New Spring Goods

ARRIVING DAILY.

There is one thing that we do not claim in our business to do and that is to sell goods cheaper than they can be bought—neither do we want to create the impression that our store is full of shop worn, out of style goods nor by filling our store with show bills and sign boards will we try to impress false ideas in your mind that we are going out of business, but we do wish it understood that we are receiving daily shipments of the newest things in

RIBBONS, SILKS, EMBROIDERIES, LACES

and kindred materials so desirable with the womer folk of Greenville and Pitt county, and we do hope that you will at least favor us with a visit to see these many new things.

Pulley & Bowen,

THE HOME OF WOMEN'S FASHIONS.

J. J. LAUGHINGHOUSE.

Member of the House of Representatives From Pitt County.

Joseph J. Laughinghouse was born near Grimesland, October 4th, 1847. He was educated at Horner's school at Oxford. He was married May 11, 1870, to Miss Eliza O'Hagan, daughter of the late Dr. Charles J. O'Hagan, the most distinguished physician in Eastern North Carolina. Though long prominent in the political affairs of North Carolina, Mr. Mr. Laughinghouse has never before held office. He was nominated and elected to the house by a majority of 1,000 and made an earnest and aggressive campaign. He is one of the most successful farmers in North Carolina. He takes deep interest in all movements looking to bettering the condition of farmers and has often been a delegate in state and national councils of agriculturists, taking a leading part for reform legisla-

tion demanded by organizations of farmers. He served in the general assembly as chairman of the committee on pensions and served on the following committees: Railroad and corporation commission, finance, salaries and fees, agriculture and liquor traffic. He was author of one of the most important bills that passed the house. The bill to reduce passenger fares to 2 1/2 cents. The committee changed his bill and he accepted the change making the rate 3 cents for first class fare and 2 1/2 cents for second class fare. His speech in support of this bill bristled with facts and statistics that were unanswerable. He led the fight on the floor of the house with consummate wisdom and in running debate sustained himself at every point. He was author of a bill to protect the fish industry in the Pamlico river against Dutch and pound nets and made an earnest fight for it. He was greatly interested particularly in every matter that touched the farm or farmer and no legislation of the session that had any bearing for what he conceived to be the benefit of the agricultural interests failed to find in him an earnest supporter. He took interest likewise in matters looking to improvement in the execution of the criminal law, and made an effective fight for the passage of Judge Graham's bill to reduce the number of peremptory challenges of the defendant in capital cases. That is a subject upon which he has thought much and written much, and the house was in accord with his views, which he so earnestly impressed, but the bill, unfortunately for the cause of justice, failed in the senate.

Mr. Laughinghouse entered the Confederate army at the age of sixteen, leaving Horner's school and enlisting in April, 1861. He was Captain of Company H, 71st North Carolina Regiment, Junior Reserves, and surrendered with Johnson's army at Greensboro. He was engaged in the fights of Kinston and Bentonsville. There was no youth in the army who was animated by deeper love for his country and more attached to the Confederate cause. He is a courageous fighter in peace and in war. Always striking above the belt he gives blows against that he believes entrenched wrongs. He is a man who was born to lead and to command,

but his leadership has in it the uplift of those things he believes will be best for his State and country. His service in the Legislature was conspicuous for the courage with which he fought powerful interests and great evils, and he added to his already excellent reputation as a patriotic and useful son of the State.—Raleigh News and Observer.

GREAT REVIVAL AT WINTERVILLE.

Business Enterprises of the Town Prospering.

Rev. A. T. King and the editor went over to Winterville Thursday evening and at night attended the meeting in the Baptist church that is being conducted by Rev. J. W. Fry, of Goldsboro. Since the beginning of the meeting there has been great interest, and the presence of the Holy Spirit has been truly manifest. Thursday night, after an excellent sermon by Mr. Fry, there were several professions of faith, and when an invitation was given to those desiring to request prayers for their salvation, scores of people pressed forward in response. It was an inspiring scene, such an awakening as we had never witnessed before, and caused the mind to go back to pentecostal days.

Friday morning we spent a few hours among the business houses and industrial plants of the town.

The A. G. Cox Mfg. Co., is in the midst of their spring rush turning out the famous Cox cotton planter and other articles of their manufacture. The daily shipment of cotton planters is large, often reaching from 50 to 100, and orders for back bands and other of their goods are heavy.

The Winterville Mfg. Co.'s plant was another exceedingly busy place and they are having large sales of their output. In addition to their general line of manufacturing, we notice they are doing some nice work in book cases, wardrobes and cabinet work.

The Hunsucker Buggy Co. was busy supplying the demand for their popular buggies. Orders come so fast they cannot keep buggies ahead.

The newest enterprise at Winterville is the Pitt County Oil Mills, and it is doing a fine business. We were shown through the plant and its working was very interesting. Something like \$30,000 is invested in this plant and it means much for the town.

