#### AYDEN ITEMS.

AYDEN, N. C., Aug. 29, 1903.

Misses Ethel Pierce and Roberta Worthington are visiting friends near Rochdale.

Misses Bertha and Lena Dawson, of Winterville, came Friday to visit friends and relatives.

W. B. Quinerly went to Greenville yesterday.

Dr. J. A. White went to Scotland Neck this morning.

Miss Annie L. Smith leaves Monday for Baltimore and New York, where she will purchase her fall stock of millinery.

A. M. Mosely, of Lynchburg, who bought cotton at this point last season, will arrive next week ready for the coming crop. Mosely is a jolly old boy and his many friends will be glad to welcome him.

R. T. Hodges, of near Washington, arrived yesterday on a visit to his brother, Stencil. They both went to Grifton last night, returning this morning.

We are glad to note that notwithstanding the low price of tobacco, the people of Ayden have taken on a progressive movement. Already we can hear of contracts for new dwellings and brick stores. What do our people think of a shirt factory? This factory would employ 100 to 150 operatives and it could be put into operation for a very small part of what the Greenville Knitting Mills would cost us. We need more manufacturing enterprises.

#### Kansas and Missouri Rising.

Kansas City, Mo., August 27.—Heavy rains north and west of Kansas City have caused the Kansas and Missouri rivers to rise suddenly to unusual heights and the results may prove grave. A bulletin issued today by the local weather bureau announced that the Kansas, or Kaw river, would rise from five to seven feet at Kansas City in the next forty eight hours and a rise of equal magnitude, it is stated, is coming this way down the Missouri. The current is swift and it carries much driftwood. Fears are felt for temporary bridges. The Kansas river here today rose three feet in ten hours and is still rising rapidly. At Lawrence this stream rose four feet during the night and at Topeka it is also up four feet.

#### Sir Thomas Lipton is Down and Out.

New York, Aug. 28.—Sir Thomas Lipton declared today in an interview that he would never again challenge for the American cup until a man had been found in England who equalled Nat Herreshoff in yacht building. He admitted his disappointment at his failure and frankly said he had no hope of winning even a single race. Sir Thomas said, "American brains and development have us beaten. If the day ever come when England produces a Herreshoff, then I will challenge again. It is unpleasant to be compelled to admit it, but the brains in boat-building are on this side of the water."

#### American Consul Not Assassinated.

Washington, Aug. 28.—A cablegram was received by Acting Secretary of State Loomis tonight from Minister Leishman at Constantinople, which changed the aspect of the Magelsen affair at Beirut.

Minister Leishman reported that owing to a mistake in the transmission of a code word from Beirut to Constantinople, it was made to appear that Vice-Consul Magelsen was killed, while in fact an attempt only had been made on his life.

#### Died of Sunstroke.

Ben Cherry, a well known colored man who was helping moving the old academy building, became overheated this afternoon, and died in a few minutes.

The valuations of the property of corporation in Pitt county, as certified by the state auditor, is \$1,459,949.

Mr. Bill Moore, who farms on the late Ben Jess Wilson place, was in town today with the first bale of new cotton of the season. He was offered 12 cents per pound for it.

The railroads ought to take travelers' insurance against people who get hurt.

### "Too Much of a Good Thing"

That's what we have—too much Silk Mull, Mercerized Pebble Cloth, Mercerized Chambray, etc., for the season. The season really lacks two months of being over, but we must reduce stock for fall goods. Consequently we are making great reductions in Wash Silks, White Goods, Embroideries, Percales, etc. The profit goes to you if you take advantage of these reductions at once. We will not carry them over. You'll not have another chance to get the same goods for anything like the same money. Note these prices.

Silk Mulls, all colors, was 40c, now 25c.  
Mercerized Pebble Cloths, was 30c., now 20c.  
Mercerized Chambray, was 25c., now 15c.

SATURDAY AFTERNOON, AUGUST 29, 1903.

WANTED—GOOD TOBACCO.

