RICKS & WILKINSON.

THE KING'S DAUGHTERS. Twelfth Annual Convention.

WEDNESDAY AFTERNOON.

The convention was called to order at 4 o'clock with devotional services by Mrs. Davis.

A paper prepared by Mrs. Walter Clark, who could not be present, was read by Mrs. Henry Perry.

Reports of circles was resumed, some of them showing excellent work done during the past year.

An appeal from Greensboro for help in caring for a person in the hospital, was read by Mrs. Cherry and met with a prompt and generous response.

Wednesday night was devoted to addresses by Rev. N. M. Watson and Mrs. I. C. Davis. The church was crowded and no part of the convention has been more interesting and inspiring than these addresses. Mrs. Davis is a most entertaining speaker and her heart is enthused with the noble work of which she is the leader.

THURSDAY MORNING.

The convention was called to order at 10 o'clock, devotional exercises conducted by Rev. J. N. Booth.

The nominations for officers were announced and the election proceeded. The result of the election could not be answered at the morning session.

The advisability of holding missions with the circles throughout the State was discussed at some length and referred to a committee.

The last circle to make its report to the convention was Patent Circle, of Greenville, which showed that with a membership of 20 the sum of \$101.75 was raised during the past year for charitable purposes, in addition to the payments for State and International fees.

There were ten circles in all that reported, and these ten showed a total of \$2,493.93 raised.

The convention will probably finish its work and close tonight.

The Centre of Population.

Washington, April 30.—The Census Bureau today issued a bulletin announcing that the centre of population of the United States, excluding Alaska and recent territorial accessions on June 1 last, was six miles southeast of Columbus, Bartholomew county, in southern Indiana.

It is described as latitude 39 degrees, 9 minutes, 36 seconds, and longitude 85 degrees, 48 minutes, 54 seconds. In ten years the centre of population has moved westward fourteen miles and southward two and one half miles. This is the smallest movement ever noted by the Census Bureau. It shows the population of the Western States has not increased as rapidly as in former decades. The southward movement is due largely to the great increase in the population of Indian Territory, Oklahoma and Texas and the decreased movement to the large increase in the population of the North Atlantic States.

ARTESIAN WELL A NECESSITY

EDITOR REFLECTOR:

Appropo the improvements to be made by the town of Greenville, none can appeal to the great good of the town more strongly than better water for mankind. An artesian well can be sunk in Greenville that will afford a supply of water for every family in town and to spare. It is a well known fact that the ordinary well water, as is now constituting the water supply for the town, is not only bad but very bad, and that it is unwholesome. There is no more valuable factor for the people than good wholesome water and it is apparent that good water can be obtained in Greenville as well as in any other Eastern town in the State. It is not an experiment, but an assumed fact, that water can be obtained in Greenville by proper effort and the investment will be of the greatest good to the town and people. It is to be hoped that the city fathers will give some attention and consideration to this important matter so much affecting the people. The town wells have been proven a failure, because none but surface water has been found. Proper skill and effort will secure the desired results. A CITIZEN.

Court Knocked Out.

Asheville, May 1.—Superior Court, which has been in session here five days, came to an abrupt close this afternoon. The Supreme Court decided that there was no court in this district because the act creating the fifteenth district did not go into effect until July, and there was no judge of the Sixteenth district.

Judge George Jones, who was commissioned judge of the Sixteenth, and was holding the court, was on the bench when the telegram came. Some one asked him how court should be adjourned. "I don't know, gentlemen," he said, and took his hat and left the court room.

A special venire of 250 had just been summoned to try the Emma robbers. These and the jurors lose their fees, as it is understood here that the court was not even de facto. There is a strong sentiment that the governor direct Judge Shaw to hold a special term.

Rural Free Delivery.

Mr. William A. Barr, special agent of the postal service department of the government, is here looking into the feasibility of establishing some rural free mail delivery routes in this county, in accordance with the application of Congressman John H. Small made last fall. Mr. Barr is going over the ground and will select the best routes for the service and make his recommendations to the government accordingly. Congressman Small will also be here tomorrow to confer with him in the matter. THE REFLECTOR hopes the routes can soon be in operation.

THURSDAY, MAY 2, 1901.

And now the great ship building concerns of the country have combined with a capital of \$70,000,000.

The Pan-American Exposition at Buffalo was opened yesterday, May 1st. It was arranged that President McKinley should press the button that set in motion all the machinery in the exposition buildings, and he did this notwithstanding he was at the time on his tour. He pressed the button in Vicksburg. The exposition will be in progress until November 1st.

Talk about Imperialism, did ever a ruler of any country go on a more elaborately equipped junket at the expense of his subjects than President McKinley is now making? Just think of it—seven elegant Pullman cars for a party of thirty eight people, with the President and his wife occupying a car all to themselves. This is the biggest blow out of the age, and the dear people are paying for it.

The people of Kansas are divided in opinion as to the purpose of Governor Stanley in offering a solid silver mug to each set of triplets born in that State during his second term. There are some who maintain that he desires to encourage a rapid growth of population, while others believe that he is trying to run up the market price of silver. In the first week after his announcement six mugs were claimed, and all the back counties are still to be heard from.—Philadelphia Record.

At Omaha Neb., after considering over night the guilt or innocence of James Callahan, the jury Sunday morning declared that he had had no part in the kidnapping of Edward Cudaby, Jr. The verdict was an evident surprise to the court, and Judge Baker expressed his disgust in emphatic terms.

A GREAT EXPOSITION

PAN-AMERICAN WILL USHER IN A NEW AND GREAT ERA.

Show Will Be the First Important Public Event of the Twentieth Century—Progress in the Western Hemisphere During a Century to Be Illustrated.

