SYLVESTER BARRETT TO HANG.

JERRY COBB 25 YEARS IN THE
PENITENTIARY.

Barrett Convicted of Murder in
First Degree and Cobb in Sec-
ond Degree. Both Take
Appeal in Forma
Pauperis.

"And may God have mercy on
your soul."

These were the closing words of
Judge B. F. Long in passing sen-
tence of death upon Sylvester Bar-
rett, convicted of the murder of
Constable W. J. Lovitt, of Farm-
ville, the date of execution being
set on Friday, February 16th, be-
tween the hours of 6 a. m. and 2
p. m.

The argument of counsel in the
murder was completed Friday
afternoon, Judge Long made his
charge and gave the case to the
jury at 5 o'clock. A little past 8
o'clock at night the ringing of the
court house bell announced that a
verdict had been reached. A large
crowd hurried to the court house
and in a few moments the room
was packed. A solemn silence
prevailed as the jury was polled
and the verdict announced.

The verdict was "the defendant
Sylvester Barrett is guilty of mur-
der in the first degree, and the
defendant Jerry Cobb is guilty of
murder in the second degree."

Barrett displayed no emotion at
any time during the progress of
the trial and was not moved in the
least by the verdict, while Cobb
smiled as if pleased that his neck
had been saved.

The prisoners were ordered back
to jail, Judge Long reserving pas-
sing sentence until this morning.
At the opening of court this morn-
ing counsel for Cobb moved for a
new trial, which motion was de-
nied, and he was sentenced to 25
years in the penitentiary at hard
labor. Appeal to Supreme Court
in forma pauperis was taken.

Counsel for Barrett also made a
motion for new trial, which was
denied, and sentence was passed
upon him to be hanged by the
neck until he is dead on the date
above stated. Appeal to Supreme
Court in forma pauperis was also
taken in his case.

THE RURAL ROUTES.

And How to Increase Mail On
Them.

THE REFLECTOR has recently
referred to the plan of the govern-
ment to abolish rural free delivery
routes that fall below a certain
number of pieces of mail handled
per month, and suggested as one
way to increase the mail handled
on the routes would be for people
already having mail boxes to get
others to put them up and all of
them take more newspapers. We
have already seen the effects of
this suggestion on THE REFLECTOR
subscription list. New names are
being added on the routes and
some who were already taking the
semi weekly have changed to the
daily. This helps up the mail on
the routes, as every semi-weekly
name means eight more pieces of
mail a month and every daily
means twenty-six more pieces.
We have plenty of room on our
list for more new names or for
more who want to change from the
semi-weekly to the daily.

There are six rural routes served
from Greenville and a total of
thirty routes in the county. If the
government plan to abolish all
routes that fall below 2,000 pieces
of mail a month was put in effect
right now a number of these routes
would be discontinued. As we
have said before, more mail boxes
on these routes and more people
taking newspapers would quickly
bring the routes up to the required
number of pieces of mail. It will
not take much talk among your
neighbors to get your route on the
safe side of the line. If anybody
on these routes wants to get up a
club of subscribers for THE RE-
FLECTOR we will pay them a liberal
commission for their trouble.

PROTECT YOUR MONEY.

Do Not Keep it Exposed to
Thieves and Fire.

The Greenville Banking & Trust
Co. mention some facts in their
advertisement that are worthy the
consideration of every reader of
this paper. We have often won-
dered why people would keep
money about their homes, where it
is in danger of being stolen or
destroyed by fire, when there are
good banks in which it can be
deposited and kept safely. There
are in Pitt county today thousands
of dollars that does the possessors
no good whatever beyond the
gratification of knowing they have
so much, while keeping it secreted
somewhere about their homes is a
source of constant anxiety that the
house may be robbed or that fire
may destroy the building and the
money be lost. We never know
when misfortunes of this kind are
coming. The money thus hoarded
is not only a menace to the holder,
but is earning nothing. Why not
put it in the bank where it is free
from the danger of robbers and
fires and be earning something at
the same time?

