## THE REFLECTOR, FOR FINE JOB PRINTING

#### PAPER ON GEOGRAPHY.

Read Before the Pitt Teachers Association by Miss Eugenia Harris.

If any of us were to ask one of our pupils "What is geography?" or "What do you mean by the study of geography?" I wonder how many of us would get a clear answer. If asked about arithmetic a boy would say, "Its studying about fractions, and addition and compound quantities and examples." He would have a clearer answer ready for almost any subject other than geography, at least I have found it so. A boy is apt to say, "geography is studying about land and water, states and rivers and products and 'bounding cities'." He has a confused mass of stuff in his head. And then he might say, as one I heard of did "geography is the best book in school to eat apples and candy kisses behind." The main seems to be in not getting a good start in geography. Think for a minute of your first lessons. Can you remember a single trip your teacher took you on to examine soil, bodies of water in your neighborhood, plants, trees, life of all kinds? They didn't teach that way in our day—we were given definitions to learn. "What is a cape?" "What is peninsular?" and pages of map questions.

Geography proper, begins in the fourth grade. Previous to this time the pupils should have been taught home geography, and principals, as many as they can take in. In the fifth grade the work of the teacher should be along this outline.

What is it. Object of teaching it How to teach it. What necessary to teach. Let us talk about what it is.

Geography, although professing to be a description of the earth and its inhabitants, has too frequently been treated as though it were the science of where with map drawing the chief glory and the memory its only means of acquisition. In contrast with this narrow view take Carl Ritter's plan. He boldly discards arbitrary geographical methods, and starts with nature herself. By nature he means the entire creation, hence he begins with a simple study of the universe and the solar system. Emphasize the fact that the earth is neither the largest nor the smallest, the swiftest nor the slowest, neither the warmest nor the coldest.

Ritter's definition, as you know is "Geography is a description of the earth as the home of man." We should teach humanity instead of locality. Keep this in mind constantly. Teach the reliance of geography rather than the knowledge of facts, relations rather than descriptions. Principal always. Nothing you can do that can make principal more clear to a child's mind is time wasted. Use slides, pictures, maps, specimen.

A large part of the teacher's work is to help the children average and classify in logical order the facts learned, and deduce principals therefrom, make comparisons and seek causes and results. Make our work real. Get out of the book. Do not seize the big geography, open it for the first time since yesterday and say "and what are the leading products of Kentucky John?" Of course he doesn't know nor care. Get him interested first. Tell him something of interest you've thought of yourself since yesterday.

There is no law laid down by which to teach geography. You can read about dozens of ways, think of several others, and next year go by a new plan altogether. Get the newest freshest knowledge you can on the subject. Read magazine articles, get new books. Of course you know "the minute any man ceases to be a systematic student, he ceases to be an effective

teacher." Know your subject in a masterly way. Geography is one subject in which teacher can "sort of slip along" and not work.—pupils can't trip you up as they do in mathematics or a more definite study. You can make them believe almost anything, but they'll find you out later. After the solar system study come next to a study of influence of physiography upon a nation. Study soils, kinds and consequences—Principals always. The influence of soil upon industries, wealth, social life, and political conditions. Next study hills and mountains. Please do not teach a class that a mountain is a very high hill. Teach about the horizontal and tilted strata. They'll never forget it. Particularly if you draw mountains and hills on the board with red and green chalk showing the layers. Always study the influence of mountains and rivers upon human affairs. Mountains effect climate, drainage, industries.

Spent several days on each. Next come valleys young and old, and their influence upon human affairs. Rivers with their life histories and relation to human affairs. Then teach lakes and climate and their influence over humanity. Right here give a good hard written lesson with thought questions—for example "If you could build a city where would you put it, and what would your people do for a living? Even if you taught your principals well, you will be surprised at how nicely the children will answer this question.

Study the United States next, beginning with the New England states and on down the list—using every single principal you've learned, exercising all the patience you have "reading up" every spare moment you have and trying every possible way to get out of the book, and it all live—not a great big book with 100 pages, but the story of earth and mankind. Don't be afraid to illustrate every point you can by a rapid drawing on the board.

When you close your book at the end of the year, don't you let your class look you in the eye, and not be able to tell what they've learned in geography. It's your fault if they haven't learned principals that they can never forget.

#### Christmas for the Poor.

The King's Daughter desire to give some Christmas enjoyment to the poor of the community. They will appreciate any contributions of money, fruits or eatables for this purpose. In the midst of your enjoyment of plenty remember the poor.

