### FIRST TRIAL A FLUKE.

#### Opinion of Experts That Reliance Will Win.

New York, August 21.—The first race yesterday between the Reliance and the Shamrock was declared off because there was not wind sufficient for them to come out on time limit. The boats struck a deep mist and for a time nearly drifted along. The official measurement gave the Shamrock nearly two miles ahead, but on yesterday's trial the Reliance took the lead and gained steadily until the call off came.

Reliance money is more plentiful today than at any time since the races were arranged. Although the first series ended in a fluke, the Reliance showing was such as to draw almost unanimous opinions from yachting experts that she will win two straights. The fact that the defender beat challenger in her own weather and conditions, is very gratifying to Reliance backers. Lipton and Iselin have reiterated confidence in their respective boats in spite of yesterday's fluke.

#### Mosquito Bites.

The progress of two cases of blood poisoning resulting from mosquito bites at Portsmouth is being closely followed by the medical fraternity of the three cities. While persons have been bitten by mosquitoes and suffered considerably from the effects, it has been some time since a bite has developed blood poisoning. The victims at present are a motorman named Lane and the Rev. Dr. Guyer, pastor of Owens Memorial church. Lane is said to be in a serious condition, while the minister is unable to walk.

A leading physician, speaking on the subject yesterday, stated that there are three kinds of most quitoes—fresh water, salt water and brackish water mosquitoes—and of all of these the fresh water mosquito was the most dangerous to the human being. The physician told in detail the birth of the dangerous little insects, stating that they young ones come from what is known as the "larvae." The newly born stands for a few moments on the shell of the "larvae" to dry its wings and then flies away on his death deal trip. The physician was of the opinion that these newly-born mosquitoes do the most damage.

The marine hospital officers have been experimenting with the malaria and yellow fever mosquitoes, but they have not caught any of the blood-poisoning brand. Persons bitten by mosquitoes and who have developed blood poisoning are known to have died, while the limbs of others have swollen to such large proportions that it was necessary to lance them.—Virginian Pilot.

#### Founded on a Rock.

If you toot your little tooter and then lay aside your horn, there's not a soul in ten short days will know that you were born. The man who gathers pumpkins is the man who plows all day, and the man who keeps it humping is the one who makes it pay. The man who advertises with a short, a sudden jerk, is the one who blames the editor because it doesn't work. They who get the business take a long and steady pull and keep the local paper from year to year quite full. He plans his advertisements in a careful, thoughtful way and keeps forever at it until he makes it pay. He has faith in all the future, can withstand a sudden shock, and, like the man of Scripture, has his business founded on a rock.—Laredo Times.

### NEGRO LYNCHED.

#### Quick Justice for Heinous Crime.

Halifax, N. C., August 21.—Little May Jenkins, a white girl 12 years of age, was criminally assaulted and murdered by a negro named Manny Ponton, last night about 7:30. The negro brute caught the girl in a stable, where she had gone to hunt eggs. He put a rope around her neck, strangled her nearly to death and then criminally assaulted her, after which he cut her throat. The negro was suspected, arrested with blood on his hands and in possession of the stable key. He confessed and was quickly strung up to a telegraph pole at the railroad near the scene of his crime.

FRIDAY AFTERNOON, AUGUST 21, 1903.

PLANS OF THE TRUST.

In the Raleigh News and Observer of the 20th appears this rather startling interview:

"For ten days I've been traveling in the tobacco belt of Virginia and North Carolina," said a gentleman in Raleigh yesterday, "and I've talked with men in Richmond, Lynchburg and Petersburg, who are in touch with the American Tobacco Company's views and its plans."

"The farmers are blue over the outlook, and they have a right to be so. The price is down way below cost and a continuance of this would mean an abandonment of the cultivation of the weed.

"There are four points which I learned about while talking with the men in the places I have mentioned, and they throw some light on the present situation, and if these things are true, they show that the American Tobacco Company is whetting its axe against others besides the tobacco growers,

"First, there is the talk about the American Tobacco Company having enough tobacco stored away to last one, two or even three years. While that may be true the statement is in the nature of a bluff. The American Tobacco Company always has enough tobacco ahead for one or two years. It has to do this in order to get the tobacco in the right condition to use. In my opinion they have got just the usual stock on hand.

