

"RED Letters," "Blue Signs"

Markdownwits Reduction Ophobia and Salesfever, These ailments are common with most retailers at the closing of the season, but with some of Greenville's retailers it has become "epidemic." Just think of a store selling at cost the whole year. Markdownwits affect the patients pump, veracity—they can't tell the truth.

Reductionophobia develops a mania for talking "hot air" and the germ is in some stores in Greenville all the year-round.

Salesfever creates a reckless gathering of "flotsom and jetsom," stuff of inferior qualities, no matter what its antecedents, most of it prepared for the store with Red Signs and Markdownwits.

A Veritable Boarding House Hash.

We shall expect our methods to hold.

We are neither reformers nor philanthropists, and for young fellows, rather than old-fashioned. But we are determined to build up this store on principle statements based on facts and values and Merchandise beyond any competition.

Newspaper space is too expensive to use for "JOKES."

Our little comparisons, such as reference to the "Merchandise diseases" are very serious statements, and we take this method of calling the attention of the most critical and intelligent purchasing public to these abuses.

It is high time for better business methods any how. This store has demonstrated that to-day, did yesterday, and shall to-morrow.

We are never "over stocked," because we do not buy merchandise because it is cheap.

It must be good or it will not be admitted in this store. We reduce every week, yes every day, if we think it necessary. The new goods are here. Now for a general shake-up all along the line.

WE ARE HERE TO SELL GOODS.

Colored Graded School.

The colored graded school opened last week with 101 pupils in attendance. This is a little less than one-third of the colored children of school age in the district, but the small attendance is accounted for in the fact that they are needed at present to pick cotton and are at work. We understand that the principal of the school advises the pupils to work in the early fall months when their labor is so much needed by farmers. It is well that they should follow his advice.

Phones Cut Over.

General Superintendent F. C. Toepelman returned to Greenville Sunday evening and is now cutting over the telephones to the new system. The bell phones with which you only have to take up the receiver to call the central office, are a great improvement over the old style that required the turning of a crank at every call.

An Asheville woman who recently died, leaving an estate of \$10,000, willed to her daughter a \$1 calico dress. The daughter is taking steps to upset the will.

JAMES C. COBB DEAD.

Prominent Citizen of the County Passes Away.

Mr. James C. Cobb died early Sunday morning at his home eight miles from Greenville. He was 83 years old and had been sick some time with troubles incident to old age. Mr. Cobb was a man of prominence and influence in the county and was one of our best citizens. He was a large farmer and for many years a prosperous country merchant, retiring from business and turning it over to his sons when he became too old to engage actively in it.

Mr. Cobb reared a large and influential family and is survived by five sons—all of whom have attained prominence in the business world—and two daughters. These are R. J. Cobb, of Greenville, C. C. Cobb, of Norfolk, L. A. Cobb, of Kinston, J. H. Cobb and B. P. Cobb, of this county, Mrs. Ola Forbes, of Greenville and Mrs. C. D. Hooks, of Winterville.

The funeral took place today, services being conducted by Rev. J. E. Aycock.

First Big Show Coming.

Put your business cares aside for one day and make the advent of the Great Van Amburg show a holiday. The only big show coming this year, coming on its own special trains and will pitch its tents in Greenville on Tuesday, 10th. Don't fail to see the grand free street parade in the forenoon.

Hour of Meeting Changed.

At the meeting of the B. Y. P. U. in the Baptist church, Sunday evening, E. B. Thomas was elected president and W. T. Burton vice president. Appointments were made to fill vacancies on several of the standing committees. The hour of meeting was changed to 4 o'clock p. m. beginning with next Sunday.

Make Your Foot Prints on The Sands of Time.

When you buy paint that is claimed to be equal to Harrison's Town and Country Paint you buy a substitute. You will be constantly reminded of this fact when you compare the appearance of your house to that of your neighbor, who bought Town and Country paint because it was a perfectly pure paint made by Harrison Bros. & Co., who have had over a hundred years experience in the manufacture of paint. And when the cost of Town and Country paint is compared with other paints the balance is in favor of Town and Country paint, because of its wonderful covering capacity. Ask us for color card.

Col. Peters says the cotton crop will be large and advises the farmers to sell as fast as possible, while Harvie Jordan says the crop is small and advises holding. With diverse opinions like this it appears that the farmer must take chances.

So the president's car will be stopped at Neuse or Millbrook in order to let him sleep from 1 o'clock till 7. They must think that the inhabitants of those places are very unenterprising to let the big show sleep in their "midst" for six hours. —Raleigh Post.