The Greenville Banking & Trust
Co. has one of the best burglar and
fire proof safes made, it carries
burglar insurance for the protec-
tion of depositors, its officers are
bonded, and it pays 3 percent
interest on time deposits. Some
may think that 3 percent is small
interest when money can be loaned
at 6 percent. That is true, but
everybody who has money cannot
lend it out or does not want to
lend it if they could. It must also
be taken into consideration that
the bank not only pays 3 percent
interest but keeps the money in
absolute safety to be returned to
the depositor when wanted. And
getting 3 percent on it is much
better than having the money idle
at home and getting nothing for it,
while it is exposed to danger at
the same time. Put your surplus
money in bank and let it be earning
something.

Warning To Paper Thieves.

Every newspaper that's worth
the name has more or less annoy-
ance at times by the number of
complaints from subscribers that
they do not receive their papers.
More often the dereliction is sad-
dled off on the carrier boy, but
sometimes the fault lies elsewhere.
In Richmond the past week the
Times-Dispatch had great trouble
with its city delivery and an in-
vestigation developed that the
carriers were being followed by
sneak thieves who lifted the papers
from the front porches of subscri-
bers and sold them. Two of the
culprits were arrested and in the
Richmond police court this week
they were each sentenced to thirty
days on the roads.—Wilmington
Star.

Violating Postal Laws.

It seems that some people do
not know that they violate the
postal laws when they send pack-
ages through the mail marked
merchandise and also include writ-
ten letters in the packages. First
class matter must be sent separate
from merchandise and there is a
penalty of \$10 for sending letters
with merchandise

Fell From Gallery.

An amusing accident, as long as
it did not turn out seriously, hap-
pened in the court room Friday
evening. Just as Judge Long was
about to begin his charge to the
jury in the murder trial, a colored
man in the gallery leaned over too
far and tumbled down on the
heads of people on the floor below.
No one was hurt.

His Greatest Work.

"I suppose you saw the Venus of Milo?" said the eager art student to the young man who had just made a rapid tour of the European continent.

He nodded after a slight hesitation.

"I did," he said cautiously, "and I thought 'twas about the best piece of art over there. Of course that's only my idea."

"Many people agree with you," said the art student approvingly. "It is very fine."

"Well, now, I'm glad to hear you say that," said the returned traveler. "Knowing I'm not really up in art, of course I feel some hesitation in giving my opinion. But, do you know, candidly it didn't seem to me there was another thing of Milo's that touched the Venus or came anywhere near it!"

Outside and Inside.

The ingenuity of people who think they are ill when they are not quite triumphs over any external evidence of health. A very stout German workman went to a physician and complained of being very unwell.

"But," said the doctor, "if you are sick it has not prevented you from getting pretty comfortably fat."

"Oh, dot fat!" said the German. "Yes, I am fat on de outside, but on de einside—ach, I am so poor!"

The First Letter.

In London one evening I was looking for the Alhambra, said an American traveler. Not knowing exactly in which direction to go, I stopped to inquire of a passerby, when suddenly the name of the theater escaped me entirely, so I was obliged to ask: "Do you know where that large theater is near here? It begins with an A." The man replied at once, "Oh, you mean the Aymarket, sir."

Not So Flattering After All.

Why Not Own a Home?

REAL ESTATE IN GREENVILLE IS A
Safe investment.

Secure a Good Location while there is an opportunity to do so at

Reasonable Prices and on Easy Terms.

I have devided that splendid property, just east of the town limits in South Greenville, into convenient lots for home-seekers and will sell them on easy terms. There is no better location for homes anywhere around Greenville. High elevation, level, and convenient, being only a few minutes walk from the business part of town. This property is just outside the corporate limits, yet those who reside there will have the benefit of the graded school, and be as near to the churches, and depot and postoffice as are the people in many parts of the town, being only three hundred yards from Five Points, nice neighborhood adjacent to the property. Talk it over with me and let me show you these desirable lots. No better time than NOW to buy. Greenville will grow rapidly in the next few years and property will be higher. Catch the opportunity before it is too late.

A Story of Wellington.

