Beauty is Health.

Walnut Lake, Ark., June 2, 1900.

I thank you for the benefit I received from your advice and the Wine of Cardui I took in my terrible condition. My life was no pleasure to me at all and I was of no use to anybody. After receiving your advice and medicine I commenced taking it and began immediately to improve. The pains left me and the menses, which came at the correct time, continued three days. I have gained strength and my weight has increased. My husband says the medicine has made me better looking than ever before.

Mrs. LIZZIE MANNELL.

Womanly health means bright eyes, rosy cheeks, clear complexion and elasticity of form. This is the youth unmeasured by years—the beauty of perfect womanhood. Beautiful women are happier and get more out of life than their sisters whose faces indicate suffering. Wine of Cardui made Mrs. Mannell "better looking" and infinitely happier because it cured her of those terrible pains. But she is no exception.

WINE OF CARDUI

Is giving thousands of women health, beauty and freedom from the dragging pains which made their lives so miserable. Wan faces, haggard eyes and emaciated forms are the results of suffering. What suffering can compare with the torture of irregular menstruation, leucorrhoea and falling of the womb! Beauty flees quickly before the ravages of such disease. The sharp pains of falling of the womb deepen the crow tracks in the face. Menstrual irregularities rob the eye of its fire and the complexion of its transparency. Leucorrhoea drains the body of its strength, but Wine of Cardui restores the natural beauty, brightens the eye, clears the complexion, rounds out the figure and brings back the vigor of health. Every druggist in this city handles \$1.00 bottles of Wine of Cardui.

Littlefield Friday.

Joe Rasberry and Miss Anna Speight, of Reaston, spent the day with Misses Effie and Hattie Kitrel, Sunday.

Circuses do not injure towns, certainly in a pecuniary way. One-half of those who come to town on circus day do not go under the canvas, but all who do come spend more or less money with the merchants. It would be better for towns more financially wise to encourage circuses than excursions to larger towns.—Turboro South-erner.

Two Massachusetts girls have been left a fortune of \$200,000 on condition that they remain single. Ordinarily this would be a severe test but in this case the girls don't mind it, as they are both over sixty.—Wilmington Star.

It's funny that when we're tired we only get rest by retiring.

People Believe in It.

It has been cynically said that anything can be sold by advertising now-a-days. This is not so. Many liniments have been advertised but only one—Perry Davis' Painkiller—has stood the test of sixty years' use. Today its popularity is greater than ever and is based upon what anybody says but upon what the remedy does. There is but one Painkiller, Perry Davis'.

WEDNESDAY, OCTOBER 9, 1901.

We regret to know that Editor T. R. Manning, of the Henderson Gold Leaf, has been critically sick the past week.

A negro is now in a hospital in Washington, whose case is attracting the attention of physicians and surgeons. He was shot on the 13th of September, the wound being similar to that of President McKinley, but worse.

Possibly the difference in the two cases that will account for the recovery of the negro is that he is not being killed by the attention of too many big doctors.

We take pleasure in calling attention to a new Journal of Agricultural Education published at the A. & M. College, Raleigh, N. C. by the Professor of Agriculture, Charles William Burkett.

Over King Edward of England hangs the menace of death by cancer—an old enemy of the Guelphs, and one against which modern medical science is impotent.

If there be, as some bacterialists inform us, 5,000,000 bacteria in a drop of pure milk, what a menagerie it would be after the milk had been doctored with the water some dairymen use.—Wilmington Star.

Perhaps You Wonder

if the tormenting cold that made last winter one long misery will be as bad this year. Certainly not, if you take Allen's Lung Balm when tickling and rawness in the throat announce the presence of the old enemy.

TRADE WITH THE HOME MERCHANT.

The department stores and mail order houses are doing their best to get the trade of the country. They are sending out catalogues by the million, circulars by the hundred thousand, and salesmen by the score.

A lady ordered a cloak from a northern house, and when she came to compare it with the cloaks on sale in the local stores she found it decidedly inferior quality.

Even if the goods cost a few cents more at the home store, it would pay you better to patronize the local merchant. It is the local merchant who pays a large part of the taxes of the town, who invests his money and helps to keep up all the local enterprises, who contributes to the church and all the place's charitable and religious institutions.

It is the local merchant who keeps a town alive, and every time you send money off to a Chicago or New York house, you take that much away from the trade of your town.—Raleigh Times.

Expensive Livers.

Appropos of Pierre Lorillard's repeated assertion that no gentleman can live well on an income of less than \$1,000 a day and expenses, a Union club associate says: "There are today in New York at least a dozen men whose living expenses exceed those of Pierre Lorillard at the time he made the remark, a score of years ago."

Bridgemen Are Rovers.

Speaking of American bridge builders, in an article relating to structural iron workers, a writer in Leslie's Monthly says:

"It is now here, a thousand miles away tomorrow, with these men. Their trade makes them rovers, going wherever a great job may be. At this moment they are in Philadelphia, now in a town on a Canadian river, in camp far in the thinly settled parts of the southwest, even abroad. In New York today there are some men who have only recently returned from India."

Died.

Mr. J. R. Tingle, of Pitt county, near Grifton, died Monday evening of a yellow chill, aged about 60 years. He was buried today. About four weeks ago he lost a daughter, and about a week ago his son died of the same dreaded disease.—Kinston Free Press, 8th.

A French hygienic journal states that in Tunis the mortality from tuberculosis is 11.3 per 1000 among the Arabs, and only 0.75 per 1000 among the Jews, who lead pretty much the same life as the Arabs except that they daily clean all their furniture with moist cloths, and never stir up the germ-infected dust with brooms.

Long Distance Affection.

A party of Georgia negroes have returned to their homes with a strong story of hardships they suffered in the Adirondack region and throughout New York. This is another section of the country where they read "Uncle Tom's Cabin" and sympathize with the negro when he stays down south.—Washington Post.

Death of M. H. Beardsley.

Yesterday morning at 5 o'clock, at his home, No. 405 Queen street, Mr. Moses H. Beardsley, a well known young business man of Wilmington, passed away after an eight weeks illness with typhoid malaria fever.

Mr. Beardsley was born in Farmville, N. C., December 1875, and was therefore in the 26th year of his age. For some time he has resided in Wilmington, where he had a position as salesman with the Singer Sewing Machine Company, of which his brother, Mr. D. M. Beardsley, is manager. He also has another brother, Mr. E. J. Beardsley, employed in the same office, and leaves a wife and two children to mourn their loss.

The funeral services will be conducted by Rev. John H. Hall, pastor of Fifth Street M. E. church, this afternoon at 4 o'clock, with interment in Bellevue cemetery. Wilmington Lodge No. 139, I. O. O. F., of which deceased was a member, has been called together to attend the funeral in a body.—Wilmington Star.

Mr. Beardsley was a native of Pitt county and a son of the late Mr. Lambert Beardsley.

Wild Dogs.

For two or three years there has been a colony of wild dogs on Craig & Wilson's farm east of Gastonia. The colony descended from a homeless female dog which took refuge on the farm something over two years ago. She produced a litter of pups and these in turn grew up and multiplied. Messrs. Frank McArver and Ed Jenkins from time to time have been killing them as they have been able to get within gunshot range of the wild canines, until now only about two remain. These dogs lived in the swamps and fields. They had deep dens of refuge burrowed out in the swamps, where they had comfortable and romantic domestic headquarters under ground. In summer they lay under the thick cotton and peas and other growing crops. At night they chased the hare and prowled about the neighbors' premises, but they were seldom to be seen by day.—Gastonia Gazette.
