A BILL

To be entitled An Act to Establish a Graded School in the Town of Greenville.

The General Assembly of North Carolina do enact:

Section 1. That there shall be an election held in the town of Greenville on the second Tuesday in April, 1901, for the purpose of taking the sense of the qualified voters of said town on the question of establishing and maintaining a Graded School for each race therein.

Sec. 2. That said election shall be held at the same time and places as the election authorized by an Act passed at this session of the General Assembly for the purpose of taking the sense of the voters of said town on the question of issuing bonds for water works, electric lights and other improvements. It shall be held and conducted under the same registration as the election aforesaid and by the same Registrars and Judges of election, and the returns shall be made, counted and the result declared in like manner. But a separate box shall be provided for this purpose and the voter shall vote on a separate ballot from the other ballot. Those who favor establishing the school and the levying the necessary tax for the maintenance of the same shall vote a ballot on which shall be written or printed the words "For the School," and those who oppose it shall vote a ballot on which shall be written or printed the words "Against the Schools."

Sec. 3. That if a majority of the voters of said town shall vote to establish said schools then a graded school for each race shall be established and the following named persons are hereby appointed trustees thereof, to wit: W. F. Harding, Harry Skinner, C. T. Munford, Walter B. Wilson, J. B. Moye, W. H. Bagwell, D. L. James, E. B. Ficklen, E. A. Moye, Sr., J. R. Moore, W. R. Parker, W. B. Brown, C. D. Rountree and R. W. King. They shall have the general control of the location and management of the graded school for each race and may employ such teachers and officers for each as they may deem proper and fix the compensation thereof. They may

appoint an Executive Committee out of their own number and may appoint a committee of colored men to look after the colored school under their supervision if they shall so determine, and make such other organization of their Board as they may deem advisable, and should there be a vacancy in said Board by resignation, death or otherwise the remaining members may fill such vacancy.

Sec. 4. That the persons herein named as trustees of the Graded Schools are hereby constituted and appointed trustees of Pitt Academy and they, together with W. M. B. Brown, S. B. Wilson, A. W. Moye, J. B. Cherry and W. H. Tucker, the surviving members of the Board of Trustees of Pitt Academy, shall be and are constituted the Board of Trustees of said Academy.

Sec. 5. That if the trustees of the graded school shall deem the grounds on which Pitt Academy is now located a suitable place for the location for the graded school for the whites then said school may be located there by and with the consent of the trustees of said Academy; but if they shall deem another location more suitable then the Board of Trustees of Pitt Academy as herein constituted may, if they shall deem it advisable to do so, sell said Academy and all the lands belonging thereto, in such manner and on such terms as they may deem best, make good title to the purchasers and invest the proceeds of such sale in a location and buildings for a graded school for the whites.

Sec. 6. That if said trustees of the graded schools shall deem the present school building for the colored public school a proper location they may use the same for that purpose.

Sec. 7. That all children within the corporate limits of said town as now constituted or as they may be hereafter extended who are entitled to attend the public schools shall be admitted into said schools free of charge, provided always that the whites shall attend the school provided for them, and the blacks the school provided for them; Provided further, That the Board of Trustees shall have power to admit children to either of said schools who reside outside of the corporate limits of said town upon such terms as they may deem fair and just.

Sec. 8. That the corporate limits of said town shall constitute a school district for each race, but

the trustees of the graded school and the persons charged by law with the duty of locating and arranging the various school districts in the county of Pitt may extend the boundary of the graded school districts so as to take in territory and people not embraced within the corporate limits of said town.

