WEATHER BULLETIN.

Fair tonight and Friday, frost tonight, winds generally north-west.

A storm warning was sent along the coast at 10 o'clock, a. m. noting a disturbance central on the coast of South Carolina moving northeast, indicating strong north to northeast winds this afternoon and tonight.

STATE NEWS.

Happenings in North Carolina

Hobgood, like Tarboro, has recently been excited by mad dogs.

The graded school at High Point has been closed for a week or two because of the death of a pupil of scarlet fever.

A Charlotte man ate 48 bananas in 20 minutes, Tuesday night. He said he had never had enough of the fruit before, but he seemed to get his fill this time. He was alive at last account.

BETHEL ITEMS

BETHEL, N. C., March 27, 1901.

Mrs. M. O. Blount left here Friday for the northern markets to purchase spring and summer millinery.

Rev. W. A. Ayers, of Hertford, came up Thursday and returned Sunday.

Robt. Staton has a pet male pig-eon which took a chicken hen's nest that had two eggs in it and set two or three days, when some dog broke him up. He has been miserable ever since.

Rev. F. A. Bishop held quarterly meeting here Sunday.

Rev. Jas. W. Rose held services at Hamilton Sunday and returned Monday.

Miss Essie Albritton, who left here a few days ago, has accepted a position in a millinery store in Goldsboro. We wish her much success.

Leon Whichard, of Ayden, spent Sunday with Robt. Staton and family, of this place.

JUDGES ACQUITTED.

End of the Impeachment Trial.

The impeachment trial against Chief Justice Furches and Associate Justice Douglas, of the Supreme Court, that has been in progress for two weeks before the Senate, came to a close today, the result being a verdict of acquittal for the Judges.

THE REFLECTOR received the following telegrams this afternoon announcing the result:

Raleigh, N. C. March 28.—Judges acquitted every charge, majority for acquittal on four articles. Vote on first article 27 to 23 for conviction.

MAXWELL GORMAN.

Raleigh, N. C. March 28.—Judges acquitted, vote twenty-seven for conviction, twenty-three for acquittal. Constitution required two-thirds to convict.

F. G. JAMES.

This termination of the case was about as looked for, but it has been a hard fought contest and attracted great interest throughout the State.

We hope the State may now have a long rest from political agitation in all its forms.

Band Returned.

The Osceola Band, and ladies accompanying them, returned this morning from Kinston where they gave a concert last night. They report that they were most cordially received by the Kinston people and were greeted with a crowded house at the concert, and the band in turn just captivated the audience with their fine music. Those who went along with the band tell us the concert was excellent and that the boys added new laurels to their fine reputation.

The Established Facts.

There are three business facts which may be regarded as established—that there is no worthy article at a reasonable price which cannot be sold by the right kind of advertising; that the newspaper which has a large circulation is the best medium of publicity, and that an advertisement which is specific and which quotes prices is the most effective.—Philadelphia Record.

LAMP FALLS.

Ricks & Wilkinson's Stock Badly Damaged.

Early Wednesday evening a large lamp in the store of Ricks & Wilkinson fell and caused much damage to their stock. Mr. J. A. Ricks, of the firm, was north purchasing goods. Mr. C. L. Wilkinson, the other member, had just closed the store a few minutes before the accident to go to his supper.

The cause of the lamp falling was due to the pulling out of the hook by which it was suspended from the ceiling. It was the rear lamp in the portion of the store occupied by the clothing department. Under and near where the lamp hung were the counters and drawers filled with clothing. The lamp fell right in the midst of this stock of clothing and instantly there was a big blaze. There were many people passing along the street going to the postoffice and the fire was quickly discovered. The store was broken open and a crowd rushed in to put out the fire. An alarm was given and for awhile there was great excitement.

So much oil and clothing burning made a dangerous looking fire for the time being. Owing to its prompt discovery it did not take many minutes to put it out, but in this short time great damage was done, hardly a garment in the clothing department escaping injury and much of it being burned.

Ricks & Wilkinson had about \$4,000 worth of clothing on hand, and to look at it now it has the appearance of being practically a total loss. The stock was insured.

During the excitement someone took advantage of the situation and robbed the money drawer of what money was in it, something over \$60.

The building, which belongs to Brown & Hooker, was somewhat damaged about the floor, ceiling and counters. This is covered by insurance.

Threats Against the Czar.

London, March 26.—A dispatch to the Exchange Telegraph Company from Paris states on the highest authority that a mine has been discovered beneath the palace of Emperor Nicholas, at Tsarkoe Sele, seventeen miles south of St. Petersburg. Several notabilities, the dispatch further says, are implicated in a plot against his majesty. The Russian press was not allowed to mention the affair.

The Birmingham Post, which is closely in touch with Joseph Chamberlain, says news received in high quarters in London indicates that the Czar is in a very nervous state owing to the condition of the political horizon. It is said that he fears the result of the policy of his ministers in the Far East, while the students' troubles and threats against his life, of which there are more than have been published, have completely unnerved his majesty.

His medical advisers have strongly counselled a yachting cruise, but the Czar has refused to follow their advice. Those behind the scene in Russia take a very grave view of the present agitation and think it is the beginning of more serious troubles.

THURSDAY, MARCH 28, 1901.

No other sovereign in the world has so many physicians as has the Czar. They number twenty-seven, and all selected from among the medical celebrities of Russia.

Judge Carol Cook, of San Francisco, makes the unique complaint that he has not enough work to do. His honor declares that there has not been a criminal case in his department for a month, and that as a consequence he is suffering from ennui.

How Success is Turned to Failure.