The Winterville High School is doing the best work in its history and is justly the pride of the town and community. The principal, Prof. Lineberry, with Prof. Nye as assistant, and the capable faculty under them, are doing a noble work, the influence of which will extend through ages to come.

Winterville has a corps of good business houses, and the merchants are as clever and enterprising as can be found anywhere.

Always Liberal to Churches.

Every church will be given a liberal quantity of L and M paint. Call for it.

4 gallons Longman & Martinez L and M Paint mixed with three gallons linseed oil, will paint a house.

W. B. Barr, Charleston, W. Va. writes, "Painted Frankenburg block with L and M. stands out as though varnished."

Wears and covers like gold. Don't pay \$1.50 per gallon for linseed oil, which you do in ready for use paint.

Buy oil fresh from the barrel at 60 cents per gallon and mix it with L and M.

It makes paint cost about \$1.20 per gallon. Sold by H. L. Carr.

Ms. Alice Harper and Miss Bettie Gray Sutton left Friday evening for LaGrange.

OFFER THEM INDUCEMENTS.

Timely Suggestion From Mayor Wooten.

The business men of Greenville should at all times be alert to determine the needs of the town, also in considering those things that might be of benefit to it, in its business and social life. And if the men are alert on those matters the ladies are interested and are willing helpers. There is now in reach of the people of Greenville the teachers summer school, which will be in session for four weeks during the coming summer, and will be attended by about one hundred and twenty teachers. In order to secure that school the housekeepers of Greenville must provide homes at a very reasonable rate. (say ten dollars for the four weeks.) If homes can be had at that rate there is but little doubt about the school coming to Greenville. Even at that low rate, the school here would mean that during the four weeks, for homes alone, these people would leave in town twelve hundred dollars, and in addition to that sum, each individual would spend, on an average, five dollars incidental expenses, making a total of eighteen hundred dollars, at least, that would be left in the town during the four weeks of school. As a business venture alone, the school would bring into the town nearly two thousand dollars in the very fullest season of the year.

Then, too, the presence of the teachers in the town would benefit, vastly, social life, for the presence of one or two of these ladies or gentlemen in a home would mean that the members of that family would certainly imbibe of their guests, lasting, intellectual moral and social benefit, because the teachers of our county are of a high type of citizenship, being leaders in all movements for the social, religious, intellectual and industrial development in their various communities.

It seems that the cost of board and the absence of a suitable building have been the principal obstacles in the way of holding these institutes in Greenville in the past. Now, the latter obstacle has been abundantly removed in the erection and equipment of our commodious graded school building, than which there are few more suitable ones for this purpose in any city or town in the state. By a united effort on the part of everybody interested in the progress of the town and the great cause of education in the whole county, the former difficulty can easily be obviated, so far as the teachers are concerned.

In addition to the direct returns and appreciable benefits mentioned above there would accrue to Greenville an indirect return the value of which can hardly be estimated. In view of these facts, would it not be wise to make a strenuous effort to induce these ladies and gentlemen to spend the four weeks as our guests, assuring them in a cordial way of our hearty and material welcome even though those who take them into their homes do not realize a direct return. Would not the community as a whole be benefited?

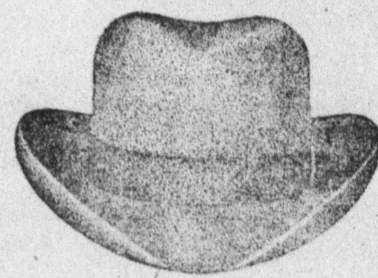

FRANK M. WOOLEN.

Correction.

In setting up C. L. Wilkinson's advertisement for Friday's paper the printer through oversight omitted one word that entirely changed the meaning of a sentence. The sentence should have read "The ladies of Greenville and vicinity are not slow to appreciate styles and fine goods," but the omission of the word "not" made it say just the opposite. The sentence reads correctly in this issue.

While at the depot Friday evening W. B. Wilson's horse became frightened at the train and run away. A broken buggy wheel was the only damage.

SATURDAY, MAR. 25, 1905.

"Buffalo Bill" fell down in his effort to get a divorce.

The Greensboro Tar Heel club banquet will be practically forgotten before next voting time comes.

The farmers who use cotton seed meal for fertilizers are helping to make a greater demand for their own product.

About the only thing that will come out of the beef trust investigation is salaries for those who are conducting it.

The pretty weather thus far in March has compensated to some extent for what we had during the two preceding months of this year.

A Chicago scientist says the human race will be extinct on this earth in the course of three million years. This need give none of the present day crowd any concern.

When Vice President Fairbanks greeted that banquet in Greensboro, he saw the major part of the Republican party in this state. And nothing was said or done there that is calculated to add any to the number.

The last legislature exempted the following persons from jury duty: Practicing physicians, licensed druggists, telegraph operators in regular employment, train dispatchers employed in handling trains, regularly licensed pilots, regular ministers of the gospel, officers or employers of state hospitals for the insane, active members of a fire company.

