### THE LEGISLATURE.

WEDNESDAY.

Senator Ward early in the session offered a bill amending the Watts law by providing that distilleries should not be run in towns of less than 1500 inhabitants. A further amendment was offered changing this from 1500 to 1000 inhabitants. Now Senator Fleming, of Pitt has offered a substitute for the Ward bill that omits the provision limiting the number of inhabitants.

The Fleming substitute provides that in every town where the manufacture or sale of liquor is permitted a town or city government must be maintained as provided in its charter. At least one policeman must be employed regularly at a salary of not less than \$25 per month. He must be a man of good moral character, was is not employed by any manufacturer or seller of liquor, nor in any way interested in the manufacture or sale of liquor, nor related by blood or marriage to any such manufacturer or seller. It shall be the duty of this policeman, or the chief of police, in the event there is more than one policeman in the town, to visit the place where liquor is manufactured or sold at least every day and make a careful and thorough inspection and examination with a view to observing whether the laws are being observed and obeyed and whether the business is being conducted in an orderly manner and make a written monthly report, under oath, to the mayor, who shall lay these reports or report before the solicitor at the next ensuing term of court. If any town fails to carry out these requirements then the County Commissioners may revoke the license. The substitute also follows the Ward bill in that it provides that the possession of a United States license to manufacture or sell shall be prima facie evidence in any "dry" county, city or town of the violation of this State law. The act is to become effective July first, 1905.

Another important bill in the senate was offered by Senator Foushee giving the corporation commission power to require railroads to keep their road beds and equipment in proper condition, and to require all transportation and transmission companies to establish and maintain such public service, facilities and conveniences as are reasonable and just.

In the house among the new bills offered were these: To regulate the sale of patent medicines containing alcohol and dangerous drugs; to amend the laws of 1899 regulating fire and life insurance; to provide for interchangeable mileage books on railroads.

Representative Laughinghouse's bill to prohibit fishing with Dutch and pound nets in Pamlico river, was tabled. The representatives from Beaufort, Hyde and Pamlico counties opposed the bill and fought it.

Ten Lives Dashed Out at a Crossing. Hornellsville, N. Y., Feb. 1. A passenger train on the Pittsburg, Shawmut & Northern railroad tonight crashed into a sleigh containing thirteen women, killed seven of them outright and so seriously injured the remaining six that three of them died at the hospital. The accident occurred near Arkport. The sleigh was one of three carrying a party from the Universalist church of this city.

### STATE NEWS.

A colored servant in the home of H. A. Barnhardt, at Salisbury, stole \$500 from a safe in the dwelling and made his escape.

The home of Mrs. Sarah Florence, of Caswell county, was destroyed by fire Tuesday and both she and a daughter were burned to death.

Willie Morgan, aged 12, was killed near Selma by his 14 year-old brother with a flobert rifle. Same old story—"didn't know it was loaded."

Three North Carolinians were in the graduating class at Annapolis this week: John N. Ferguson, of Waynesville; Louis P. Davis, of Wilmington, and John J. London, of Pittsboro.

Lloyd Merriman, of Virginia, was accidentally killed while out hunting near Magnolia. He was with a friend and while pulling a gun out of the buggy by the muzzle it fired, the load entering his breast.

### Be Cautious.

The time is now approaching when tobacco farmers will prepare for another crop. This Journal wants to see every man who is engaged in any branch of the tobacco trade do well. We include in this wish the farmer of course. We want to see warehouse people make enough to justify them in remaining in business for they are at all times the tobacco planter's best friend. We want to see manufacturers make money. We believe our wishes will come to pass if there is not too much tobacco planted. As we have frequently said before this, there is room for a reasonable acreage increase, but there should be a systematic effort made to prevent a large increase in planting next season. Farmers in the bright sections can make money growing tobacco if they will be cautious in planting. Warehousemen and supply men should use their influence in this direction. Let the increase be a reasonable one and all hands will be benefited.—Southern Tobacco Journal.

### No Sunshine Today.

We do not know how it turned out elsewhere, but the ground hog had no opportunity of seeing his shadow in this section today. It was cloudy all day without a ray of sunshine. According to the old saying the groundhog will stay out and the worst of winter is over. However, people had best not rush into summer clothing because of this.

