SATURDAY, JUNE 21, 1902.

THE BOND CASE.

Opinion of the Supreme Court.

Below we give the opinion of the Supreme Court in the injunction brought by S. T. Hooker and others to restrain the town from issuing bonds:

Furches, C. J. The defendant, the Town of Greenville, believing it was authorized by Chapter 121 of the Private laws of 1901 to raise, by the issue and sale of \$75,000 par value of coupon bonds, money for the purposes stated in said Act, proceeded to hold an election as provided in said chapter; and after said election at which it was found and declared that a majority of the qualified voters of said town had voted for the issue of said bonds, the defendant proceeded to advertise and was offering said bonds for sale. And it alleges in its answer that it had agreed upon a sale of the same and had levied a tax for the purpose of paying the accruing interests thereon; and the defendant being of the opinion that Chapter 497 of the Public laws of 1902 had established a graded school within the corporate limits of the town of Greenville, had levied a tax of ten cents on the \$100 worth of property and thirty cents on the taxable polls for the support of said graded school.

But the plaintiff, a citizen and tax payer of the town of Greenville believing that said Act, providing for the issue of bonds, was void for irregularity in its submission to the voters for their approval and alleged that the Act for the purpose of establishing the graded school was void, for the reason that it discriminated in the distribution of the money collected by taxation, between the white and colored races. And he further contends that they are both invalid for the reason that they were not passed by recording the yeas and nays on the second and third readings, as the Constitution requires such laws for raising money and taxing the people and their property should be, and void on that account.

This action is brought to restrain and perpetually enjoin the defendant from issuing and selling bonds and from levying any tax for the payment thereof or the interest thereon; and to enjoin the defendant from paying the \$5,000 provided therein to the trustees of the Graded School, and from levying and collecting any tax for the support and maintenance of said graded school. Upon a hearing before Winston, J. the injunction was refused and the plaintiff appealed.

There were many affidavits and orders offered on the hearing, as to the alleged irregularities in the manner of the registration and holding the election, and as to the manner in which the defendant performed its duty and as to the best place to get a water supply. But we will not enter upon a dis-

cussion of these, further than to say, that where the defendant has the power to act, the courts will not interfere unless fraud or bad faith is alleged and shown, but will leave these matters to be corrected by the people at the next election, if there is cause of complaint.

But the next ground alleged is a matter of which we must take notice, to wit, that the Act establishing the graded school discriminates in its provisions against one race and in favor of the other. If this is so, it is in violation of Article IX Section 2 of the Constitution, which provides as follows: "And the children of the white race and the children of the colored race shall be taught in separate public schools; but there shall be no discrimination in favor of, or to the prejudice of either race." That is, one white child of the school age shall have the same amount of money per capita as a colored child, and no more; and the colored child shall have the same amount per capita as any white child, and no more; that both races shall have equal opportunities for an education, so far as the public money is concerned. If this bill discriminates against either race to the prejudice of the other race, it is unconstitutional. Riggsbee v. Durham, 94 N. C. 800; Ruetz v. Commissioners, Ibid 709. The law will not allow that to be done by indirection that cannot be done directly. The Act establishing this graded school (Chapter 470 Pub laws 1901) has fifty calls, that is fifty corners and fifty lines in its boundary, which seem to us to be remarkable, and we were not able to understand what are the boundaries from the calls in the Act. Therefore, for the purpose of explaining the calls in the Act, we had a map of the town of Greenville, including the school district, furnished us for the purpose of enabling us to understand the calls in the Act. Blue v. Ritter, 118 N. C. 580; Foster v. Hackett, 112 N. C. 546.

(Here the boundaries of the school district are given.)

There is another provision in the Act that seems to be explanatory of the gerrymandering of the territory of the town for the purposes

of this school. The eighth section provides "that if there shall be so few of either race in the district that the board of trustees shall deem it inadvisable to organize a school for that race, then they shall have power to arrange for the children of the race which shall be represented to receive their pro rata proportion of the fund so raised by the special tax herein provided for, in some other manner, or they may give such pro rata proportion to the public schools for that race, adjoining the district herein described."

The Constitution says both races shall fare equally in matters of public schools, though they shall be taught in separate schools. If there "shall be so few of either race the pro rata of that race may be given to an adjoining school district." Without ascribing any reason the draftsman may have had for using the term "either race," we will suppose it was the white race he thought would be so small that it would not be worth while to organize a school for them, and if not, to give their money to some adjoining white district; would this be fair treatment to the white children in the district, and would it be treating them equally with the colored race? Would it not be a discrimination against them? But if we are in error in supposing that it was the white race that this section has reference to, and it was the colored race, the rule would be the same. We do not think the Act could authorize giving the money of "either race" to some other district. The Constitution has given it to them, and the legislature cannot take it away from them and give it to some one else. Therefore, as we are only considering this appeal on a motion for injunction to the hearing, as there are many disputed facts which we will not undertake to decide, we will only say that it appears to us now, that this Act is unconstitutional. But if it should be made to appear on the trial that this map is not correct, and the territory bounding the school district is not therein represented; or, that there are no negroes in said district to be discriminated against, or that there are no white

children in said district to be discriminated against, and that neither race was so small but what a school should be organized and taught for the term free schools are to be kept open; then, it may not be unconstitutional on account of its discriminations.

This being an application for an injunction, this court has the right to review the findings of fact by the court below, as well as the law. Jones v. Boyd, 80 N. C. 258. But upon examining the supplemental statement of case on appeal, certified by the Secretary of State, we find that neither of these Acts were passed as they were required to be passed by the Constitution, to authorize the defendant to create any debt by issuing bonds, or to raise money by taxation. They both seem to have been properly passed in the Senate—the yeas and nays having been called and recorded on the second and third readings, and on different days; but this was not done in the House, and of course this being so, if it is so, that the yeas and nays were not recorded in the House on either the second or third reading, and this appearing to us to be so, both Acts are unconstitutional for the purposes for which they were intended, and a perpetual injunction should be issued. Commissioners v. DeRoset, 129 N. C. 275; Black v. Commissioners Ibid 121. There was error in refusing the injunction.
