The rule we have established of not carrying goods from one season to another is strictly business. When prices take a dip below the cost mark they almost speak. MORE TROUBLE.

Prince George, the Prophet Breaks Loose Again but Gets His Dates Badly Mixed.

The Journal acknowledges the receipt of a postal from Ayden which is signed by some one who styles himself "Prophet George," doubtless he of former years who was known as Prince George and who predicted dire disaster for Wilmington and James City.

His prophecies ended so miserably that he has kept quiet for a long time and now he is kind of going slow but at the same time he keeps up his old tricks.

The orthography of the postal is wonderful and awful but we believe a liberal translation of the message is to the effect that a terrible storm will visit the entire United States about August 15, 1904.

He has got a year behind hand in his prophetic damnation. He evidently means 1905 but the date and text are both marked 1904. That date we believe was a clear warm day. It remains to be seen what the coming day will be. If it doesn't bring anything unusual in the weather line Prince George will have to explain "How Come."—New Bern Journal.

Original Observations.

It takes plenty of horse sense to run a successful horse show.

It takes a very shrewd man to make a will which effectually excludes the lawyers.

It is true that politeness costs nothing, but the dividends from the investment may be large.

As soon as the world finds out that you enjoy a hearty laugh it will bring you many a pleasant story.

The Firemen.

Greenville Volunteer Fire Company held its regular monthly meeting Monday night. The names of some members were stricken from the roll for non-attendance.

Ola Forbes was elected foreman of the company and D. J. Whichard assistant foreman. The chief of the fire department was present and gave the company assignment to the steam engine and hose station No. 1.

Get Together Boys.

What has become of the Osceola band? We have not heard a note from the boys this summer. There is too much good talent here for it to be allowed to go to waste, and the people would like to see the boys get together again. Greenville could have a band of which the town would be proud.

W. H. Borden Dead.

A telephone message this morning announced the death of William H. Borden, a prominent citizen of Goldsboro, who was well known throughout the state.

AYDEN ITEMS.

AYDEN, N. C., Aug. 15, 1905. Misses Ruth and Nannie Howard, of Kinston, after a very pleasant visit of a week in Greene county came yesterday and spent the day with Misses Jimmie and Arah Davis leaving on the evening train for their home.

The Missionary Baptist church presents quite a decided improvement. It has been nicely painted a pure white on the outside, beautifully papered on the inside, the windows changed to swing in or out, the floor tastily carpeted and the whole reflects much credit upon our Baptist friends. It is indeed a pretty structure.

Rowan Cooper and W. H. Hamilton gave us a chat yesterday while here on their return from Kinston to Winterville.

A. D. Cox, of Winterville, was here yesterday.

Fever, the very air is full of it. If the sanitary condition of this town is not looked after, the undertaking establishment here will be the best paying investment of the town, and that is no lie.

Mrs. Emma Allgood, of Scotland Neck, is here on a visit to the family of her father, J. S. Hines.

J. A. Harrington, cotton weigher at this point, always noted for his progressive spirit and an intent and purpose to serve the public in a faithful and creditable manner, has just purchased a large pair of 700 pound Fairbanks scales. Now our farmer friends can rest assured Mr. Harrington's weights will always bear the test.

That was a heavy slam on the magistrates of Wake county in the News and Observer. We imagined they were about as honest as other folks. Certainly we would never have thought them fools nor scoundrels.

There were regular services in the Baptist church Sunday.

There was an unusual large crowd in town Saturday.

G. D. Stephenson is off on a visit to his old home in Cary.

A. L. Jackson and wife spent Saturday and Sunday with W. C. Jackson.

Rev. T. H. King has returned from his trip up in Virginia.

Mrs. T. N. Peden came up on train Friday from a visit down the road.

Mrs. Bibro, of Dover, is visiting her son, W. L. Bibro.

Miss Lillian Mann has returned from a recent visit.

There was a little excitement in town Saturday night. Two coons got into a fight near the merry-go-round. While at it in true Sullivan style, a blue coat appeared on the scene, the sight of which was more than the dusky pugilists could stand, so both took to their heels while the boys howled and as the blue coat shot they disappeared in the darkness and "peace, blissful peace, reigned once more," under the melodious strains of the organ as played by the merry-go-round.

Mrs. Lee, of Kinston, is here on a visit to her father, Elder C. C. Bland.

Last Saturday the tobacco warehousemen from Greenville were here galore. Each one had the finest house, guaranteed the best prices, and promised a fortune to every farmer who should honor them or him with their patronage. They made things glowing. We sincerely hope it is all true.

Joe Stroud went to Greenville Friday.

Mrs. E. S. Edwards is on a visit to her daughter in Washington.

Harris Lane, of Newbern, has been here during the week putting up machinery for Raymond Turage.

B. F. Manning, of Winterville, was here a short while Friday.

This abominable way they have of blowing the whistles all night should be abated. They have no

regard for the sick nor those in attendance upon the sick, to say nothing of the discomfort to other people. It is a disgrace to any civilized community.