Sec. 9. That the public monies belonging to the public schools for the district in which said graded schools are located shall be appropriated and applied to these graded schools respectively, and in addition to said monies there shall be levied and collected each year on the taxable property and the taxable polls within said school district a sufficient sum to carry on said graded schools at least thirty-two weeks each year, which tax shall not exceed, any one year, fifty cents on the one hundred dollars worth of property and one dollar and a half on the taxable poll. The Board of Trustees of the graded schools shall on or before the first day of July of each and every year make up and submit to the Board of Aldermen an estimate of the costs and expenses of said schools for the succeeding year, and the Board of Aldermen shall cause to be levied and collected such sum as may be necessary to carry on said schools not to exceed the said limit. That said taxes shall be collected and accounted for by the Tax Collector for said town and shall be paid over to the person designated by the Board of Directors of said graded schools to be expended under their direction.

Sec. 10. That this Act shall be in force from and after its ratification.

MONDAY, FEBRUARY, 1901.

The efforts of some of our citizens to defeat the steps to secure an issue of bonds for improvements in Greenville, and to establish graded schools for the town, has brought out so much discussion, and there has been so much mis-construction and misrepresentation of what the bills submitted to the Legislature contain, that THE REFLECTOR has secured copies of them for publication so the people may know just what the bills are. We print the school bill first and will follow it with the bond bill.

The matter of issuing bonds for the improvement of the town has been under discussion for some time. The Board of Aldermen would not take the responsibility of acting until they had first had an expression from the people of the town. In order to arrive at this, a meeting of the citizens was called in the Court House. This meeting was largely attended, there being a good representative gathering of citizens. The full Board of Aldermen was also present, and Mayor J. G. Moye explained to the citizens the purpose for which they had been called together, that the Aldermen might learn just what the people of the town wanted and act accordingly. After a full discussion this citizens meeting unanimously adopted a resolution directing the Aldermen to send bills to the Legislature authorizing an election to be held in Greenville on the question of issuing bonds for \$75,000 to put in improvements, and to establish a graded school. Proceedings of this at meeting and there solutions were published in THE REFLECTOR next day.

Acting on this resolution the Board of Aldermen held a meeting and directed Messrs. Jarvis & Blow to prepare the bills, and gave them special instructions as to the time of holding the election, registration, &c. When the bills were ready the attorneys notified the Mayor who called the Board together to hear the bills read. The Board heard the bills read, considered them carefully, adopted them by a direct vote and without a dissenting voice, and directed Messrs. Jarvis & Blow to forward them to our Senator and Representatives with the request that they be passed at once.

This is the history of the whole matter so far.

THE SENSE OF TASTE.

IT SHOULD BE THE BEST GUIDE TO THE FOOD WE NEED.

If Not Perverted, It Will Select Those Substances For Which the Body is Suffering—We Use Entirely Too Much Salt.

The function of the taste doubtless sustains a much more important relation to digestion than has been generally accorded to it, says Dr. Kellogg. Food to be digested must be appetizing. Food which nauseates does not stimulate the secretion of the fluid necessary to digest it either in the mouth or the stomach. The sense of taste may be regarded as a sort of regulation. Hence it is an important property of food that the sense of taste may be stimulated and that it may have an opportunity to exercise its selective and controlling functions.

When one has eaten a sufficient amount of simple, wholesome food, the sense of taste informs him of the fact by declining to receive more. A perfect rule for mastication would be to chew each morsel of food until there is left only a tasteless remnant. It is useless to swallow such a residue, as it can have no nutritive value. When food is taken in this way, the sense of taste has an opportunity to say "enough" before too much has been swallowed and thus affords a perfect means of adapting the amount of food taken to the needs of the body.

A careful study of this suggestion will also show that the sense of taste, if allowed to act in a normal way, will select those substances of which the body is in great need. For example, if the blood is impoverished and needs an extra supply of nitrogenous food there will be a craving for such foods as nuts, legumes and possibly eggs and milk or some other substance containing nitrogen.

