SATURDAY OCTOBER 19, 1901.

Our friends the advertisers are making heavy demand on THE REFLECTOR. However, we will try to take good care of all who want the people to read what they have to say.

Judge F. D. Winston, who has presided at this term of court, has made many friends among the people of Greenville and Pitt county. He is a good Judge, and will hold the courts here next year.

President Roosevelt has opened wide his arms and taken the brother in black in his fondest embrace. A few days ago he had Booker Washington to dine with him at the White House. This is a spectacle for the country to behold, and that it is nonseating to most people, especially of the South, goes without saying.

To Grow Colored Cotton.

"Speaking of chemical combinations," said a New Orleans cotton merchant, "I wonder why some man has not tried to discover a process of growing colored cotton so that it would not be necessary to dye the product after it is gathered and put in a manufactured state. Man has wrought many strange changes in the last few years. He has cultivated fruits and vegetable products out of their natural state, and has really given birth to many strange and new varieties of life. Think of what a pretty sight it would be to see cotton in the open season bursting in all the colors—rows of red, and green, and blue, and white and yellow, and all the other shades. I may be dreaming, but it seems to me that this thing is within the range of chemical possibilities. Of course, I know the objection will be urged that the heat of the sun would preclude the possibility of holding the color in the bolls of cotton. It will be contended that this force would draw out the coloring properties. Why not use this very force to do the coloring? This, it seems to me, might be done by some method which the chemists understand, and the heat of the sun could be used, for instance, to draw out of the cotton all the properties except such as would give it the color desired. This may be one of the discoveries of the future, but I suppose it is some time off, and in my time at least we will continue to grow cotton in just two colors, white and green."

WASHINGTON LETTER.

From Our Regular Correspondent.

WASHINGTON, D. C., Oct. 18.

While every effort is being made to prevent publicity being given to the fact it is learned that the Treasury statement for September, which shows a falling off in our export trade for that month of over \$9,000,000, as compared with the corresponding month of last year, has given the Republican leaders a bad scare and that means to reverse this condition of affairs are the chief topic of discussion at the White House.

Although Senator Frye granted an interview to the newspaper men and talked definitely on the subject of his subsidy bill, and more or less vaguely on the subjects of reciprocity, the Isthmian canal, the revenue cutter service etc., the real object of his coming to Washington did not come out. Senator Lodge was seen by your correspondent, and practically every other Washington correspondent, but he refused positively to say anything for publication. There is a decided fear that the conditions may shape themselves as they did during the Harrison administration when from a period of prosperity things took a sudden "slump" and resulted in a Democratic victory at the following presidential elec-

The people of South Carolina have jumped at the conclusion of sending General Wade Hampton to the senate to succeed Johnnie McLaurin. This means that our neighbors are growing tired of rottenness in politics and we know of no better way to purify them than by following such leaders as Hampton. But it will take a long time to rub out the Ben Tillman stain. —Wilmington Dispatch.

### Seek Relief!

The great proportion of women who suffer never make a serious effort to benefit themselves. The most of them go on paying no attention to their little menstrual disorders, believing they will eventually wear off. They grow worse and worse every day. At the period of menstruation a woman is peculiarly susceptible to cold and other external influences and it is also the most favorable time for the development of hidden disease germs which may be lurking in the system. Any physician knows that disordered menstruation, falling of the womb and leucorrhoea are blighting lives in almost every home. No woman should neglect herself a moment after she sees indications of female diseases. Almost instant relief can be secured by the use of

### WINE OF CARDUI

It will relieve you right in your own home. Will you accept the testimony of Mrs. Beigler and thousands of other women and really seek relief today? All druggists sell \$1.00 bottles of Wine of Cardui.

100 Chicago Street, Fort Wayne, Ind., March 27, 1900.  
Your Wine of Cardui has done a world of good for me. I have used five bottles of the Wine and one package of Theodor's Black-Draught. And since I have started to use it I will not be without it in the house. It helped my sister in Toledo, who did not menstruate as she ought. She was sixteen years of age and nothing else helped her. I was in a very bad state myself before I used your medicines, but I found relief in three days. And now I feel like a new woman and do all my housework and washing, which I could not do before I took Wine of Cardui. I would be very glad to write any poor woman and tell her how I suffered before I used Wine of Cardui.

For advice and literature, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Company, Chattanooga, Tenn.

### Late Trains.

The passenger train was nearly two hours late Friday night. The delay was caused by having to wait for the Seaboard Air Line train at Weldon. The Seaboard train is seldom on time and the train on this road being kept back for it is an inconvenience.

### Setting a Prisoner Free.

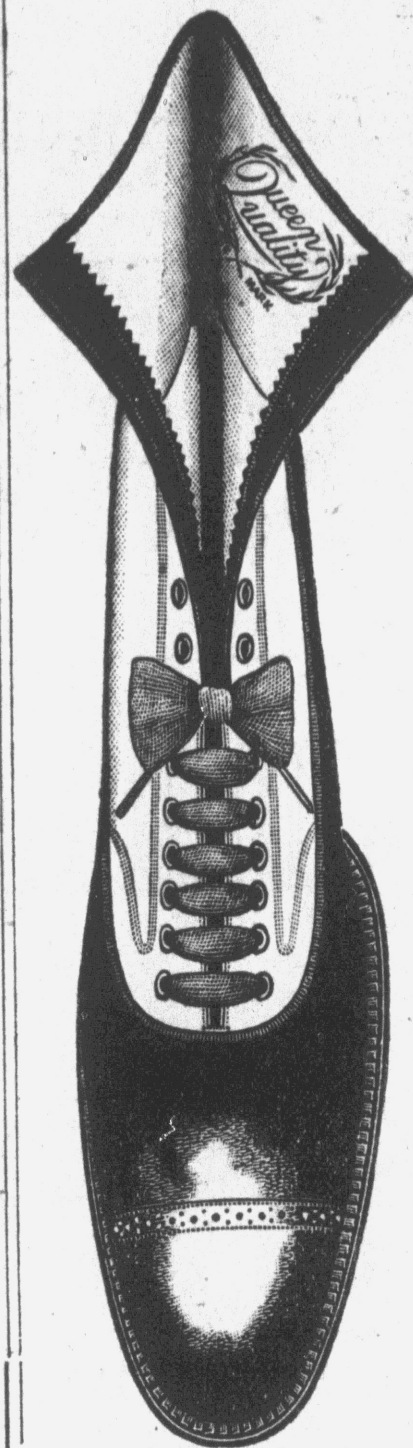

A man with rheumatism is a prisoner. His fetters are none the less galling because they are invisible. To him Perry Davis' Painkiller comes as a liberator. Rubbed well into the swollen, stiffened joints it not merely drives pain, it makes the muscles pliable so that the prisoner becomes a free man. There is but one Painkiller.