### Kicked by Horse.

While assisting in getting the horses out of Savage & Co's stables during the fire in the Hardee building, Tuesday night, E. G. Flaagan was kicked in the side by one of the animals. Mr. Flaagan has since been quite sore from the kick but is getting around all right.

### PERSONALS AND SOCIAL.

I. A. Sugg went to Tarboro today.

H. A. White returned Wednesday evening from Richmond.

Miss Minnie Tunstall has returned from a visit to Trenton.

Jesse Speight returned Wednesday evening from up the road.

Mr. and Mrs. W. F. Harding, of Grifton, spent Wednesday here with Mr. and Mrs. F. C. Harding.

Rev. W. E. Cox returned Wednesday evening from Lewiston where he had been to officiate at a marriage.

### Praise for the Army of Oyama.

Tokio, Feb. 1.—The emperor yesterday sent a rescript to Marshal Oyama, expressing his recognition of valor of the officers and men of the army of Manchuria in successfully driving the enemy to the right bank of the Hun, baffling immense losses upon them.

Marshal Oyama, in replying, said his men fought desperately day and night.

As to the object of General Kuropatkin in his attack upon the Japanese left the experts are perplexed, unless it was intended to be a repetition on a large scale of General Mistchenko's attempt to turn the Japanese left when he raided the Yinkow district. If it had been successful a general attack upon the Japanese positions would have followed. On the contrary the Japanese now hold positions west of the Hun, seriously threatening the Russian right flank.

Military headquarters here has received a report that the Russians continue a bombardment and skirmishes against the Japanese centre and right. On Monday two battalions of infantry and a regiment of cavalry made a determined attack on the Japanese position at Tutaitze, west of the Hun, but were repulsed. Prisoners report that General Mistchenko was wounded in the feet January 27.

### How "Just as I Am" Came to Be Written

In the March Delineator Allen Sutherland gives an interesting account of the origin of "Just as I Am," Charlotte Elliott's famous hymn. After telling how the hymn came to be inspired through a remark Dr. Caesar Malan to the invalid composer, when she had told him that she did not know how to find Christ—"Come to Him just as you are," said Dr. Malan—it is related that the hymn first appeared anonymously in The Yearly Remembrancer. Dr. C. S. Robinson, a noted clergyman, states: "Beginning thus its public history in the columns of an unpretending magazine, the little anonymous hymn, with its sweet counsel to troubled minds, found its way into scrap-books, then into religious circles and chapel assemblies, and finally into the hymnals." That the hymn has had a deep influence for good upon humanity may be seen from the testimonies of ministers given in this article, and from the fact that after the death of Miss Elliott, above a thousand letters were found among her papers thanking her personally for the great blessings which had come to the lives of the writers through the instrumentality of "Just as I Am."

THURSDAY, FEB. 2, 1905.

In the first month of prohibition in Charlotte the city criminal docket showed a decrease of a little over 56 per cent.

Numerous defeats do not seem to satisfy Sir Thomas Lipton. He has expressed the intention of coming over again this year to have another race for the cup.

A bill has been before the Tennessee legislature to put a tax upon unmarried men. After amending it so that it applied only to the county of the member who introduced it the bill passed. Plenty of marriages in that county will likely follow.

A New York bootblack refused to shine the shoes of a negro. The negro sued for \$500 damages and the lower court decided in his favor. The court of appeals has reversed this decision, declaring that the bootblack acted within his rights in refusing to shine the shoes of a negro.

The committee having in charge the child labor bill before the legislature, to raise the age limit at which children shall be employed in factories from 12 to 14 years, made an unfavorable report on it. The committee was of the opinion that as the present law had been in effect but one year it would be best to give it a fair trial before there is further legislation upon it.