As long as the negroes could vote in this State the white Republicans courted their favor and votes in every way possible, but now that they are disfranchised they have no sort of use for them. As long as white Republicans could climb into office on the shoulders of the negroes they would do almost anything for them, but now all that is changed. No Republican convention could be held, either county or State, without having negro delegates in it. Negroes were elected magistrates, members of the legislature and even Congressmen, but now the white Republicans are not willing for any negro to have any office or political honors whatever.

This is positively and plainly set forth in a series of resolutions adopted by the Republican members of our late Legislature and published in last week's issue of the Winston Republican. In their fifth resolution these white Republicans recommend "that no negro be selected a delegate to any political convention of our party, or to any office in the State; and we further recommend that such as do now hold office in this State, whether by appointment under Federal officers or otherwise, be displaced as soon as practicable."

Now, what do you think of such a resolution? Does anybody think that any such resolution would have been adopted when the negroes could vote? Wonder if a copy was sent to President Roosevelt?

The Republican legislators who adopted the above resolution assert in their address that they "fairly represent the intelligence of the party," and this is probably true, hence the significance and importance of their utterance. It verifies the frequent assertions of Democratic speakers and papers, made for many years, that all the use the white Republicans had for the negro was to get his vote!—Pittsboro Record.

The New York Commercial is credited with the following: "A fine line separates conservatism from retrogression. Many merchants imagine they are conservative, when, as a matter of fact, they have fallen behind in the march of progress. This is strikingly illustrated by the policy that some merchants pursue toward advertising. It is an unknown quantity; therefore it is avoided; it is summarily discarded as 'too modern.' No buyer was ever offended by reading an announcement in a newspaper about goods in which he was interested. On the contrary, he has gone to the modern concern that makes known its wares, and has passed by the ultra-conservative merchant who feels that the limit of publicity is reached by displaying a sign (often inconspicuous) over the door."

A Simple Remedy For Acquiring Hard Muscles and a Sound Body.

A number 12 bore gun when loaded with three drams of powder will send a load of shot further and shoot harder than if double this amount of powder is used.

If too much powder is used, all of it will not explode until it leaves the muzzle of the gun.

That portion which does not explode at the proper time, interferes with the direction, and checks the velocity of force of the shot.

Hard muscles and a strong body do not depend on the quantity of food, but on its perfect digestion and proper assimilation.

If the nutrient properties of all of the food that may be eaten are appropriated by the blood and tissues, the muscles of the body will grow harder and stronger, whether you eat much or little.

You may be well, but not strong. What you want is strength,—physical force.

You do not have to be sick to need Kodol Dyspepsia Cure.

Thousands of men and millions of women have need for just what Kodol Dyspepsia Cure will do for them.

A little Kodol after meals, will enable the stomach and digestive organs to digest and assimilate every atom of all of the wholesome food that may be eaten.

It will do more. It will enable the stomach to extract from the food all its nutrient properties, and contribute the same to the blood.

It will enable the blood to circulate freely and deposit a full quota of this tissue building and strength giving material into every nook, corner, muscle and fibre of your whole being.

The result is perfect strength. And perfect health.

Disease cannot lay hold on the man or woman whose physical condition is thus fortified. Recommended by J. L. Wooten, druggist.

What He Did Know.
The blistering, browbeating cross examiner has gone out of fashion. It is the mild, calm, dignified, persuasive, polite examiner who now succeeds the better, although there are times, of course, when a little fire and spirit prove advantageous. An amusing example of the former method is given in "Curiosities of Law and Lawyers," which runs somewhat as follows:
"Pray, sir, do you know the difference between a horse and a cow?" shrieked the angry cross examiner, who was growing impatient at his nonsuccess. "I acknowledge my ignorance," replied the witness, who was a clergyman. "I hardly do know the difference between a cow and a horse or between a bull and a bully, only a bull, I am told, has horns, and a bully (bawling respectfully to the counsel), luckily for me, has none."

Irish Sarcasm.
A remarkable tale of Irish humor is told by a French chauffeur, according to the London Chronicle. He was driving in Ireland when he rode over a cyclist. The injured man apologized. "Pray continue your journey," said he. "I am really ashamed to have incommoded such a sportsman." Next day the chauffeur received a letter from this sympathetic stranger, full of regrets and making tender inquiries about the state of the automobile. "I must tell you," it proceeded, "that as a result of yesterday's accident, for which I alone am responsible, I expect to die soon. But I am arranging to leave you a third of my property so that you can embellish your automobile with all the latest improvements."

An Explosion.
When the Afro-American bank failed an angry depositor met the president and demanded his money. "Where my money? I want my money. I don't keer fur de bank. I des want my money."
"How I know where yo' money?" said the president contemptuously. "You ain't posted. Wat yo' know 'bout business? When de bank fail hit des explode, and dey ain't no money."—New York Tribune.
