### TOO MANY ROBBINS. Rocky Mount Postmaster Tried to Feather His Nest.

Washington, D. C., Aug. 6.—In the language of a slangy government official, the postmaster at Rocky Mount has been jolted good and hard. First assistant postmaster General Wynne recently decided that the receipts at Rocky Mount had increased sufficiently to warrant its advance into the presidential class, and consequently postmaster George Washington Robbins was notified that he would be continued in the service at \$2,100 a year, and was asked to send in to the department the names of four persons to be appointed to the newly created subordinate positions under him. When his letter of recommendation was received it read in part as follows:

"I, George Washington Robbins, postmaster at Rocky Mount, N. C., recommend the following persons for appointment under me: As assistant postmaster, Stella Lincoln Robbin, as stamper, Alexander Achilles Robbin; as assistant stamper, George Washington Robbin, Jr., and as clerk, John A. Logan Robbin."

When Superintendent Watters, of the salary and allowance department, had recovered from his astonishment he wrote across the face of the letter: "When the robbin nest again—birds or hogs," and sent the papers in the case to First Assistant Wynne. The first assistant read the letter from George Washington Robbin, Sr., with its cheerful remarks, looked out of the window for a while, then wrote the following below Mr. Watter's endorsement: "We will call a halt on Robbin of this place in old North Carolina, as we have already in the festive P. O. D. This Robbin has the right, no doubt, to fix his family, but to fix them all in the same old nest is too much hog." "N. B. See civil service regulations—R. J. Wynne."

The papers in the case were then filed away for reference, "When the robbin nest again," and George Washington Robbin was notified that only two of his children could scratch for the government in the same place at the same time.

#### Goebel's Murderer.

Georgetown, Ky., August 6.—A jury was finally selected today to try Caleb Powers a third time for complicity in the assassination of Wm. Goebell. About one hundred men were used in making up the jury and every man in the box is a democrat, but two republicans were among the first one hundred men summoned, and the defense moved that the jury panel be set aside on this account. But the motion was overruled, the two republicans, the defense claimed were not good jurymen, and were rejected. The commonwealth has about one hundred and ten witnesses and will begin taking evidence tomorrow morning.

#### Bicycle Riders Take Notice.

The board of aldermen at their meeting on August 6th, 1903, adopted the following ordinance in respect to riding bicycles on the sidewalks of the town.

"Chapter 2, section 15.—It shall be unlawful for any person or persons to ride a bicycle on any of the sidewalks of the town of Greenville, and any persons violating this ordinance shall be fined five dollars for each and every offense. H. W. WHEEDBEE, Mayor. JAMES C. TYSON, Clerk.

#### Teachers' Summer School.

The work of the institute at Winterville continues with unabated force. The enthusiasm which marked its opening has increased rather than diminished, and with an enrollment of one hundred and thirty two, its success is assured. Although today marks the end of the third week, teachers who have attended other summer schools or institutes continue to enroll. Everything is working smoothly, and everyone seems satisfied. "Work" is the motto.

Senator Thomas D. Warren, of Trenton, was to have lectured before the institute last night, but on account of professional business, was unable to be here.

To afford some amusement to the crowd which had gathered to hear Senator Warren, an impromptu entertainment was given by the teachers.

"The Lord is my Shepherd," Chorus.

Vocal Duet—"Junia" by Misses Simpson and Evans.

#### How Democrats May Win.

The clearest and best outline of the policy for the democratic party we have seen is that of Mr. Livingstone, of Georgia. He says if the party will go into congress and before the country with a clear-cut and sane scheme for an elastic, responsive currency supply, with a definite demand for tariff reform and with a challenge to the republicans to accept, or repudiate the president's negro equality theories, it will win. He is right. The party should wipe out its platforms of the last eight years and ignore them. It should abandon the attempt to oppose the republicans on the gold standard and foreign possessions questions on both of which the republicans are right and strong. It should strike out on the live issues of today. It should offer immediate remedies for present evils. It should attack the weak points of the republicans, which are the money monopoly encouraged by the present system, the repressive and oppressive influence of the tariff, the color line in its broader aspect as it applies to the life of the whole country and not to a section. These are the steps toward victory.—Richmond News-Leader.

