EPISCOPAL CONVOCATION.

In Session With St. Paul's Church.

Reported for THE REFLECTOR.
SATURDAY AFTERNOON, 3:00 P. M.
Business session. This meeting was mainly devoted to reports of the progress of work in the different sections of the convocational district. All parishes represented were called upon by the Dean to give brief account of their condition. The Evangelist told of the missionary work in his charge. The question of supplying the demand for labor was introduced by the great need of workers shown by these encouraging reports.

The next meeting in January was decided upon and the invitation to Trinity Parish, Chocowinity, was accepted. Convocation then adjourned.

SUNDAY.

At the morning service the following clergymen took part, Rt. Rev. A. A. Watson, D. D., and Rev. Messrs. N. Harding, Robert Drane, D. D., N. C. Hughes and the rector of the parish. The Bishop preached the sermon, and administered the Holy Communion, assisted by Rev. N. Harding. In the afternoon there was the rite of Baptism. At night there was evening service. One candidate was presented for confirmation. The Rev. N. C. Hughes preached the sermon.

The Companionship of Christianity.

The young man who abandons the church voluntarily cuts himself off from the most exalted thoughts that can enter the human heart. He puts himself out of the company of Raphael, and Rubens, and Thowaldsen when he might live in the atmosphere that made them great. If Michael Angelo, Sir Christopher Wren, and Inigo welcome him at the door, Mendelssohn, and Beethoven, and Bach greet him as he enters. The organ may be spavined and wind-galled. The choir may be an aggregation of tuneless tyros, but if the young man has brought any worshipful music in his soul into the church the same uplifting sentiments that inspired the "Messiah" and "Elijah" will sweep the chords of his heart as the organist touches the keys, or as the choir clears its collective throat and sings "Old Hundred."—The Rev. Francis E. Clark, D. D., in the November Ladies Home Journal.

THE SLOT MACHINES MUST GO.

New Bern, N. C. Nov. 15th.—The event of this term of Craven county Superior Court, now in session, Judge Henry T. Bryan presiding, was furnished by the grand jury today. A true bill of indictment was found against a dozen proprietors of slot machines now in operation in this city. Solicitor Larry I. Moore will thoroughly test the cases and will drive the machines out if possible.—Taken from special to Raleigh Post of Saturday, Nov. 16th, 1901.

We heartily commend the wise and noble determinations of our talented townsman and able Solicitor, to drive these abominable gambling devices out of New Bern. They are a curse to any community.

But, Mr. Solicitor, they say charity begins at home. Right here in your own town there are numbers of these machines running day and night. The sons of your neighbors are being lured into these saloons by these machines and taught their first lessons in the perilous ways of gambling.

There is not a day when you walk the main business street of your town, during the hours when these saloons are permitted to be open, that you may not look in upon them and see them, by a device that is too bald to be taken as serious, doing a business that is so plainly gambling that even its patrons and victims laugh at the ignorance of the man who pretends to defend it on the plea that is it not gambling.

You have made a good start in New Bern. Now put the machinery of the law in motion in Greenville and drive these "wicked things" out of your own town, and your people everywhere will commend you and bless you for it.

THE BEARS IN THE YELLOWSTONE PARK.

In his latest book, Ernest Seton-Thompson makes mention of a fact not generally known, namely, that nobody is allowed to carry a gun in Yellowstone Park. This fact causes nervousness in some visitors who do not know the habits of animals very well, as they see the bears and other supposedly ferocious beasts walking about, scuffling with each other, or coming to poke in the garbage pile outside the kitchen door for tidbits. Mr. Thompson states that the bears actually come to the back door of the hotel for scraps and are rarely disappointed. He also says that during the days that he spent in the park he was repeatedly in close proximity to bears and never heard one of them approach him. Somehow or other, their big velvet-padded feet were set down in such a way as not to produce the slightest rustle of a sound. This would certainly be discomposing to the nerves of a timid person.

But Mr. Thompson sat in the woods, among these bears all of one day and was not molested in any way though he confesses to have had some fears of the big grizzly which at one time came charging down apparently at the very place where he was hidden. It turned out, however, that the grizzly merely wanted to see what was in a tomato-can near-by. All this goes to prove what the Hindu sages say, that wild animals, even the most ferocious, are not apt to molest man if he does not arouse their animosity and excite their combativeness by continued hostile demonstration. In the long process of evolution wild animals have learned the superiority of man in practical ways and acquired a fear of him which usually results in their giving him a wide berth. It is said, however, that in regions where the larger carnivora are left unmolested by man, they show little if any desire to take the offensive toward him, though they are generally too shy to make friends. The Yellowstone Park experiment seems to indicate this.

Preliminary estimates of the corn crop for 1901 by the Department of Agriculture experts indicate a yield of 1,369,970,000 bushels—the smallest harvest since 1894. The average yield per acre is 16.4 bushels, as against 25.3 bushels last year and a ten year average of 24.4 bushels per acre. Such an outcome under earlier economic conditions would have portended distress and disaster; yet so varied are the industrial resources of the Republic at this time that a reduction of more than twenty-five per cent. in the output of corn as compared with last year creates scarcely a ripple in commercial channels. Losses have been confined strictly to the circumscribed area where crops have failed, and in many instances there has been inculcated a valuable lesson in crop rotation. Had this year's crop risen to the vast proportions of that of 1900 the railway trunk lines, which even now are suffering from a severe car famine, would have been confronted by a problem in transportation vastly more difficult than any of which record has been made in American economic history.—Philadelphia Record.

The State Superintendent of Public Instruction gives out a summary of this year's statistics as to negro education in North Carolina. There are 219,677 negro children of the school age. The enrollment is 141,180, against 130,005 last year. (The average attendance is 80,747, against 64,505 last year.

FOR HARNESS and Saddle Sores Mexican Mustang Liniment is just what you need. It takes effect at once, and you will be astonished to see how quickly it heals sores.

It's this way:
You can burn yourself with Fire, with Powder, etc., or you can scald yourself with Steam or Hot Water, but there is only one proper way to cure a burn or scald and that is by using

Mexican Mustang Liniment.

It gives immediate relief. Get a piece of soft old linen cloth, saturate it with this liniment and bind loosely upon the wound. You can have no adequate idea what an excellent remedy this is for a burn until you have tried it.

A FOWL TIP. If you have a bird afflicted with Roup or any other poultry disease use Mexican Mustang Liniment. It is called a STANDARD remedy by poultry breeders.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours,

F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.

Examination and advice free. **YOU CAN CURE YOURSELF AT HOME** at a nominal cost.
