Great Cut in Prices of High Class Wash Dress Fabrics and Silks

Although most houses wait until the end of the season to make reduction, it has never been our policy to do so. We put a time limit on goods, and if not sold within that period, they must go. This week we offer among other great values many of our finest novelties at prices far below cost of importation, an opportunity customers can thoroughly appreciate with the season all before them.

All of our White Goods, Lawns, Dimities, Silks, Chiffons, Mercerized Gingham, Piques, in white and figured, have been reduced 25 per cent.

Also 10,000 yards Challeys and Scotch Lawns 4 1/2 yard. Fine sheer quality, pin dots, rosebud all over effects, fancy stripes and figures, white and tinted, full assortment. Lot not broken. (This quality elsewhere 7c yd.)

WORLD'S SUPPLY OF VOLCANOES.

The terrible catastrophe of St. Pierre has directed attention to other volcanoes, of which about a thousand are known. Of these, three and twenty five are now active. Those now quiescent are not quite extinct; any of them may, at any time, renew an activity which, so far as is known, is but suspended. Vesuvius was considered by the ancient world as extinct until the period of the destruction of Pompeii. From 1306 to 1631 this volcano was again quiescent—during a period of three centuries.

The volcanoes of Iceland are in perpetual activity. Etna, Vesuvius and Stromboli are now intermittently active. The volcanoes of Spain were very active in the province of Murcia in 1819. The Azores, the Canaries, the Cape de Verde Islands, Isle de Bourbon, the Philippines, Java, Japan, Hawaii, Mexico, Central America, Ecuador and other States along the Andes, Terra del Fuego, are coun-

tries containing volcanoes perpetually active. The Azores and the Hawaiian Islands are, in fact, nothing but volcanoes rising from the sea. Alaska contains several active volcanoes, and the Northwestern States of the Pacific include mountains that have become quiescent in very recent times. A glance at a map of the world on which the volcanoes are marked will give a vivid idea of their distribution. This is not a random one, as the map will clearly shew.

Quiescent volcanoes that are becoming active usually give warning by earthquakes. This was not the case in Martinique, however. The crater begins by pouring out huge volumes of smoke composed of gases and steam, and then come volcanic ashes, pumice, and every now and then volleys of incandescent porous stones—lapilli and pozzolans. Globular masses of white hot lava are thrown out in spiral like forms, accompanied by explosive sounds. Through the clouds above the crater lightning flashes, and the clouds themselves are illuminated by the glare of the lava beneath. The lava itself may be thrown out by explosions or it may open ways through huge fissures in the side of the mountain. In very violent eruptions the whole head of the mountain may be blown off, or the mountain may be riven apart, as at Krakatoa. The volcanic ashes are sent out in vast quantity and, being light, are carried to enormous distances.

The ashes of Vesuvius have fallen in Constantinople. The ashes from St. Vincent in 1812 darkened the whole sky at Barbadoes; those from Sumbawa in 1815 were carried 700 to 800 miles in quantities. The ashes from Krakatoa in 1888 filled the upper air and produced the red sunsets of that year, which continued for months. The gaseous products of a volcano are deadly. In Java the neighborhood of an active crater has been found covered with the dead bodies of wild animals—tigers, deer and the like. It was, no doubt, waves of noxious gas that killed thousands at St. Pierre. Some faint idea of the energy of volcanic forces may be had by considering the pressures necessary merely to maintain a column of lava at the level of the summit of a high mountain. Teneriffe is 3,710 metres in height. A pressure of about one thousand atmospheres is necessary to make the lava flow from its crater. The Martinique volcano was 1,350 metres high, and the pressure was, at the minimum, 400 atmospheres.—New York Sun.

Nice Boats.

The gasoline boats of Patrick & Smith and G. E. Harris are certainly nice little craft. They handled both the Methodist and Baptist Sunday schools on their picnic occasions, transporting them safely and in good time. The larger of these boats, the Bessye, is used for transferring freight and passengers to the wharf when the water is so low the steamer Myers cannot get here.

Governor Aycock offers \$400 reward for the arrest of each of the persons who last week took the two negro boys from the jail in Salisbury and lynched them.

GOING AWAY?

