### Rout the Russians.

London, May 27.-9:15 p. m.—A dispatch to the central news from Harbin says the Japanese losses during the fighting at Kin-Chou are said to be twelve thousand men killed.

It is said that these figures have been confirmed by an official dispatch. Fighting, it is added, is still going on in the vicinity of Kin-Chou.

### Russian Losses Heavier.

London, May 28.—(Saturday) The Tokio correspondent of the Daily Telegraph says he learns that the Japanese troops are now within 12 miles of Port Arthur and that the Russians suffered heavier casualties than the Japanese, who have taken guns and other material and a few prisoners. He predicts a further surprise as Japan is now increasing her efforts in all directions.

The Tokio correspondent of the Daily Chronicle says that the Japanese captured many guns in Kin-Chou.

### Elks-Hardison Marriage.

At the Christian church in Grimesland on last Wednesday evening, May 25, 1904, there was a very pretty wedding. Mr. Eddie Elks and Miss Carrie Hardison, two of our popular young people, were united in the holy bonds of matrimony, by the pastor, Elder Green.

The church was tastefully and beautifully decorated with ivy, ferns, palms, roses, lillies and other pretty flowers. The pulpit was a solid bank of evergreens and flowers. Near this there were three pretty arches of ivy and, etc. The middle tier of pews had been removed, so there was ample room for the bridal party. About nine o'clock they began to enter.

First came Jesse Davis and Miss Myrtie Proctor, who played the wedding march. Then little Misses Blanche and Mary Proctor marched in and opened the gates to the arches on each side of the church through which the waiters were to pass. W. S. Galloway and J. W. Mayo, the ushers, came in and passed under the arch and took their place facing each other beside the pulpit. After these Mr. D. P. Moore entered from right vestibule door and Miss Mamie Galloway from the left, passing each other near the centre of the church, going through the gates, taking their stand by the ushers.

Then three other couples came in. Then the flower girls; Misses Sueie and Earl Proctor came in throwing roses leaves over their shoulders before the bride. Following these came the bride and Mrs. T. P. Proctor from the left door and the groom with Mr. T. P. Proctor from the right door, meeting in the centre of the church and the bride and groom took their place under a very beautiful arch of roses, and were soon pronounced man and wife. After the ceremony the bridal party and friends were given a reception of cream and cake, at the residence of Mr. W. S. Galloway. It was served in a delightful manner, and everything was neatly and tastefully decorated. Then all join in congratulation and best wishes for Mr. and Mrs. Elks to have a happy and enjoyable life. Who will be next? X.

### PUT THEM ON SALARY.

EDITOR REFLECTOR:

The amount you stated on good authority that the town is paying for collecting the taxes and to the treasurer is astonishing, \$1,800 for the two I have no criticism on the two most excellent gentlemen now occupying the positions, but only on the old system that pays a commission instead of salary, Five per cent sounds little, but when you figure it out at \$900 per year that sounds very different.

Our taxes at best will now be high enough. We must begin economy in public affairs, as we do in private dealings. Three hundred dollars per year for the treasurer, four hundred and eighty dollars per year for the collector and seventy five dollars per year for clerk, is good pay for the service rendered. Push this matter from a per cent. to a salary basis.

THE REFLECTOR has received from Rev. A. D. Betts a copy of his book "Experience of a Confederate Chaplain 1861-1865." Women are peculiar, (perhaps not more so than men) and at times lose their dignity so easy. Miss Alice Roosevelt arrived at St. Louis Thursday. Her coming was known and 5,000 people, mostly women were jostling each other around the depot to get a glimpse of her. Four hundred of them broke by the gate keepers and crowded around the train so that policemen found trouble in getting Miss Roosevelt and attendants through the throng to a carriage. And as she passed the women followed filling the air with hurrahs.

Dr. Baskerville, dean of the department of chemistry of the University of North Carolina, and who has obtained much reputation by his chemical research and discoveries, has accepted an offer from a New York college to take charge of its chemistry department. In talking about it the doctor said "I am too broken-hearted at having to leave the Tar Heels." That sounds strange. We do not suppose he had to go North Carolina has a way of losing brainy men. They are out for the biggest offer, and the size of it comes in for more consideration than state paid. Perhaps you cannot blame them for it, but it is a pity for the state just the same.

**The Nation's Loss From Typhoid**  
The Michigan physician who puts the annual money loss to the United States from typhoid fever at \$50,000,000 is far from setting forth the full truth. He reaches his estimate by assuming \$1,000 as the average value of the lives sacrificed and omits all account of the money spent in the care of nonfatal cases. The real value of the lives lost—so far as such value can be expressed in money—might more properly be rated at \$5,000, and at least \$100, on the average must be spent on victims who recover. On this calculation, assuming that the Michigan physician is correct in his number of cases, the annual loss to the country from typhoid is nearly \$300,000,000.—Providence Journal.

Physicians are getting there with both feet. It is announced from New Orleans that for the first time in the history of the world, a leper has been cured and will shortly be discharged from an institution for the care of leprosy. A young French boy, fifteen years old, who has had leprosy for three years and has been in the Louisiana Lepers' Home for a year and a half, will be discharged from that institution within a month.

