MONDAY AFTERNOON, MAY 9, 1904.

Hearst's libel suits will give him something else to think about now in addition to trying to get the nomination.

"Cappen Billday" says if the newspapers don't quit talking about him he is going to kill somebody. Then the captain should quit doing things for the papers to talk about.

A railroad in Pennsylvania is being sued by a show company for \$5,000 over the loss of four inches of a kangaroo's tail that was accidentally cut off while the animal was being transported. That is quite a dear tail.

Baseball has been selected to amuse the patients of an Illinois insane asylum. Down in this end of the world some people go practically crazy over the game. Even a college cannot run without a ball team to give it notoriety.

Sam Jones, in the meeting he is conducting at Greensboro, said:

"All of the modern colleges and universities in the United States don't turn out as many royal men as the old log schoolhouse."

But brother Jones must not overlook the baseball and foot ball champions that are coming out of the colleges and universities in these latter days. These stand the schools for more reputation now than book learning.

The democrats of Harnett in their recent county convention, had one plank in their platform that fills the bill. It reads as follows:

"We favor the adoption by our national convention at St. Louis of a platform upon which every true democrat can stand, leaving out of it every dead issue which heretofore has brought discord to our ranks, as we believe that the wisdom of the people should be heeded in our councils, rather than the theories or speculations of any one man or fraction of men."

The members of the North Carolina Press Association will rendezvous in Atlanta on Sunday, the 15th, from which point they will go in a body to St. Louis to visit the World Fair. It is understood that the party will comprise a large delegation of North Carolina newspaper men, many of whom will be accompanied by their wives.—Charlotte Chronicle.

Amend the Constitution.

The State Constitution should be amended so that the Legislature would meet the first Monday in August instead of January.

If the change is made the expenses of a session of the Legislature would be lessened, the danger of contracting colds and pneumonia by imperfect ventilation or from other causes would be greatly reduced, and more farmers and business men would be elected to represent us in the law-making branch of the government.

Ask a farmer now to be a candidate for the Legislature and almost invariably he will tell you he cannot be away from his farm from January to April, the most important time, perhaps, for the farmer to be at home. It is the same way with the business man; August and September are the most leisure months in the year and could best be devoted to matters of State.—Roanoke-Chowan Times.

That proposition to elect a negro bishop, made in the Northern Methodist conference, is one reason why the Southern Methodist have not wished to unite with their Northern brethren.—Raleigh News & Observer.

With the Watts law in full tilt, passed by the democratic legislature and the Federal government landing the whiskey fraud men in the penitentiary, the liquor men no doubt realize that they are up against it good and hard.—Greensboro Record.

Return Them All.

North Carolina is fortunate in being reresented in congress by an able array of talent. Both in the senate and in the house our representatives are up to the high-water mark in intelligence and alertness. They are not looking out not merely for the development of their respective "baliwicks," but the whole south and especially the South Atlantic states witness among others Senator Simmon's immigration bill and Representative Small's inland canal bill. Then again, one of the most notable speeches that the session has produced was delivered by Hon. Claud Kitchin of the second district in an arraignment of President Roosevelt.

Our delegation at the national capital is just getting its hand in. Let's keep it there—each and every member of it.—Kinston Free Press.

THE REFLECTOR has had it in mind to say something along this line, and cheerfully gives endorsement to what the Free Press says. North Carolina is certainly ably represented in congress and the state could do no better than return all of these representatives.

While we may not have the authority of speaking for the entire State, save in a general way, we do feel the right of expressing an opinion as to the first district. The people of this district should have no other idea than returning John H. Small to congress. He has been there long enough to be of great usefulness to his district and State, and it would be little less than folly to set him aside and put a new representative in his place. He is a valuable representative, a hard worker, and should have the unanimous vote of the next district convention for his return to congress.

BENSONIZER LUNG CURE.

NO MORE EXILE FOR CONSUMPTIVES.

A Cure at Last Obtained, After a Searching Investigation, by St. Louis Interests.

A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption. Out of 115 test cases, 77 were completely cured and 28 have shown such improvement that their ultimate recovery is but a question of a few weeks.
So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost, this cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured.
Patients receiving the same treatment here in St. Louis have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device have located their main office at 417 North Seventh street, St. Louis. They have also located a factory on Easton avenue and a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. O. F. Benson, the discoverer of the fluid inhalants which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call.—From the St. Louis Globe Democrat.
Free booklet on request.

An Open Letter

From the Chapin, S. C., News: Early in the spring my wife and I were taken with diarrhoea and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand gave each of us a dose and we at once felt the effect. I procured a bottle and before using the entire contents we were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, Editor. This remedy is for sale at Wooten's Drug Store, Greenville; R. L. Davis, Farmville.

A Startling Test.

To save a life, Dr. T. G. Merritt of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them Only 50c at Wooten's Drug Store.

LETTER TO T. R. MOORE.

Greenville N. C.

Dear Sir: A painter complained that our cans are too full; unhandy; spilla.

It's a way we have; 'tis handier not to be full-measure. Our gallon contains eight pints; the usual "gallon" is seven.

We'll think it over again; but we like a full can. How much short would you like a barrel? Seven gallons would be the proportion.

Short-measure suggest that the shortage is probably not in the cheapest ingredient.

Guess we'll stick to four quarts to a gallon, and fifty gallons a barrel.

The name to go by is Devoe lead-and-zinc.