**Baltimore's Strength in Adversity.**

Those who are laboring for a community of greater magnitude and progress than the Baltimore of the past have a substantial foundation for their efforts. Considering the amount of the city's wealth which was absolutely lost through the calamity, it seems marvelous that its credit has been so well sustained. In the space of thirty six hours its assets had been depleted to the extent of sixty-five million dollars in value. Yet the resources of the local banking-houses were such and the feeling of confidence so general that no interruption to business was caused, except by the fire itself. In the period which has elapsed not a single failure has been due to it where the liabilities exceeded twenty-five thousand dollars, and the total liabilities of firms who have become insolvent on account of the disaster have not aggregated one hundred thousand dollars. In a general way, Baltimore has always had the reputation of being a rich community. The manner in which it has sustained this blow shows that the reputation is not unmerited. And another remarkable fact is, that its volume of trade is rapidly assuming normal proportions. Not discouraged by the handicap in their relations with their outside patrons, the merchants have made far more earnest efforts than ever before to reach not only the market in the Southern States, but in other parts of the country, and such has been the result of their enterprise that at present the business of the community, as indicated by the transactions of the banks in its clearing-house, is but slightly less than previous to the fire. Even during the ten months ending with November, 1904, the transactions referred to amounted to over nine hundred million dollars, but 84 per cent. less than for the same period of 1903, despite the fact that the conflagration occurred in the second month of 1904. During a single week in November, 1904, the clearings actually exceeded those of a year previous.—From "Baltimore, One Year After the Fire," by Day Allen Wiley, in the American Monthly Review of Reviews for February.

**Cotton Production in North Carolina.**

In a report on the statistics bearing on the ginning of cotton is a map of the State showing the production of cotton by counties, says the Charlotte Chronicle. According to the shaded line guides, the counties that produced 15,000 bales and over are: Mecklenburg, Union, Anson, Scotland, Robeson, Wake, Johnston, Wayne, Pitt, Edgecombe and Halifax. Those that produced 10,000 to 15,000 bales are: Cleveland, Iredell, Wilson, Nash, Franklin, Northampton and Bertie. Those that produced 5,000 to 10,000 bales are: Catawba, Lincoln, Gaston, Rowan, Stanly, Richmond, Sampson, Duplin, Jones, Lenoir, Craven, Warren, Greene, Martin, Beaufort, Chatham, Harnet, Cumberland and Pamlico. It is rather a surprise to see that among the counties that produced less than 5,000 bales are Bladen, Pender, Davie, Yadkin, Davidson, Randolph, Rutherford, Wilkes and Montgomery.

**Tonic to The System.**

For liver troubles and constipation there is nothing better than DeWitt's Little Early Risers, the famous little pills. They do not weaken the stomach. Their action upon the system is mild, pleasant and harmless. Bob Moore, of LaFayette, Ind., says, 'No use talking, DeWitt's Little Early Risers do their work. All other pills I have used gripe and make me sick in the stomach and never cured me. DeWitt's Little Early Risers proved to be the long sought relief. They are simply perfect.' Persons traveling find Little Early Risers the reliable remedy to carry with them. Sold at Wooten's Drug Store.

A curious calculation shows that if the crops of 1904 in this country were equally divided, every man, woman and child would receive produce worth \$50 at present wholesale prices. Each one would receive a barrel of flour, two hundred eggs, thirty-five gallons of milk, a bushel of apples, two and a half bushels of other fruits and berries, three bushels of potatoes, two of carrots, beets parsnips and turnips; eleven heads of cabbage and half as much lettuce, cucumbers and cauliflowers; twenty-eight bushels of corn, usually in the shape of beef, pork and poultry, seventy pounds of cotton, six of wool and leather enough to make two pair of shoes. Now is every one of Uncle Sam's children able to say that there has been an even distribution and that he has received his full share?—Durham Sun.

**Saved From Terrible Death**

The family of Mrs. M. L. Bobbitt of Bargerton, Tenn., saw her dying and were powerless to save her. The most skillful physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for Consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed Bottles 50c and \$1. Trial bottles free at J. L. Wooten's Drug Store.

It is painful to see the ladies playing in such bad luck. Miss Nan Patterson and the Mesdames—that is the way society reporters put it—Chadwick and Duke are all in jail, some of them with nervous prostration and the others on the verge of it. It is very likely that all of them should be punished a little, but let's not talk about hanging any of them. Whether they do murder or what not, let's not hang any of the ladies while so many gentlemen are going unwhipped of justice.—Charlotte Observer.

It is stated that a four million dollar diamond has been found in South Africa. Think of the hundreds of people who will be looking around there for the gem which has already been found. But that is a part of the plan of the universe. A large proportion of the people spent most of their time looking for things which have already fallen into the hands of others.—Wilming-ton Star.

