Tobacco Must be Graded Before Selling.

The tobacco boards of trade of the different eastern markets have adopted a resolution that no more ungraded tobacco shall be sold on warehouse floors. It has been quite a trouble to the buyers of ungraded tobacco to get hands to grade it. Beginning next season all tobacco will have to be graded before it is placed on sale. We believe it will be greatly to the advantage of the farmers to grade tobacco before offering it for sale. They can get it graded cheaper on the farm than on the market, and it will sell for a much better price after being properly graded and handled.

IMMIGRATION BUREAU TO INVESTIGATE VERA CRUZ III

Washington, D. C., May 12.—The Immigration Bureau has decided to make a through investigation of the wreck of the Vera Cruz on the North Carolina coast, so far as the large number of Portuguese immigrants aboard the vessel are concerned. The bureau has received definite information that nearly 400 immigrants from the wrecked vessel have been taken by the revenue cutter Boutwell and landed at New Bern, N. C. They will be subjected to a close examination, and that this may be done

two inspectors have been ordered to New Bern to determine their eligibility.

The agent of the Vera Cruz at New Bedford, Mass., to which place the vessel was destined, has been notified that a careful investigation is to be conducted and that he may be present if he desires, as he will be held responsible for the deportation of the immigrants if there has been any infringement.

J. M. Fernandez, captain of the ship, has deserted and left for parts unknown.

MISSOURI UNIVERSITY STUDENTS BREAK UP A SHOW AND TRY TO LYNCH A CIRCUS NEGRO

Columbia, Mo., May 12.—A negro employee of a circus here was obliged to flee from the tent at tonight's performance to escape lynching by a mob of Missouri University students, one of whom had been struck a blow on the head with a tent pole by the negro.

The students assaulted a number of employees and demanded that the negro be surrendered, but he could not be found. The circus proceeded and all went well until a negro singer appeared in the concert, when the performance was broken up in an uproar of groans and hisses.

GOVERNOR OF PENNSYLVANIA SIGNS "PRESS MUZZLER BILL"

Harrisburg, Pa., May 12.—Governor Pennypacker, of Pennsylvania, has signed the bill known as the "Press Muzzler." He gives his reason for approving the bill in a long statement which is in the nature of an apology. The governor says the bill will not interfere with legitimate journalism, but he scores yellow journalism. He says the measure subjects all preliminary inquiries as to facts and their subsequent publication to the test

of carelessness. There is no interference with "privileged communication."

The bill is sweeping in character and requires the utmost care in the publication of news items. It prohibits cartoons, and makes it necessary for papers to publish the names of publishers and editors at the top of editorial column. The penalty is a fine of \$500 to \$1,000. It includes all daily newspapers published in Pennsylvania.

WRIT OF HABEAS CORPUS TO ADMIT EARNEST HAYWOOD TO BAIL

Raleigh N. C. May 12.—There will be a hearing of the case against Ernest Haywood, for the killing of Ludlow Skinner, Thursday evening, May 21st, on a writ of habeas corpus. Col. Thomas M. Argo, of counsel for the defense, this morning presented to Judge R. M. Douglass, of the Supreme court, a petition for a writ of habeas corpus in behalf of Haywood, the purpose being to have a hearing before Judge Douglass and get Haywood admitted to bail. After reading the petition which was duly verified, Judge Douglass

issued the writ making it returnable before him in the rooms of the Supreme court on Thursday afternoon, May 21st. He also ordered that the clerk of Superior court of Wake county should issue such subpoenas and process as might be required by the prosecution or defense.

Judge Douglass announced that he would request some other Judge of the Supreme court to sit with him upon the hearing of the case. The writ was served on Sheriff Page and a copy will be forwarded to acting Solicitor Daniel at Weldon.

Woman Was the Cause of it All.

Indianapolis, Ind., May 12.—Thomas Jones, a former citizen of Elberfeld but now a resident of St. Louis, returned to his old home yesterday for the purpose of seeing an old sweetheart. He called upon her last night about 8 o'clock. Albert Thompson, a lumber merchant, also called upon the young lady. Jones requested him to leave saying he had come all the way from St. Louis to see the young lady and was entitled to converse with her alone.

Thompson refused to leave, but offered to submit the question to the young lady who declined to decide between them.