IF SO, see that your trunk contains a good stock of vacation stuff. You'll need Outing Shirts, Ties, Collars, Cuffs, Fancy Hosiery, and perhaps

a suit of nice Underwear. All the fixings a gentleman needs and a good assortment of each sort at prices with which he will not think of finding fault. Step in before you leave.

FRIDAY, JUNE 20, 1902.

KEEPING CONGRESSMEN.

The following clipped from an editorial in the Philadelphia Inquirer of the 18th inst., is of general application. It says:

"The Congressional district composed of Montgomery and Bucks counties has nominated I. P. Wanger for the sixth time. The district is to be congratulated on its common sense. The proper way to handle this Congressional business is to retain a representative when he is alive to the interests of the country and the State."

The tendency in the North and West is for the retention of a Representative in Congress when, as the Inquirer suggests, "he is alive to the interests of the country and the State." Of course they drop one quickly enough if he proves not to be alive to his duties, but they prefer to hold on to the right men when they get him.

Speaking further in the same editorial of the rotation in office that often prevails to considerable extent, the Inquirer also says "as soon as a representative is well broken in he must step aside for some raw recruit from a neighboring county. This is a most mischievous plan and is totally opposed to progress. It tends, of course, to weaken the delegation."

When a Congressman attends faithfully to his duties and is in position to be of much service to his district, it is an unwise policy to change him, for no other reason than that he has had it a term or two, and put in a new, inexperienced man. This policy of frequent changes has kept the South from reaching the prominence through her Congressmen that she ought to have. Get a good Congressman and keep him as long as he does good work.

Let the people of Greenville determine that the town shall go forward, bonds or no bonds. Much can be accomplished by working together. Don't wait for something to turn up, but take hold and turn it.

Are you interested in Greenville? Do you believe in the town and think there is a great future for it? Then put your shoulder to the wheel and push forward. In spite of all opposition and hindrances we have the best town in the State. Its natural progress is wonderful, and even greater things are in store for the old town. Talk it up! Let's all come together and push.

Even if the incoming Board of Aldermen cannot have the use of bond money to put in public improvements, there is no reason why they may not do much good for the town, even if it is on a smaller scale than they had hoped. The new Board will have on it three of the members of two years ago who put in some good improvements, one member of the present Board whose experience during the term will make him even more useful, while the four new members are men of good business capacity. Of course they will have no money to use in improvements except what is raised by taxation, but enough can be raised in this way to accomplish more than may be at first imagined. There are some license taxes that could well bear an increase to help out the revenue. The new Board can find good use for all the revenue raised.

Spring Fever.

Spring fever is another name for biliousness. It is more serious than most people think. Atorpid liver and inactive bowels mean a poisoned system. If neglected, serious illness may follow such symptoms. DeWitt's Little Early Risers remove all danger by stimulating the liver, opening the bowels and cleansing the system of impurities. Safe pills. Never gripe. "I have taken DeWitt's Little Early Risers for torpid liver every spring for years," writes R. M. Everly, Moundsville, W. Va. "They do me more good than anything I have ever tried." John L. Wooten.

The parties implicated in the famous Amos Owens Cherry tree swindle, at Rutherfordton, have been convicted in the Federal court, and besides being required to pay all costs in the case have been ordered to turn over to the court the sum of \$12,000 to be returned to the women who were defrauded by their operations.

A Real Friend.

"I suffered from dyspepsia and indigestion for fifteen years," says W. T. Sturdevant of Merry Oaks, N. C. "After I had tried many doctors and medicines to no avail one of my friends persuaded me to try Kodol. It gave immediate relief. I can eat almost anything I want now and my digestion is good. I cheerfully recommend Kodol." Don't try to cure stomach trouble by dieting. That only further weakens the system. You need wholesome, strengthening food. Kodol enables you to assimilate what you eat by digesting it without the stomach's aid. John L. Wooten.

Schedule B. Taxes.

All Schedule B. Taxes were due the first of June, and notice is hereby given that they must be paid at once.