#### Lodges Moving Together.

The Odd Fellows have vacated their former hall in the Phoenix building and moved into the Masonic hall in the REFLECTOR building, occupying that hall with the Masons and Pythians. The Carolina club will fit up its club rooms in the quarters vacated by the Odd Fellows.

## THE MAN,

WHO regulates the prices, has marched through our store and left unmistakable signs of his visit. Wherever a broken lot or incomplete assortment was found in any department down went the price. No, we do not propose to advertise a grand clearance sale—Goods Sold Regardless of Price—Clothing at Half Price or Less Than the Cost of Manufacture—suits at the cost of the thread with which they are sewed. Such nonsensical advertisements are simply a burlesque and an insult to public intelligence. Here's our statement: We have made great reduction on all broken lots in every department. We have not marked them up and then marked them down. Simply cut the original prices. Now then, come and see for yourselves. Let the goods and prices do the talking. This is what constitutes a fair, square reduced price sale, and this is our straightforward and honorable way of doing it.

### "Too Much of a Good Thing"

That's what we have—too much Silk Mull, Mercerized Pebble Cloth, Mercerized Chambray, etc., for the season. The season really lacks two months of being over, but we must reduce stock for fall goods. Consequently we are making great reductions in Wash Silks, White Goods, Embroideries, Percals, etc. The profit goes to you if you take advantage of these reductions at once. We will not carry them over. You'll not have another chance to get the same goods for anything like the same money. Note these prices:

Silk Mulls, all colors, was 40c, now 25c.  
Mercerized Pebble Cloths, was 30c., now 20c.  
Mercerized Chambray, was 25c., now 15c.

FRIDAY AFTERNOON, AUGUST 7, 1903.

WHAT THE TOBACCO TRUST DOES.

Now that the tobacco trust has begun to pay starvation prices for tobacco, will the price of the manufactured goods be lower in proportion? Well, hardly. The increase of manufactured tobacco for the year ending June 30, 1903, amounts to 12,619,526 pounds, and the price of leaf goes lower every day. Yet some people assert that the trust has nothing to do with prices. In our opinion the trust is seeing to it that the farmer has nothing to do with money, so far as tobacco is concerned.

Concerning the year's output of manufactured tobacco the Winston-Salem Sentinel says:

Statistics for the fiscal year ended June 30, 1903, show that 310,667,865 pounds of chewing and smoking tobacco were manufactured in the United States for that period. This is an increase 12,619,526 pounds over the previous twelve months, and is the largest in the history of the trade. Notwithstanding the onslaught made upon tobacco, its use is widening and growing, it is apparent.

The St. Louis district is the leader in the output of what is known as "manufactured tobacco"—that is, chewing and smoking goods. Its production in 1902-03 was 78,288,144 pounds. The Louisville district was second with 37,372,151 pounds; the Durham district third with 26,560,211 pounds; the Winston district fourth with 25,560,211 pounds; the Cincinnati district fifth with 24,367,983 pounds; the Newark district sixth with 19,250,731 pounds, the Chicago district seventh with 14,252,397 pounds, and the Richmond district eighth with 13,515,782 pounds.

The Durham district outranks the Winston district, turning out last year about a million pounds or more, but on the other hand the Winston district made the greater gains—3,341,022 pounds as against 1,168,794 pounds—and we expect it to take the third place the present year.

Taking the states, Missouri is first in manufactured tobacco production, her two districts aggregating 78,832,192 pounds. North Carolina comes right after her, having a total production of 52,028,227 pounds. Kentucky's output was 41,409,962 pounds, and Virginia's 22,846,915 pounds. Our neighbor is not "in it" at all any more with the Old North State.

Tobacco manufactures of every description in the United States the past fiscal year were as follows. Chewing and smoking tobacco, 310,667,685 pounds, an increase of 12,619,526 pounds; snuff 18,840,917 pounds an increase of 1,169,781 pounds; cigars (number), 6,786,338,043, an increase of 682,770,778; small cigars (number), 640,498,870, a decrease of 120,433,500; cigarettes (number), 3,043,030,604, an increase of 391,411,807.

Durham has got a strike on her hands now and will have to stop the union depot until that is over.

If there was less dealing in stocks and futures there would be fewer failures and defalcations.