It is reported here that yellow fever is in Norfolk. We are in favor of blocking up both ends of railroad until black frost.

B. F. D. Albritton spent last night with J. J. Edwards.

Rev. W. L. Bilbro returned to Dover yesterday.

J. W. Taylor, our optician is now back again from the Philadelphia Optical College, where he graduated in a special course in the science of optics, ready to render better service than ever before to those suffering from weak eyes and in need of glasses.

A Volcano in Nevada.

San Francisco, Cal., Aug. 14.—A volcano throwing off molten lava and in active operation, has been discovered in Nevada by Messrs. McClure, Wheeler and Sommers, cattlemen of Lovelock.

The volcano is located in Rye Patch, Humboldt county. Although that section has been traversed for years the crater has just been found for the first time.

The men were in the stream of lava, and tracing in to its source, located the volcano. The rocks for some distance around were so hot that they could not touch them with their bare hands.

The volcano is active. This is attested by the fact that the distinct rumbles accompany the flow of lava.

TUESDAY, AUG. 14 1905.

We wish to call attention to the report in another column of R. O. Jeffers, president of the Greenville Tobacco Board of Trade. We wish to commend this report to all our readers, especially the citizens of Greenville. It will be seen that this report is full and elaborate, and at the same time concise showing high executive capacity and good business advice. There are no citizens in our community who have contributed more to the up-building and development of the material interest of Greenville and community than have the tobacco men. The report of the president on the business done by the Greenville tobacco market for the past year shows that Greenville stands among the leading tobacco markets of the state and the tobacco buyers and warehousemen, acting on the suggestions of the president, will in time, we predict, result in making Greenville the largest, best and solidest bright tobacco market in the state. It would be well for Greenville if her entire business interests were as well connected and working as harmoniously as the tobacco market.

Johnson county has voted out all dispensaries and will become a dry county. That is the point all should aim at, make a clean sweep of the entire whiskey business as soon as it can be done.

A wreck occurred Sunday on the Nickel Plate railroad near Kishman, Ohio, in which twelve persons were killed and twenty-five injured.

"General disability" is a reason given by the Charlotte Observer for all trains being late one day. That seems to fit the case.

So far the yellow fever situation at New Orleans shows no improvement, even though the government has taken charge.

To the Greenville Tobacco Board of Trade.

The undersigned president of your board, in accordance with the annual custom, begs leave to submit the following as his annual report:

(1) That during the tobacco seasons of 1904-05, 8,587,410 pounds of leaf tobacco was sold upon the various warehouse floors of the town of Greenville for the sum of \$701,780.67, making the average price per one hundred pounds for all the tobacco sold upon said market \$83.87. And although the number of pounds sold during the season of 1904-05 was much smaller than the number of pounds sold during the season 1903-04, yet the average price per hundred pounds was \$240 more in 1904-05 than in 1903-04.

(2) I herewith submit for your consideration the report of C. W. Harvey, secretary and treasurer of the Greenville Tobacco Board of Trade, showing receipts and expenditures during the past year and showing net balance on hand of \$35.29.

(3) I respectfully suggest that the members of the Board of Trade endeavor to abide more strictly, both in letter and in spirit, by the rules of the Board of Trade and not try, as some members of the board seem to be doing, to see how near they can come to violating the rules without actually being called to account therefor. The compliance with the rules and regulations of the board by all of its members is necessary in order that the Board of

Trade may accomplish the purposes for which it was formed

I respectfully suggest that both buyers and warehousemen use every possible endeavor to cause as much tobacco to be brought to this market as possible, and I would especially suggest that all of the buyers join with the warehousemen and endeavor to be as courteous and polite to persons bringing tobacco to this market as possible. A kind word and a small amount of attention from the buyers to persons bringing tobacco to this market will do much toward increasing the amount of tobacco sold, and will cost nothing, and will not only be of mutual advantage to the buyers and warehousemen and the persons selling the tobacco, but will do more perhaps than anything else to strengthen and build up our market.

I would also suggest that the various members of the warehouse firms stop fighting each other so bitterly and work together for the good of the market. Of course each warehouse firm will endeavor to sell as much tobacco as possible, but it would be good policy for the warehousemen to stop saying unkind things about each other and work for the good of the market, and if one warehouse cannot sell a certain person's tobacco, then he should endeavor to persuade that person to sell on the Greenville market as the best place.

It is with pleasure that I chronicle the fact that during the past year there has been very little friction between the members of the Board of Trade, and I trust that during the coming year there will not be any friction whatever, but that all will work together in harmony for the good of the market.

It is absolutely necessary for all the Board of Trade to seek to control their tempers as much as possible. Warehousemen should remember to be courteous to buyers and that buyers owe to their patrons a duty, and buyers should also remember that warehousemen owe to the sellers a like duty. There should certainly be no bickering and strife between warehousemen and buyers.

