WANTED IN ANOTHER STATE.

Escaped Convict From New Jersey Arrested Here.

On Saturday Chief of Police J. T. Smith arrested a negro named Newman Slaughter, who is a fugitive and is wanted at Rahway, N. J.

Slaughter was raised about Oxford, in this state. He went north and was serving a term of imprisonment at Rahway for grand larceny. He escaped from prison last April and the officers have since been making efforts to capture him. Slaughter had a brother in Greenville and came here last week. It was not long after his arrival before Capt. Smith had him in custody and the prison officials at Rahway were notified of the arrest. Slaughter refuses to return to New Jersey without extradition papers, but an officer with the necessary papers will soon be here to take him back.

THE BIRTHDAY PARTY.

Reported by a Little Girl

Saturday afternoon from 5 to 7 o'clock Miss Mildred Carr entertained her friends by giving a birthday party. When the children were gathered together they were taken out on the lawn where they played all sorts of games.

About 6 o'clock Miss Mildred brought out a small jar of corn and asked all of the guests to guess how many grains of corn were in the jar. Miss Mary Brown was the lucky guesser, coming nearer than anybody else to the right number, and was rewarded with a beautiful prize.

After the guessing contest was finished they were invited into the dining room where the most dainty refreshments were served. Coming from the dining room they all bade Miss Mildred farewell. She was also presented with lots of beautiful little gifts.

To the Cotton Farmers.

And all persons who are interested in the farmers' welfare and prosperity of the South.

I ask that meetings, both township and county, be held in the various cotton growing districts of our state during the month of August so as to perfect our organization. The Southern Cotton Association.

We have seen and realized the benefits that have come to the cotton growers through the power of organization. Cotton has advanced from about six cents per pound in January to eleven cents per pound in July.

This advance was brought about by the co-operation and organization of our business men and cotton farmers. By this advance millions of dollars have been added to the wealth of the South and our people have been shown the advantages of wise co-operation. We must not stand still, but go forward. Let our motto be, "Onward and Upward."

I suggest that township meetings be held Saturday, August 12, at the usual place for township meetings, at 3 o'clock, p. m., and that county meetings be held at the court house on Saturday, 19th of August, at 11 o'clock, a. m. These dates can be changed to suit the convenience of the farmers and business men of any county, only I urge a meeting shall be held during the month of August, so as to get ready for an active fall campaign. Wherever convenient have these meetings in connection with a farmers' picnic and have speakers for the occasion.

The State Executive Committee will meet during the meeting of the farmers' association, in Raleigh, the last week of August. Announcement as to exact date will be made later.

Horrible Death of a Boy Near Beaufort.

Beaufort, N. C., July 29.—A most horrible and shocking accident occurred at Davis Shore, about ten miles east of Beaufort, yesterday afternoon, when Sutton Davis, a sixteen year-old lad, while wading and playing in the water, was suddenly attacked and eaten by a very large shark.

Sutton was in the water about waist deep, when suddenly a shark approached him, threw him in the air, caught him as he struck the water, pulled him under and disappeared in the waves with the boy. Thorough search has been made but no portion of his body has been found.

Those that were with him were terribly frightened but could not help the poor boy.

The accident has thrown a feeling of horror over our town people and the guests of the community. The people, and particularly the children, have enjoyed the fine dives and invigorating swimming matches which they daily participate. A large number of sharks have been noticed in our waters for two weeks, but no one felt much anxiety concerning the terrible monsters. A large number of fat backs have been caught this month and a quantity of refuse meat has been thrown back into the water from the factories, and sharks have come to feast on it. It is the first time a person has been molested by a shark in our waters in nearly fifty years.—News and Observer.

Goes to Greensboro.

C. E. Lincoln, who for sometime has been superintendent for the Greenville Manufacturing Co., has resigned to accept a similar position with the Greensboro Lumber Co., at Greensboro. Mr. Lincoln will leave at once to enter upon his new duties, and his family will join him there as soon as arrangements can be made for moving. He and his family have made excellent citizens and we regret to see them leave Greenville.

Yellow Fever List Grows.

New Orleans, July 29.—The list of those dead or stricken with yellow fever continues to increase day by day and now there is strong sentiment in favor of asking the U. S. Marine Hospital service to take full charge of the sanitary and protective measures.

A serious feature of the situation is that a fierce race feeling has grown up against the Italians and negroes, the unsanitary habits of the former having caused the disease to appear here. Six deaths were reported yesterday. Twenty one new cases are reported today.

The Security Life and Annuity Company

Mutual. Legal Reserve.

A Home Company conducted on a safe, economical basis in the interest of its policy holders. Why we can save you money.

The oldest companies have been on a 4 per cent. reserve basis for many years. Several of them have recently changed from a 4 per cent. basis to a 3 per cent. or 3 1/2 per cent. basis, on account of a decrease in interest rates. Probably 90 per cent. of all the outstanding business is now on a 4 per cent. reserve, only the new business being on a 3 per cent. or 3 1/2 per cent. reserve. Following are the rates of a few companies on the old and new basis:

Twenty-Payment Life. Age 35.