A New York alderman declines to take money for performing the marriage ceremony. A New York alderman who declines to take money for anything deserves to have his picture mounted in a gold frame and hung conspicuously in the city hall.—Atlanta Constitution.

**OUR GREAT 1905 OFFER**

We have purchased a number of annual subscriptions to the Southern Agriculturist, and, as long as they last, we will give one, free of charge, to every subscriber who pays for The Eastern Reflector a full year IN ADVANCE. If you are in arrears, pay up and for a year ahead, and get this valuable present. If you are not already a subscriber, send in your order at once, before this great offer is withdrawn.

**SOUTHERN AGRICULTURIST**

Is published at Nashville, Tenn. It is issued 24 times a year and the subscription price is 50 cents. It contains more reading matter than most dollar papers and is edited by Southern men who know the needs of Southern farmers. Every issue is like a big experience meeting, the farmers' questions being answered by such men as Maj. Thos. J. Key, former Assistant Commissioner of Agriculture of Alabama, and Prof. Andrew M. Soule, Director of the Virginia Experiment Station. The Home Department is conducted by Aunt Anne, whom all readers soon learn to love.

**WE OFFER \$1.50 IN VALUE FOR \$1.00**

But you must hurry. This proposition will not be held open indefinitely. **THE EASTERN REFLECTOR.**

Sample copies of Southern Agriculturist free at our office.

**WRITES UPSIDE DOWN.**

Among the deaf who have not learned to speak and read the lips, the manual alphabet or the sign language, or both, are in use. One who addresses a gathering of mutes stands on the platform and makes with his hands a silent speech. The late Dr. Galludet of New York, for many years rector of a church for deaf mutes, was accustomed thus to deliver sermons to the eyes of his hearers, and the practice is now common in many schools. This is fulfilled in spirit the words of the prophet, "And the ears of the deaf shall be unstopped." One of the best known of these preachers is the Rev. Austin Ward Mann, general missionary to deaf mutes. He adds to his many accomplishments the curious art of writing upside down. When any one who does not use the manual alphabet writes a message on his pad he replies without turning the paper about. It is interesting that the character of his handwriting does not change when he writes upside down, a fact which leads to speculation about the essential relation between a man's style of script and his personality.—Youth's Companion.

**Dewey and Sights.**

Admiral Dewey's peace of mind has been greatly disturbed lately, according to the Philadelphia Post, by the nuisance of "sightseeing automobiles," each carrying thirty or forty people, which stop in front of his home in Washington three times a day in the effort to get a glimpse of the admiral and Mrs. Dewey. Even more annoying than the stare of forty pairs of eyes is the witticism of the guide, who shouts through the megaphone in a voice that can be heard a block away: "The red house to your right—given by the American people to Admiral Dewey, who destroyed the Spanish fleet in Manila bay and came to Washington to be captured by a lone woman."

**A Scotch Salmon Story.**

A heavy fall of snow in Scotland a few weeks ago caused the river Tay to rise suddenly. One of the big dams in the stream overflowed, with the result that the salmon lying in the numerous pools at once made a rush to get higher up the stream. A workman engaged in carting stones from the bed of the river was astonished at the moving mass of salmon passing. So phenomenal was the shoal that the carter deemed it wise to stop his charge in the middle of the ford to allow the fish to pass. The salmon swam like lightning through the wheels of the cart and around the horse's legs. In the space of a few minutes several hundred passed this particular point.

**Biggest Railway Station.**

The townsmen of Leipzig, Saxony, boast that in ten years they will have the biggest railroad station in the world. It will be spanned by seven immense arches, each 140 feet wide, and its thirteen train platforms will each be more than 1,000 feet long, while twenty-six different lines will run into it. It will cost \$32,500,000 to build. Marble, granite, bronze and steel will be lavishly used. The waiting and refreshment rooms are to have gigantic frescoes of famous German landscapes on the walls, and the beer taps are to dispense twenty different sorts of beer, so that travelers from every quarter may have their favorite tipple.

