REV. J. H. CLEWELL, Ph. D., Principal.

WINSTON SALEM, N. C., March 9th., 1904.

Mr. Chas. M. Stieff, Charlotte, N. C.,

Dear Sir:—It is a little unusual to file an order this late in the season, but we find that the more Steiff Pianos which we add to our music department, the better the results attained in the work. We have added quite a number of your instruments during the last few years, and they have all given good satisfaction. It requires a piano of unusual merit for the constant use which all practice pianos have within our school, but we are glad to be able to say that your instruments have stood the test, and we will continue to purchase from your firm from time to time as the need arises.

I think there are about a dozen now in the school.

J. H. CLEWELL, Principal.

A rare and magnificent display of these pianos can now be seen and heard at Greenville, at lowest factory prices and easiest terms. We also have on the floor several slightly used upright pianos at prices ranging from \$175.00 to \$225.00. Each instrument is guaranteed for 10 years. We also have a fine display of organs at surprising low figures ranging in price from

\$35.00 and up. They are fully guaranteed.

This factory sale will positively close before many more days, when factory prices will promptly withdrawn, and if you have any earthly use for either piano or organ it will pay you to take a look around. When in Greenville Miss Bessie Patrick, who is associated with us during our stay here, will be glad to give you a tune.

CHAS. M. STIEFF.

Nine Thousand Nine Hundred and Eighty Four Killed on Railroads.

Accidents on railroads cost 9,984 lives lost in the United States last year, according to statistics gathered by the Inter-State Commerce Commission. The commission began to keep statistics of fatal casualties in 1894. Since that year 78,152 persons have been killed in the United States on railroads.

It is clear from the yearly reports that the number is increasing. The total this year is the highest for any year since the commission began to take the figures. The yearly number of deaths from railroad accidents in the past decade appears in the following returns:

1895, 6,136; 1896, 5,845; 1897, 6,457; 1898, 6,859; 1899, 7,123; 1900, 7,865; 1901, 8,455; 1902, 8,588; 1903, 9,840; 1904, 9,984.

The commission is concerned only with the loss of life and makes no return on the number of cars destroyed or the amount of property lost by railroad accidents. It is well known, however, that the grand total is well up in the millions.

The commission has just received reports from England on railway casualties. The English have less than 50,000 miles of track to our 200,000, yet they do a greater per mile business than we do, and there was not one passenger killed last year.

No Genius For Politics.

The Republican party in North Carolina will cut a sorry figure in the election returns. The reason is that it has not courage of its convictions. The leaders think they would like to do something, but they seem to take it for granted that the only thing in sight is to make a deal with Democrats who may be afflicted with dissatisfaction on account of some local friction. It is with the greatest confidence that we assure them that they can not make any inroads on the Democratic party by such tactics; and if that plan of procedure represents the extent of their genius for politics their party will grow smaller by degrees and beautifully less until all that will be left of it will be the federal office holders and the few who are ranging up to the pie counter with their mouths wide open.—Raleigh Post.

J. D. Hurst and G. A. Kittrell, of Winterville, were here one day this week.

Mrs. C. A. Fair and Miss Julia Bready were visiting in Winterville Tuesday.

Miss Eva Wilson, of Greenville, after visiting the family of Elder Stephens has returned to her home.

A. P. Lunceford has been soliciting insurance around Grimesland during the past week.

Think of it, twenty-five years ago there was hardly a man in Contentnea township worth ten thousand dollars, now a fellow can seldom turn around without knocking one down worth double the amount. Look at the tax books and see. Whew! don't we grow? What a glorious change.

Upon receipt of a telegram announcing the serious illness of his mother, M. M. Sauls left yesterday for Fremont.

The prospects for a double passenger train on this road seems to be good. We sent up our little mite yesterday.

Hon. C. A. Fair honored your town with his presence Thursday.

William Worthington one of our oldest and best farmers attended the corn fair and took along with him a sample of corn that would prove a credit to any community. Mr. Worthington is a tip top farmer.

J. A. Barwick and family returned yesterday from a visit to Kinston and New Bern.

Cotton is a little off but a few occasionally make their appearance. The farmers are by no means in a hurry to sell at present prices.

What is the matter with Ayden and Ayden people? Why haven't we got a factory, and more industries? Is it because there is no brain, here or is it lack of spondulicks? Sometimes we are at a loss to take it in, but after due reflection we have concluded there is plenty of brain and money too and if properly utilized Ayden will necessarily become one of the leading towns in the state. Try it, you business and moneyed men of Ayden, and if our prediction don't come true then we will agree to live on razor soup the balance of our days.

FRIDAY AFTERNOON, OCTOBER 14, 1904.

ADDITIONAL REASONS WHY ALL SHOULD VOTE FOR THE DEMOCRATIC NOMINEES.

We have heretofore given the list of the Democratic nominees and a list of the Republican nominees, with a brief account of how each was chosen. We now propose to give a list of the Populist nominees with a brief account of their nomination.

On the 8th of October, 1904, a couple dozen or so gentlemen calling themselves Populists assembled in the court house and put out the following ticket:

For the senate, A. J. Moye, of Farmville.

For the house, Slade Chapman, of Swift Creek and Dr. R. J. Grimes, of Bethel.

For treasurer, W. J. Thighen, of Greenville.

For register of deeds, D. T. House, of Greenville township.