The achievements of the past century have been magnificent. The march of progress has been swift, and the triumphs of civilization have been manifold. The age of enlightenment is indeed here. Mankind has progressed in the culture of the finer side of existence and has turned to its uses the mysterious forces of the elements in a manner undreamed of but a few centuries ago.

Yet who can foretell what the Twentieth century has to unfold? Who would dare to predict what the achievements of another hundred years may be? Standing on the threshold of this era, we look into the past, and in the grand picture of progress to be presented in the beautiful buildings and

include the best of former exhibits and will in addition have novelties never before shown. The heavy ordnance will be mounted outside the Government building. This branch of the exhibit will include the 12 inch gun, with disappearing carriage, so arranged that neither the man nor the gun is exposed except during the moment of firing, the recoil throwing it into its original position. Then, too, there will be shown the 16 inch seacoast rifle manufactured at the Watervliet arsenal, the most powerful piece of ordnance ever constructed in the United States, having a maximum range of 20 1/2 miles. It will be the greatest display of heavy ordnance ever made, yet this is only one of the numerous features of the Government Ordnance Exhibit for the Exposition.

Another exhibit of ordnance will be made by manufacturers, but in a different part of the grounds. It will be very large, as all the makers will naturally want to make as good a showing as possible. Here a considerable number of important inventions not yet accepted by any government, but which may figure conspicuously in the possible defenses of the future, will be shown. There will be great guns and small guns and guns of all kinds and their accessories at the Pan-American Exposition. To many visitors this will be one of the most attractive features of the big show. The study of weapons with which the great powers wage war is ever an interesting one, and the many wonderful discoveries and inventions in this line during the past few years have a tendency very naturally to accentuate the interest. That the fullest opportunity to satisfy curiosity in this direction will be given at Exposition is assured.

MERIT WILL TELL. This is shown by the steady increase in my business. I make shipments to the Wilmington Steam Laundry every Wednesday morning and return Saturday night. Best work guaranteed. I have this day bought out the laundry that was left on hand in the Chinese laundry. All persons having laundry with them will call on me within the next 15 days, otherwise it will be sold for charges. Terms cash. FRANK F. SKINNER, Agt. This April 26, 1901.

FOR RENT.—One room in the house where I reside.
W. F. HARDING.

Already there is complaint of hot weather, while only a few days ago we were complaining of it being too cold.

The engineers are moving along nicely with their work of surveying the town for putting in the public improvements.

The highest praise has been given me by those to whom I have sold the Standard Sewing Machine. S. M. SCHULTZ.

The few farmers who come to town now say they are delighted with this kind of weather and are pushing their work.

SPRING TIME HAS COME AT LAST.—And with it the flies and mosquitoes. They are very annoying and should be kept out of the house, especially kitchen, diningroom, nursery, and sitting-room. Wire doors and windows will do it. See Hodges & Johnston, or Ormond & Carr and place your order. First come, first served. Our time in this business is limited, so delay not to make your wives and children comfortable during the long hot days before us. Wire doors and windows will do it.

As To School Children.

The following portion of the new State health law will be of interest to parents and teachers:

The school committees of public schools, superintendents of graded schools and the principals of private schools shall not allow any pupil to attend the school under their control while any member of the household to which the pupil belongs is sick of either small-pox, diphtheria, and measles, scarlet fever, typhus fever or cholera or during a period of two weeks after the death, recovery of removal of such sick person, and any pupil coming from such household shall be required to present to the teacher of the school the pupil desires to attend a certificate from the attending physician, city health officer or county superintendent of health of the facts necessary to entitle him to admission in accordance with the above regulations. A wilful failure on the part of any school committee to perform the duty required in this section shall be deemed a misdemeanor, and upon conviction shall subject each and every member of the same to a fine of not less than one nor more than twenty-five dollars: Provided, that the instructions in accordance with the provisions of this section given to the teachers of the schools within twenty-four hours after the reception of each and every notice shall be deemed performance of duty on the part of the school committee. Any teacher of a public school and any principal of a private school failing to carry out the requirements of this action shall be deemed guilty of a misdemeanor and upon conviction shall be fined not less than one nor more than twenty-five dollars.

Peculiar Fish Roe.

Wednesday Mr. C. D. Smith brought a curiosity to town, but what to call it we do not know. He caught some shad in a seine, and when a large one of the fish was being dressed, in place of the roe on one side was found a large white fatty piece that filled all of one section where the roe should be. The roe on the other side of the fish was perfect. No one to whom it was shown could explain it.

The telephone and telegraph companies in Louisiana, as in Texas, will be saved the cost of digging post holes for the extension of their lines in future. The oil craze has become general in both States, and in Louisiana ten distinct companies and all the farmers are digging the earth full of holes in the hope of striking gushers. The price of land doubles every time a stranger is seen, the inference being that he is a prospector with a tip that there is oil in the neighborhood.

Women Read "Ads."

An observing advertiser says that when a woman takes up a newspaper she first turns to the advertisements. This will not be disputed by persons who have seen how women crowd the stores. A part of their business in life is to buy things, and it is as natural that they should be interested in advertisements as it is that the stock speculator should be interested in the ticker. Any advertisement which contains news about desirable commodities will be widely read.—Philadelphia Record.

A "Blasphemy" Case in Ashe County.

Ashe comes forward with something new in this section. In last week's court there was a case of "blasphemy" and the parties submitted and paid the cost. This is the first case of the kind on record in this section, so far as we can learn. The parties loaded up with the liquid extracts of corn and went to a mill pond on "Hoss creek" on Sunday and baptised each other as best they could under the circumstances. Their loud shouting and praying disturbed the neighbors and they were indicted for blasphemy. Blasphemy is not a statutory offense in this State, but it is a common law offense for the accommodation of our neighbor county, which delights in getting something new.—Wilmington Chronicle.