An editorial writer recently said: "There is plenty of room at the top, because the ordinary man, who has climbed up half way or one quarter way, becomes so well pleased with himself that he sits down to admire his marvelous climbing and never gets any higher."

This also explains why it is that many advertising campaigns which start out with a great flourish of trumpets and half-page displays don't bring fortunes to the advertisers. The advertisers stop to pat themselves on the backs and otherwise to throw bouquets at themselves for having the remarkable ability to arouse such an amount of public interest, and they conclude that they can do business indefinitely on the results of their unfinished campaigns.

There are dozens of advertisers who have scored an initial success and then suddenly stopped succeeding. This was because they either stopped advertising or attempted to cut down advertising expenses. It's the advertiser who isn't satisfied with his first success that is the eventual winner.—Profitable Advertising.

To borrow is no harm; the disgrace lies in forgetting you did. God invented music, and Satan the steam piano.

America's Pre-eminence in Bridge Building.

Americans are twenty years in advance of other nations (except Canada) in the art of bridge design and construction. The steel of which a bridge is made represents about half of its cost. Steel is now made in the United States at much less cost than in any other country.

The market for bridges is far greater in the United States than elsewhere. The States have now 190,000 miles of railways, and it has been estimated that there is an average of one span of metallic bridge for every three miles of railway. This gives 63,000 bridges on every existing line, without including those required for new lines.

The Godwin Tragedy.

A correspondent writing from Godwin gives fuller details of the terrible tragedy there last week, an account of which we gave at the time:

Near Godwin, at Black's Chapel, Miss Oliver is teaching school. It will soon end for the term and she is preparing the pupils for exercises at the public commencement occasion.

Two of the brightest children in the school—Rhodes McLelland, fourteen years old, and his sister, Miss Maggie—took leading parts in the play. In one scene of tragedy Master Rhodes was to point a pistol, unloaded, at his sister, and fire, and she was to fall as if killed.

The consternation the tragedy produced can better be imagined than described. The teacher was almost prostrated, the boy nearly crazed with grief, the family dazed, and the whole community in tears.—Fayetteville Observer.

One by one the props of tariff legislation as the most suitable means of obtaining revenue for the support of the Government are toppling under the weight of enormous expenditure.

The Treasury is yearly becoming more and more dependent upon eternal taxation. Sugar has heretofore been the main source of customs revenue. It is yet a heavy contributor; but even sugar is threatened by the growth of the beet sugar industry.

To be loved is pleasing, but to be honored is rarer. To be too clever is a bad move when a woman would attract a man. A moderate perspicuity in a woman better suits man. Peace hath more victories than strife.

Leading Cotton Counties.

The fifteen cotton counties of the State are in the order named as follows:

Robeson, Richmond, Union, Mecklenburg, Wake, Anson, Wayne, Johnston, Halifax, Pitt, Edgecombe, Northampton, Cleveland, Wilson, Iredell.

Drank Whiskey and Died.

The seven-year-old daughter of P. E. Barham, in Rockingham county, on Tuesday morning told her mother she was going to get drunk to see how it felt. Soon after she was found lying in the yard speechless, she having drunk a pint of whiskey, which she had hidden in an outhouse. The physicians were summoned, but could give no relief. She died in a few minutes.

Observations.

The world weighs acts; God weighs motives.

Women buy diaries, men use them, and spies read them.

If we have an object in life the petty jealousies and gnat bites will pass unnoticed.

Until a woman has met an effeminate man she has yet to fathom contempt.

The world and the flesh go arm in arm, while the devil loiters near.

If you are in the swim your third cousin delights to claim you, otherwise they revile your kinship from afar.

It is more creditable to speak a saving word at the right instant than to do charitable acts that ring through a city.

An Elopement.

A few days ago there was some excitement a few miles in the country about the elopement of a white woman named Baker with a colored man of ginger cake hue named Savage. It seems that Baker moved from near Ringwood to this community about the first of the year. A few days ago Mrs. Baker, and the negro both became missing and nothing more has been heard of them.—Scotland Neck Commonwealth.

Charlie Hing, the Chinaman who came here a few weeks ago and opened a laundry under the sign of Sing Lee, of Tarboro, for whom he worked, was arrested Saturday night and placed in the lock-up. He poured oil about in places in his own shop, on the steps of Keel & Roberson's bar and was in the act of putting a match to it when he was discovered and prevented. It is said he was crazed by drink and opium.—Scotland Neck Commonwealth.

Ours A Great State.

North Carolina is a great State. It is long, too. From Currituck to Cherokee is 500 miles. Take a cord and put one end at Currituck county and the other end at Cherokee, and holding thumb on string at the former and turning directly northward it will put you in Lake Champlain, New York. It has 48,580 square miles of land and 3,670 water area—total 52,250 square miles. It has some fifty rivers and with its numerous sounds and lakes it is as well watered a State as any in the union. Robeson county is largest with 1,043 acres; Bladen second, 1,013; Cumberland third, 1,008; New Hanover has but 199 square miles Clay has 185, and, Chowan is smallest with 161. Camden is very small also with 258. The 97 counties will average something over 500 square miles.—Wilmington Star.

SCHOOL BOOKS.

THE COUNTY BOARD OF SCHOOL DIRECTORS
HAVE APPOINTED THE

Reflector Book Store

As one of the depositories for Public School Books in Pitt County. We handle the books designated on the State List for the public schools and can supply whatever you need. We also have

COPY BOOKS,

slant and vertical double ruled practice writing books tablets, fool's cap paper, pens, pencils, slates, white crayons, colored crayons, inks, companion boxes, etc.

And when it comes to

JOB PRINTING

The Reflector Office Can't Be Beat.