The following subjects come under this tax as provided in the Revenue Law of 1901:

Theaters, Traveling Theatrical companies, Attorneys, Physicians, Dentists, Auctioneers, Real Estate and Collecting Agents, Dealers in Fresh Meats, Dealers in Wood and Coal, Photographers, Lumber Dealers, Undertakers, Junk Dealers, Horse Dealers, Peddlers of Clocks, Stoves and Ranges, Bicycle Dealers, Dealers in Theatre Tickets, Merchandise Brokers, Livery Stables Feather Renovators, Peddlers, Gypsies and Fortune Tellers, Lightning Rod Agents, Hotels, Billiard and Pool Tables and Bowling Alleys, Gift Enterprises, Prize Photographs, Slot Machines, Oil Tanks, Grain Distilleries, Merchants, Dealers in Pistols, Dealers in Pianos and Organs, Cigarette Dealers, &c.

Kodol Digests what you Eat
Dyspepsia Cure

Nature never makes a mistake and the preparation which duplicates its action cannot fail. Kodol Dyspepsia Cure never fails because it digests your food by nature's own process. Its effect is equally prompt on both occasional and chronic cases of indigestion, dyspepsia and stomach trouble of every kind. It digests what you eat while the stomach rests. No dieting is necessary. Eat all the good food you want. "We have been selling Kodol Dyspepsia Cure for the past two years and have also used it," write Bowman & Sons, of Valley Furnace, W. Va. "and never heard of a failure. We are so confident of its merits that we sell every bottle under our personal guarantee." Kodol Dyspepsia Cure never fails.

A County Affair.

The late "Tom" Marshall, one of
Kentucky's most brilliant wags and
lawyers, was always as poor in
pocket as he was rich in wit. On
one occasion, he found the judicial
sentiment setting strongly against
him; time and time over did the
court rule against his process of
questioning the witness involved.
At last, losing his temper, Mar-
shall turned to the judge and ask-
ed:

"Will Your Honor kindly fine
me ten dollars?"

"For what, Mr. Marshall?" ask-
ed the judge.

"Contempt of court."

"But you've been guilty of no
contempt," insisted the judge.

"Your Honor, believe me—I
never before saw a court for which
I had so much contempt as for
this!"

"Enter a fine of ten dollars
against Mr. Marshall for con-
tempt," ordered the bench, turn-
ing to the clerk.

"Thanks!" said Marshall. "And
now, Your Honor, will you lend
me ten dollars with which to pay
the fine?"

"Mark Mr. Marshall's fine re-
mitted," ordered the judge,
promptly. "The county can bet-
ter afford to lose it than I!"

SOME SHOP TALK.

Increased Facilities for Good Work.

THE REFLECTOR is just installing large additional equipment to its job printing department, including another fast press, paper cutter, stapling machine, and many fonts of up-to-date type. And the improvements will not stop here, for negotiations are in progress for another press yet—an extra large one—and much more new type. We are in shape for doing better job printing than ever.

Our new foreman and job printer, Mr. E. L. Tate, is an artist in his line and turns out the very best class of work. When you patronize THE REFLECTOR printery you are assured of the very best work. At the same time all patronage in every department helps your home paper do that much better work for the advancement of your town. Give us your job printing and get the best.

Rural Delivery.

Mr. A. B. Veazey, an inspector of the government postal service, is spending a few days here looking after the establishment of other rural free delivery routes in this county. The routes already established are very popular and we are glad the service is to be extended. Congressman John H. Small is to be commended for his efforts in this direction.

The new routes Mr. Veazey is looking after in this county are one more from Greenville, two from Winterville, two from Farmville and three from Bethel. It is not decided just when they will start.

Streams in central and western portions of the State have been much swollen by recent rains.

Leads Them All.

"One Minute Cough Cure beats all other medicines I ever tried for coughs, colds, croup and throat and lung troubles," says D. Scott Curran of Loganton, Pa. One Minute Cough Cure is the only absolutely safe remedy which acts immediately. Mothers everywhere testify to the good it has done their little ones. Croup is so sudden in its attacks that the doctor often arrives too late. It yields at once to One Minute Cough Cure. Pleasant to take. Children like it. Sure cure for grip, bronchitis, coughs. John L. Wooten.

BREAK INTO THE HOMES OF THE PEOPLE BY ADVERTISING IN THE REFLECTOR

A REFLECTOR advertisement will walk into the homes every day and will let your wants be known to the people.

A REFLECTOR advertisement will bring customers for your goods, find tenants for your house, find employment or employes, in fact fill any reasonable want you may have.

THE REFLECTOR goes into the homes of the people and is read for what it carries them; hence the place to tell your wants is in THE REFLECTOR.