The boy came from New Orleans and was committed to the asylum in October, 1902. When admitted he was of the color of coffee. He was covered with eruption, especially on his face, which was full of leprosy ulcers. His face is now handsome, with clear color in the cheeks and with hair on eyebrows and lashes. He has lost the leering grin peculiar to lepers, and could not be recognized as the same person who went in.—Greensboro Record.

**Was Excusable.**  
 It was at a certain church meeting and the good bishop was calling for reports. He had rather stern, sharp manner, which sometimes jarred a little on the nerve of the more timid. By and by he came to brother B., a lay delegate.  
 "Brother B., what is the spiritual condition of your church?" demanded the bishop, briskly.  
 "I consider it good," said the brother.  
 "What makes you think it good?" went on the bishop.  
 "Well, the people are religious. That's what makes me think so."  
 "What do you call religious? Do they have family prayer?"  
 "Some of them do, and some do not."  
 "Do you mean to say that a man may be a Christian and not hold family prayer?"  
 "Yes, sir; I think so."  
 "Do you hold family prayer?"  
 "I have a brother who is a better man than I am, who does not hold family prayer."  
 "What makes you think he is a better man than you are?"  
 "Everybody says so, and I know he is."  
 "Why does not your brother, if he is such a good man, hold family prayer?"  
 "He has no family," meekly answered the brother.—Harper's Magazine.

**Somebody Has It to Do.**  
 Somebody has to do the dirty work. No matter to what degree of refinement we may attain as a people, that which we term the dirty, disagreeable work of life can never be eliminated or dodged. Somebody must wash the dishes, do the family washing, milk the cows, clean out the barns. The very effort to be refined and civilized makes more of this dirty work to do. A type of education which leads one to look contemptuously upon and avoid, if possible, these omnipresent and disagreeable duties of life is defective to the core. That education which enables the possessor to do this sort of disagreeable work with true manly and womanly dignity is of the right kind. The true American is a man not ashamed to be seen dressed in wamus and overalls.—Ex.

**BENSONIZER LUNG CURE.**  
**NO MORE EXILE FOR CONSUMPTIVES.**  
**A Cure at Last Obtained, After a Searching Investigation, by St. Louis Interests.**  
 A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption. Out of 115 test cases, 77 were completely cured and 28 have shown such improvement that their ultimate recovery is but a question of a few weeks.  
 So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost, this cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured.  
 Patients receiving the same treatment here in St. Louis have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device have located their main office at 417 North Seventh street, St. Louis. They have also located a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. C. P. Benson, the discoverer of the fluid inhalants which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call.—From the St. Louis Globe Democrat.

**Peculiar Murder Case in Missouri**  
 A Nodaway county man, Dr. O. C. Kessler, has been indicted for murder in the first degree under peculiar circumstances. Kessler is a physician. According to his accusers he has kept among the other drugs in his office a flask of whiskey which his acquaintances have been accustomed to drink out of in his absence. Kessler, it is said, suspected some person of taking whiskey from his bottle that they did not pay for and remarked that if they did not quit it one of them would some day get a drink that would be his last. On April 24th William Simmons took a drink from the bottle when Kessler was not in, and within a half hour he was dead. It is charged that Kessler had put deadly poison into the whiskey. The case is probably without a precedent in the criminal history of the State.—Kansas City Journal.

**An Open Letter**  
 From the Chapin, S. C., News: Early in the spring my wife and I were taken with diarrhoea and so severe were the pains that we called a physician who prescribed for us, but his medicines failed to give any relief. I procured a bottle and before using the entire contents we were entirely cured. It is a wonderful remedy and should be found in every household. H. C. Bailey, Editor. **Cured His Mother of Rheumatism**  
 "My mother has been a sufferer for many years with rheumatism," says W. H. Howard, of Husband, Pa. "At times she was unable to move at all, while at all times walking was painful. I presented her with a bottle of Chamberlain's Pain Balm and after a few applications she decided it was the most wonderful pain reliever she had ever tried, in fact, she is never without it now and is at times able to walk. An occasional application of Pain Balm keeps away the pain that she was formerly troubled with." For sale at Wooten's Drug Store, Greenville; R. L. Davis & Bro., Farmville.

## THE ULTRA SHOE.

The salient features of The Ultra are its fine workmanship, excellence of material, desirability of style, and elegance of fit and consequent comfort to the wearer. These form the sine qua non of desirable footwear.

In addition The Ultra is equipped with our patent cushion insole, a device which gives the shoe flexibility and durability, insuring a maximum of ease and comfort to the wearer, and protecting the foot from the ill effect of the hot sidewalks of summer as well as from the dampness of wet weather. This feature alone is well worth the price of the shoe.

We present a wide range in styles and finish, and are able to meet the requirements of the most fastidious as the more conservative patron and we invite a thorough inspection of our line. Ultra in name, Ultra in character, Ultra in every feature that contributes to fit, comfort and style. In finish, material and workmanship we are proud to present to all lovers of good taste in footwear a shoe for which we have never yet had to make an apology.