I refer with pride to the fact that at the St. Louis Exposition this market was awarded the prize for the best display of bright leaf tobacco, and I desire to state that in large measure the selection and handling of this tobacco exhibit was done by Mr. W. T. Lipscomb; the write up accompanying the exhibit was excellently done by Mr. O. L. Joyner, and I also think that this board is due to the Board of Aldermen of the town of Greenville a vote of thanks for the very generous and prompt manner in which they came to the assistance of this board when we were making the financial arrangements with which to make the tobacco exhibit at St. Louis.

There can be no reason why Greenville, now among the first of the leaf tobacco markets in the East—perhaps second, should not easily take first place if we have the hearty co-operation of all persons interested in the production and sale of tobacco, and I hope to see at no distant day the fact fully established that Greenville is the best tobacco market in Eastern North Carolina.

I respectfully recommend that on and after September 1st the membership for all persons joining the Greenville Tobacco Board of Trade be \$25.

Respectfully submitted,
R. O. JEFFERS,
Pres. Greenville Tobacco Board of Trade.

The Greenville REFLECTOR has a poor opinion of people who dig for pirates' gold. It expresses the opinion that the same amount of energy expended in a potato patch would produce more profitable results. Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat-producing foods that you eat are not properly digested and assimilated. Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatine.

Kodol Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

BANK HOLIDAYS.

The Reason They Are Thus Designated in England.

The bank holidays created by the act of 1871 were the first ever instituted by any legislature for the purposes of rest and enjoyment. All previous holidays were really holy days—that is to say, purely ecclesiastical institutions—either religious fasts or festivals.

Before the act passed a holiday could only be proclaimed as a fast or a day of national humiliation. There was no power to proclaim a holiday for thanksgiving, rejoicing or even for any public function. This can now be done under the act and has proved a great convenience.

It is a very general but quite mistaken idea that bank holidays were originally intended for bank clerks only.

The act expressly provides that "no person shall be compellable to do any act on a bank holiday which he would not be compellable to do on Christmas day or Good Friday."

It may be asked, then, why did we call these days bank holidays? The reason is rather technical. According to immemorial custom, the prayer of a bill in England has three days' grace, so that an acceptance which comes due nominally on the first of the month is not really payable till the fourth.

If, however, the third day of grace should fall upon Christmas day, Good Friday or a Sunday, then it is not thought fair the payer should have a fourth day's grace, and such bills are due the day before—that is to say, they are due on the Saturday or the day before Good Friday or Christmas day.

Now, in considering the bank holidays it was thought that it might act unjustly if a person were called upon to provide for his acceptances the day before they would otherwise have fallen due, and after some consideration therefore we suggested that bills falling due upon these days should be payable, not the day before the last day of grace, but on the day after, so that a bill falling due on a bank holiday becomes really payable a day later than would be the case if it were due on a Sunday, Good Friday or Christmas day.

Under these circumstances it was necessary to use some special name for the new holidays in our bill. If we had called them national holidays or general holidays this would not have distinguished them from the old holidays. They were therefore called "bank holidays," and this is the real origin of a word which has now become so familiar. But it was never intended that these holidays should be applicable exclusively to banks.—London Mail.

The Canny Scot.

In an English railway compartment two travelers were seated, an American and a keen eyed old Scotchman.

When the guard came to take up their tickets the latter had great difficulty in locating his. He kept the official waiting so long while he rummaged through his many pockets that the ticket taker went on his way, saying he would come back to find out the result of the search.

When the guard had gone the American saw the lost piece of pasteboard protruding from the old fellow's mouth and promptly notified its owner, thinking it was a case of absentmindedness.

Whereupon the wily Scot rejoined: "Don't you think I know it? But the ticket's a month old, and I'm a-suckin' off the date."

Animated Telegraph.

Shortly after the introduction of the electric telegraph into Scotland a west highlander who had been to Glasgow and was consequently supposed to have got to the bottom of all mysteries was asked to explain it. "Weel," said he, "it's no easy to explain what you will no be understanding. But I'll tell ye what it's like. If you could stretch my collie dog frae Oban to Tobermory an' if you wass to clap its head in Oban an' it waggit its tail in Tobermory or if I wass to tread on its tail in Tobermory an' it squaked in Oban—that's what the telegraph is like."

True Love.

"Are you sure you love him?"
"Am I sure? Do you see this dress?"
"Of course I do! What of it?"
"Will you kindly tell me if it bears the slightest resemblance to the present fashion?"
"Well, really it—or—it—"
"It doesn't?"
"No."
"Well, I'm wearing it because he likes it."—Paris Journal.

Method.

"I study and study," said the baby in the pink perambulator when the nurses' backs were turned, "and the more I study the less I understand this baby talk. I begin to think I'm stupid."

"Not at all, old man," said the baby in the brown perambulator, with the green shade. "You simply got the wrong way about it. You should begin with English. After you understand English baby talk is comparatively easy. The syntactical constructions are very similar in both languages, and many of the words are strikingly alike in their root formations."—Life.