This was followed by a bitter quarrel and Jones followed Thompson into the yard upon the latter's invitation to step out and settle the matter as to who should re-

main. No sooner were they in the open air than both men drew revolvers and began firing at each other at a close range. Thompson fired 3 shots and Jones 4, when the former fell to the ground with a bullet in the left groin. Jones immediately disappeared and is supposed to be on his way to St. Louis. Thompson's wound is pronounced fatal.

Rates Are Reduced.

Chicago, May 11.—The reduction in grain and flour rates from Chicago and points on the Mississippi and Missouri rivers to the Atlantic seaboard became effective today and will remain in force until September 30. While the reduction amounts to only 1 1/2 cents 100 pounds, it is sufficient to enable the millers of the Northwest to compete with foreign millers using American grain.

A Gentleman's Haberdashery

It's the natty little "fixings" that lend grace and elegance to the summer man's apparel—nobby Shirts, Ties, pretty Hosiery and Undewear. To look and feel "summery" is an easy matter for the man who trades here. Somehow this is a great store for Men's Furnishings. What's the secret? Variety? Yes. Quality? Yes. Price? Yes. And if we

should tell you there isn't a more carefully selected stock in Greenville, you'd think it just ordinary store talk. Is it? Come and be the judge.

VERY SMALL POLITICS.

If we may be permitted to offer a little advice we would suggest to our Brooklyn contemporary, the Citizen, the propriety of dropping its line of abuse of democrats who differ with it as to who is a true democrat, and this suggestion applies to several other democratic journals throughout the country, who seem bent upon perpetuating a spirit of discord and petty wrangling that makes the democratic party the subject of merited contemptuous jests.

The Citizen sees so many traitors in its own camp that its vision is obscured and the real enemy plies his works unnoticed.

The republican administration has given the country the limit in the direction of official thievery and misfeasance and malfeasance in office. Instead of turning its guns upon the common enemy of the party and country, the Citizen and others of its way of thinking devote their energies to the not too difficult task of raking up family strife.

The trusts are laying hands on everything, yet our contemporaries consider their lawless depredations of secondary importance to the question of certain individuals' orthodox democracy.

The democratic party has split since the memory of man runneth not to the contrary, and the effects are felt today. Let the "traitors" severely alone and their just dues will overtake them. Lock the closet door on the skeleton and throw the key in the sea. Cease internal fighting and turn a solid front against the enemy.

In sending a check to aid in the erection of a monument in Richmond to General J. E. B. Stewart, the famous cavalry leader of the Confederacy, Grover Cleveland said "the country is now again one, and all sections can join heartily and conscientiously in honoring the memory of an American hero, no matter whether he belonged to the North, South, East or West." The country is one in letter but not yet in spirit, though such utterances from men like Cleveland will help to bring it about.

If Dreyfus is innocent all the honors the French government could heap upon him in a thousand years could not wipe out the national stain. If he is guilty his conscience will make his life so miserable that his residence on Devil's Island will seem like a summer's dream.

As a sample of the greatness turned out by New York we quote Governor Odell: "The future is before us." Now if he will hurry up and discover that the past is behind us he will make Solomon look like 30 cents.

We can't exactly figure out which of the New York yellows deserves the credit of bringing about the revision of the revision of the Dreyfus case.

Teddy has a good eye to one thing. He advised the Californians to put a stop to the disfiguring of trees in nailing advertisements on them.

We admire Dreyfus' nerve but doubt the wisdom of his judgment in again submitting to the tender mercies of a French court.

For a doctor who couldn't save the patient's life Mr. Bryan is having a good deal to say about the disposition of the remains.

"Not Bryan—not Cleveland," says the Raleigh Times, and doubtless each of the gentlemen will agree to one end of the above.

Of course the new morning daily in Charlotte will not break its neck trying to be like the Observer or the Washington Post.

We wish Charlotte's new morning daily every success. There can't be too many democratic papers.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn-out tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold at Wooten's Drug Store

A moment's anger may result in years of sorrow.

Mr. Joseph Pominville, of Still water, Minn., after having spent over \$2,000 with the best doctors for stomach trouble, without relief, was advised by his druggist, Mr. Alex. Richard, to try a box of Chamberlain's Stomach and Liver Tablets. He did so, and is a well man today. If troubled with indigestion, bad taste in the mouth, lack of appetite or constipation, give these Tablets a trial, and you are certain to be more than pleased with the result. For sale at 25 cents per box by Wooten's Drug Store, Greenville; Farmville Pharmacy, Farmville.

The tighter a man becomes the looser his tongue gets.