#### Snow.

It snowed through most of last night and some has been falling today. It is a kind that does not make much depth, but indications are that more is behind.

#### Married.

Mr. William Elks and Miss Hassie Hester were married in West Greenville Wednesday evening. The groom is 17 years of age and the bride 18.

#### THE WEATHER

Cloudy, unsettled weather with occasional rain on the coast. Snow in the interior tonight, Friday fair.

A position wanted by a good experienced dry-goods clerk. Can give good references. For other information apply to this office. 12 15 4td

The weather causes a temporary suspension of work on the public improvements.

It takes a swift man to pursue a successful career nowadays.

#### STATE NEWS

A good neighbor is one who lacks in affairs that are none of his business.

John Poe, janitor of the court house in Wilson, has fallen heir to property in Indiana worth \$20,000.

A passenger train on the Atlantic Coast Line was wrecked near Warsaw Tuesday morning. The engineer, G. F. Horne, of Wilmington and his colored fireman were killed. The mail clerk on the train was badly injured.

#### Famous Hymns.

A valuable contribution to sacred literature is promised in the Delineator in a series of papers on the famous hymns of the world, which begins in the January number with "Jesus Lover of My Soul"—one of the most perfect heart songs of all ages. The greatest hymns, such as this, have a universal appeal; churches may differ as to creeds and conventions, but these exalted expressions of Christian faith and hope are common to all. The story of how they came to be written cannot fail to be absorbingly interesting; it is especially so in the case of Charles Wesley's noble composition, whose origin, as related in this paper, is shrouded in romantic incidents. A feature of the article scarcely less interesting is a number of anecdotes from noted churchmen showing the power for good that the hymn has wielded throughout the world. This article, as well as the rest in the series, has been prepared by Allan Sotherland and is effectively illustrated.

#### Christmas Advice

There is no reason why Christmas presents should not be bought as judiciously as you would spend money for other things. Presents that are useless cost just as much as useful ones. The best present is the one that gives the most pleasure for the longest time. When these two qualities are combined with small cost, you have the ideal Christmas present. Nothing makes such a combination better than books. The latest novel, the artistically illustrated poem, the latest book of travel, in holiday garb, delight the mind and please the fancy of young and old.

#### To Fight the Boll Weevil in Southern States.

Washington, Dec. 12.—Secretary Wilson today recommended to the House that an appropriation of \$225,000 be made to meet the emergency caused by the ravages of the cotton boll weevil and other insects and diseases affecting cotton; to study the diversification of crops, the Secretary of Agriculture to be authorized to expend the money in co-operation with the State experiment stations, and the practical cotton grower.

#### How the Vote Stands.

Remember Evans' Book Store will give a handsome set of Gibson's pictures to the most popular lady in the county. Every purchaser of 25 cents is entitled to one vote. The vote at noon today stood as follows:

- Miss Eiba Costen 42
- Miss Glenn Farber 6
- Miss Pattie Skinner 7
- Miss Ada Wooten 2
- Miss Henrie Ragsdale 7
- Miss Nina James 9

Kemp W. Merritt has been appointed a Deputy United States Revenue Collector to succeed James W. Perkins, who removes to Greenville, his former home—Raleigh News and Observer.

### Correct Attire For Men

Almost every man has read the "fairy tales" of the Clothiers, in the newspapers and magazines. Almost every man has been disappointed and disgusted on looking at the Clothes they pretend to describe. We invite these men to call at our store to be most agreeably surprised.

It's easy to draw a picture of Men's Clothes, as they should be, but it's not so easy to make the Clothes that look like the picture.

WE PUBLISH NO MISLEADING ILLUSTRATIONS but we do know how to provide our patrons with the right kind of Clothes.

If you have had Clothes troubles, Sir, we invite you to come to this store for relief.

We will surprise you with the excellence of our Clothing, and please you with our prices.

COME.

NO HOGS IN TOWN.

The aldermen of Mooresville have passed an ordinance prohibiting the keeping of hogs in the fire limits, which embrace the business portion of the town. The Mooresville correspondent of the Charlotte Observer says the ordinance isn't popular, and this isn't surprising. The aldermen of Lexington some time ago passed an ordinance prohibiting the keeping of hogs in that town, and the Dispatch says at the last meeting of the board the ordinance was repealed because it was so unpopular. Statesville aldermen have wrestled with this same question at different times for years. Fact is, there is only one thing the average citizen guards more zealously than his right to keep a hog, and that is the liberty of his dog. And the difficulty in enforcing hog laws and similar regulations in the small towns is due to the fact that most of the citizenship is from the country, and when the average countryman goes to town it is natural for him to want to keep a hog, a cow, chickens and other such things as he kept about him in the country. By and by the modern ways will win; hog pens will be banished and dogs and chickens will be kept on their owners' premises, not on the neighbors; but these things must come by degrees.—Statesville Landmark.

