American Invention for England.

Pittsburg, Pa., June 25.—W. A. Bostwick and John Evans, of the Carnegie Steel Company, have returned from England, where they introduced a new process of open hearth steel-making in the works at Middleborough.

The process, for which the English company pays \$500,000 and a royalty on every ton, is the invention of Ambrose Monell, engineer of tests of the Carnegie Company for making steel for armor plate. It includes the use of molten iron direct from the blast furnace in charging the open hearth furnaces. The old method was to use cold pig iron and scrap.

Different Views.

It is almost amusing to hear the various opinions that people have about the crops. One says that while the spring was late and crops were thrown badly behind, they are looking fairly well. Another says that but for grass that has troubled farmers so much crops would have been fine, and they are looking pretty well anyway. Still another says that the prospect is very poor—poorest he has seen for years. And so it goes—as many opinions as there are people.—Scotland Neck Commonwealth.

An uncertain temper is better than one that is certainly bad.

Stole His Wife.

A year ago Eugene Massey, a mere youth, ran away with Miss Servad Barbee, daughter of Mr. J. H. Barbee, who lives near Durham. They live at Berea Church. They went to Durham and were married there by Magistrate Gunter. The bride was only fifteen years old, and as soon as her father found she had run away, he went to Durham in hot pursuit.

Pay of Southern Governors.

The proposition in the Alabama constitutional convention to raise the salary of the governor from \$3,000 to \$5,000 a year has much to commend it. In most of the Southern States the salary of governor is so low that a man with any other source of income can hardly afford to accept the office; thus a handicap is placed upon merit.

A Currituck Boy Weighs 690 Pounds.

Mr. Louis Lewark, of Currituck county, N. C., has the distinction of being the biggest man in North Carolina. Louis is only 17 years old and tips the scale at 690 pounds. His shoes, which are always made to order by a firm in Elizabeth City have the following dimensions: Seventeen inches instep, thirteen inches toe to heel, five inches across the ball of the shoe and thirty-one inches around the shoe.

England Pays Awful Price.

London, June 25.—The South African war was the subject of innumerable questions in the House of Commons to-day. Information was elicited that the war continues to cost \$6,250,000 weekly; that the authorities estimate that the invaders of Cape Colony number from 1000 and to 2000 men, and there were 1484 cases of typhoid fever among the troops during the month of April, or which number 187 proved fatal.

The whole island of New York was originally bought of the Indians for an equivalent of about twenty-five dollars. Today New York has a population of about 3,500,000, which is exceeded by only one other city—London. Its wealth is enormous; its annual expenditures are more than twice those of the Republic of Mexico, and almost one third as much as those of the German Empire with its population of 52,000,000. And it has become the financial centre of the world.—July Ladies' Home Journal.

Rev. Geo. E. Knollmeyer, Ph. B. of the Virginia Theological Seminary, has accepted work under Rev. Jno. H. Griffith, Jr., and will assist in the Missionary field of Lenoir and Pitt counties. Mr. Knollmeyer arrived here Monday.—Kinston Free Press.

It is stated from Wilmington that the encampment of the State Guard, scheduled to begin on the 10th of July, will be postponed for ten days because of the impossibility of getting the necessary equipment and supplies ready by the 10th.

Feeding Dairy Stock.

Some farmers do not realize that a good dairy cow owes part of her superiority to her early care. If cornmeal be fed to heifer calves, it should not be given in quantities sufficient to cause any great accumulation of fat. If a calf acquires a habit of laying on fat, it will be apt to retain it for life. Such a cow under heavy feed instead of converting it into milk will store a great part in the shape of fat. A habitually lean cow will return more milk for a given amount of feed than a fat one can. On the other hand, a stunted calf is a loss.

Raising Geese.

Geese are easily raised. They must be kept out of the wet weeds and rain and must have plenty of grass and water. They should be fed bread and milk as soon as hatched, for if you wait until they learn to eat grass they will not eat anything else. Bread and milk is very essential, as the sweet milk will make rapid growth.

Leaf curl on Peach Trees.

For leaf curl of the peach, Bordeaux mixture in proportion of five pounds of copper sulphate, five pounds of lime and 45 gallons of water gives the best results. The first application should be made before the buds open in spring.

Use of Lime on Acid Soils.

On acid soils beets, spinach, lettuce, muskmelons and some other plants wholly fail or make a poor growth. The use of lime will correct the acidity and insure a good crop.

His "Ad" Was Profitable.

To test the value of a small advertisement a fruit seller in Paris advertised in several newspapers (paying good rates for space) that he would give a prize of \$1 for the largest apple that should be sent to him. He received fifteen sacks of apples altogether, paid the \$1 for the largest, and after deducting the cost of the advertising found that he had made a profitable investment.—Philadelphia Record.

Moyer, Jr., W. H. Bagwell, W. M. B. Brown, S. B. Wilson, J. B. Cherry, Sr., J. R. Moyer, W. H. Tucker, R. W. King, W. E. Parker, B. F. Patrick, J. R. Moore, W. H. Long and W. B. Wilson.

Married.

This morning at 8 o'clock at the home of Mrs. Emily Harris, Miss Emma Harris was married to Mr. J. A. Long, of Spartanburg, S. C. It was a quiet home wedding. No cards were issued to people in Greenville but the friends of the family were invited and a number were present to witness the ceremony performed by Rev. H. M. Eure.

They received a large number of handsome bridal presents. The bride and groom left on the morning train for Charlotte, from there they will go to Spartanburg S. C., where they will make their home.

Greenville vs Tarboro.

The Tarboro base ball club arrived here this morning to play a game of ball here this afternoon with the Greenville boys. They drove through the country in a hack and reached here about 10 o'clock. Those composing the team are: John Cheshire, Theo. Cheshire, Geo. Wilkinson, Edwin Morris, J. H. McCabe, C. Bell, Frank Powell, Earnest Taylor, H. F. Dav Malry Hart and Fred Phillips. The game was to have been called at 5 o'clock but we go to press too early to give the result of the game. They are a clever set of boys and it promises to be an interesting game. The Tarboro boys defeated the Greenville team at Tarboro several days ago and our boys hope to even up things this afternoon by defeating the Tarboro team.

The Way to Prosperity.

A successful man once said this was his

Motto:

Early to bed, early to rise, hustle like thunder and advertise.

Advertising

in THE REFLECTOR will bring you success. Don't lag behind in the race, but let the people know what you are here for.

The easiest, quickest and best way to sell anything is to advertise it in THE REFLECTOR. Such an advertisement goes straight to the people, they learn what you have to sell and you reap the benefit.

We have just purchased a large supply of bright and attractive cuts to illustrate REFLECTOR advertisements, and you are at liberty to use them. If you don't know just what you want to say, we will help you get up your advertisement. That is our business, to help you talk to the people.

The cost of an advertisement in THE REFLECTOR is the easiest part.