So far none of the candidates for the governorship have claimed that the state owes it to them.

When a trusted official steals money from a bank it is called a defalcation or deficit.

It is time for Bryan to take another text and let Grover have a rest.

No doubt the president would be more at home at the colored state fair.

Mr. Dewey, the New Bern deficit artist, has not been pardoned yet.

As the Greenville REFLECTOR rather suspects the veracity of one of our correspondents in his report of the contents of a snake killed, we publish this account of a cyclone out West, which was recently reported by a western newspaper saying that it "turned a well upside down in Wisconsin, moved a township line in Nebraska, blew all of the staves out of a whiskey barrel in Iowa and left nothing but the bung hole, changed the day of the week in Ohio, killed an honest Indian agent in the West, blew the hair off a bald-headed man in Texas, killed a faithful lawyer in Illinois, blew the mortgage off a farm in Kansas, scared a red-haired woman in Michigan, blew the cracks out of a fence in Dakota, and took all the wind out of a politician in Missouri."—Duplin Journal.

All the first week of the new season of the tobacco market there was hardly enough on sale to make one real big break like often occurred in past seasons when prices were good. Farmers are not going to be active in coming to market when prices are low like the present. The trust may think it is going to force the farmers to raise tobacco at 5 cents a pound, but it will hardly get more than the present crop at any such figures. Unless there is a good advance in prices tobacco acres will be few and far between another season.

The Durham Herald says the trust does not want to buy tobacco now at any price. Then it ought to withdraw its buyers and give the independents a chance. They should not stand around just to overawe other buyers.—Morning Post.

It is said that the New Bern bank official probably lost all the money he is charged with taking. That being the case he was a chump for running away, as a poor man is better off in a North Carolina jail than at liberty elsewhere.

It may be some consolation to the army of small losers in stock speculations to see that some of the big wire pullers on Wall street are walking the plank also. The last few days have noted several failures on the street.

The alumni of Greensboro Female College nobly came to the rescue and were victorious. They succeeded in raising the entire amount of \$25,000 necessary for a transfer of all the stock.

Thomas Daniels has been appointed receiver of the wrecked New Bern bank, and we hope he will find something besides tables and chairs to receive.

That white man who was lynched in Washington had a kick coming to him because his neighbors drew the hemp line instead of the color line.

Doubtless if Mr. Dewey can deliver even half the goods he can get off without the expense of a pardon.

The new pope is expressing great love for the Americans. Yes, they all love us for the loaves and fishes.

**Violent Attack of Diarrhoea Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy and Perhaps a Life-Saved.**  
"A short time ago I was taken with a violent attack of diarrhoea and believe I would have died if I had not gotten relief," says John J. Patton, a leading citizen of Patton, Ala. "A friend recommended

Chamberlain's Colic, Cholera and Diarrhoea Remedy." I bought a twenty-five cent bottle and after taking three doses of it was entirely cured. I consider it the best remedy in the world for bowel complaints. For sale by Wooten's Drug Store, Greenville; R. L. Davis & Bro. Farmville.

**Cholera Infantum.**

This disease has lost its terrors since Chamberlain's Colic, Cholera and Diarrhoea Remedy come into general use. The uniform success which attends the use of this remedy in all cases of bowel complaints in children has made it a favorite wherever its value has become known. For sale by

**Taken With Cramps.**  
Wm. Kirmse, a member of the bridge gang working near Littleport, was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines.—Elkader, Iowa, Argus.

**SAVE THE CHILDREN.**  
Ninety-nine of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 705 Central St. Nashville, Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers. "Kodol digests what you eat and makes the stomach sweet. Sold by J. L. Wooten.

**Sick Headache.**  
"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright of New London, New York. **DEWITT IS THE NAME.**  
When you go to buy Witch Hazel Salve look for the name DeWitt on every box. The pure unadulterated Witch Hazel is used in making DeWitt's Witch Hazel Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of DeWitt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name of E. C. DeWitt & Co., Chicago. Sold by J. L. Wooten.

**EAT ALL YOU WANT.**  
Persons troubled with indigestion or Dyspepsia can eat all they want if they will take Kodol Dyspepsia Cure. Sold by J. L. Wooten.