The papers are now talking how good the colleges are at playing football. On Saturday the University beat Davidson college in a game at Charlotte, and the A. & M. College was beaten by a Virginia team in a game at Charlottesville. The pig skin punters are the biggest fellows going now.

The next General Assembly of North Carolina will have much to say about insurance, and unless "Andy" Hamilton can buy up the legislators, those companies that do not show clean hands and honest officials will be forbidden to do business in North Carolina. They will not be permitted to take hard earned Tar-Heel money to buy elections, buy legislation, and buy mansions for favorites to live in. —News and Observer.

Elihu Root, now Secretary of State, once prepared a bill which was introduced in the Alabama legislature, providing that all campaign contributions should be made public, and while it did not go nearly far enough it was far too good to be passed by the gang which rules New York politics. What would become of Odellism and of the renowned Chauncy Depew, if the Harriman interests and the New York Central were obliged to make public the amount they spend to control State politics and keep personal representatives on the floor of the Senate? —Durham Sun.

The Goat Again.

The Agricultural Department's goat expert, Mr. Thompson, has returned from Switzerland with a number of milk goats to be used as demonstrators of what a goat can do in the milk-giving business. As The Observer pointed out some time ago, one of the chief reasons why the goat is not cultivated here, and its milk used generally as it is in Switzerland, Germany and other European countries, is because people have got in the habit of laughing at the goat, and as we also pointed out, this does no harm to the goat, but the American people themselves are deprived of one of the most delicious and one of the most nourishing of foods. It is not correct to say that what the cow is to the American the goat is to the European, for in European countries thousands of families too poor to keep a cow have a goat in the back yard which furnishes milk to the family. Such families in America, and there are thousands of them right here in North Carolina do not drink cow's milk; instead, they drink no milk at all. The goat can live on anything almost, and its system is so constructed that it can convert almost anything into milk—broom straw, crocus sacks, tin cans or anything else.

The Agricultural Department is doing a good work in this respect and we should like to see the people of North Carolina get interested in goat culture. —Charlotte Observer.

North Carolina may be benighted and all that, but she is ahead of even New York in one thing. We got rid of the barbarous practice of imprisonment for debt soon after the war, but the Empire State still hangs to it. Ludlow street jail is yet used for the imprisonment of this class and all efforts to get the legislature to repeal the law have been futile. Sheriff Erlanger is authority for the statement that the cost of keeping an average of six prisoners a year was close to a hundred thousand dollars. The largest number confined at any one time during the last year was nine, the lowest three, every one of whom were in for debt. —Greensboro Record.

The People Pay the Taxes.

Railroad organs make us tired. The latest, enumerating the blessings of railroads, says "they pay a large share of taxes collected by the State." It would be as true to say that the sheriff pays most of the taxes because he collects them. Every dollar paid in taxes is collected by railroad officials from passengers and freight. The consumer and people who ride pay every dollar of the tax. In Georgia railroad property is taxed at only forty per cent of its commercial value and in North Carolina at sixty one per cent. The people pay for riding and shipping on the commercial value but the State gets only the amount levied on the assessed value. Who gets the difference? It really belongs to the State and should be collected. —News and Observer.

October Days.

The autumn days are growing shorter while the evenings grow long apace. As the days grow shorter and cooler one realizes the approach of cold weather and to the careful home maker there comes a desire to fix stove pipes, repair old fire-places and debate the question as to grates or heaters for the winter. Winter clothes are to be overlooked and aired, to get rid of moth ball perfumes and the sun shines pale in the late afternoons, although the nights are warm and summer clothes fill the bill as yet. But Jack Frost is coming, and we welcome him. As we look on the struggles of the early months, the anxiety, the toil, the heat, the burdens of the time we rejoice in the goodness of the Father who gives us ease and rest with bountiful autumn harvests. Winter will shut us in but the fire side will be cheerful and books and newspapers can be read in quiet. We should thank God that He has remembered us in seed time, harvest, and with the closing months of the year there is promise of plenty in the land, with peace abroad, among the nations of the earth after a bitter war.

Farm life is the only life which "lays by," for with the approach of winter, merchants, banks, men who build cities, who construct and operate railways and steamships, all take on new life towards the close of the year, but the farmer hurries to gather in his crops so that he may keep snug and quiet in winter. —Atlanta Journal.

LETTER TO JOHN W. PAGE.

Greenville, N. C.

Dear Sir: The cheap paint to buy is the one that covers more than you think; the cheap one to wear is the one that is young when old.

Mrs. Moore, of Kelsey, N. Y.; bought 16 gallons Devoe to paint her house two coats; her painters said it would take that. Had 6 gallons left.