It is related of the Duke of Wellington that once when he remained to take the sacrament a very poor old man went up the opposite aisle and, reaching the communion table, knelt down close by the side of the duke. Some one came and touched the poor old man on the shoulder and whispered to him to move farther away or to rise and wait until the duke had received the bread and wine. But the eagle eye and quick ear of the great commander caught the meaning of that touch and that whisper. He clasped the old man's hand to prevent his rising and in a reverential undertone said: "Do not move. We are all equal here."

The Brahman's Clock.

The Brahman's clocks divide the day into sixty hours of twenty-four minutes each, called ghurees, according to the Indianapolis News. Occasionally a twenty-four minute sand glass is used, but more commonly a copper bowl with a very small hole in the bottom of it, this bowl being placed on the surface of the water and gradually filled. If the hole in the bottom is correctly sized the bowl sinks in twenty-four minutes. This registers the duration of the ghuree. An attendant thereupon empties the basin and strikes the hour of the day or night on the gong.

She Stocked Up on Prayers.

One little girl that I know of is so sleepy when she starts for bed that it is occasionally hard work for her to make up her mind to finish the good night prayer. A few nights ago she dropped her head upon the pillows earlier than usual. She wasn't very sleepy and at once began to dash off a prayer in refreshing style. The first prayer over, along came another one, and still a third. About this time her mother, surprised at the turn proceedings had taken, asked the little one what she meant by so many prayers.

"Why," explained the little girl, "I'm going to say twelve prayers, now I'm awake, and then I can go two weeks without saying one."—Lowell Courier.

Willing to Compromise.

The poor but honest young man had bearded the millionaire in his den.

"Sir," he said, "I want to marry your daughter."

"Impossible, sir, impossible!" exclaimed the old man. "Why, I would rather give up every dollar I have than part with my only daughter."

"Oh, very well," calmly rejoined the diplomatic youth. "If that's the way you feel about it, I won't be too heavy on you. Just write me out a check for half a million and we'll let it go at that."—Chicago News.

SATURDAY, JAN. 27th, 1906.

THESE BE LOYAL PEOPLE.

The past week has spoken volumes to the credit of the people of Pitt county. On last Saturday night two dastardly crimes were committed, one the attempted assassination of a merchant in Greenville and the other the brutal murder of the constable of Farmville township while in the discharge of his official duties. In the first instance, in less than forty-eight hours after the commission of the crime the would-be assassin was captured, tried, convicted and sentenced to twelve years in the penitentiary. In the second instance, in less than a week after the crime the murderers are tried, convicted and sentenced—one to death and the other to the penitentiary for 25 years.

Though the people felt outraged at these crimes, they were calm and waited for the law to take its course. Not a word of rash talk have we heard, nor even a hint that any one desired to do violence to the perpetrators of these crimes. Large crowds were in attendance during the trials in court and at no time was there any indication of disorder. The people were gratified at the progress made in prosecuting the cases, and are satisfied that the result meets the ends of justice. It shows the law abiding spirit that prevails.

As Pitt county is to have a hanging, let us all hope that it will not be public.

The Durham Herald will please note that Pitt county is going to have a hanging.

It is getting time for Durham to report a hanging. Another murder has been committed in that town.

Wonder if it would not be a good idea to get the President to try his hand at hunting blind tigers in some of the dispensary and prohibition towns before he goes to Africa in quest of the real article.

The old story of a train knocking a cow off the track and throwing the animal with such force against a man as to kill the man, has been received. This time it is reported to have happened over in Virginia.

The bill has passed Congress to admit Oklahoma and Arizona to statehood. Under the provisions of the bill Oklahoma and Indian Territory shall constitute one State to be known as Oklahoma, and Arizona and New Mexico shall constitute one State to be known as Arizona. The terms of admission must be ratified by the residents of the territories in question before they become States.

To the Cotton Growers of North Carolina.

Every county cotton association president is requested to call a meeting of farmers at the court house of his county to be held Saturday, Feb. 3, at 11 o'clock a m.

Every cotton grower, business and professional man, and all others interested in the general prosperity of North Carolina are cordially invited to attend this meeting, which will be the most important yet held in the new year. Business and professional men are in liberal sympathy with the tremendous cotton movement in the South, and they are desirous of encouraging the planters in their efforts to win their rights, and of co operating with them to achieve the objects of the Southern Cotton Association. We are working for their interests as well as for the welfare of the farmers. If we prosper, they prosper also.