A curious analogy to this function is found in some insectivorous plants, which, as has been shown by recent experiments, refuse to capture insects or pay attention to fragments of meat placed within their grasp except when the soil upon which they grow is lacking in nitrogenous elements. By supplying a fertilizer rich in nitrogen these so called carnivorous plants cease to be carnivorous and behave wholly like other plants. The same principle applies to the use of fat making substances, such as starchy and oleaginous foods, such as nuts and cereals. The writer has frequently observed in thin patients a craving for fats, which disappeared entirely after the patient had made a gain of 20 or 30 pounds.

The taste was no doubt intended by the Creator to be a perfect guide to the quantity and quality of food to be taken and not simply a means of gustatory pleasure. Unfortunately it has been terribly debauched and perverted from its normal function. Men and women treat the palate as the pianist treats his instrument, touching it in various ways simply for the purpose of provoking pleasurable sensations, with no regard whatever for the possible needs of the body or the possible damage which may be caused. The sense of taste, thus wrongly educated, becomes perverted, and its indications become confused. Abnormal cravings are developed, which demand satisfaction in the use of tea, coffee, wine and other intoxicants, mustard, pepper and other condiments, large quantities of salt, pickles and rich and savory dishes of various sorts, together with sweets, ices and tarts of all kinds. The sense of taste has been dethroned from its high position as governor of nutrition and has come to be merely the servant of a capricious and insatiable desire for an illegitimate sensation, a purely selfish animal pleasure. This is gluttony, pure and simple, and is the apt tutor and hall companion of alcoholic intemperance.

The free use of common salt must likewise be placed among serious dietetic errors. Professor Bunge of Basel, the leading physiological chemist of the world, with many others, has shown that the so called necessity for the alimentary use of salt rests upon a very uncertain and equivocal, if not erroneous, basis and that at most salt can be used without injury only in very minute quantities. The quantity designated by Professor Bunge as within the limits of possible harmlessness is about 15 grains a day, or probably less than one-fourth of the amount usually consumed. The free use of salt leads to thirst and copious drinking in connection with meals.

Gum chewing, tobacco chewing, the use of tobacco in any form, must be condemned as harmful to the digestion through exhausting the function of the salivary glands, so that when required to maintain constant activity the saliva secreted by the glands has very little value as a digestive agent. The glands, as well as the muscles and other parts of the body, require rest in which to store up the elements necessary for their proper function.—Good Health.

A curious official regulation demands that all the old linen of the Ceylon hospitals shall be burned every three months. A government official comes round on a periodic linen inspection and condemns holey sheets, towels, etc., to a fiery fate.

Ag't. Wilmington Steam Laundry

A young lawyer has arrived at the home of Mr. W. F. Harding. The proud father says the little fellow wants to know when the next court comes.

Mrs. Copelia living in the Far-rar suburb, is minus some \$35. She hid this sum last week and carried it buttoned in a packet in her underskirt. When she sent this garment out to be washed she forgot to take out her money.—Tarboro Southerner.

Honor Roll.

The roll of honor of the higher department of the Greenville public school for the month of January is as follows: Ethel Cheek, Mattie Jenkins, Lelia Tripp, Aylmer Tucker.

Observe This.

Chief A. J. Griffin says if people when phoning a fire alarm would always call the nearest phone to the engine house and let the exact location of the fire be known, it would save much confusion and time. This is a point worth considering in a matter as dangerous as fire.

End of the Centry Club.

The meeting of the End of the Centry Book Club at the beautiful home of Mrs. J. L. Little on Tuesday last was a most enjoyable occasion.

In the absence of the President the meeting was presided over by Mrs. Jarvis who afterward made a most entertaining talk on certain famous women.

The regular routine of the business having been finished a most entertaining paper on Famous German Women was furnished by Mrs. Jordan for which the thanks of the Club were returned. Mrs. Quinerly furnished some interesting facts concerning famous German women and each member urged to do this at every meeting here after.

A discussion as to the expenditure of a certain sum of money in new books then followed, and each member gave the title of the book which she wished the club to purchase. A motion was then made to lay this on the table until the next meeting which was accordingly done.