**Professor Roentgen's Modesty.**

One of the least self advertised of scientific authorities is Professor Roentgen. He has never been interviewed, has never been banqueted and is even said to have refused immense sums of money offered him by American publishers for a book on what he himself modestly styled "a new kind of ray." Like many other investigators of his race, he carries his years gallantly and, though sixty, looks more like a man who has led a healthy outdoor life than one who has spent the whole of his manhood in investigating strange physical problems.—Medical Record.

**A Harrison History.**

John L. Griffiths, to whose care the late President Benjamin Harrison left all his private papers, is reported to have discovered among them an extraordinary private document. This is nothing less important than an intimate history of the four years of the Harrison administration written by the president himself.—Kansas City Journal.

**Mint For Breakfast.**

Frank L. Stanton has many good stories of the south stored up in his memory, and most of them are short and to the point. One of the best and most epigrammatic concerns a Kentucky colonel who was just dressing in the morning in his bachelor home in Louisville. "Sambo," he called downstairs to his henchman, "go out and mow some mint for breakfast."

**To Clean Fish Knives.**

Sometimes the fishy smell will cling to knives and forks after oily fish, such as salmon or mackerel, has been served. After they have been well washed in hot water rub them with a cut lemon, wash again in clean hot water, and the smell will be quite gone.

**The Conceited Coins.**

"I'm just as good as Silver!" The Nickel proudly cried. "The head of Madam Liberty is stamped upon my side. I am as white and shining as any 'Dime' can be. He needn't put on any airs—I'm twice as thick as he!"

"I'm every bit as good as Gold!" The Penny blustered loud. "That tiny, thin Gold Dollar. He needn't feel so proud. I've all his airs and graces; I do not give a fig—I'm burnished just as bright as he and half again as big!"

But when the Cent and Nickel went out upon their way. Alas, the world still held them cheap. Whatever they might say. The Double Eagle smiled. "You'll find."

He said, "that par is par; It don't matter how you boast. But what you really are!" —Outlook Stories.

**No Moore Stomach Troubles**

All Stomach trouble is removed by the use of Kodol Dyspepsia Cure. It gives the stomach perfect rest by digesting what you eat without the stomach's aid. The food builds up the body, the rest restores the stomach to health. You don't have to diet yourself when taking Kodol Dyspepsia Cure. J. D. Erskine, of Allenville, Mich., says, "I suffered heartburn and Stomach trouble for some time. My sister-in-law had the same trouble and was not able to eat for six weeks. She lived entirely on warm water. After taking two bottles of Kodol Dyspepsia Cure she was entirely cured. She now eats heartily and is in good health. I am glad to say Kodol gave me instant relief." Sold at Wooten's Drug Store.

**A Very Close Call**

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength and vigor from their use. Try them. Satisfaction guaranteed by J. L. Wooten. Price 50c.

**Speedy Relief**

A salve that heals without a scar is DeWitt's Witch Hazel Salve. No remedy effects such speedy relief. It draws out inflammation, soothes, cools and heals all cuts, burns and bruises. A sure cure for Piles and skin diseases. DeWitt's is the only genuine Witch Hazel Salve. Beware of counterfeits, they are dangerous. Sold at Wooten's Drug Store.

**THE AMERICAN MONTHLY REVIEW OF REVIEWS**

The more Magazines there are, the more Indispensable is The Review of Reviews

"Indispensable." "The one magazine I feel I must take." "The world is in a field-glass." "An education in public affairs and current literature."—these are some of the phrases one hears from noted people who read the Review of Reviews. The more magazines there are, the more indispensable is the Review of Reviews, because it brings together the best that is in all the most important monthlies of the world. Such is the flood of periodical literature that nowadays people say that the only way to keep up with it is to read the Review of Reviews. Entirely over and above this reviewing section, it has more original matter and illustrations than most magazines, and the most timely and important articles printed in any monthly.

Probably the most useful section of all is Dr. Albert Shaw's illustrated "Progress of the World," where public events and issues are authoritatively and lucidly explained in every issue. Many a subscriber writes, "This department alone is worth more than the price of the magazine." The unique cartoon department, depicting current history in caricature, is another favorite. The Review of Reviews covers five continents, and yet is American, first and foremost. Men in public life, the members of Congress, professional men, and the great captains of industry who must keep "up with the times," intelligent men and women all over America, have decided that it is "indispensable."
