Ricks & Wilkinson

This is Greenville's

Fastest Growing Store.

WHY?

BECAUSE no other store Anywhere is so diligent in the interests of the buying public to which it looks for support.

BECAUSE nothing but absolutely reliable merchandise is admitted here at any price--that point is of vital import.

BECAUSE the prices we ask are the lowest known to the merchandise world for goods of the quality we sell.

BECAUSE every sale that we make is backed by an absolute personal guarantee of satisfaction to the smallest detail.

BECAUSE every thing is done to promote your personal comfort while shopping, and to fulfill the most exacting requirements.

And so we might continue to name reason after reason almost without end. No really careful buyer will pass the offers we make without investigating them. Look at this double column full of Economy opportunities for this week:

White India Linen, White Persian Lawns, White Piques. The prices start at 5½c and by an easy rising scale run up as high as 75c.

French, Austrian and Japanese Fans in all the latest new creations in Crepe paper, Silk Gause and all floral designs 5c, 10c, 15c, 25c, 50c, 75c and \$1.

Zephyr Dimities.

Something entirely new this season, and just as pretty as they are new. We could offer them as a bargain at 12½c, but this week we say 8½c.

SAND MINE CAVED IN.

One Man Caught and Badly Scared.

While the big mines over the country are having so many disasters, Greenville, to keep up with the procession, has a little mine excitement of her own.

There is a big sand mine near the river on Mr. Allen Warren's Riverside Nursery property, and he has contracted with the Imperial Tobacco Co. to furnish them the sand needed in their factory building now going up here. Several teams are hauling this sand from the mine to the factory.

Thursday afternoon Dave Adams, colored, one of the men doing the hauling, was down in the mine digging out sand when the crust of earth above caved in on him. He was entirely buried in a standing position, only the crown of his hat being visible to show where he was. His companions quickly dug him out and he was not hurt at all, though badly frightened.

New Names for the Month.

Not long ago M. Camille Flammarion proposed a new calendar with a new division of the year and new names for the months. His proposal has evidently borne fruit, for a little almanac has just been issued at Madrid in which the year is divided into four periods of three months each, all equal and all of 91 days. The new style of year begin, March 21 and has an extra holiday to make up the 365 days which nature invented. The months are named in order: Truth, Science, Wisdom; Justice, Honor, Goodness; Love, Beauty, Humanity; Happiness. Progress, Immortality. It gives a vivid idea of the leisure at the command of certain of our fellow beings to read solemn pseudo scientific fooling of the sort, remarks the New York Sun. The Western Continent is too busy to be much affected by it.

It Takes Time—

To force a man to see his errors when he appears to be successful.

To convince a woman that simpering ways rarely catch many men.

To chasten the antagonistic spirit of a woman afflicted with a fad.

To bring a man of strong will to a realization of the rights of others.

To make the very young man realize how small an atom he is in the world.

Three gifts of \$1,000 each to the Methodists Orphanage at Raleigh show that it is near the hearts of North Carolina Methodism. The three who have given \$1,000 each this month are all bankers—Mr. W. W. Mills, president of the new Loan and Trust Company at Raleigh; Gen Julian S. Carr, president of the First National Bank of Durham, and Mr. E. B. Borden, president of the Bank of Wayne, Goldsboro.—Raleigh News and Observer.

Home industries should receive strong local patronage. Every one in a community cannot establish a factory or inaugurate a new enterprise, but every man can help by giving his trade to home enterprises. The investment will pay.—Salisbury Sun.

FRIDAY, MAY 23, 1902.

The Democratic State convention of South Carolina met at Columbia Wednesday, and among the resolutions adopted was one condemning the course of Senator McLaurin.

The volcanic troubles on Martinique and St. Vincent islands in the West Indies continue to cause alarms. Simultaneously with recent eruptions earthquake shocks were felt at St. Augustine, Fla.

If Greenville's inactive Chamber of Commerce would become active enough to take some action relative to the suggested slight changes in schedules of morning trains on the Southern, Atlantic & North Carolina and Atlantic Coast Line railroads, a direct connection from Raleigh and points west of these with Greenville could be secured. The advantages of such connection would be sufficient to more than justify the action. Why not do something and get the changes?