COMPANY	OLD RATE 4 per ct.	NEW RATE 3 1/2 per ct.	NEW RATE 3 per ct.
New York Life	\$55 00		\$38 84
Equitable	55 00		38 84
Penn Mutual	34 21		37 25
Prudential	34 01		36 95
Mutual Benefit	33 97		36 22
Etua	31 97	\$36 96	
Mutual Life	35 00	36 87	
North Western	34 91		37 80
Security Life & Annuity	32 60		

The variation in rates of companies on the same reserve basis is due to difference in the amount added for expenses.

Every policy is registered and the full legal reserve deposited with the Insurance Commissioner.

YES, LEGISLATION IS NEEDED

We thought sentiment would swing around after awhile, but in the instance in mind the other fellow had to "feel the shoe pinch" to see it. To make the point clear it is possibly best to quote the following from the Gastonia News. That paper says:

Some men were sitting the other day talking about the disappearance of the fish from the larger streams in this section. Many years ago shad swarmed up the Catawba and other rivers in the piedmont section. With the coming of the dams cross the rivers, these disappeared. The dams have been made higher and now the red horse is gone. It was no trouble a year ago to go to Tuckaseegee or McAdenville, or many other points along the rivers and catch all the fish you wanted. Now it is different. The fish that come with the seasons are no more. The Catawba power dam closed the fish out of the Catawba and South Fork. The fish have been coming to the dam and there stopping and being caught by the hundreds. A man has established a fishery just below the power company's dam at an old mill site and is making a fortune fishing. Meanwhile we hear of nobody catching fish anywhere along the river. These fish do not belong to any one man. It is not right for them to be hemmed in and all be caught on one man's land. Here is needed a little legislation if some man can devise a satisfactory plan. The dams cannot be done away with. No, these great powers must be utilized. But what is needed is some way to let the fish through. The fish cannot pass over the high dams. It has been suggested by some who know the ability of a fish to ascend a stream that if a suitable stream can be cut around the dams or through the dam that the fish will make the ascent where it is difficult to believe that they can. This is a matter that ought to be considered by the Legislatures of the Atlantic States if there could be suggested a remedy.

The above is a forcible reminder of conditions down this way, though the cause is not the same. Years ago great quantities of fish could be caught by people living along Tar river. The abundance of fish made living better and cheaper, and correspondingly lengthened the time that smokehouse supplies would last. Of late years fish up the river have been very scarce, the catch being so small as not to justify the trouble and expense of fishing. The cause of the scarcity of fish in Tar river is not the same as that given by the Gastonia paper for the scarcity in the rivers of the Piedmont section. Here it is not the building of dams to develop water powers to establish manufacturing enterprises, but it is because some people conceived the idea that all the fish belong to them and so block the river from Washington to its mouth with dutch nets that the passage of fish is obstructed and they cannot come up the river.

The state legislature has given its support to this by letting such an injustice to the up river people continue. At the last session Representative J. J. Laughinghouse, of Pitt county, made a gallant fight against this injustice, but his bill was defeated. The members from other sections of the state could not see the matter in its true light and did not come up to the support of a just measure. Now as other sections

are beginning to feel what it is to be deprived of the right to catch fish, and are seeing the need of legislation that will prevent the abridgement of their right, we hope in the next legislative session against the injustice will be strong enough to remedy it.

The magazine that has for years been known as Frank Leslie's Popular Monthly will, beginning with September, be known as American Illustrated Magazine. The Leslies have long since passed away and the magazine has for several years been in other hands, hence it is deemed fitting—especially since the old style has been departed from—to drop the old name, which is now really a misnomer, and give the magazine a name in keeping with its spirit and character. Old names stick well sometimes, but in this instance, as the entire Leslie feature has departed and the name no longer has attraction, it is well enough to adopt a more appropriate name.

The New York legislature is to investigate the past management of the Equitable Life Assurance company. Isn't there something in an old proverb about setting a thief to catch a thief?

It is said that 30 per cent. of the chicken race is affected with tuberculosis. This serves in a moment to explain why so many negroes die with this disease.

It is now stated that the revenue service is to be investigated in the western part of this state. Holding an office in peace these days is a mighty hard job.

The people who say they are going to prove that Dan Teachey was innocent are just a little late about establishing this fact.

Everybody ought to cheer up and be happy when they come to think of how little they are paying out for coal and wood.

Don't get it into your head to take a few weeks vacation unless you have the price and a little for extra tips.

A man may make his will willingly, but when he comes to die it is right much against his will.

The great trouble with most men today is that they are afflicted with moneyphobia.

Hoch came very near the hemp but escaped. Saved his Hoch, so to speak.