Farmers, are you familiar with the cotton situation? Do you realize that we occupy ground which can be held only by our exerting ourselves earnestly, honestly, practically, and unanimously; and that if you go backward, this movement, which is for your emancipation from the treacherous markets controlled by gamblers and speculators, will be lost?

Be careful what you do. Learn the conditions which effect this mighty crop. Then do your duty. If you plant more land in cotton this year than you did in 1905, you will sell your staple at a low price. But if you are wise, and remain loyal to the association, your cotton will bring you a living price and also a profitable one.

Farmers, this is your work and your opportunity. It is to support you and your family, to provide you with the necessities and comforts of life and to educate your children. It is for all the farmers. The tenants and one-horse farmers are wanted and needed in the association as much as the larger producers. The man behind the plow is the salvation of the State, and the hope of the Southland.

I shall endeavor to secure speakers for every meeting on the 3rd of February and these gentlemen will be thoroughly informed in regard to the cotton situation. They will speak facts, worth knowing and remembering. The leading farmers of your county will address you.

February the 3rd, is to be a grand rally day in the cotton growing counties of North Carolina.

Let the cotton growers turn out en masse, and sing:

"Long Live King Cotton."

CHARLES C. MOORE,
President N. C. Div.
Southern Cotton Association.

The Glory of the Farmer.

The glory of the farmer is that in the division of labors it is his part to create. All trade rests at last upon his primitive activity.

He stands close to nature; he obtains from the earth the bread and the meat. The food which was not he causes to be. The farmer was the first man, and all historic nobility rests on possession and use of land. Men do not like hard work, but every man has an exceptional respect for tillage and a feeling that this is the original calling of his race; that he himself is only excused from it by some circumstances which made him delegate it for a time to other hands. If he has not some skill that recommends him to the farmer, some product for which the farmer will give him corn, he must himself return unto his due place among the planters. And the professions has in all eyes its incident charm as standing nearest to God, the first cause.—Ralph Waldo Emerson.

The school book question is again about to be on the stir in State circles at Raleigh. A number of the officers of State and others are already making a study of text books, in view of the expiration of the present contract for books, July 1, 1906. The sub-commission will meet in June, after appointment by the governor, and the text book commission will meet in July, the State Board of Education constituting this last named commission. This decision will be announced in time for the publishers chosen to have their books in readiness by the opening of the schools.

A waiter who was suing New York city for damages, testified that his weekly salary was \$6, but that the tips he received brought the sum up \$40, to which is added about \$20 a week extra for work at night banquets. Such disclosures ought not to be made public. They are calculated to make college professors, clergymen and other professional men who have to worry along on a few dollars per, envious and recalcitrant.—Durham Sun.

A committee of Atlanta citizens, headed by John Temple Graves, editor of the Atlanta Evening News, has started a movement to celebrate in Atlanta, January 19, 1907, the centenary of the birth of General Robert E. Lee. It is proposed that the celebration shall be national in character and that the North and South alike shall be asked to join in the tribute to the Confederate General.

An exchange rightly observes that if a man has anything to give away and will let it be known, he can easily find all the hogs in the community.

AIDS TO LONGEVITY.

Ten Sensible Suggestions Which Are Not Hard to Follow.

Most writers, ancient and modern, agree on the following circumstances as favorable to longevity:

1. To be born of healthy, long lived parents.
2. To live in the temperate zone.
3. To live in the country and much in the open air.
4. To be accustomed to daily labor.
5. To be temperate in eating and drinking.

To which may be added these ten commandments of hygiene from a French medical review:

1. Rise early, retire early, fill your day with work.
2. Water and bread maintain life, pure air and sunshine are necessary to life.
3. Cleanliness prevents rust. The best cared for machine lasts the longest.
4. Practice frugality and sobriety.
5. Enough sleep repairs waste and strengthens; too much softens and enfeebles.
6. To be sensibly dressed, with freedom of movement and sufficient warmth.
7. A clean and cheerful house makes a happy home.
8. The mind is refreshed and invigorated by distractions and amusements, but abuse of them leads to dissipation and dissipation to vice.
9. Cheerfulness makes love of life, and love of life is half of health. Sadness and discouragement hasten old age.