The tobacco situation is one of the most complex that has confronted the people of eastern North Carolina in quite a while. Since the opening of the tobacco markets the first of August there has been much discussion of the prevailing low prices, and great dissatisfaction with attendant demoralization of business has been apparent. The cause of the low prices is charged to the trust, and that organization has been roundly abused and excoriated in consequence. Whether this abuse and the agitation of boycotting have resulted in any good no one can say. Some have argued that the boycott was the right course to take, while others have held a contrary view. Be that as it may, giving to each due credit for his opinions, it is yet evident that the situation is but little changed.

Just what to say, or just what to do, is a puzzling problem. That in some way a better feeling ought to be brought about, that the situation might be improved and business resume its accustomed activity, is greatly desired, and THE REFLECTOR has been doing some serious thinking along this line.

To us this seems to be the condition: The present crop of tobacco has been made and is ready for market. While the planters have been advised to hold for better prices, no great number of them are able to do so. They have made obligations that must be met, and it will be necessary for most of them to sell at the best prices they can get. Of course when planting time comes again such a condition can be avoided by planting other crops instead of tobacco, if the price continues below the cost of production.

However, we do not believe the price is going to remain as low as what has been sold so far indicates. Only a day or two ago a gentleman who had just been on the Robersonville market told THE REFLECTOR that prices there were much better than in Greenville. We asked him who were the buyers there, and he said the American Tobacco Company was buying most of it. This naturally put us to wondering why that company paid more for tobacco on the Robersonville market than on the Greenville market, and we began making some inquiries to arrive at the facts in the case if possible.

The first gentleman we asked about this said that while in the last few days tobacco has sold for a higher figure in Robersonville than in Greenville, it was due to the quality of the tobacco sold, and if as good tobacco was offered on the Greenville market it would bring just as good prices. He explained this difference in quality by saying Robersonville being a small market, most of the tobacco known as bottom primings and of practically little value had been sold, and the farmers were now selling their better grades and getting better prices. There is much more of these bottom primings in the territory of the Greenville market, and so far this is the only kind the farmers have brought in, but if they would bring

better grades they would get better prices.

We went to another gentleman and asked him about the same matter, and were told that the buyers on the different markets had the same scale of prices for the same grades, and would pay just as good prices here as elsewhere for the same grades. He said further that when the farmers begin selling better grades they will find prices more satisfactory and a better feeling will prevail. His prediction was that all prices would soon be better and that the crop this season will average 7 to 8 cents.

Taking this prediction as to the crop this season bringing an average of 7 to 8 cents, we then obtained the figures for several years past for comparison. These figures show that in the year 1898 the average price for the entire crop sold on the Greenville market was 6.67; in 1899 it was 6.08; in 1900 it was 7.76; in 1901 it was 10.47; in 1902 it was 9.97.

These statements and figures are given just as they are, and the planters can give them such consideration as they think best.

THE REFLECTOR is frank to say it does not know how to advise them as to holding or selling their present crop, but we do hope to soon see a better feeling prevailing and business moving on with its accustomed briskness.

## Taken With Cramps.

Wm. Kirmse, a member of the bridge gang working near Littleport, was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around next day. The incident speaks quite highly of Mr. Gifford's medicines.—Elkader, Iowa, Argus.

## SAVE THE CHILDREN.

Ninety nine of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 705 Central St. Nashville, Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers. 'Kodol digests what you eat and makes the stomach sweet.' Sold by J. L. Wooten.

## Sick Headache.

She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright of New London, New York. ## MARVELOUS CURE BY DR. MOORE.

NORTH CAROLINA Pitt County

To all whom it may concern:

I hereby testify that my wife, Fanny L. Pearce, and my son, John W. Pearce, and Leona Pearce, wife of my son, J. W. Pearce, on or about the first of last March were strangely effected with a malady resembling fits, and when the attacks were on them they would scream and their paroxysms were so violent that they had to be held by main force. I applied to and had the services of five physicians without realizing any benefit whatever. I finally sought the ministrations of Dr. W. H. Moore, colored, and under his treatment my son passed three snakes, two of them were alive and one was dead. My wife passed several bugs with long snouts to them. It gives me pleasure to announce that they are all getting well and the fits have disappeared.

