HARVEY-HOUSTON.

Greenville Tobacconist and Massage Specialist Wed in Wilmington..

Wilmington, N. C., Aug. 10.—Last night there was a wedding here at the residence of Mrs. S. C. Merton when Mrs. Mande Houston, a massage specialist of New Orleans, and Mr. C. W. Harvey, a prominent tobacconist of Greenville, N. C., were married, Rev. J. M. Wells, D. D., pastor of the First Presbyterian church, officiating. The ceremony was a pretty one with a few friends present.

Mr. and Mrs. Harvey, after receiving congratulations, took their departure to the beach and will spend their honeymoon at the Seashore hotel, accompanied by Mr. and Mrs. H. McClellan, of Greenville, N. C., who came last evening with the groom to attend the wedding, and Miss E. E. Blankenship, of New Orleans, a sister of the bride, who has been in Wilmington and at the beach all summer.

Mr. Harvey met the bride at Greenville some months ago and a strong attachment soon ripened into love and affection. The lady came here early in the summer to the practice of her profession.

J. E. Green went to Grifton Wednesday evening to spend the night with his mother.

Work is being done on the Methodist church and it will soon be completed.

Our last mail brought in more orders for Hunsucker buggies.

Winterville has an excellent set of town officers and they take great interest in her welfare, although some of our citizens seem to prefer grass and weeds on their side walks rather than to use a hoe. Poor taste.

Miss Minnie McGowan and brother, Madison, were here yesterday. They were accompanied by Miss Ethel McDaniel, who, after an extended visit, left on the evening train for her home near Gold Point.

One of those new tar heel wagons rolled down the road yesterday and there is no doubt but what it will be serving for several years.

It is the front room on first floor of the building with full glass front on Third street. Having such an office is in keeping with the educational progress Pitt county is making.

The Chance of the Season

to obtain high-class merchant tailoring, equal to the swell-est New York tailor's work, right here in town at reasonable cost!

We shall hold an exhibition of Fall and Winter Styles and Fabrics, at our store, on Monday, Tuesday and Wednesday, August 14, 15 and 16.

These are in almost endless variety and come from the famous Wholesale Tailoring House of Schloss Bros. & Co., of Baltimore & New York.

This grand array of stylish patterns will be in charge of an expert Cutter and Fitter (from the above-named house) who is an authority upon all matters pertaining to Correct Dress for Men and the most appropriate style.

You would do well to consult him, even if you do not intend to buy, as there is no better way of keeping in touch with the coming fashions.

If desired, he will take your measure and order your selection made up by Schloss Bros. & Co. Besides the certainty of fit, quality and style, every one of their garments has that clean-cut look of finish and distinction that only the best of metropolitan tailors can produce.

I have arranged for the Cutter to bring the garments back basted up and have them fitted to the customer before finishing.

The prices asked are not high,—\$20 to \$35 will pay for an excellent Suit or Overcoat.

Don't forget the date,—Mon. Tues. & Wed. 14, 15, 16

SATURDAY, AUG. 12, 1905.

The papers state that a special term of federal court has been called at Greensboro to begin September 4th, and it is intimated that there will be matters before the court concerning the manner of running the revenue business in this section. It is stated, too, that certain prominent Republican politicians and officeholders are mad at District Attorney Holton about the matter and say he is trying to "bust" the Republican party.—Wilkesboro Chronicle.

Whether it's a dagger or a "blue steel" Holton has up his sleeve is no matter to us. The strangest thing to us is that we didn't know there was any party to "bust." All the Republican party we had any knowledge of is the bung-smellers and those who want to smell the bung.

THE REFLECTOR will always be found working for the upbuilding of Greenville and Pitt county. It's our duty, and when we call attention to existing conditions that are dangerous it is with the same spirit. There is too much filth allowed to accumulate and decay in some of the back lots. The gutters along certain side walks are not properly drained and kept cleaned. It is just as easy to keep the town clean as it is to keep it filthy. Malaria, typhoid, diphtheria germs, cannot live in a place that is kept clean and healthy.

When we think of New Orleans we are still gladder that we live in this part of the Southland. In New Orleans the people are either forced to stay at home and run the risk of dying of yellow fever or flee from the place and get shot.

The difference between a merchant who advertises and one who doesn't is that the one who advertises sells everything, and the one who don't advertise comes very near "keeping everything."