Frost, Torrence & Co., of Gastonia, have just installed the largest ice cream freezer ever seen in this section—or any other, so far as our knowledge goes. It weighs 600 pounds and cost \$300. A gasoline engine will be required to furnish the motive power for running the machine. The capacity of this monster will be ten gallons of frozen cream in twelve minutes. With apologies to our readers for publishing this, we merely say we got the facts from the Gastonia Gazette, and we never before had cause to doubt Brother Marshall's veracity. Though we gently admit this does sound somewhat fishy.

It is to be noted that other towns besides Charlotte took time to join in the 20th of May celebration. That the people of North Carolina do not any longer regard the Mecklenburg Declaration of Independence as a myth is clearly evidenced by this action. But then maybe it is only a tender regard for the feelings of Charlotte that this kindness was shown. As this is the only event they have to celebrate, let them get all the enjoyment they can out of it. Her suffering from mental anguish, if disappointed, would be too great.

The fellow who doesn't know enough to come in out of the rain may still be slick enough to carry a borrowed umbrella.

The Betrayal of Confidence.

Though in no position to give special advice to any political party, it is not foreign to the Recorder's function as a religious journal to condemn to the utmost the recent exposure of personal and confidential letters in North Carolina. There are no words too strong for the branding of this variety of treachery. That it proceeds from one who has been Governor of our State is the more lamentable, and, for the honor and the weal of the Commonwealth the more cause for unreserved condemnation.

Time will come when men will not stoop to touch such letters, when newspapers will not dare to insult their readers with such dishonor, when no amount of special pleading will suffice to condone such an abuse of that relation between man and man without which the race would quickly return to barbarism.

Even now he who has done this thing has won for himself disgrace that will distinguish his name far longer than the title that his high office would have. He will be remembered not as the Governor whose ungovernable temper ruined his administration, but as the man who played the traitor with a consciencelassness not surpassed by Benedict Arnold or Judas Iscariot. Their opportunities were larger, it is true; and they were probably men of larger mold.

He who destroys faith in mankind serves Satan more directly and more richly than all his min-

ions. Over against all that this man has done or may do will stand the fact that personal honor has been given a blow, the shock of which will in furiously affect public life in our State for years.—Biblical Recorder.

The Like of Accidents.

Most naturally the remark is heard, especially in the spring of the year, that the list of accidents grows larger as time goes by. It does seem true, but is it? There may be more of them, but are there really more according to population? What causes the thought is more likely due to the increased facilities for the dissemination of the news. Ten years ago, with the same number occurring, the public would scarcely have heard of more than half of them. Not only are facilities better, but people are reading more. The man who used to content himself with borrowing his neighbor's weekly paper, is not content now with anything short of a daily. Yet it is quite likely the rush and hurry of business contributes to fateful accident. Men think they can go it pell mell, stand all kinds of mental and physical strain, but the first thing he knows he slips—forgot—and something happens.—Greensboro Record.

One of First Nurses at Watts Hospital.

Miss Margaret B. Boyd, one of the first nurses at the Watts hospital, died at her home in Baltimore a few days ago. The deceased was a member of the first class to graduate from the Watts hospital training school for nurses. There were but two members of the class—Miss Boyd and Miss Clay.

While nursing Mr. A. G. Bauer, who was hurt in the railroad accident in which Mr. C. H. Norton was fearfully wounded, Miss Boyd was struck a terrific blow by Mr. Bauer while delirious. From the effects of this blow she suffered several hemorrhages of the lungs and soon afterwards gave up her position with the hospital and returned to her Baltimore home. After this she spent sometime in the Catskill mountains and then traveled in Italy, this being done with the hope of regaining her health. She never recovered from the blow, however, and it is said that this was the cause of her death.

Miss Boyd will be pleasantly remembered by a number of our people and the news of her death will be read with regret.—Durham Herald.

State Board of Medical Examiners.

The regular annual session of the North Carolina State Board of Medical Examiners will be held in Wilmington, beginning June 4th, 1902. Doctors desiring examination for license should present themselves promptly at the beginning of the session and carry with them a diploma from a college of medicine requiring not less than three years attendance upon lectures prior to graduation, evidence of clinical instruction and certificates of character. The license fee is \$10.00.

All physicians desiring to practice in North Carolina not previously licensed or registered, should attend the session and secure license. We understand there is a growing disposition on the part of judges and solicitors to enforce the statutes regulating the practice of medicine in this state. The president of the board is Dr. E. C. Register, Charlotte, N. C.; Secretary, Dr. J. Howell Way, Waynesville, N. C.

The railroads throughout the state will give reduced rates to the meeting.
