties defendant with Dr. Kilgo, viz., W. R. Odell and B. N. Duke.

The Wealth of the Country.

The estimated increase of the wealth of United States in the last decade is \$25,000,000,000, bringing the total wealth of the country up to \$91,000,000,000. This means an average for each inhabitant of \$1,195. The average increase of wealth between 1890 and 1900 was \$337 per inhabitant, and the estimated savings \$37.70 per inhabitant.

The total wealth of Great Britain is estimated at \$50,000,000,000, or \$1,300 per inhabitant. The annual income of the people is believed to aggregate about \$5,600,000,000. The amount saved yearly is put at \$1,948,000,000, of which about \$974,000,000 finds its way into stock exchange investments. The average annual earnings per inhabitant are estimated at \$140 of which about one third is saved, making the increase of wealth per decade for Great Britain nearly \$19,000,000,000, against \$26,000,000,000 in the United States. The securities domiciled in London are estimated at \$29,000,000,000, of which \$7,000,000,000 are "gold edge."

A Good Run.

The Railway World notes the remarkable speed made by Lord Strathcona's special train on the Canadian Pacific from Montreal to Ottawa or November 10, when the distance of 112 miles was covered in 110 minutes, or deducting 10 minutes for stoppages and slow-downs, in 100 minutes. This was good speed for so long a run, especially in view of the fact that the run was made in a heavy snowstorm. The Reading holds the record for fast runs on this continent, but its record was made on the easy and comparatively short line from Camden to Atlantic City.

We have taken great care in growing the most improved bright tobacco seed—the White Stem Orinoco, the Broad Leaf Orinoco are the most reliable tobacco ever grown in any section. Every man in the east, who cultivated this kind will average from 2 to 5 per cent more than any other kind. Mr. Sam Mumford, at Ayden, says that his Orinoco will bring fifty dollars more per acre than any other kind grown on same land. Martin county people are growing Orinoco and coining money. You will find these seed for sale at Dr. Wooten's and Dr. Bryan's Drug stores and at some store in each section of the county at 25 cents per package.