**POTENT PILL PLEASURE.**  
The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Phipot of Albany, Ga., says "During a bilious attack I took one. Small as it was it did me more good than calomel, blue-mass or any other pills I ever took and at the same time it effected me pleasantly. Little Early Risers are certainly an ideal pill." Sold by J. L. Wooten.

**THE DEATH PENALTY.**  
A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. One other piece adjoining the above described tract and containing 8 acres more or less. This the 30th day of July, 1903. D. M. WILLIS, Adm'r of James Tingle dec'd. Jarvis & Blow, Attorneys.

**A Shame!**  
The Elizabeth City Tar Heel has the following:  
"The most deplorable feature of the catastrophe at Nag's Head Saturday was the open saloon, which retailed liquor while the hotel was burning, and while the proprietor's wife lay a corpse within a stone's throw of this saloon. This too, was allowed, while two of officers, one the state's prosecuting attorney, stood by as mute as an oyster, and seemingly blind, to such flagrant violation of the laws of the commonwealth. Mind you, this was on the Sabbath day, and the saloon did not close until a non-resident appealed to the bar keeper, "for the sake of humanity," to close his doors until at least the corpse of the woman had been removed.

Horrible, isn't it! One could scarcely believe that such would have been tolerated in North Carolina, where the sanctity of the Sabbath day is jealously guarded. This outrage was carried on within three miles of the spot where the first prayer of English speaking people went up to God from the American soil."  
This is the liquor business! If we remember aright this saloon is a legislative pet, run by special act of the legislature.—North Carolina Baptist.

**Some Explaining in Prospect.**  
They are not doing any fooling with Christian Science in Canada. A man has just been tried, convicted and the judgment affirmed by the court, the judgment being manslaughter and the crime his allowing his sixteen-year-old boy to die of diphtheria. The plea was that the father had treated the boy according to the tenets of the Christian Science sect, but it was of no avail. And to think that we actually license that kind of murderous fraud in North Carolina, by act of legislature! One of our candidates for governor will have some explaining to do along that line.—Charlotte Presbyterian Standard.

**Damage to Wires.**  
Several telephones around town were damaged during the storm Thursday afternoon. A very peculiar freak was the flash of lightning that struck the line of the phone in the telegraph office. The lightning burnt out the phone, and just inside the building there was a heavy explosion like two rapid discharges of a gun and two or three feet of the wire was completely burned away. No damage was done but the occupants of the office had a momentary fright.

**Cannot Make Dishonor Anything But Shameful.**  
Some men may enjoy profits wrung from the necessities of the poor, they may argue that there can be no sympathy in business; they may make of trade war and feel justified in rushing and grinding in order to stifle competition. They are wrong. They can pile dollars up as high as the Rockies, but they cannot make dishonor anything but shameful, and high minded people will have for them only contempt.—Winston Journal.

The day of prosperity for our eastern counties, which went into tobacco a few years ago, and have made a great deal of money out of it, especially last year, is at an end, so far as this crop is concerned. The power of the trust over the market has been re-established, and leaf tobacco now brings no more than it costs to produce it. As long as the trust controls the market—and the indications are that it will do so now for a long time to come—North Carolina farmers would do well to keep out of tobacco.—Charlotte Observer.

### A Deep Thinking Old Lady.

Of some gals could put the same Dublin' enthusiasm into rubbin' clothes over a washboard that they kin into dancin' all night, they'd be a sight less tired mothers 'round the end o' wash day.

An' ef some boys could feel it was in 'em to strain as hard to make the old farm pay as they strain for six dollars a week an' a little hall bedroom in one o' the big cities, the lawyers 'd have a sight less work foreclosin' mortgages.

Ef some o' the people that pray the hardest and sing the loudest in church do seem a little bit worldly in their dealin's durin' the week, most likely it's because they use up their whole seven days supply o' Christianity on Sunday.

Seems to me, bangin' up children is a good deal like firin' one o' the old-fashioned shot guns; ef you don't keep a good, firm grip on 'em, they're dreadful likely to

kick back in a surprisin' and painful manner—

Ef the average man spent a sartin' little time thinkin' about layin' up riches on earth as he 'does about layin' up riches in heaven, there would be no end o' spendin' money flyin' about among the women folk

Mebbe ef some women tried as hard to make their talk to their husbands as soft and sweet as they do their preserves, there'd be few jabs—and I don't mean preserve jars neither

Ef everybody that tells all about the fine things they did last year, and intend to do next year was doin the same sort o' things this year, they'd never have a minute to spend talkin' and telin' us about 'em.

