STATE NEWS.

Happenings in North Carolina.

Warrants have been issued for W. L. Garrett for the seduction of Miss Daisy Lingle, daughter of Mr. A. L. Lingle, of Rowan county. The couple left Salisbury last Wednesday, ostensibly to get married, but they were not. The girl is but 17 years old.

Side by side, each with a bullet wound in the temple, the dead bodies of L. Hartman and his wife were found in their bed at the Great Northern hotel, at Charlotte, Tuesday evening. The room showed no evidence of a struggle, both bodies were lifeless and well composed and the covering of the bed well tucked about them; but the revolver clutched in the right hand of the husband told the story of the double tragedy.

Burglary in First Degree.

Asheville, N. C., June 11.—In the Superior Court today Rush Gates and Frank Johnson, white, and Ben Foster and Harry Mills, colored, were found guilty of burglary in the first degree. Under North Carolina law the penalty for burglary is death. All four men will be sentenced to be hanged before the term of court ends. On the 8th of February these men entered the store and postoffice at Emma, two miles from Asheville, and holding pistols on Samuel Alexander, opened a safe and began to rifle it. Alexander watched an opportunity and when the burglars' attention was diverted grabbed a pistol and opened fire, seriously wounding two of the men and receiving almost fatal wounds himself. The burglars fled but were captured. Postmaster General Smith wrote Alexander a personal letter commending his bravery.

Church Notice.

There will be morning and evening prayer with sermons by the Rev. Nathaniel Harding, of Washington, at the St. Paul's Episcopal church on Sunday at 11 a. m. and 8:30 p. m. The "Office of Institution of Ministers" will be said, Rev. Nathaniel Harding officiating as Institutor. The Holy Communion will be celebrated by the newly instituted rector, F. H. Harding. The public is cordially invited to attend this ceremony and to worship with us both morning and evening. F. H. HARDING, Rector Elect.

Creating Trade.

Years ago it was assumed that there was a certain amount of trade in a community, and that the share which any establishment could get must depend chiefly on its location. Now it is known that not only will advertising enlarge the share of any establishment, but it will also increase the total volume of business. That trade can be created by advertising has been shown many times—as, for example, in the case of the various breakfast foods, for which millions are expended annually.—Philadelphia Record.

Virtue is its own reward but some few people are good because they really like to be.

Charged With Murder.

A warrant was served this morning on Mr. V. Lee Turrentine, engineer of the A. C. L., charging him with murdering Elijah Whitfield, the negro run over Saturday night by the A. C. L. passenger train near Grifton.

The warrant was sworn out by Alfred Whitfield, brother of the dead man.

The attorneys for the prosecution are Mess. Wooten & Wooten, and Mess. Shaw & Isler.

Mr. N. J. Rouse Represents the defendant.

The warrant was issued by Justice J. G. Cox. The defense had the case removed from before Justice Cox, who transferred it to Justice W. F. Dibble.

Witnesses for the prosecution, all colored, this morning swore that the dying man said that he was knocked off the engine by Capt. Turrentine with a stick of wood.

At 12:30 a recess was taken until 2 o'clock this afternoon.

Capt. Hawks and J. S. Joyner, a traveling man who was on the train the night of the accident will testify that they were among the very first to reach the injured negro and that he made no declaration of being knocked off the engine by Capt. Turrentine. The defense will also show that it was almost impossible that the negro was run over by the engine, considering the description of his injuries. The theory is that when Capt. Turrentine went out on the platform of his engine to knock down a check valve that was leaking, with a stick of wood, the negro, who had been previously ordered off the engine by Capt. Turrentine, became frightened and jumped off; that he was not run over by the engine, but that the negro attempted to board the baggage car (the train was at this time running at the rate of only a few miles an hour) and missed his hold and fell. The way he was injured would seem to bear this theory out, his right leg and left arm being run over.—Kinston Free Press.

The junk department of the National Museum at Washington will soon be enriched with a lock snatched from the gate of the Sacred City in Pekin and a key. The lock is three feet ten inches long, and the key four feet. They were confiscated by a Missionary and sent to the Museum by Minister Conger. It seems that this Missionary and Minister Conger were both in the loot business, even the locks of the Sacred City didn't escape them. But nothing is sacred to the looter.—Wilmington Star.