"Second, the fight the American had with the Continental last year forced the price up far higher than the average price that had been paid before, way above it. Having absorbed the Continental the American Tobacco Company is now driving the price of tobacco down so that it may recoup for the money it paid out last year. The company is buying to even up for its big figures and is squeezing the farmer.

"Third, and here is a matter that shows a deep laid plan of campaign against a boycott of its goods by the American Tobacco Company. It is whispered that it contemplates opening up retail stores in all the principal places, and in these stores it will not only handle tobacco supplies, but it will deal in other goods. It will be a retaliatory measure put in operation against merchants who dare to oppose the giant trust. These stores, it is said, will not be run as American Tobacco Company stores, but will be worked 'under cover' and in individual names.

"Fourth. The American Tobacco Company is considering the raising of tobacco direct. It may do this either by leasing tobacco lands or by buying them outright. This would do away with every species of middle-man and from the seed to the cigar, cigarette, smoking tobacco, snuff and plug there would be the ramifications of a trust that is ready and willing to crush all who are now engaged in tobacco. It is also said that men in the employ of the American Tobacco Company are cultivating and watching tobacco farms so as to see exactly how cheap tobacco can be raised, and thus entirely freeze out the farmer."

We hardly know just what to think of this—whether to take it seriously or regard it as a bluff. However, there is one of the points, the third, that we want to mention now. If the trusts think it could retaliate a boycott by opening independent stores in the principal places and work them "under cover" in individual names, without the people knowing it, it is badly fooled. Under such circumstances what would be easier than to tell it was a trust

store by the fact that it handled trust goods. To retaliate against the merchants would not amount to a row of pins if the farmers and consumers were behind the merchants and refused to use trust made tobaccos.

EDUCATIONAL NOTES

A successful manufacturer, who is interested in a large number of cotton mills in the state, was in the office of the state superintendent of public instruction a few days ago and requested Superintendent Joyner to recommend a suitable person to superintend the graded school recently established in his town. He said his factory interest would pay about eighty per cent. of the taxes for the support of the school, but experience had taught him that it is cheaper to educate the children into usefulness than to pay their fines in the police courts. He said, "as a business proposition it costs less to provide schools than to employ extra police and pay the court fines."

In one district in Randolph county where an election for schools was pending, the opposition approached one honest old tenant who worked night and day to keep body and soul together and asked him if he intended to vote for the tax, asking him at the same time how could he afford to pay an extra tax when he could barely support his family. His reply was that he certainly intended to vote for the schools; "for," said he, "if such an opportunity had been given me when I was a boy I would not now be doing the work of a negro, and my family would be better off."

A campaign for better education has been completed in Lincoln county. Supt. Heafner has shown much wisdom in arranging his rallies by townships and especially in organizing the school officers and in preparing the way for the speakers. Immense crowds gathered at all the appointments except in one place where there was a misunderstanding as to the date; and in each of the five districts, before the meeting closed, the people came together and signed a petition asking for an election. When the matter was presented to them they were easily convinced that it is the duty of the community to provide for the education of all the children in the community.

Prof. Jno. E. Ray, who has just returned to Raleigh after a two weeks' educational campaign, says he has never seen the people so easily aroused on any other question as that of the duty of the community to provide for the education of all the children in the community.

This enthusiasm is not confined to any section of the state. The following counties have carried elections for schools during the present year: Alamanac in eight districts, Burke in one, Caldwell in one, Caswell in one, Catawba in one, Cherokee in one, Chowan in one, Cleveland in one, Cumberland in two, Duplin in one, Gaston in two, Gates in one, Johnston in two, Lenoir in one, Martin in one, Nash in one, Orange in one, Pitt in three, Randolph in two, Polk in one, Richmond in one, Robeson in three, Rutherford in one, Surry in one, Tyrell in one, Union in four, Washington in two, Wilkes in two, Wilson in one and Yadkin in two.