After being served to most delightful refreshments the Club adjourned to meet again on Tuesday, February 12th with Mrs. Harry Skinner.

MUNFORD'S BIG NEW STORE.

Well may the good people of Greenville and surrounding country be thankful and proud of their Big Store and the wonderful bargains that come from that great institution. For the third time this season has the buyer been north, picking and scouring the New York, Boston and Philadelphia markets and quickly snapped up all the "Juicy Plums." This was securing a leading manufacturer's fall shipment of fine clothing for men and boys intended for a clothier in Galveston, Tex., but which was countermanded on account of the flood. The result is, we can offer mens and boys highest grade clothing at just one-half the old time clothier's price. They will be ready and placed on the tables

OUR STORE GROWING.

What has made our store such a busy place? What we advertise we do. The throngs that daily fill the store is the very best evidence that we rather understate than otherwise the remarkable value we have to sell.

Our Popular Store.

We leave it to you if there is not a snap, vim or go, about this business not perceptible in any other business in Greenville. It is no secret. The "old foggy" dry goods and clothiers are sleeping, waiting for you to come in and pay them their 50 per cent. profit. Will you do it? Or will you trade with a live, hustling, progressive concern that is working like a Trojan and making your dollar buy two dollars worth. We have doubled the business since we are in our new build ing already, and now want to tripple it.

Holiday Goods.

Over 2 car loads of fancy goods suitable for Christmas presents. The entire store presents a big Bazaar. Everything you can think of is right here. And the

Deaths.

Mrs. J. F. Taylor (nee Miss Lal-
lah Clark, of Washington, died
Sunday after a long illness. She
was a daughter of Capt. J. E. Clark.
Mrs. Taylor had a large circle of
friends in Greenville who are pain-
ed at her death.

Capt. W. H. Kitchen, of Scot-
land Neck, died Saturday night
about 9 o'clock. His death is a
great loss to his community and to
the State. He once represented
his district a term in Congress, and
father of Congressman W. W.
Kitchen, of the Fifth district, and
Congressman-elect Claude, Kitch-
en, of the Second district.

Maj. John Peebles, died a few
minutes past 12 o'clock, on Sunday
at the home of his daughter, Mrs.
W. T. Hunter, at the Hunter
House. He was in his 75th year,
and his death was due to heart
failure brought on by an attack of
grip.

Maj. Peebles was twice married
and leaves three daughters and
one son. He was once Treasurer
of this county.

The burial will take place Tues-
day afternoon at Falkland.

New Hotel Open.

The new hotel opened Saturday
and quite a number of traveling
men coming in on the train stop-
ped there. The hotel is splendidly
furnished and equipped, and would
be a credit to towns much larger
than Greenville. Mr. C. C. Vines
will conduct the hotel. In provid-
ing this hotel for Greenville, Mr.
B. F. Patrick, the owner, has filled
one of the town's great needs. It
need not be said that people have
to give the town the go-by be-
cause of inadequate hotel accom-
modations.

Burned His House and Perished In It.

John Legget, a colored about 40
years old, who lived half way be-
tween Whichard and Keelsville,
in the northern portion of the
county, went to Stokes Saturday
and filled up on whiskey. He
went back to his home after dark
and is supposed to have started a
fire with oil. The house and con-
tents were destroyed and the
man burned to death. His wife
was away from home when he re-
turned, and the pile of ashes and
charred body are the only things to
tell of the horrible ending of his
life.

As soon as two people have a
baby all its relations begin to quar-
rel over what its name shall be;
by the time this is settled they
begin to quarrel over which it
looks most like; by the time they
get this settled, there is generally
another baby.

We had spring weather for a few
hours this morning.

A MEAN LOOKING LETTER-HEAD

Has lost many a dollar for business men. If a man is
judged by the coat he wears, he is also judged by th
letter-head he uses. An artistic, nicely printed letter
head may be looked on as a good investment.

It will be done right.
The price for doing it
will be right, too.
