ACADEMY AND COLLEGE.

REV. J. H. CLEWELL, Ph. D., Principal.

WINSTON SALEM, N. C., March 9th., 1904.

Mr. Chas. M. Stieff, Charlotte, N. C.,

Dear Sir:—It is a little unusual to file an order this late in the season, but we find that the more Stieff Pianos which we add to our music department, the better the results attained in the work. We have added quite a number of your instruments during the last few years, and they have all given good satisfaction. It requires a piano of unusual merit for the constant use which all practice pianos have within our school, but we are glad to be able to say that your instruments have stood the test, and we will continue to purchase from your firm from time to time as the need arises.

I think there are about a dozen now in the school.

J. F. CLEWELL, Principal.

A rare and magnificent display of these pianos can now be seen and heard at Greenville, at lowest factory prices and easiest terms. We also have on the floor several slightly used upright pianos at prices ranging from \$175.00 to \$225.00. Each instrument is guaranteed for 10 years.

We also have a fine display of organs at surprising low figures ranging in price from \$35.00 and up. They are fully guaranteed.

This factory sale will positively close before many more days, when factory prices will promptly withdrawn, and if you have any earthly use for either piano or organ it will pay you to take a look around.

Ben in Greenville Miss Be sie Patrick, who is associated with us during our stay here, will be glad to give you

CHAS. M. STIEFE.

G. G. FINEMAN, Factory Representative.

State Officers Negligent

Revenue Collector Ducan, who is looking after republican politics for eastern North Carolina, talking about the enforcement of the Watts law, says that none of the state officials have ever examined what is known as Record No. 10 in his office, which shows the persons who have paid special taxes for the sale of liquor. He says that in nine cases out of ten where sales of liquor are made in Watts law territory the government has got its tax, the liquor being sold in defiance of the state law. In other words, the revenue department has seen that its law has been complied with and that the federal tax has been paid. The records contain a complete list and is really the only thing open to the general public.—Raleigh Cor, Charlotte Observer.

Where the Victory Perched.

A dispute had arisen in the Ferguson family.

Mr. Ferguson wished to invite Aunt Abigail to come and spend the winter at his house. His wife objected.

"She's a vinegary old maid," said Mrs. Ferguson, "and I don't want her here. We've got enough to do to support ourselves, without having another mouth to feed."

"I'm able to look out for that. I want you to understand, Laura, that I'm the breadwinner for this family, and I say she shall come."

"And I want you to understand George Ferguson, that I'm the breadmaker for this family, and I say she shan't!"

Aunt Abigail didn't come.—Chicago Tribune.

Are You Helping to Bury Your Town.

A town that never has anything to do in public way is on the road to the cemetery. Any citizen who will do nothing for his town is helping to dig the grave. A man who will cause his town furnishes the coffin. The one who is so selfish as to have no time from his business to give to the city affairs is making the shroud. The merchant who will not advertise is driving the hearse. The man who is always pulling back from any public enterprise throws bouquets on the grave.

The man who is so stingy and selfish as to be always howling hard times preaches the funeral and sings the doxology, and thus the town lies buried free from all sorrow and care.—Ex.

TUESDAY AFTERNOON, OCTOBER 18, 1904.

Wilmington is getting interested in establishing a naval school in that city.

If the Japanese put in a few more such licks on the Russians as they did last week the war will not be long coming to an end.

Governor Chamberlain, of Connecticut, and a party traveling with him, have been spending a few days in Asheville. The mountain city gave them a royal reception.

While attending church in Davidson county, Sunday, Clay Grubb shot and killed O. L. Davis. They were brothers-in-law and both well known men of their county. They had previously been partners in a distillery and had a falling out over the business.

The Raleigh Post suggests that a monument to the memory of the late Gen. M. W. Ransom be erected in Raleigh. The entire state should take part in such a movement. The people can do themselves no higher honor than to honor the memory of this great man.

Mister Mandamus has come into public notice once more. This time he is bucking against having a vaccinated arm. It all come about this way: The board of school trustees of Durham passed a rule that before any child can be permitted to enter the city schools he or she must be successfully vaccinated within two years. A citizen of the town whose children have not been vaccinated took issue with the rule of the trustees and applied to the court for a mandamus to compel the trustees to admit his children to the schools. Both sides have employed counsel and the matter will be heard before Judge Bryan at Greensboro on the 26th.

The Cortelyou Scandal.

The charge against Chairman Cortelyou of "using his official knowledge of trust crimes and a silent 'unde standing' of future immunity to secure big campaign contributions from the trusts" has grown into a scandal.

The allegation is that Mr. Cortelyou was appointed Secretary of commerce in order that he might get the trusts' secrets by virtue of his position, which he did. This puts the trusts at his mercy as Republican chairman, and with this lever, it is said, he is prizing open their coffers and helping himself.

When Mr. Cortelyou was made chairman we were told that we should for once have a clean campaign. His reputation was without blemish. President Roosevelt's strength was augmented greatly by his selection of a man so highly esteemed. This being the case nobody would have heeded the scandal if it had been merely the vaporings of yellow journalism.

But when such responsible papers as The Courier-Journal, The New York Times, The Brooklyn Eagle, and many others take it up and make the charge to which there are strenuous denials by the Republican press but none by Mr. Cortelyou, it is high time that it should be given serious attention. Of course Mr. Cortelyou may mean by his silence that the scandal is beneath his notice, but the American people will not be likely to let it pass without question.