Mr. James Ackley's house, in Cairo (Catskill Mountains), N. Y. was painted Devoe; it wore 14 years; and the paint was in good condition then. He was going to paint, the last we knew, though. That's the way to preserve a house—repaint when there's no occasion.

Yours truly,
F. W. DEVOE & CO.

The Eye and the Digestive System.

Some one says that an improper fitting pair of spectacles, frames too large or too small, lens not exactly in front of each eye. It acts as a prism, and not as a lens, produces dizziness, nausea, vomiting, headache and even faintness. So many abnormal strengths of the eye, or its muscles involved. He thinks that not only the above named symptoms, but other functional digestive disturbances, and even constipation may be due to the inadequate nerve supply to the digestive organs. In these conditions, because an undue amount of energy is consumed in overcoming the muscular or refractive errors. Seasickness is chiefly due to reflexes of the eyes and semicircular canals rather than from anything in the stomach itself. Disorders of the digestive system affects the vision as is often witnessed after too hearty a meal. For example: disturbances of accommodation, diplopia. See that your glasses are properly fitted and they will always give you satisfaction. When they are not correct they give you trouble. Dr. Odum corrects all refractions and guarantees satisfaction to every body. Office now at Macon Hotel, Greenville, N. C. Call the earliest day you can to see him. Preliminary examination free. d & s w t f.

HOW TO LOCATE SPRINGS.

Indians and Frontiersmen Learn From Signs and Observations.

There is undoubtedly a practical art of discovering springs. Indians or frontiersmen can find water in the desert where a "tenderfoot" cannot. Mexicans and experienced prospectors can similarly find ore. These arts consist mainly in the recognition of superficial signs which escape the ordinary observer.

It is not necessary that the operator should consciously note these signs separately and reason upon them. No doubt he frequently does so, though he may not give away the secret of his method to others. But in many instances he recognizes by association and memory the presence of a group of indications, great or small, which he has repeatedly found to attend springs or ore deposits.

This skill, due to habit, is often almost unerring for a given limited district, but under new conditions it breaks down. Old miners from California or Australia have often made in other regions the most foolish and hopeless attempts to find gold, because they thought this or that place "looked just like" some other place in which they had mined successfully.

Apart from the magnetic minerals, there is no proof that ore deposits exhibit their presence and nature by any attraction or other active force. With regard to water, however, there may be an action affecting the temperature and moisture of the overlying surface. Even here, however, it seems more likely that such effects are manifested visibly to a close observer rather than by direct system. The favorite fields for water diviners are regions in which water is abundant, but not gathered upon given horizons of impermeable strata underlying porous rocks.—Cassier's Magazine.

Winter Tree Buds.

The infinite variety of nature's laws, the nice adaptation of all forms of life to varying circumstances and conditions, the wonderful inventive genius which nature displays in devising a particular means to every special end, is nowhere more forcibly illustrated than in the development of the buds and in the various means adopted for their protection during the long sleep of winter. Observation of these winter buds will disclose ample evidence that the trees are forehanded, having completed their preparations for the spring adornment months before the season arrives. It will also show that, while the trees appear to stand unsheltered in the winter blasts, the extremities, tender and susceptible to cold, are most carefully and cleverly protected, each according to its needs.—Frank French in Scribner's.

Food Courses in Ireland.

The etiquette of the fashionable hotels has not yet penetrated into the hinterland of Ireland. A correspondent who, with his wife, put up at an inn in the darkest interior was served the first night with an elaborate dinner of five or six courses. Unwilling to give trouble, they begged the landlady not to cook so much, as a single dish would generally do. They were taken at their word. Next evening the soup, fish, entrees, joint and sweets were served in a chaotic mass in the same dish.—London Globe.

Hollister's Rocky Mountain Tea is positive, never nauseates or upsets the stomach. Cleanses and purifies the entire system. A great blessing to suffering humanity. 75 cents, Tea or Tablets, Wooten's Drug Store

Should Consider with great forethought the suit he is to buy and the store he is to buy from for the coming season. His general appearance will depend largely upon the fit of his clothes, and the CLOTHES he wears.

Good Cloth: This is the foundation of your suit. Avoid those unreliable firms who deal in shoddy and pin your faith to **GRIFFON** Clothes.

Good Fit: This is one essential that you should exercise with more care than all others. A poor fitting suit is a poor piece of property. But it matters not how tall you are, how slim you are, how stout you are, how short you are, we have 'em to fit your form. A **Griffon** suit has the distinction of being distinctly stylish.