Governor Glean is preparing a circular letter to all the judges of the Superior Court, requesting them to see, through the county commissioners and grand juries, that all the jails are made safe, so that prisoners can be kept in their respective counties when under conviction of capital offences and not have to be taken to other jail for safe-keeping, so as to avoid in the future a repetition of such a spectacle as was presented in the case of Dan Teachey, who on account of the absolutely unsafe condition of the jail at Kenansville, had to be kept at Goldsboro, from which place he was taken to the place of execution a day before the time, a spectacle for gaping crowds on the streets and trains.—Raleigh cor. Charlotte Observer.

Now that the Industrial News is a certainty it is equally certain that Mr. Butler has another bee in his bonnet. And if his hand has not lost his cunning he will dominate the republican party in North Carolina before another president is inaugurated.—Salisbury Post.

A Warning to Mothers.

Too much care cannot be had with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If it does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by Jno. L. Wooten, druggist.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation when the best is asked for. Mr. Obe Witmer, a prominent druggist of Joplin, Mo., in a circular to his customer, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by Jno. L. Wooten, druggist.

Their Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by Jno. L. Wooten, druggist.

A little forethought may save you no end of trouble. Anyone who makes it a rule to keep Chamberlain's Colic, Cholera, and Diarrhoea remedy at hand knows this to be a fact. For sale by Jno. L. Wooten, druggist.

A PICTURESQUE SIGHT.

The Odd Promenade That is a Custom in All Mexican Cities.
Every Mexican town can boast of her Alameda and a band. In the afternoons of Sundays and feast days and usually Wednesday evenings the belles and beaux of the place gather and promenade. They have no more curious custom than this, nor is it likely that it has a parallel anywhere else in the world. The men form a long line of two abreast and circle around the outer edge of the park, and the women in a similar ring, revolving, as it were, within the other, walk slowly around in an opposite direction. In this way every Romeo will see his Juliet several times in the course of the evening and exchange glances with her, may even find opportunity for a hurried whisper. It is a picturesque sight, for all classes are to be found in the procession. For the most part the men wear the national embroidered jacket and breeches of leather, great cloth sombrero and high heeled boots or shoes, with ridiculously pointed toes. The explanation of this distressing custom must lie in the equestrian traditions of the country.
At 4 o'clock the crowd begins to line the sides of the Puerte de San Francisco and other streets leading to the Paseo and wait for the carriages which at this hour form in procession and proceed at a slow and dignified pace along a never varied route. They are filled with the glowing beauties of the mixed Spanish and Indian blood. To see them in their highest perfection they say one must journey to Jalapa. "La Ciudad de la Flores," it takes its name as much from its profusion of orchids, growing in the public streets. The belles of the city are wondrously beautiful in their dark and graceful fashion as they wave their fingers in salute to their waiting admirers on the curb.—Lee W. Zeigler in Recreation.

Obeying the Doctor's Orders.
"We get queer orders now and then in the cigar business," said a manufacturer who has a retail store. "I have a customer who has been dealing with me for years and who never discovered that smoking ten cigars a day between breakfast and dinner disagreed with him until he was fifty-three years old. For a month I have missed him. Last week he came in again and bought the biggest and blackest cigar made for stock trade. Then he gave me an order for 200 cigars made from his favorite tobacco. But he wanted them five inches long and one inch in diameter at the center, close rolled.
"We don't manufacture that size except for trick cigars," I said.
"I know what I am about," he replied. "The doctor says I must smoke only one cigar a day, and I mean to obey him. But I want that one cigar to run the limit."—New York Press.

Singular Discovery.
An English author says that a man of middle age with whom he is acquainted found one of his eyes affected, as he thought, by reading small print at night, and applied to a famous oculist for advice. The doctor examined him very carefully, and presently inquired whether he had ever suffered any inconvenience from the other eye, the right one.
"None whatever," was the reply.
"Still," said the oculist dryly, "it is very important for you to preserve the sight of your left eye, inasmuch as you have never seen with the other since you were born."
Sure to Be the Case.
"I can't tell you," said the experienced suburbanite in reply to the question of his new neighbor, when the next train goes, but I can tell you what your chances of catching it are."
"What are they?" inquired the new neighbor eagerly.
"Well, if you run as hard as you can," said the experienced resident, "you have fifteen minutes to wait, and if you merely walk you'll find the train just pulling out."

New to Show You

But new things never find a place with us until they have earned recognition by their merit. We like our friends to FEEL safe and BE safe in every transaction. No experimenting at their expense. Now, however, after the most careful scrutiny, we are pleased to offer

Colton's

Invisible Lacing

Corset

which is a real innovation, and comes to us bearing the seal of approval, it being recommended by New York's most famous dressmakers and it actually disposes of some grave corset difficulties. The name almost lets the cat out of the bag, but one glance will tell any corset wearer the whole story. No matter what corset you wear this new corset will interest you, and we hope you will come and look. Among the many fine models you will find just what you want, and, like the little girl in the book, "you'll be happy ever after."