North Carolinians Win Medals

The New England Cotton Manufacturers' Association have a fund whose income is devoted to the presentation of medals to the member of the graduating class in textile schools who shows the highest grade of general excellence. This is the first year in which this is adopted, and five of these medals are to be given to the Lowell Textile School, Lowell, Mass.; the Lowell School of Design, Boston, Mass.; the Philadelphia Textile School, Philadelphia, Pa.; the New Bedford Textile School, Mass., and the Georgia School of Technology, Atlanta, Ga.

The school at New Bedford and at Atlanta, Ga., will not have their graduation exercises until autumn, but the medal at Philadelphia on the graduation on June 6th was awarded to James Vorhees Pomeroy, of North Carolina, and the Lowell Textile School on the same date was awarded to Bartholomew Moore Parker, of Raleigh, and the successful student at the Lowell School of Design at the Massachusetts Institute of Technology was awarded Arthur Eugene Sanford, of Dorchester, Mass.—Charlotte Observer.

Trial of Battleship.

Washington, D. C., June 11.—Much interest is manifested in naval circles in the official trial of the new battleship Illinois, which is to take place today over the New England course from Cape Ann to Cape Porpoise. The Illinois is particularly a counterpart of the Alabama, the contract speed being the same and each having eighteen guns in the main battery. The Alabama has a slightly larger displacement than the newer craft, but to offset this the Illinois has a much larger indicated horsepower. As the Alabama far exceeded her contract speed, it is confidently expected that the Illinois will make an equally good showing.

He Was "Busted."

Yesterday morning before breakfast, one of our magistrates was summoned to perform a marriage ceremony. After a long walk he arrived at the house and did his work and was then asked how much he charged. The squire replied that he never made charges, but—"Well," replied the bridegroom, "I swear I'm glad of it, because I'm plum busted."—Winston Journal.

Why They Want No Independence.

Of course those who would run it to their nation do not desire an independent spirit to manifest itself in any party. It might upset their plans of what would be worse for them and better for the State, it might depose them from leadership.—Durham Herald.

Harvard Freshmen Killed.

Cambridge, Mass., June 11.—H. S. Bigelow, of Buffalo, a freshman at Harvard, was instantly killed by a chemical engine of the Cambridge fire department to-night.

A fire was discovered among a pile of boards near the Harvard architectural building by one of the professors. An alarm was sent in but before the firemen had responded Professor Hollis and the students had put out the fire. The alarm caused the undergraduates to assemble and as the firemen drove up there was much jeering. The chemical engine was very late and the crowd hooted the men. The accident is described differently, the fireman claiming that the horses on the engine became excited at the howling crowd and dashed forward, scattering the crowd. The students claim that the driver, John Dowdis, deliberately drove his engine into the crowd of students. Bigelow was caught under the wheels and other students were knocked down, but only one had any injury to speak of. As soon as the students realized what had happened they made a wild demonstration. But cool heads maintained control and the fireman were allowed to return to their stations.

Gov. Samford of Alabama Dead.

Montgomery, Ala., June 11.—W. J. Samford, Governor of Alabama, died to-night at Tuscaloosa, Ala., where he has been ill for some time. Disease of the heart was the cause of death.

Governor Samford has been in Tuscaloosa several weeks, having gone there to attend a meeting of the trustees of the State University. He had been ill since before his inauguration as Governor, but it was believed that immediate danger of death was past. While in Tuscaloosa, however, his illness returned with renewed violence and he became so dangerously sick that the physicians feared to remove him to Montgomery.

Yesterday Gov. Samford was thought to be improving but he grew worse today and succumbed to-night at 10:10 o'clock.

Gov. Samford was about 55 years of age and was a native of Alabama. He had served in the State Senate and in Congress, was a member of the Constitutional Convention of 1875, and held other important public offices. He was elected Governor in August of last year and was inaugurated December 10th last.

Hon. W. D. Jenks, President of the State Senate, will succeed him as Governor.

Practically completed returns to Edward W. Parker, statistician of the United States Geological Survey show the total amount of coal in 1900 to have been 267,542,444 short tons, an increase over 1899 of 13,802,452 tons, of little more than 5 per cent. The value of this product was \$297,920,000, an increase of 16 per cent. over 1899.