Wherever a local tax district is established it stands as complete argument that carries conviction to other districts is shown by the large number of districts where local taxation is now pending. Currituck is preparing to vote in four districts, Duplin in three, Sampson in one, Union in one, Dare in sixteen, Wake in one, Northampton in seven, Cabarrus in eight, Burke in two, Guilford in one whole township, Randolph in three districts, Gaston in one, Nash in two, Vance in one, Lincoln in five, Orange in one, Halifax in one, Beaufort in two, Rockingham in three, Gates in one, Forsyth in one, Yadkin in one and Cleveland in several.

## MARVELOUS CURE BY DR. MOORE.

NORTH CAROLINA }  
 Pitt County }  
 To all whom it may concern:  
 I hereby testify that my wife, Fanny L. Pearce, and my son, John W. Pearce, and Leona Pearce, wife of my son, J. W. Pearce, on or about the first of last March were strangely effected with a malady resembling fits, and when the attacks were on them they would scream and their paroxysms were so violent that they had to be held by main force. I applied to and had the services of five physicians without realizing any benefit whatever. I finally sought the ministrations of Dr. W. H. Moore, colored, and under his treatment my son passed three snakes, two of them were alive and one was dead. My wife passed several bugs with long snouts to them. It gives me pleasure to announce that they are all getting well and the fits have disappeared.

### Lost His Mind Again.

Mr. A. D. Bell, whose home is near Greenville, was placed in jail, Wednesday evening, until arrangements can be made for getting him in the state hospital. Some years ago Mr. Bell lost his mind temporarily. He was placed in jail then and after being confined a while made his escape. His mind recovered then and he seemed to get along all right until recently it was noticed his mind was getting bad again. He continued to get worse and it was thought advisable to confine him until he could be taken to the hospital.

### Too Much Like Work.

A thirsty tramp tackled the court house pump, this morning, looking for a drink. His aim connected with the pump handle when he made one stroke and looked for water to come. It did not come so quick, when he made three more strokes and still getting no water threw up the sponge and quit. He had rather not have a drink than work for it.

Fair tonight and Saturday.

### Was It Intentional?

Some people are so reckless. This morning two young men were actually sitting on the right of way not more than 50 feet in front of the old academy building. Just suppose they had gone to sleep for a week, or that the old house had taken a notion to move a little faster, they might have been pushed up an inch or two without knowing it. If the young men want to commit suicide they might get their girls to kick them.

JNO. L. HORNE.

### Taken With Cramps.

Wm. Kirmse, a member of the bridge gang working near Littleport, was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines.—Elkader, Iowa, Argus.

This remedy never fails. Keep it in your home, it may save life. For sale by Wooten's Drug Store, Greenville; R. L. Davis & Bro. Farmville.

### SAVE THE CHILDREN.

Ninety-nine of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 705 Central St. Nashville, Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers. "Kodol digests what you eat and makes the stomach sweet. Sold by J. L. Wooten.

### EAT ALL YOU WANT.

Persons troubled with indigestion or Dyspepsia can eat all they want if they will take Kodol Dyspepsia Cure. This remedy prepares the stomach for the reception, retention, digestion and assimilation of all of the wholesome food that may be eaten, and enable the digestive organs to transform the same into the kind of blood that gives health and strength. Sold by J. L. Wooten.

### POTENT PILL PLEASURE.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Phipot of Albany, Ga., says "During a billious attack I took one. Small as it was it did me more good than calomel, blue-mass or any other pills I ever took and at the same time it effected me pleasantly. Little Early Risers are certainly an ideal pill." Sold by J. L. Wooten.

### Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright of New London, New York. For sale by Wooten's Drug Store Greenville, R. L. Davis & Bros., Farmville.

### DEWITT IS THE NAME.

When you go to buy Witch Hazel Salve look for the name DeWitt on every box. The pure unadulterated Witch Hazel is used in making DeWitt's Witch Hazel Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of DeWitt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name of E. C. DeWitt & Co., Chicago. Sold by J. L. Wooten.

### The Scandalmonger.

We know of no more despicable character than the "news-toter." Nine tenths of the disagreements between people result from tattlers. The tattler never tell what he hears exactly as he hears it. It is always changed, re accented, head shaken or something of that sort. The "tattler," the "news-toter," the "scandal monger" are all on a par—mischief breeders and peace disturbers.—Windsor Ledger.