## FARMVILLE CORRESPONDENCE.

FARMVILLE, N. C. Aug. 27, 1903.

In our last communication we wrote at large about the rail road project from Raleigh to Washington via Wilson and Greenville. We have carefully read the charter and also the statement of Mr. Turner relative to the financial status, and the manner of paying off the indebtedness of the road.

We will state that we are not antagonistic to the road; we would rejoice to see the road in successful operation, but in reading the charter and the statement before mentioned we fail to see upon what these statements are based.

What financial basis have the projectors of the road whereon to build? It takes money or collateral equal to a money value before a bond or note is of any value.

The first mortgage bonds will be, if not already so, placed in the hands of capitalists who will buy them at 75 cents on the dollar, and from what we can learn these second mortgage bonds, voted by the cities, towns and townships through which the road will run, will be the only financial basis these first mortgage bonds will have.

The bonds voted by these cities and townships will be known as second mortgages and cannot have a preferential privilege in the payment of the principal and interest. There is also another question which the taxpayer should know. The aforementioned statement says it will take (100,000) one hundred thousand dollars per annum to pay the running expenses of the road. It will take (\$72,000) seventy two thousand dollars to pay interest on the \$1,200,000. One million two hundred thousand dollars at six per cent payable every six months.

Now as the income of the road is a matter of speculation, we ask where is the money coming from to pay the interest on these second mortgage bonds which are virtually the only financial basis upon which this road is established; a new road having a heavy debt, and with a very large running expense cannot expect to pay expenses and interest on bonds, with really no financial backing except bonds voted by the tax payer along or near the supposed route. We write thus as we have talked with some of the wealthiest and influential men in Pitt county, and all whom I have had conversation with says they want more light on the subject before they will vote for this tax. They also wish to know if the road will run to Farmville, as that is the only objective point between Wilson and Greenville.

It behoves those who have charge of this road to give people a satisfactory answer to these questions or there is growing doubt that in many townships the bonds will be voted.

We are very much gratified to learn that the teachers of our graded school have been elected, namely Mr. M. P. Cameron, prin. Misses Ada Tyson, Mattie Moore and Annie Perkins. Our trustees exercised most excellent judgment, especially in the election of these ladies, as they are known to be ladies possessing all the grace and virtues which adorn true female character, and are competent to teach in our school, having had considerable experience in teaching. Of Mr. Cameron we hear he is thoroughly competent to take charge of our school. We understand that the school will open by 1st of October.

We regret to announce the death of Mr. John Barrett, living a few miles from Farmville, which occurred on Tuesday last at 11 o'clock a. m. Though in declining health for several months, his death cast a gloom of sorrow over the hearts of his relatives and friends. We extend our heartfelt sympathy to the bereaved family and trust that the sustaining grace of God may abide with them and help them to be resigned to His will and be ready when they shall be called away to meet

them dear loved ones who have gone before in a land that's fairer than day, and where they shall always enjoy in the presence of their blessed Redeemer the bliss and joy of the glorified.

## CARDUI BABIES

Many homes are mere lonely abodes because no children are there. Barrenness exists in almost every case because female diseases have paralyzed the organs of womanhood. Wine of Cardui imparts health and strength to the diseased parts and makes motherhood possible in thousands of cases where barrenness is supposed to be incurable. Wine of Cardui regulates the menstrual flow and also prevents miscarriage and cures bearing down pains. Wine of Cardui removes the cause of barrenness by making the female organism strong and healthy. Go to your druggist and secure a \$1.00 bottle of Wine of Cardui. The use of Wine of Cardui will bring happiness to your home.

My daughter-in-law, Lizzie Giles, found great benefit in Wine of Cardui. She had a miscarriage in March 1901, before using your medicine. My daughter, Fannie Hudson, also has a fine baby boy by your treatment. She highly appreciates Wine of Cardui.