When Mr. Roosevelt's convention deliberately recognized the delegates of Addicks, who makes no secret of his purpose to buy up the vote of Delaware, and excluded the delegates of the old line Republicans of that State, it weakened the faith of the people in the immaculate honesty of the party's leader. If it was under his counsel that Addicks was recognized—and everything at the convention is said to have been under his counsel—then he has once openly countenanced corruption, and a haughty silence now will hardly satisfy the people.

We shall watch with interest for a denial by Mr. Cortelyou.—Charlotte Observer.

Warning to the Negro.

As our press dispatches announce the opening wedge in the substitution of white labor for that of the negro has been placed in the work along the river front in New Orleans. There is a certain class of work in the south which always has been performed by negroes and which they have come to think is theirs by prerogative. They do not recognize the right of any other class of people to do that work. For years the employers have given passive consent to this contention on the part of the negroes. The latter have been allowed to control this work and have been humored in their contention and in the mean time have been allowed to do the work in such a negligent, slipshod way until their conduct has become unbearable. For this reason the white people who formerly were their employers have been driven to resort to white labor. If this white labor will give satisfaction it means the end of negro labor in the stevedore and longshore business in southern ports. For some time the negro laborer on the docks in southern ports has been entirely too independent for his own good or for the good of the stevedoring business. He will work when he feels like it, and nothing can induce him to do so when he is not inclined to work. The employment of the white men in New Orleans is a warning to the negro that his occupation will soon be gone unless he is more attentive to his work. And there is another warning which he should heed. The white people of the south are not going to let him live among them in idleness. He has got to work for his living, or go to the chain gang.—Wilmington Messenger.

A Weeping Elm.

The most remarkable thing you ever saw since you were born into this vale of tears was almost in front of Mrs. R. M. Oates' home, on North Tryon street yesterday afternoon.

An old elm there was shedding tears conspicuously. Quite a crowd gathered to witness the performance and to speculate on its cause. Certain idealists suggested that the demarkation of sex prevailing among trees as well as among, this tree must have been "crazed with care and crossed in hopeless love." Certain scientists said trees bleed to death some times, but admitted that that occurs only in the spring. Churchmen alleged that the tree was weeping because of the sinners who had stayed away from church. Everybody has failed of a satisfactory explanation, the people present discharged their minds of the burden and proceeded to have a right good old gossipy time together. It is to be hoped that vegetation may weep soon again, so as to call humanity together to laugh.—Charlotte Observer.

BENSONIZER LUNG CURE

NO MORE EXILE FOR CONSUMPTIVES.

A Cure at Last Obtained, After a Searching Investigation, by St. Louis Interests.

A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption. Out of 115 test cases, 77 were completely cured and 28 have shown such improvement that their ultimate recovery is but a question of a few weeks.

So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost this cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured.

Patients receiving the same treatment here in St. Louis have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device have located their main office at 417 North Seventh street, St. Louis. They have also located a factory on Easton avenue and a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. C. P. Benson, the discoverer of the "fluid inhalants" which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call.—From the St. Louis Globe Democrat.

Letters from Women

Cured by the use of Kodol are received daily. Their troubles nearly all begin with indigestion or other stomach disorder.

If the food you eat fails to give strength to your body, it is because the juices secreted by the stomach and digestive organs are inadequate to transform the nutrient properties of the food into blood. That is indigestion. The system is deprived of the amount of nourishment required to keep up the strength, and the result is that one or more of the delicate organs gradually grows weak, and then weaker, until finally it is diseased. Here a great mistake is made. That of treating the diseased organ. The best doctors in the land make this very mistake. Why should they? It is so easy to see that the trouble is not there.

Kodol Cures

This famous remedy puts the stomach and digestive organs in a healthy condition so that rich, red blood is sent coursing through the veins and arteries of every muscle, tissue and fiber throughout every organ of the entire body, and by Nature's law of health, full strength and vigor is soon restored to each. Kodol cures indigestion, dyspepsia and all stomach disorders.

I have taken Kodol for nearly two months after each meal and it is the only remedy that gave relief from the terrible pains I endured. After a time I would take it but once a day, and now, while I keep a bottle handy, I seldom need it, as it has cured me. Mrs. J. W. COOLBAUGH, Milo Center, N. Y.

GREENVILLE'S GREAT DEPARTMENT STORE.

OUR SHOE STORE IS A VERY INTERESTING PLACE

We claim to have the largest and most complete stock of Shoes in this town. We are now showing large variety of styles in the best makes for Men, Women, Children and Infants. We can't tell you much about them in this space, but we want to call your attention to the famous

Ralston Health Shoes For Men.

All of the Style and the most Comfort

Ralston Health Shoes
UNION MADE

It is easy enough to cry "Best" but that which convinces is the test. We make strong claims for this Shoe, and ask a trial that our claims may be proven. We claim a unique, common sense sole construction, found in no other shoe. A system of last modeling which makes a shoe that fits the foot as nature intended.

We also claim that while quantity of material and workmanship may possibly be equaled, they cannot be excelled at the price, and that as good a shoe cannot be made and is not sold for less.

They are, however, the tangible results of many years study of the highly complex needs of the human foot. They appeal to common sense and warrant a trial by every one who desires foot comfort and good service combined.