These towns might get an example from Greenville. Hogs were ruled entirely out of this town some years ago and the aldermen have had nerve to stand by a prohibitory ordinance. But dogs and chickens continue to be a neighborhood nuisance.

GIFT-GIVING TIME

In a few more days all the world will be celebrating the birth of Christ—this is the greatest event in the world, an event that brings joy to the hearts of the little folks; to them it is the joyous season of the year. But while so many are happy and enjoying this grand occasion, remember there are thousands of fatherless and motherless little ones, and some that their parents are too poor to provide for the little ones. Possibly these pictures will come under our own observation right here in Greenville, and THE REFLECTOR appeals to all good charitable people of Greenville to look at your little folks surrounded in luxuries, and then think of the homes that are denied these comforts and luxuries. Such pictures are enough to make the hardest of hearts soften. On this occasion remember that it is "more blessed to give than to receive."

Talk about people having a rough time, what do you think of a local freight train crew trudging along through most of the night in the snow? It looks like the railroad officials should have enough mercy on their employes to put an extra train on this road, even if they do not care anything about the convenience it would be to the patrons of the road.

A woman's club in Birmingham has given an oyster roast at its every meeting this season. Most woman's clubs give the neighbors a roast at every meeting.—Atlanta Journal. And occasionally the members turn in and roast each other.

The next big show will come off in Washington City, and Roosevelt, with his big stick, will do the juggling.

The Supreme court of the state has decided that the Atlantic Coast Line railroad must restore the broken connection at Selma. An order to that end is made effective February 10th.

A picked squadron of from forty to fifty men from the President's old Rough Rider regiment will constitute the guard of honor at the inauguration.

Durham is anticipating the opening of the union depot for a new year's present.

Prince Fushimi has seen it all and taken ship for his home in Japan.

WHAT THE BRETHERN SAY.

The Greenville Daily REFLECTOR is ten years old and celebrates the occasion by enlarging to 28 columns. We are glad to see this and wish brother D. J. Whichard continued success, in the greatest abundance. He richly deserves it. THE REFLECTOR has ever been a staunch defender of the Democratic faith, and an active laborer for the material development of its town and section.—Durham Sun.

The Greenville REFLECTOR is 10 years old and celebrates its anniversary by enlarging from six to seven columns. It is somewhat of a mystery how a town the size of Greenville continues to support a daily paper of the excellence of THE REFLECTOR, but that interesting and worthy contemporary is doing more than holding its own and The Observer tenders its felicitations and the assurance of its best wishes.—Charlotte Observer.

The Greenville REFLECTOR has just celebrated its tenth anniversary by enlarging from a six to a seven column paper. The REFLECTOR is an excellent evening paper and reflects great credit upon Greenville and upon Editor Whichard. We congratulate it upon its growth, and we hope that the future has much in store for it.—Greensboro Record.

The Greenville REFLECTOR is ten years old and is growing better as the months and years go by. Editor Whichard is true to his convictions and there is no mistaking his position on any question. No town in the state the size of Greenville is better supplied with a daily newspaper.—Raleigh Post.

The penitentiary is again going to show a profit in spite of the price of cotton. We are inclined to believe that this favorable showing and the one last year is due more to the management than to any change of general conditions. For one thing it has been discovered that it is more profitable to work the convicts on the farms than to hire them to construction companies for their keep.—Durham Herald.

Illiteracy and ignorance are not synonymous terms, by a great deal. There are plenty of people who don't know "B from bulls-foot" who are blessed with good common sense, a retentive memory, and have absorbed much information by association and contact with others. The knowledge of letters is not an education but only a means to an end.—Webster's Weekly.

It is not so bad as it might appear. Those farmers, who live near the towns may lose on cotton but they will make it up on wood.—Durham Herald.

If you fellows would agitate this cotton question about planting time you might be able to do more good.—Durham Herald.

Fight Will Be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. B. all of Bed, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her. Guaranteed by J. L. Wooten, Druggist. Price 60c, and \$2.00. Trial bottles free." t t e d a w.

No More Suffering.