## Bonds Not Yet Sold.

At the meeting of the board of aldermen Thursday night, a recommendation was presented from the board of internal improvements that no tax levy be made to meet interest on the \$65,000 improvement bonds authorized to be sold. This recommendation was due to the fact that the improvement board had not yet received a bid for the bonds that would be accepted, hence the bonds have not been sold. The board has lost none of its interest in the matter of improvements and will continue its efforts to make a good sale of the bonds.

Does it pay to gather primings? Some large tobacco growers, who are men of intelligence, declare that it not only does not pay, but that gathering the primings injures the tobacco left on the stalk. We believe there is a good deal of truth in this assertion, and when we consider the time consumed in gathering, curing and marketing this grade of tobacco, we do not believe it pays the farmer or the warehouseman. It certainly will not pay the latter, if tobacco left on the stalk is of less value when primings are taken therefrom. Another point is, that in the bright tobacco sections millions of pounds of primings have heretofore been sold without being tied into bundles, but now buyers say they will no longer buy the stuff in this condition.—Southern Tobacco Journal.

## ALDERMEN MEETING.

Proceedings of Their Regular Monthly Meeting.

The board of aldermen met in regular monthly session Thursday night and had business that kept them together until nearly midnight.

Outside of the usual routine of reports of officers and allowing accounts they transacted the following:

Upon petition from citizens of the town an election was ordered held on the 22nd of September on the question of Greenville taking \$15,000 of the second mortgage bonds of the Raleigh & Pamlico Sound railroad.

The ordinance committee reported on the by-laws for the government of the town. The former ordinances were adopted with very few changes. One change made is the prohibiting of bicycles running on any of the sidewalks of the town.

A committee was appointed to look after securing the property along Dickinson avenue for making the street the proper width.

The tax levy was made as follows:

For general purposes, 66½ cents on each \$100 valuation of property and \$2 on each poll.

For interest on graded school bonds, 5 cents on each \$100 valuation of property and 15 cents on each poll.

For maintenance of graded school, 30 cents on each \$100 valuation and 90 cents on each poll.

No levy was made for interest on improvement bonds, the board of internal improvements having recommended to the aldermen that no levy be made at this time because no satisfactory bid had yet been received for the bonds.

## Anti-Saloon Organizer.

Mr. W. M. Hinton, of Elizabeth, City has been chosen by the state Anti-Saloon League as state organizer. He has issued the following address:

"Beloved North Carolinians:

"The Anti Saloon forces of North Carolina have elected me state organizer. This is a great honor and comes to me unsought. It is fraught with tremendous responsibilities. It entails enormous work. It is, however, a clarion call to duty and I dare not turn aside.

"Calmly, deliberately, prayerfully have I considered it, and relying upon the God of battles to guide and direct, upon the justice and urgency of our cause, and upon the virtuous womanhood and chivalrous manhood of North Carolina to lend their hearty support, I have accepted the charge.

"A vigorous campaign against the saloon will be waged. Ultimate victory is sure to come. The saloon must go! Its devilish work demands that it shall go.

"It debauches our bright-eyed boys. It damns our fair daughters with worthless, drunken husbands. It disrupts the sacred marital bond. It wrecks home. It pauperizes innocent children. It corrupts politics. It dominates municipal government. It snapes legislation. It breeds disregard for law. It leads to anarchy.

"It is a menace to society, a menace to the state and a menace to the church of the living God—always and everywhere an unmitigated curse.

"Shall North Carolina longer rest under its blighting influence? God forbid! Rise, in the majesty of true manhood, ye brave sons of the Old North State, and stab it to the death. Down with the saloon!

"Let's protect our homes. Let's shield our dear boys and girls. Let's save the poor drunkard, if possible. Let's put the saloonist in an honorable business. Let's lay broad and deep the foundations of a work that shall stand the storms of time and flash out in ever-increasing beauty in the white light of the judgment.