For county commissioners, H. L. Tyson, of Falkland; W. L. Smith, of Chicod, and J. F. Tyson, of Carolina.

For surveyor, J. S. L. Ward, of Bethel.

For coroner, Dr. J. E. Nobles, of Greenville.

It is but fair to remark in this connection that Mr. W. J. Thighen and Dr. R. J. Grimes have published cards declining to run upon this ticket, and it is not unlikely that others may do likewise. But to return to the meeting that put up this ticket. It could not be called a convention, for each person who participated in it did so, as we understand it, upon his own individual responsibility. They were not there as delegates, for no township meetings had been held to appoint delegates, so far as we are informed.

It is true that some two weeks before a number of gentlemen met in the court house, heard a speech from Col. Skinner and some others, and then adjourned to meet Oct. 8th, with an understanding that the primaries were to be held on the 1st. If a single primary was held we have not heard of it.

When the meeting reassembled on the 8th a committee was appointed to suggest candidates; and the names given above was the result of their labors.

Why were no township meetings held? Is it because it is impossible to muster enough Populists to hold a respectable township meeting? And this leads us to ask what has become of the Populist party in Pitt? It was numerous in '94 and '96 and embraced many of our best people. Could a stranger who saw it in '94 and '96 have looked in on it on the 8th he must have been struck with amazement to have seen this forlorn remnant of a once aggressive party. If the question be asked of what death did it die, the answer must be of fusion. The state leaders like the Butlers and the Skinners tied their party on to the Radical party as a sort of Republican annex. Of course two parties professing principles so diametrically opposed to each other as the Republican and Populist parties could not long work together. These leaders got into the Republican party and the great rank and

pile of Populists came back home where they belonged and where they are now doing good service for Democracy and good government. There are just a few in the county who still stand aloof. They number a couple of dozen or so in Pitt. They have too much of the Jeffersonian Democracy in them to go into the Republican party and they are a little too proud or stubborn to come back home. We beg to suggest to them they are throwing away their usefulness. In the position they occupy they can have no influence in shaping public affairs in their county. If they would come along with us where they belong they could make their influence felt for the upbuilding of the county and for maintaining good government upon a high plane. We would be glad to see them come. They must be lonesome where they are. Better come home and come at once. This is an opportune time.

But if they will stand out in their isolation and loneliness they certainly can offer no inducements to anybody to join them. If there is here and there, in the county, a disappointed or disgruntled Democrat it is impossible for him to hurt anybody or help anybody by giving his vote to that remnant of the Populist party. We therefore urge every Democrat to stay in his party and then if things have not gone to suit him this time he will be in a position, when the next primaries and conventions are held, to exert an influence in shaping the course of things. Stay in the family, Democrats, and fight it out there. Settle all difficulties within the party. Our Populist friends in '92, '94 and '96 made a great mistake in not pursuing this course. Had they done so the cause of fusion had never cast its blight upon the state.

That was just like President Roosevelt to make several statesmen wait on the outside until he could finish a conference with some negro callers. He was working for the negro vote.

"Old man" Davis is doing as lively campaign work as any of the young bloods. He is on a tour and makes an average of a dozen speeches a day.

This time the dispatches say the Japs are gaining ground again.

The will of the majority should be the will of the party in all things political; and in this democratic view of it there can be no objection to finding out what is the will of the majority in any given locality, district, township or county. The principal of local self-government is a fundamental democratic rule.—Raleigh Post.

It is stated that the Panama canal commission has already spent \$1,000,000 for supplies without advertising for bids, as the law requires. This is but one of the early items of the great Panama graft—Ex.

BENSONIZER LUNG CURE

NO MORE EXILE FOR CONSUMPTIVES.

A Cure at Last Obtained, After a Searching Investigation, by St. Louis Interests.

A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption. Out of 115 test cases, 77 were completely cured and 28 have shown such improvement that their ultimate recovery is but a question of a few weeks.

So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost this cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured.

Patients receiving the same treatment here in St. Louis have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device have located their main office at 417 North Seventh street, St. Louis. They have also located a factory on Easton avenue and a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. C. P. Benson, the discoverer of the fluid inhalants which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call.—From the St. Louis Globe Democrat.

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Cleburne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one small bottle cured the three of us." For sale at Wooten's Drug Store.

Lovers Suicide.

Richmond, Va., October 13.—Bessie Stone, aged 18, and Robert Mill, of the same age, were found dead this morning three miles from Ashland, which is fifteen miles from Richmond, with a bullet hole behind the girl's ear and a bullet in the boy's forehead.

They lay side by side with hands clasped.

Mill, who was of excellent family, loved the girl, whose parents discouraged his attentions, owing to the extreme youth of both. The evidence points to murder and suicide, according to a pre arranged plan of the young people.

 UNION MADE

It is easy enough to cry "Best" but that which convinces is the test. We make strong claims for this Shoe, and ask a trial that our claims may be proven. We claim a unique, common sense sole construction, found in no other shoe. A system of last modeling which makes a shoe that fits the foot as nature intended.

We also claim that while quality of material and workmanship may possibly be equaled, they cannot be excelled at the price, and that as good a shoe cannot be made and is not sold for less.

They are, however, the tangible results of many years study of the highly complex needs of the human foot. They appeal to common sense and warrant a trial by every one who desires foot comfort and good service combined.
