GRIMESLAND AND VANCEBORO CIRCUIT.

MR. EDITOR:

An ancient writer said: "Blessed are the people whose annals are unknown." This has been true this year. We have kept quiet until now; but like the little boy who said that he must "hol-ler" or burst, so we must speak out and let other people know that we are kicking.

Now, there will be a Missionary Mass meeting for this circuit at Salem church, May 28 and 29 1904.

On Saturday, a noted divine will preach at 11 o'clock. Then there will be dinner, after which there will be another address. On Sunday, Rev. J. D. Bandy, the Presiding Elder, for this district will preach at 11 o'clock; after which the sacrament will be administered. This mass meeting will be held in connection with the second quarterly meeting for this circuit. The object is to arouse the people to missionary spirit.

For this was, and is one of the very distinct doctrines of methodism. To spread scriptural holiness over the earth. Its founder said: "The world is my parish." So is ours. And not to be a lover and believer in missions is not to be a loyal Methodist, and as I see it; a loyal Christian. So this our object.

We expect the members from other parts of the circuit to be present, if possible. Everybody is invited, and we give you a welcome invitation. So come along, and bring your relatives and friends. If you cannot be present and if you are interested, pray for us, that this may be a success.

There will be a Sunday school mass meeting and children day services at Vanceboro, the first Sunday in June, (which is June 5th.) B. E. STANFIELD, P. C.

A Happy Couple.

Maj Henry Harding and his estimable wife took the train here this morning for Raleigh to be present at the graduation of their baby boy, Jarvis B. Harding, at the A. & M. College next week—who graduates with first honors. The aim of their lives has been to live to see all their children—six in number—graduated, and their want is the acme of their lives, and never have they been more deservedly happy than now. Three of their sons—W. F. Harding, F. C. Harding and H. P. Harding—graduated at the University of North Carolina and their two girls—Bessie and Sudie Harding—graduated at the State Normal College and all are accomplished and doing well. While it has been a great struggle, beginning life immediately after the civil war when everything was dark and dreary for the South, these two have fought the battles of life bravely and heroically, determined upon giving to their children a thorough, competent education, and now that they have lived to a ripe old age of more than three score their lives are blessed with their fondest hopes. We have never seen a more happy, loving and contented couple leave town. They are now winding up their bridal tour after nearly forty years of happy married life. They join their daughter Bessie at Greensboro and will spend some time with their son, W. F. Harding, who lives in Charlotte. They looked very much like a newly married couple as they boarded the cars this morning.

American Officers For Chinese Army.

As has already been published in our dispatches, there is on foot a plan to secure American officers to serve in the Chinese army. The following on the subject is from The New Orleans Times-Democrat:

"Seven hundred American soldiers will be transported to China to officer the Chinese army as one of the results of Prince Pu Lun's visit to this country, according to W. T. Hally, traveling passenger agent of the Union Pacific, whose company is seeking the contracts to carry the men to San Francisco from different points in the United States. According to the same authority, the movement of soldiers will be commenced within two weeks. The principal recruiting station is at Yankton, S. D., and is in charge of Brigadier General Edmund F. English, of New York. The cream of the Spanish-American veterans, he claims, has been selected for the army of the Chinese Emperor. Commissioned and non-commissioned men have been offered commissions in the Chinese army, with the salaries paid by the United States government. General William E. English, of Indianapolis, says a special to The Globe-Democrat, has received a personal letter from Brigadier General English at Yankton, giving a full exposition of the plan. The latter is the American member of the Chinese general staff, and is sending invitations to every officer of volunteers who served in the late war with Spain, asking them to accept commissions in the new Chinese army.

This information will doubtless cause more or less apprehension among those people who continually have visions of the "yellow peril," but it is to be doubted whether there is ground for any such feeling. The Chinese army could doubtless be made a formidable force under the direction of American officers, and the latter would in all probability inculcate in the troops ideas of discipline which would make impossible any of the results feared from the arousing of the yellow men to a knowledge of their strength. The significance of the alleged plan to officer the Chinese army with Americans is indeed far-reaching, as showing that China is to awaken to her opportunities of becoming a power in the far East, as did Japan. The yellow and brown men are inferior in practically every way to the Caucasians and will so remain, therefore as long as the latter do right they have nothing to fear from the Orientals. It was intended that the white man should lead, and it is weakness for him to concern himself about the domination of an inferior race so long as he does his duty.