If you are troubled with indigestion get a bottle of Kodol Dyspepsia Cure and see how quickly it will cure you. Geo. A. Thomson, of Spencer, La., says: "I have had Dyspepsia for twenty years. My case was almost hopeless. Kodol Dyspepsia Cure was recommended and I used a few bottles of it and it is the only thing that has relieved me. Would not be without it. Have doctored with local physicians and also at Chicago, and even went to Norway with hopes of getting some relief, but Kodol Dyspepsia Cure is the only remedy that has done me any good, and I heartily recommend it. Every person suffering with indigestion or Dyspepsia should use it." Sold by J. L. Wooten, druggist.

## UNDERGROUND LAKES.

The Revue Francaise says that underground lakes have been discovered in the district of Eucla, in Australia, situated nine or ten meters from the surface and probably containing large volumes of pure drinkable and generally usable water. They are in arid regions, which they will help to fertilize as soon as their waters are brought to the surface and applied. This will open to cultivation and colonization quite extended territories now practically desert. Many Australian rivers sink into the earth and are lost, and it is thought that the waters of some of them gather to form the lakes discovered. Similar phenomena are found, though on a less extensive scale, in France and other European countries, but Australia will probably be able to turn hers to better account than any of them.

## Distinction Sans Difference.

An enterprising merchant tailor, over whose shop on Third avenue, near Cooper Union, a sign reading, "We Make a Specialty of Custom Orders," appears in combination gilt and silver lettering, does his level best toward catering to trade of both high and low degree. At the base of his display window, which is liberally adorned by fashion plates, this announcement is placarded: **MEN'S PANTS PRESSED EQUAL TO NEW-15 CENTS.**

Directly above is posted the following notice: **GENTS' TROUSERS PRESSED SO AS TO PRESERVE PRISTINE SAFFORIAL ELEGANCE. 5 CENTS.**

The presiding cross legged artist says that the latter bait pulls two to one.—New York Press.

## The Kaiser's Latest.

Having already stamped his personal impress upon most things sublunary, according to the London Globe, and there being at hand no Hephaestus to find him, like Alexander, "other worlds to conquer," the kaiser is going to take in hand the minor field of forestry bugling. His majesty recently shot an elk at Pauth and ordered the huntsman to sound on the bag "Blk dead." On the man complying the kaiser stopped him with, "That's 'Stag dead.'" Being told in reply that there exists no particular mode for elks, the emperor said, "Then I'll have one specially composed for next year."

## The Decrease in Salt.

The latest government statistics state that the United States produced 18,968,989 barrels of salt during the year 1903. This is the smallest output since 1893 and shows that the use of salt is decreasing. This is probably due to the recent disclosures of eminent scientists that people eat too much salt, that there is sufficient natural salt in the water we drink, in the air we breathe and in the fruits and vegetables we eat to supply the human system without sprinkling it plentifully on every dish. Many diseases are now traced to the use of salt.—Success.

## The Post Laureate's Salary.

It may be some comfort to laboring men to know that the salary of the poet laureate of England is \$300 a year and a hoghead of wine thrown in. Of course this represents only a fractional part of what Mr. Alfred Austin really earns. Still it is all that he gets for being poet laureate to the English speaking race. This salary is without any prospect of a raise, although it was increased to its present munificent proportions when Lord Tennyson died. Some time before his death it was decided to increase his salary to that amount, but the government did not decide till after his death. Thus the present poet laureate came in for the rise intended for Lord Tennyson.

## His Brother's Widow.

"In our mail this morning a writer asks if a man can marry his brother's widow," says the editor of the La Harpe (Kan.) Review. "We reply that he can, but that it generally ends badly. Men do many things in this world which at first thought seems unlawful, although it is not in fact prohibited by statutory law. That is why King Herod had John the Baptist's head cut off. John said it was unlawful for the king to marry Herodias, his brother Philip's wife. But John was mistaken."

## Raisuli, the Brigand.

Raisuli, it seems, is rather small potatoes at home and not the terror he was thought to be. He made large demands while his captive was in his hands, and this tended to increase the outside estimate of his importance. He got none of the provinces which he asked for in his terms of settlement, but did get the money—\$70,000—and hangs on to it yet. There is a price on his head, and the prospect that it will stay long on his shoulders is held in Morocco to be a slim one.

Comforts the heart, strengthens the mind. It's good, ill or well. Makes one's face bright as a summer morning. That's what Hollister's Rocky Mountain Tea does. 35 cents, Tea or Tablet. **Wooten's Drug Store.**

## SPECIAL EXCURSION TO HAVANA, CUBA.

Do not miss this opportunity to visit beautiful and attractive Havana, as it will afford, not only the opportunity for you to make a delightful trip but, to the manufacturer of the South, will offer the additional opportunity to investigate the possibilities of Cuba with the view of developing their business in that country.