GREATLY ALARMED

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Barbage, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Barbage, having seen Chamberlain's Cough Remedy advertised, concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of the twenty-five cent size, was permanently cured." Sold by Wooten's Drug Store, Greenville; Farmville Pharmacy, Farmville.

Seek a generous man if you would find a truly grateful one.

Too Great a Risk.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by Wooten's Drug Store, Greenville; Farmville Pharmacy, Farmville.

Too many people mistake a polite acknowledgment for an encore.

A Farmer Straightened Out.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Rayder, of Pattens Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by Wooten's Drug Store, Greenville; Farmville Pharmacy, Farmville.

PHYSIOLOGY—WHAT ATTENTION SHOULD IT RECEIVE?

[Essay read before Pitt County Teachers Association by Miss Addie Johnston]

In attempting to enter upon the discussion of a subject, it is very necessary indeed, that we clearly understand the light in which we wish to look at it.

Physiology means the study of the structure of the human body. The term as we employ it, in this essay, means more than this. Not only the way in which the organs of the body are built up of themselves, and united in the living being, but their junctions as well—this invading the domain of Hygiene and also the vital connection between Physiology and character.

A response to the voice of customs would lead us to the schoolroom for a consideration, but as sensible men and women, we know, it should not begin and end here. However we will make this place the starting point.

As our Educational Boards meet to deliberate upon the subject of education, and as we teachers go in and out before our pupils and patrons, our motto should be "a sound mind in a sound body."

As the art of mind development is exalted and broadened may the physical makeup not go lacking.

I do not think the child should be allowed a text book until the fifth or sixth year. But then, are we going to wait until that time before he is to learn anything about that wonderful mechanism, the human body? Most emphatically no! The first day he enters school the imparting of simple and fundamental truths and principles should be begun: and as his capacity for reception and retention increases, wider and deeper should our instructions become. How utter illogical and how foolish to wait until the physical nature has received impression that will forever bear the formation of a true character.

It requires some tact and skill to successfully teach the subject, and often a perplexing question maybe, how to begin.

The old adage, "Cleanliness is next to Godliness," will give us a starting point. Right here, let me add that very often the child will not see the object in view, but this will be no reason for laxity on our part. So, first of all, let us require that the children under our care shall start the school course, and every day of the course, neat and clean. After a while the light will dawn upon them, and instead of opposition, we will find a help. Cleanliness in person tends to beget cleanliness in habits, and thus we lead them to better men and women. What a wide and promising field the school affords.

May the day be hastened when the teachers shall be judged not only by the mental condition and aptitude of the children they are leading through the school, and are turning out upon the world to take their part in the great plan of the universe, but by their physical development and capabilities as well. Not the huge muscles of the puglist, but a symmetrical and well educated body.

In so many cares the great obstacle in this, as in every other phase of education, is in the home life of the child. Just as the greatest help comes from the home, so does the greatest hindrance. Far from such deterring us, it should spur us on to greater activities, realizing that because of this very fact, more responsible is the work. We are laboring with the present for the future. The material for structure of to-morrow is passing through our hands.

The aim of the first few years is not to teach him Physiology, in order that he may be able to recite it to us, but to arouse in him a longing for, and effort at attainment of, physical beauty and symmetry, and ennobling habits of conduct.

Some charts and illustrations would be valuable additions to our schoolrooms. There to be at hand when the teacher says anything regard to the laws of health, their violations, etc. that he may impress his remarks. There to be not only before the text-book is taken up, but afterwards also. Let the teacher talk in an informal and interesting way about sitting, standing and walking correctly, and let him have a diagram to show the effect of these positions when taken habitually wrong, and another to show the good effect of the opposite course. Let us not make the mistake of showing the children only the bad and not the good. Other diagrams should be there to show the evil effects of bad and vicious habits. Let the children from the time they enter school, and on through, be taught the evil effects of alcohol and tobacco, how they abate moral force and hinder the formation of that character you should ever hold up before them, and you will reap results great and lasting. The prohibition question must be settled in our homes and schools, but not in a generation. Here is the source, and once it is pure and kept pure the question becomes a dead issue.

We can teach regularity in habits. What, and what not to eat. We can work a revolution, but not in a year. The great opportunity of teaching the proper care of the different parts of the body, should be grasped and held to. While we are teaching in theory let us, so far as it is in our power, see that it is carried out in practice, both in ourselves and pupils.