A PROSPEROUS MAN

A Man to look prosperous should be well dressed.

Clothes count for more than anything else when first impressions are formed.

Good Clothes help a man along in life—there are no two ways about it.

Good Clothes are not expensive, if bought at the right place.

To put it plainly, we'll say our new Suits and Overcoats are as good Clothes as any Men need wear.

Our prices will not prevent your buying for we never charge more for a garment than it is worth.

We can make a Man look prosperous in short order without material damage to his purse.

CAPITAL \$100,000.00

SURPLUS \$25,000.00

During its first six months existence the company has demonstrated to the people of North Carolina that they not only save money by buying life insurance at home, but that the Greensboro life gives more protection than is afforded by other companies. The people of North Carolina believe so strongly in the Greensboro Life Insurance Company that they are giving it more business than any other company is writing in the State.

"THE BEST LIFE INSURANCE POLICY IN THE WORLD"

is the unanimous verdict of the people who have bought the Greensboro Life's superb INCOME INDEMNITY POLICY. This is the most satisfactory life insurance contract ever devised. It carries insurance to its logical conclusion by protecting both the insured's life and his earning power. It pays double insurance in case of accidental death, and in the event of total and permanent disability or incapacity, the policy becomes paid up and participates in the profits of the company. Dividends are guaranteed and may be used to reduce the number of annual premiums.

Lung Warmth Means Health

A Chilly Feeling in the Lungs is Dangerous— How Pneumonia is Cured

"That medicine makes me feel warm right there," said the boy, tapping his chest. His mother had just rubbed Gowan's Pneumonia Cure over his chest, covering it with a bit of flannel. The powerful remedy passes quickly through the skin and gets to its work of healing and stimulating the lungs. The comforting glow of healthful lung action had come back to the boy.

Healthy lungs are warm with their own busy life. A chill at your lungs means danger. A cold nearly always attacks the lungs.

Detect them. Help them resist the threatening pneumonia and consumption, and at the same time cure your cold. Do it by the natural, harmless method.

Put Gowan's Pneumonia Cure over your chest. If the throat is sore, rub that also. Cover with flannel cloth. Do this at night. Next morning your cold or sore throat will be cured. Gowan's positively cures pneumonia—has

Badly Out of Shape.

Eight-year-old Robert is very fond of using high sounding phrases, which he gleans from the conversation of grownups and stores in his mind until a suitable occasion arrives when he may spring them upon an admiring audience.

At breakfast he had heard his father read an extract from the morning paper, the phraseology of which had impressed itself upon his memory, as was evidenced by the announcement he made on his return from school.

"Mother," he said, "a poor pussy cat was run over by the Amsterdam avenue cars, and what do you think? It was crushed out of all likeness to humanity."—New York Press.

Why the Earth Is Round.

It seems as if text books for children were now made so simple as to leave hardly any chance for misunderstanding, but the little folks still continue to commit to memory the words without much thought of their meaning. "How do we know that the earth is round?" asked a teacher of one of her boys. The pupil rose promptly and, with a perfectly stolid expression, answered glibly, "We learn that the earth is round from the following facts," and immediately sat down again, evidently feeling that he had given a full and most satisfactory reply.

A Brave and Simple "No."

An American naval captain was asked why, with his ship in extremity and the waves washing men overboard, he had suddenly hauled down his flag of distress. He and his crew had seen that the British steamer was lowering one of her boats (it rescued them) and had doubted whether a boat could live in that sea. "I said then to my men, 'Shall we let those brave fellows risk their lives to save ours?' and they said, 'No!' Then I hauled down the flag."—London Spectator.

What Will Be the Result?

A train is traveling at the rate of sixty miles an hour, and on the rear platform is a cannon pointing directly away from the direction of the train. This cannon fires a ball at the rate of sixty miles an hour. If the train is going at a specified speed and the ball is fired in the opposite direction, what will become of it? Will the speed of the train and the speed of the ball compensate and the ball drop to the ground as if dropped from a solid stationary platform, or what will become of it?