That there are only 360,000 words in the English language must be a mistake, for W. J. Bryan exceeded this number every week during his campaign in '96.

It is reported that there are six states which are free from graft. Will just bet a thirty cent piece that these six states haven't been investigated.

Those Virginia Republicans undoubtedly haven't much chance, or else they would not be promising so much.

Some few families get up before breakfast, while a few others manage to go to bed before breakfast.

Will Help Prices.

It is presumed that if the Japanese government buys direct, that the competition from this source will help to stimulate prices. There seems to be no doubt but that the Japs are going to place buyers on all the bright markets. We are not informed as to what they will want on the dark markets.—Southern Tobacco Journal.

That typhoid trails after the unclean milk can has been demonstrated by Dr. Darlington, of the Brooklyn Board of Health. He has in his office a large map of the city, on which typhoid cases are represented by different colored tacks. The blue tack, which tells that the patient is a habitual drinker of milk, is greatly in the majority.—Christian World.

Tobacco Should be High.

If the law of supply and demand works even half way this year tobacco ought to bring a big price. The crop last year was fully ninety million pounds short and the crop this year will not exceed that of last year, taken as a whole. The Southern Tobacco Journal says that "while there is an increase in acreage, from the best information at hand, the acreage production will fall considerably below that of last year." It adds:

"A prominent warehouseman on a large bright market told us a few days ago that he had traveled through the better portion of the eastern tobacco sections, and that he was satisfied that the number of pounds produced this year would fall far short of last year's production. He told us that the weed had plenty of color, but was thin and papery.

"As to the conditions in the old belts, they are in some sections more encouraging. In Rockingham, Henry, Stokes, Guilford, Durham, Granville, and other North Carolina tobacco producing counties, the crop looks well, much better than a year ago. This is especially true as to the counties in Piedmont North Carolina and Virginia. If good seasons continue, we may look for an exceedingly good crop of chewing goods.

"But summing up the entire situation, we can say without hesitation that this crop should bring good prices."

The demand for tobacco this year is great, particularly for the bright, and prices should rule high.—Raleigh News and Observer.

Spinners Will Fight Association.

A recent meeting of the International Cotton Spinners held at London, England, on August first, indicates very clearly that the producers are to be bitterly fought by the spinners during the next three months. At the meeting above referred to foreign spinners were advised to buy no more cotton for 90 days except in such cases where the raw material was absolutely needed. The effort will be made to depress the cotton market here by reducing the demand for the raw material as far as possible in order to break down the present movement of the farmers to demand fair prices for their staple. The present plan of the foreign spinners, it now appears, is to rush the Southern Cotton Association and its efforts at the opening of the fall season and force the farmers to sacrifice their cotton on a depressed market brought about by combination and "bear" speculators. Every imaginable device known to human ingenuity will be brought to bear to depress prices during the next four months.

Condition of Crops.

The government department of agriculture has issued the following crop report:

The condition of corn on August 1 was 89.0, as compared with 89.2 last month, 87.3 on August 1, 1905, and a ten year August average of 85.4.

Preliminary returns indicate a winter wheat crop of about 424,400,000 bushels or an average of 14.3 bushels per acre, as compared with 12.4 bushels per acre last year, as finally estimated.

The average condition of spring wheat on August 1 was 89.2 as compared with 91.0 last month, 87.5 on August 1, 1904, and a ten year August average of 83.3. The average condition of tobacco on August 1 was 84.1, as compared with 87.4 one month ago, 83.9 on August 1, 1904, and a five year average of 82.9.

The average condition of rye on August 1 was 92.9 as compared with 88.9 one month ago and 90.2 on August 1, 1904.

THE HORSE WARNED HIM.

Audubon's Description of a Kentucky Earthquake in 1812.

This vivid description of an earthquake was written by Audubon, the naturalist. It occurred in the year 1812: "Traveling through the barrens of Kentucky in the month of November, I was jogging on one afternoon when I remarked a sudden and strange darkness rising from the western horizon. I had proceeded about a mile when I heard what I imagined to be the distant rumbling of a violent tornado, on which I spurred my steed, with a wish to gallop as fast as possible to a place of shelter. But it would not do. The animal knew better than I what was forthcoming, and instead of going faster so nearly stopped that I remarked he placed one foot after another on the ground with such precaution as if walking on a smooth sheet of ice. I thought he had suddenly foundered and, speaking to him, was on the point of dismounting and leading him, when he all of a sudden fell, groaning piteously, hung his head, spread out his four legs as if to save himself from falling, and stood stock still, continuing to groan.