If this movement on the part of China is in good faith, it doubtless means that the powers of the world are to be relieved of much responsibility—that occasioned by the helplessness of the teeming millions. —Charlotte Observer.

That Big Check.

United States Secretary Shaw signed a warrant for \$40,000,000 on Saturday afternoon about three o'clock for paying the new Panama Canal company for their interest in the canal property on the Isthmus of Panama. It was the largest warrant ever before issued by this government.

The largest sum previously covered by a single government warrant was for \$7,200,000, paid to Russia in 1868 on account of the Alaskan purchase. The next sum \$5,500,000, paid in 1876 to the British government, on account of the Halifax award, under the treaty of Washington, for infringement of

fisheries rights in Nova Scotian waters. In 1899 this government paid Spain, through the French ambassador, \$20,000,000 for the Philippine Islands, but this sum was represented by four warrants of \$5,000,000 each. The \$15,000,000 agreed upon as the purchase price for the Louisiana territory was paid in 1803 by the assumption by the United States of the claims of citizens of this country against France, amounting to \$3,750,000, and the issue to France of certificates of stock in the sum of \$11,250,000.

A fire broke out in New York city on last Friday and a stable full of fine horses was one of the buildings partly damaged. Before the horses were all removed a wall fell in and blocked the runway leading into the stable. Two good horses were in the basement, Nellie, a fleet roadster, and Molly, a big truck horse. At five o'clock on Monday morning a patrolman descended gingerly into the basement to see how the water which had been 5 feet deep was receding, when he heard the whinnying of horse, and going on down through eighteen inches of water was surprised to find Nellie alive and frisky. He procured fresh water and oats, and arrangements were set on foot to release her. In the afternoon another patrolman explored further and found Molly alive, and she was carefully chopped out, and a special runway leading through a big window was built to get them out. They had been in their prison 50 hours and had apparently not suffered except from hunger and thirst.

PERFORATED STAMPS.
 The Invention For Which Bessemer Was Knighted.
 It is almost the universal impression that the late Sir Henry Bessemer was knighted in recognition of the steel process which bears his name, but such was not the case. The honor was bestowed in 1878, when he was sixty-six years old, as a tardy reward for a service rendered the British government about the time of his attaining his majority. The history of this, as told by James Dredge, is that at the time when, in his early years, Bessemer came into contact with some of the officials of Somerset House, the seat of the inland revenue department, it was notorious that frauds on the government were perpetrated to an alarming extent by the repeated use of stamps affixed to deeds. It was estimated that an annual loss of £100,000 was sustained from this cause, and to devise a means for entirely putting a stop to this occupied Bessemer's attention. It is almost superfluous to say that he arrived at a solution by the simplest means, that of perforating the government stamps with dates. Now that this evident method has found a hundred uses throughout the civilized world, to safeguard stamps or checks and to divide postage stamps being among the most common, it is a little difficult to realize the importance of this invention. To Bessemer it meant, in anticipation, vast things—assured fame, a retaining fee of £600 a year as a government official and a great advance on the road to fortune. In reality, however, it meant nothing, for, though the invention was at once adopted, the official promises were soon forgotten.—Cassier's Magazine.

His Courtroom Thunder Stolen.
 A member of the Massachusetts bar used to get verdicts by touching appeals to tender feelings of jurymen, especially if his client was poor and the defendant was a rich corporation. He became famous for getting verdicts in such cases. One day he met his match. The counsel for a corporation which had been sued undertook to head him off. He had an opportunity to study his opponent's methods and gave special attention to his style in the delivery of pathetic passages. Having the right to make the opening plea, he told the jury what to expect, described the attitude, tones and manner of his brother lawyer and did it so thoroughly and faithfully that he not only discounted the effects of his plea, but so embarrassed him that he could not do justice to himself or his client, who lost his case.

His Signature.
 "Charming! Exquisite! Perfectly delightful!" she exclaimed, peering through her stater at the young artist's latest picture. "I am glad you like it," he said, with becoming modesty. "Like it? Could anybody help liking it? So original! That queer little animal with the funny long legs in the right hand foreground! What a delicious conceit! How can you imagine such impossible things, Mr. D'Aubre?" "Um—er—you mean this?" he asked, pointing to the strange thing in the lower corner. "Yes; of course." "Er—uh—that is my signature, madam."—Brooklyn Eagle.

The Age of Pericles.
 Fame is always hard to define, and it often appears that the names of the greatest philosophers of old are unknown to many people. A gentleman was to deliver a lecture upon the "Age of Pericles" in a country town, and two of the citizens were speaking of it. After a few remarks upon the lecturer, Mr. Brown asked, "What are Pericles, anyway, Smith?" "Well, Brown, I don't exactly know, but it's some kind of shell-fish."

