BIG PIANO PURCHASE. 50 STIEFFS---BARNAU COLLEGE.

Gainesville, Ga., May 16, 1904
Chas. M. Stieff,

9 Liberty St., Baltimore, Md.

Dear Sir: I beg to enclose you an order properly executed for the purchase of fifty (50) Stieff Pianos, to be delivered at Brenau Conservatory, Gainesville, Ga. This will equip the Conservatory with Stieff Pianos exclusively, with the exception of one Concert Grand which we have on hand.

When I began to investigate pianos with a view of taking out all and putting in an entirely new supply, the Stieff came to my notice. I have studied pianos closely during the last ten years and have purchased ninety instruments in that time. After visiting the factories in a number of cities, I inspected your plant in Baltimore. I felt sure that no factory in the United States was better equipped to produce

a strictly high-grade piano than the Stieff factory.

We have had one of your instruments in the Conservatory for one year, and have tested the tone, quality and mechanical construction. After thoroughly testing it for eight or ten hours per day, I have placed an order for fifty new Stieff Pianos. I find the action of this piano in every way desirable to the artist and to the student.

While the cost of your piano is considerably more than I have to pay for others, it has greater merits, and I considered they very best none too good for Brenau Conservatory.

I take pleasure in saying that after we have secured the pianos ordered all of our practice rooms, both for teachers and students, will be supplied with your excellent instruments. Yours very truly,
A. W. VANHOESE.

Rarest display of these artistic pianos now on at Greenville, N. C., direct from the factory at factory prices. Terms to suit.

CHAS. M. STIEFF.

G. G. FINEMAN, Factory Representative.

SATURDAY AFTERNOON, OCTOBER 1, 1904.

THE MESSENGER IS WRONG

The Wilmington Messenger prints the following in a recent issue:

"The democratic convention of Pitt county adopted the following resolution before nominating its candidates for the senate and house of representatives:

"Whereas, the state democratic convention in its platform adopted at Greensboro in June, 1904, suggests the wisdom of leaving all needful amendments to the Watts bill to be made by the democratic legislature, Now, therefore be it

"Resolved by the democratic party of Pitt county in convention assembled in Greenville, N.C., on the 15th day of September, 1904, That our senator and representatives, to be nominated by this convention this day, are hereby directed and instructed to cause the Watts bill to be so amended as to provide that the said bill shall be submitted to the vote of the entire people of Pitt county, and ratified by them before it shall become operative in Pitt county."

Then the Messenger goes on in a half column editorial to explain the position in which the Democrats of Pitt county placed themselves in adopting (?) such a resolution.

What THE REFLECTOR wants to know is where did the Messenger get its information? That it may be correctly informed and see how misplaced was its editorial, let us remind the Messenger that the Democratic convention of Pitt county adopted no resolutions whatever, neither before nor after making the nominations. After the nominations had all been made a delegate did introduce a resolution referring to the Watts law and to the road law, but the convention immediately adjourned without giving the resolution any attention whatever.

It might be well to also call it to the attention of the Messenger that Pitt county's nominee for the senate and one of the nominees for the house were delegates to the state convention and helped to make the platform of that convention, and are thereby pledged to support the action of the state convention upon the Watts law.

Of course President Roosevelt wrote in his book the reference to the "course and brutal" character of the Southern people. But what odds does it make? No Democrat will vote for him any way, and every Republican will vote for him even if he should say their whole tribe were horse thieves. It does look a little strange, however, that any self respecting man born in the South could support him.

Cotton receipts are very heavy and there is a falling off in price. But Sully is quoted as saying that the supply is going to fall something like a million bales short of the demand.

If Secretary Loeb undertakes to deny every charge made against President Roosevelt, he had better be sure that they haven't got it marked in one of his books.

The Charlotte Observer says several Mecklenburg farmers hauled their cotton back home when they got to market and found the price down to 10 cents.

Port Arthur has been allowed in the dispatches a three months longer lease to stand. That guarantees Christmas to the boys before they fall.

The nearer the election comes the more it looks like Parker will win.

Training For Young Farmers.

The popular course for young farmers in the North Carolina A. & M. College, Raleigh, N. C., known as the short course in dairying and agriculture, opens this year January 4th, 1905, and continues for ten weeks closing March 10th, 1905.

On account of many improvements in the line of work introduced the work will be far more interesting and important than before. A new course in farm engineering that will be given in connection with the other studies will add much to the importance of the work. This study will embrace rural architecture, and farm machinery, and special stress will be placed upon designing barns, houses, silos, etc.

Another course that will be added is that of Farm Management, which will include a discussion of the management of the farm in various details.

A third new course that will be offered will be the cotton course which will include cotton growing, judging, breeding, and soil management in all of its phases. It is believed that the cotton course will be especially important to the young farmers in our State, and it should receive the attendance of every young cotton farmer that can get away from home during the winter months.

No entrance examination is required in these winter courses and no tuition is charged at all. Practical courses are hereby open to all who desire to better themselves in the various lines of agriculture. The total cost for ten weeks, including board, room, light and fuel, etc. is but \$30.00. Young men contemplating marriage should send in their application at once to C. W. Burkett, Professor of Agriculture, West Raleigh, N. C., as all students are registered in advance of the opening date.

BENSONIZER LUNG CURE

NO MORE EXILE FOR CONSUMPTIVES.

A Cure at Last Obtained, After a Searching Investigation, by St. Louis Interests.

A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption. Out of 115 test cases, 77 were completely cured and 28 have shown such improvement that their ultimate recovery is but a question of a few weeks.

So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost this cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured.

Patients receiving the same treatment here in St. Lou. have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device have located their main office at 417 North Seventh street, St. Louis. They have also located a factory on Easton Avenue and a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. C. P. Benson, the discoverer of the fluid inhalants which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call. —From the St. Louis Globe Democrat.

Letters from Women

Cured by the use of Kodol are received daily. Their troubles nearly all begin with indigestion or other stomach disorder.

If the food you eat fails to give strength to your body, it is because the juices secreted by the stomach and digestive organs are inadequate to transform the nutrient properties of the food into blood. That is indigestion. The system is deprived of the amount of nourishment required to keep up the strength, and the result is that one or more of the delicate organs gradually grows weak, and then weaker, until finally it is diseased. Here a great mistake is made. That of treating the diseased organ. The best doctors in the land make this very mistake. Why should they? It is so easy to see that the trouble is not there.

Kodol Cures

This famous remedy puts the stomach and digestive organs in a healthy condition so that rich, red blood is sent coursing through the veins and arteries of every muscle, tissue and fiber throughout every organ of the entire body, and by Nature's law of health, full strength and vigor is soon restored to each. Kodol cures indigestion, dyspepsia and all stomach disorders.

I have taken Kodol for nearly two months after each meal and it is the only remedy that gave relief from the terrible pains I endured. After a time I would take it but once a day, and now, while I keep a bottle handy, I seldom need it, as it has cured me. Mrs. J. W. COOLBAUGH, Milo Center, N. Y.

Greenville's Great Department Store

THREE times a day you sit down with your China and Glass. That is the best we can think of for having plenty and for having it dainty and attractive.

There is a saying that "Appetite oft bred on dainty China," and if this should prove true in your case and you not be able to fill the vacuum, just call in our Grocery Department where the very best is kept for the inner man, and if you should eat too much (and we expect you will if you buy our Groceries) examine our immense Furniture Department where you will find Conches, Lounges, Beds, Chairs, &c., on which you can rest until you are cured of the Gout. If you don't believe this call on