"I thought my horse was about to die and would have sprung from his back had a minute more elapsed. But at that instant all the shrubs and trees began to move from their very roots, the ground rose and fell in successive furrows, like the ruffled water of a lake, and I became bewildered in my ideas, as I too plainly discovered that all this awful commotion in nature was the result of an earthquake. The fearful convulsion, however, lasted only a few minutes, and the heavens again brightened as quickly as they had become obscured. My horse brought his feet to their natural position, raised his head and galloped off as if loose and frolicking without a rider.

"Shook succeeded shook almost every day or night for several weeks, diminishing, however, so gradually as to dwindle away into mere vibrations of the earth. Strange to say, I for one became so accustomed to the feeling as rather to enjoy the fears manifested by others. The earthquake produced more serious consequences in other places."

She Got the Information.

She ran breathlessly out of the Palace hotel and boarded a Haight street car. "Will this car take me to Haight and Fillmore streets?" she asked the conductor. "Do you want a transfer to Fillmore?" asked the conductor. "That is not an answer to my question," said the lady passenger. "Does this car go to Haight and Fillmore?" "Goes right out to the park," said the conductor. "Now, see here," said the exasperated passenger. "What is the reason you cannot answer my question? The clerk in the hotel told me that a red car going in this direction would take me to Haight and Fillmore. I don't know anything about your city and haven't bought a guide-book. Now, can't you kindly condescend to answer my question? Will this car take me to Haight and Fillmore?" "It will." "Thank you very much."—San Francisco Chronicle.

Genealogy.

Alexandre Dumas, the great French author, was a quadroon and showed his African parentage in his woolly hair, his dark skin, his thick lips and his prodigious bodily strength. But it is needless to say that many people looked askance at him on account of it.

"Was not your father, sir, a mulatto?" a man asked him once.

"Certainly," said Dumas. "My father was a mulatto, my grandfather was a full blooded negro and my great-grandfather was a monkey!"

"What?"

"Yes. My genealogy begins where yours leaves off!"

Changing Eyes.

Among the extraordinary changes by which during growth the form or position of important organs is affected one of the most curious occurs in flat fish—halibut, turbot, plaice, soles and all fish which swim on the side. When hatched and for some time afterward these fish swim in the normal way and have the eyes in the usual places, one on each side. But as they grow and live on the bottom of the water they swim in the horizontal position which they assume during rest, and the eye on the lower side gradually moves around to the side turned to the light.

The Barn Owl.

The barn owl richly deserves a conspicuous place in the gallery of feathered criminals. During the daytime he hides himself in the darkest place to be found, but when the sun has set he spruces up and sets out on a murderous expedition. The barn owl strikes terror into the ranks of rats and takes a keen delight in torturing his victims. His one idea of a comfortable home is realized in a gloomy knot hole of an old tree, and the only occasion on which he is known to display any temper is when the young are disturbed. If it were not for killing rats that he does not intend to eat, the barn owl could be classed as a very mild and inoffensive petty criminal, for he never attacks poultry or birds.—London Mail.

Legal Reserve.

A Home Company conducted on a safe, economical basis in the interest of its policy holders. Why we can save you money.

The oldest companies have been on a 4 per cent. reserve basis for many years. Several of them have recently changed from a 4 per cent basis to a 3 per cent. or 3 1/2 per cent. basis, on account of a decrease in interest rates. Probably 90 per cent. of all the outstanding business is now on a 4 per cent. reserve, only the new business being on a 3 per cent. or 3 1/2 per cent. reserve. Following are the rates of a few companies on the old and new basis:

Twenty-Payment Life. Age 35.

COMPANY	OLD RATE 4 per ct.	NEW RATE 3 1/2 per ct.	NEW RATE 3 per ct.
New York Life	\$35 00		\$38 34
Equitable	35 00		38 34
Penn Mutual	34 21		37 25
Prudential	34 01		36 95
Mutual Benefit	33 97		36 22

Mutual Life	35 00	36 87	
North Western	34 91		37 80
Security Life & Annuity	32 60		

The variation in rates of companies on the same reserve basis is due to difference in the amount added for expenses.

Every policy is registered and the full legal reserve deposited with the Insurance Commissioner.