"Oh, yes. Then of course 'the age' has reference to the time they have been out of water."

An Accident.
 "Why, Johnnie, you've got a big lump on your head. Have you been fighting again, you disgraceful boy?" "Fighting? Not me!" "But somebody struck you?" "Nobody struck me. I wasn't fightin' at all. It was an accident."

"An accident?" "Yes. I was sittin' on Tommie Sanders, and I forgot to hold his feet."—Chums.

A Cold Blooded Arraignment.
 "I don't see why you dislike Bliggins so much. I don't believe he'd harm his worst enemy." "No," answered the implacable foe; "he would be afraid of an enemy. Bliggins is one of those people who always pick their friends as victims of a small transaction, because they think they can square it by apologizing."—Washington Times.

An Open Letter
 From the Chapin, S. C., News: Early in the spring my wife and I were taken with diarrhea and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. A friend who had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy on hand gave each of us a dose and we at once felt the effect. I procured a bottle and before using the entire contents we were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, Editor. This remedy is for sale at Wooten's Drug Store, Greenville; R. L. Davis, Farmville.

When The Sap Rises
 Weak lungs should be careful. Coughs and colds are dangerous then. One Minute Cough Cure cures coughs and colds and gives strength to the lungs. Mrs. G. E. Fenner, of Marion, Ind., says, "I suffered with a cough until I run down in weight from 148 to 92 lbs. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by J. L. Wooten.

A Startling Test.
 To save a life, Dr. T. G. Merritt of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for Dyspepsia, Indigestion, Constipation and Kidney troubles. Try them. Only 50c at Wooten's Drug Store.

A Cure For Piles
 "I had a bad case of piles," says G. F. Carter, of Atlanta, Ga., "and consulted a physician who advised me to try a box of DeWitt's Witch Hazel Salve. I purchased a box and was entirely cured. It is splendid for piles, giving relief instantly, and I heartily recommend it to all sufferers." DeWitt's Witch Hazel Salve is unequalled for its healing qualities. Eczema and other skin diseases, also sores, cuts, burns and wounds of every kind are quickly cured by it. Sold by J. L. Wooten.

Thousands can testify to that. Mrs. C. B. Van Metre of Shepherdstown, W. Va. says "I had a severe case of Bronchitis and for a year tried everything I heard of, but got no relief. Whooping Cough

I think this is the best remedy I have ever seen for whooping cough. This remedy keeps the cough loose, lessens the severity and frequency of the coughing spells and counteracts any tendency toward pneumonia. For sale at Wooten's Drug Store, Greenville; R. L. Cured His Mother of Rheumatism
 "My mother has been a sufferer for many years with rheumatism," says W. H. Howard, of Husband, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale at Wooten's Drug Store, Greenville; R. L. Davis & Bro., Farmville.

BENSONIZER LUNG CURE.
 NO MORE EXILE FOR CONSUMPTIVES.
 A Cure at Last Obtained, After a Searching Investigation, by St. Louis Interests.

A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption. Out of 115 test cases, 77 were completely cured and 28 have shown such improvement that their ultimate recovery is but a question of a few weeks. So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost, the cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured. Patients receiving the same treatment here in St. Louis have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device has located their main office at 417 North Seventh street, St. Louis. They have also located a factory on Easton avenue and a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. C. P. Benson, the discoverer of the fluid inhalants which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call.—From the St. Louis Globe Democrat.

The Meeting.

The meeting at the Christian church is growing in interest. The church was crowded again last night. Mr. Jones preached a very strong sermon. His subject was "The Old Time Religion." It was a powerful plea for the return to the religion that Peter, John and Paul had. He emphasized the fact that we can know whether we have the religion that the first church had by comparing our beliefs with what was taught in the beginning of the church's career. His appeal was earnest and powerful, and the closest attention was given throughout the sermon.

At the close when the invitation was given four responded—two confessions and two to take membership.

The meeting tonight begins at 8 o'clock, promptly.

Several questions that have been placed in the question box will be answered after the sermon.

Dr. W. H. Wakfield, of Charlotte, N. C., will be in Greenville at Hotel Bertha, on Monday June 13th and until noon on Tuesday 14th. His practice is limited to Eye, Ear, Nose and Throat, and fitting glasses. e-o-d & w.
