BIG PIANO PURCHASE. 50 STIEFFS---BARNAU COLLEGE.

Gainesville, Ga., May 16, 1904
Chas. M. Stieff,
9 Liberty St., Baltimore, Md.

Dear Sir: I beg to enclose you an order properly executed for the purchase of fifty (50) Stieff Pianos, to be delivered at Brenau Conservatory, Gainesville, Ga. This will equip the Conservatory with Stieff Pianos exclusively, with the exception of one Concert Grand which we have on hand.

When I began to investigate pianos with a view of taking out all and putting in an entirely new supply, the Stieff came to my notice. I have studied pianos closely during the last ten years and have purchased ninety instruments in that time. After visiting the factories in a number of cities, I inspected your plant in Baltimore. I felt sure that no factory in the United States was better equipped to produce

a strictly high-grade piano than the Stieff factory.

We have had one of your instruments in the Conservatory for one year, and have tested the tone, quality and mechanical construction. After thoroughly testing it for eight or ten hours per day, I have placed an order for fifty new Stieff Pianos. I find the action of this piano in every way desirable to the artist and to the student.

While the cost of your piano is considerably more than I have to pay for others, it has greater merits, and I considered they were best none too good for Brenau Conservatory.

I take pleasure in saying that after we have secured the pianos ordered all of our practice rooms, both for teachers and students, will be supplied with your excellent instruments. Yours very truly,
A. W. VANHOESE.

Rarest display of these artistic pianos now on at Greenville, N. C., direct from the factory at factory prices. Terms to suit.

CHAS. M. STIEFF.

G. G. FINEMAN, Factory Representative.

She came back with a well filled note book, but one of her first remarks about it was "Papa, I believe some of the folks told me stories about where they were going, but I took them all down just like they told me." Her first lesson in reporting was a good one, and we print the items in personal column just as she got them. If there are any "stories" as she says, the reader can locate them.

TUESDAY AFTERNOON, SEPTEMBER 27, 1904.

Judge Parker's letter of acceptance has been given to the public. It is a clear, frank, manly discussion of the issues that are before the American people. It is not over wordy, but goes straight to the point on every topic considered. He states the issues and asks the people to choose between them. In concluding his letter Judge Parker says:

"Shall economy of administration be demanded or shall extravagance be encouraged?"

"Shall the wrongdoer be brought to bay by the people, or must justice wait upon political oligarchy?"

"Shall our government stand for equal opportunity or for special privilege?"

"Shall it remain a government of law or become one of individual caprice?"

"Shall we cling to the rule of the people, or shall we embrace beneficent despotism?"

"With calmness and confidence, we await the people's verdict."

"If called to the office of President, I shall consider myself the chief magistrate of all the people and not of any faction, and shall ever be mindful of the fact that on many questions of national policy there are honest differences of opinion. I believe in the patriotism, good sense and resolute sincerity of all the people. I shall strive to remember that he may serve his party best who serves his country best."

"If it be the wish of the people that I undertake the duties of the presidency, I pledge myself, with God's help, to devote all my powers and energy to the duties of this exalted office."

Listen to this song from the bard of the Raleigh Post:

"The most beautiful season of the year is just now opening up. Delicate splashes of gold and crimson are beginning to show through the fading green of the forests, and uncultivated fields are bright with waving goldenrod. There is still more substantial beauty in the corn field, meadow, apple orchard and turnip patch."

And he left the golden hued pumpkin clear out of it.

The dispatches say that Russia is preparing to double her forces in the war against Japan. Notwithstanding she already has a much larger force in the field than the Japanese can number, she found herself unable to defeat the determined little fighters, and has set to work to raise another army to send to the front against them. Japan may be finally overwhelmed with the great number of Russia's forces, but we hope to the contrary.

One of the cheekiest things going is that the fellows who tried to wreck the Atlantic & North Carolina railroad with the receivership snag, now want the state to pay their lawyer fees and other expenses.

The colleges hardly get opened before the foot ball announcements become the most prominent information emanating from the institutions. The colleges need reputation in other directions.

The Monday paper got ahead of the push again by being first to print Judge Parker's letter of acceptance.

There is a feeling in the air that this is a Democratic year.

Gen. Corbin's recommendation that army officers be not allowed to marry until they have secured the consent of the Secretary of War, which is not to be given unless they show to that official's satisfaction that they can support their families, has caused wide-spread comment. At first blush this looks like an interference with the army officer's liberty, but there is no doubt that there is good reason for such a measure. Army officers are supposed to be entirely under the government's control and if single men are better suited for the places they should fill them—just as is the case with the enlisted men. One good thing about it, one need not become an army officer unless he wants to.—Charlotte Observer.

One of the most remarkable cases of a cold, deep seated on the lungs causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 lbs. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold at Wooten's Drug Store.

A Power For Good

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot, of Albany, Ga., says: "During a bilious attack I took one. Small as it was it did me more good than calomel, blue mass or any other pill I ever took and at the same time the effect was pleasant. Little Early Risers are certainly an ideal pill." Sold by Wooten's Drug Store.

**FOR CONSUMPTION.
BENSONIZER LUNG CURE**

NO MORE EXILE FOR CONSUMPTIVES.

A Cure at Last Obtained, After a Searching Investigation, by St. Louis Interests.

A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption. Out of 115 test cases, 77 were completely cured and 28 have shown such improvement that their ultimate recovery is but a question of a few weeks.

So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost this cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured.

Patients receiving the same treatment here in St. Louis have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device have located their main office at 417 North Seventh street, St. Louis. They have also located a factory on Easton avenue and a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. C. P. Benson, the discoverer of the fluid inhalants which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call.—From the St. Louis Globe Democrat.

THREE times a day you sit down with your China and Glass. That is the best we can think of for having plenty and for having it dainty and attractive.

There is a saying that "Appetite oft bred on dainty China," and if this should prove true in your case and you not be able to fill the vacuum, just call in our Grocery Department where the very best is kept for the inner man, and if you should eat too much (and we expect you will if you buy our Groceries) examine our immense Furniture Department where you will find Couches, Lounges, Beds, Chairs, &c., on which you can rest until you are cured of the Gout. If you don't believe this call on