A personally conducted, special excursion to Havana, Cuba, January 4th, 1905, from Washington, D. C. via Richmond and Norfolk, Va., and intermediate points in the states of Virginia, North and South Carolina, will connect with the Peninsular and Occidental Steamship Company's steamer leaving Port Tampa, Fla., on the night of January 5th, 1905.

The party will be limited to 150 persons, the first reservations should be made promptly, in order to secure proper accommodations on the Steamer "Olivette," the most commodious ship of the Peninsular and Occidental Steamship Company, which will convey the party to Havana.

Tickets will be limited for return passage on any steamer leaving Havana until January 19th, 1905, with privilege of stopovers at any point in the State of Florida, south of Jacksonville, within final limit of ticket, which will be January 22nd, 1905.

The rate, \$48.25 from Greenville, N. C., for the round trip includes meals and staterooms on the steamer-ship.

Mr. A. W. Fritot will meet the party in Jacksonville and accompany them to Havana. Mr. Fritot speaks Spanish fluently and will place himself at the disposal of the party, furnishing any information desired.

Trains for which tickets for this excursion will be sold will leave Greenville, N. C., 8:30 a. m., Jan. 4th, 1905.

Make up your party and go and should you desire any other information, books, pamphlets, etc., on Cuba, or "What to say in Spanish and how to say it," address, **H. M. EMERSON, T. M. W. J. CRAIG, G. P. A.** Wilmington, N. C.

## Beware of Counterfeits.

"DeWitt's is the only genuine 'Which Hazel Salve' writes J. L. Tucker, of Centre, Ala. 'I have used it in my family for Piles, Cuts and Burns for years and can recommend it to be the best Salve on the market. Every family should keep it, as is an invaluable household remedy, and should always be kept on hand for immediate use.' Mrs. Samuel Gage of North Bush, N. Y., says: 'I had a severe sore on my ankle for twelve years that the doctors could not cure. All salves and blood remedies proved worthless. I could not walk for over two years. Finally I was persuaded to try DeWitt's Which Hazel Salve, which has completely cured me. It is a wonderful relief.' DeWitt's Which Hazel Salve cures without a scar. Sold by Jno. L. Wooten.

## BENSONIZER LUNG CURE

NO MORE EXPENSE FOR CONSUMPTION.

A Cure at Last Obtained, After a Searching Investigation, by St. Louis Interests.

A few months ago the attention of a few scientific and philanthropic gentlemen of St. Louis was directed to an entirely new method of combating that most dreadful of all diseases, tuberculosis, commonly called consumption.

So astonishing have been the results and absolute cures in cases pronounced incurable by all old methods that a company has been formed and is now prepared to furnish at a normal cost this cure to all sufferers of the "White Plague." One of its chief features is that patients can remain at home, surrounded by friends and relatives, and in a great many instances, especially the incipient or early stages of the disease, pursue their daily vocations and still become completely cured.

Patients receiving the same treatment here in St. Louis have completely recovered as rapidly as those in Colorado, New Mexico and Texas. The wonderful results in question have been accomplished by the Bensonizer, and the company which controls this marvelous medical device have located the main office at 417 North Seventh street, St. Louis. They have also located a factory on Easton avenue and a laboratory has been built at Hillside, Mo. The cure will be known as the Bensonizer Lung Cure, and Mr. C. P. Benson, the discoverer of the fluid inhalants which are used, will personally have charge of the affairs of the company. Mr. Benson will personally meet all who call at the office of the company on Seventh street, and will answer all communications from sufferers who are unable to make a personal call.—From the St. Louis Globe Democrat.

Free booklet on request. **BENSONIZER COMPANY,** 417-19 N. Seventh St., St. Louis, Mo.

## ABOUT RAIN COATS AND OVERCOATS.

The very height of fashion, according to whispered rumors from good tailors—for, to be honest, the good tailors set the fashion—is just a little bit of brown, or a big bit of brown, according to how much a man can stand.

Here are the "Rosenthal & Well" Mackinette coats some almost brown—there just sprinkled brown and speckled with combinations of blue and gray and red invisible plaids.

Perfectly stunning patterns yet not "loud" either.

Just Conspicuously Swell.

"Griffon" Overcoats in all patterns are here, with or without belts, loose or close fitting just as you prefer.

And now is the time to make your purchase.

Our sizes are not broken. We fit others, we can fit you. We suit others, we can suit you.