There are times when accidents occur in school. The teachers training in physiology and experience should be equal the emergency. Do not fail to grasp such an opportunity to impress a lesson. Your pupils are soon to pass out into the world, and into homes of their own, and may the teaching in physiology be such that they will be enabled to meet, and that successfully, the great member of accidents man is heir to. May their training bring forth fruit in the care they bestow upon their children, and thus we will be helping the future teachers. Should a child receive a cut, every teacher should know and be able to tell whether a vein or artery had been severed, and where the bandage should be placed. It ought to be regarded as a duty for each one of us to know how long the air in a room, with a number of children in it, would require to become injurious, and how to let in fresh air and let out the foul, and not endanger the health of the children.

Now another phase of Physiology that should receive our careful and deliberate attention is proper exercise, physical culture I will call it. Physical culture should be an adopted and compulsory course in our public schools. There is an excellent book put up by B. T. Johnson and Cox. It has a good course of exercises and also beautiful Physiology stories that can be understood by small children, and where the children are very small, can be easily converted by the teacher into nice stories. Not meaning to advertise Mr. Johnson's book, but mentioning it as an example. A few minutes, when the children become restless, with the doors and windows thrown open, they should be carried through this exercise. Far from being time lost it will be time gained. While carrying on these exercises, we have an excellent opportunity of showing the evil effects of light and ill fitting clothing.

Do not understand by what has been said, that we are to discard the text book on Physiology. At the proper time it must be taken up and diligently pursued.

Women's Headaches

542 1-2 Congress Street, PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pain would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed beyond the help of physicians, but Wine of Cardui came as a God-sent to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering agonies I usually did and soon became regular and without pain.

Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Mrs. Wilhelm Snow
Treasurer, Portland Economic League.

Headaches are the danger signals of coming disease. Both men and women suffer headaches, but periodical headache falls only to the lot of women and is the unerring sign of irregular menstruation and bearing down pains. Completely prostrated by nine months of suppressed menses, blinded by headaches and racked with pain Mrs. Snow was made a strong and healthy woman again. Remember with Wine of Cardui no case is hopeless because this great remedy cures permanently nineteen out of every twenty cases and never fails to benefit a case of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, try Wine of Cardui, and try it now. Remember that headaches mean female weakness. Secure a bottle of Wine of Cardui today. All druggists sell \$1.00 bottles of Wine of Cardui.

HUMBUGGED

Don't be fooled by advertisements of men's shoes which are "super-elegant," "sculptured," "dainty," "architectural" and "statuesque."

Use a good honest Saxon word and ask if they fit.

There's the point! There's the rub!

There is one shoe that has built itself up to the top-notch of popularity on fit. That shoe is

Lewis Crossett's

If you want your foot look a full size smaller, if you want to spare yourself half of your daily fatigue, if you want to own shoes which will be a constant delight and last longer because they fit accurately, buy a single pair of "Crossetts." A million men say this. Comment is unnecessary. Oxfords, \$3.00 and \$3.50. Boots, \$3.50 and \$5.00. One price to all.

A Little Early Riser

now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are the famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Sold by Wooten's Drug Store.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the Stomach. Kodol digests what you eat—makes the stomach sweet. Sold at Wooten's Drug Store.

GREENVILLE'S GREAT DEPARTMENT STORE

"Dorothy Dodd"

THE FAULTLESS FITTING SHOE FOR WOMEN

Let us assume that your shoes fit you. Now, what next? What is most important? Unquestionably, style. If it has style you want it. If it has not style, but everything else, you do not want it. The style of a Dorothy Dodd is unique. It cannot be duplicated by any other maker, because the Dorothy Dodd is a totally different construction from any other ladies' shoe. Besides being exclusive in style, it holds the foot firmly at the instep, prevents the foot from slipping forward, and gives a correct poise in walking. It makes the foot look nearly a whole size smaller. That's curious, and you won't believe it until you see it. Just for once try the Dorothy Dodd Faultless Fitting Ladies' Shoe and prove the truthfulness of our assertion.

The Weather.
Cloudy tonight and Thursday with occasional rain.

A letter from North Carolina, recently published in this paper, spoke of "Pocosin lands." We used to hear the same expression in Eastern Virginia, but it is rare now-a-days. It is spelt "pocosin," or "poquosin," and refers to grassy swamp lands. It comes to us from the Indian tongue, we believe. He who uses it now-a-days may be pretty surely enrolled as a member of an oldtime. Tidewater Virginia or Carolina family.—Times-Dispatch.

Surely the recording angel is lenient with a man who has a big family-in-law.
