NATIONAL BANK ORGANIZES.

Directors and Officers Elected.

The subscribers to stock in the National Bank of Greenville met Monday afternoon in the law office of Fleming & Moore for the purpose of effecting organization. After electing L. I. Moore as temporary chairman and D. J. Whichard temporary secretary, the meeting retired to the mayor's office where more room was available.

A call of the list of subscribers showed that all but about twenty of the five hundred shares were represented, and we do not remember to have ever seen a gathering of business men here take more interest in a matter than was shown in this.

The following were elected as a board of directors for the bank: J. P. Quinberry, L. I. Moore, E. A. Moye, Jr., S. T. White, F. W. Clare, J. L. Perkins, J. B. Harvey, H. W. Whedbee and G. E. Harris.

This is an excellent board of directors. They are all well known business men and represent varied interests as well as different sections of the county.

Immediately after the adjournment of the subscribers to stock the board of directors met and elected L. I. Moore president and J. P. Quinberry vice president. The directors then adjourned to a subsequent meeting to select other officers.

It is expected that the National Bank will be ready to begin business about April 1st.

Grim Reaper Keeps Pace With the Samuel Case.

The Samuel case which has just been concluded in the Federal court, being noted for its legal prominence, will always be remembered as one fraught with death.

The grim reaper has visited the family of five people prominently connected with the case since it was begun.

For each week during its progress death claimed a victim, and now one of the counsel is seriously ill.

In the first week of the trial Judge Adams, counsel for the defense, received word of his brother's, T. J. Adams, death.

A few days afterwards, January 23rd, Mr. Mitchell, a regular juror, was notified of the death of his father.

District Attorney A. E. Aolton received a dispatch last Saturday, stating that his brother, John Q. Holton, was desperately ill. Mr. Holton left at once for his bedside, and reached there in time to be with him the last few hours of his life. He died the following day, Sunday, February 11.

Governor Aycock, counsel for the defense, was also notified of the serious illness of his brother, John Aycock, several days ago. He visited him and had returned to the city. Just before court convened yesterday morning he received a dispatch conveying the sad intelligence of his brother's death.

Not satisfied with this record, death visited the family of Juror Montgomery, and at noon he received word that his brother, Dr. P. T. Montgomery, of Alamance county, was dead.—Greensboro News.

GRIFTON SOCIAL.

Grifton, N. C. Feb. 20, 1906.

Mr. and Mrs. Reddin Jackson entertained at their new and comfortable home Feb. 16th. The guest arrived at eight o'clock and spent the time in pleasant amusement.

At half past nine hearts with names concealed were placed upon the wall, Cupid came forward with bow and arrow and pierced the hearts; then with the lady bearing the name that was on the heart which he pierced, repaired to the dining room, where cake and cream were served.

The color scheme was red, white and blue.

Those present were Leon McGlohon with Miss Sallie Dixon, Warren Munford with Miss Pauline Joyner, Don McGlohon with Miss Sudie Jackson, Roy McGlohon with Miss Kate Hamilton, W. H. Jackson with Miss Estelle Mumford, John Phillips with Miss Martha Baldree, Guy Jackson with Miss May Holton, Adolph Hamilton with Miss Nettie Jackson, Blaney Jackson and Jack Holton.

Each expressed themselves as having spent a very pleasant evening, and wishing Mr. and Mrs. Jackson much happiness in their new home.

Had Seen Enough.

A Concordia Irishman had trouble with his eye and consulted a doctor, says Gomer Davies. The doctor told him to take his choice: that he must stop drinking or go blind. The Irishman turned the proposition over in his mind awhile and said, "Will, I'm sixty years old now. I believe I have seen everything worth seeing."—Kansas City Journal.

A Baby Like the Devil.

Greensboro, N. C., Feb. 19.—It was reported here Saturday afternoon that a colored woman, four miles east of the city, had given birth to a child with claws and wings, resembling the devil, and that it was a judgment sent on her for telling a man who wanted to sell her a Bible that she had as soon buy a devil or a little rather. Yesterday dozens of people visited the house, but no one seems to have seen the child.

Death of John A. McCall.

New York, Feb. 18.—John A. McCall, until recently president of the New York Life Insurance Company, died at 9:32 o'clock this afternoon, at the Laurel House, at Lakewood, N. J., where he had been taken three weeks ago in the hope that the change might benefit his health, which had suffered a breakdown two months ago.

The Daughters of the Confederacy will meet with Mrs. J. R. Moye on Thursday afternoon, February 22nd, Washington's birthday. All members are earnestly requested to be present.

KNITTING MILL REORGANIZES.

New Company Takes the Plant.

The Commercial Knitting Mills is the name of a new company organized here to conduct a knitting mill. The new company has purchased the plant of the former Greenville Knitting Mills that has been closed down for some time and will carry on its operations there.

The Commercial Knitting Mills, which is capitalized at \$50,000, is composed of L. I. Moore, C. O. H. Laughinghouse, W. S. Atkins, C. E. Bradley, D. E. House and W. H. Dail, Jr. At a meeting of the stockholders held Monday night W. S. Atkins was elected president, W. H. Dail, Jr., secretary and treasurer, and L. D. Wade superintendent.

The mill expects to begin operation about April 1st.

PRUSSIA AND ITS RAILWAYS.

In 1904 two Privy Councilors of Prussia were sent to the United States to study American railroad systems. They made a thorough investigation and have made their report, accompanied by official statistics. The superiority of Prussian railroads over American roads is seen in five particulars:

1. Per million passengers carried the American roads killed six times and wounded twenty times as many as the Prussian roads.

2. They found that the average passenger rate in America was 2.02 cents per mile against 0.98 cents in Prussia.

3. The average charge for freight in America is 1.44 cents per ton per mile while in Prussia it is 0.95.

4. The original cost of construction of the Prussian lines was 65 per cent higher per mile than that of the American roads.

5. The American roads receive immense sums for carrying the mails and the Prussian lines almost nothing, and besides the latter carry a volume of postal packages for which the American roads get large extra sums from the express companies.

These five facts are worthy the serious consideration of all who are studying the transportation problem. They show that Prussian railroads are better built, costing 65 per cent more than American roads. That largely accounts for the very much smaller number of accidents in Prussia than in America. There the roads are quick to utilize all appliances that tend to lessen the number of accidents, whereas it too often happens that they are not adopted in this country until the law forces the necessary expenditure of money to protect life. The reason in many instances is that the railroads wish to earn dividends on watered capital and "take chances" on accidents. But the policy is passing away, and the best railroads are spending immense sums for double tracks and all improvements that will give better service and insure better protection to life.—Raleigh News and Observer.

Divorce Convention.

Washington, Monday, 19.—The leaders in the campaign for a uniform divorce law from nearly every State and territory in the United States were present at the opening of the Divorce Convention this morning at the New Willard. In all there were about fifteen delegates present, including a number of governors of States. While a hearty welcome is extended to the convention, there is in Washington a strong opposition to the anti-divorce movement. Washington's secular league last night held a meeting in which much publicity was given arguments in favor of divorce. Mrs. Belleva Lockwood, former candidate for president of the United States, made an address in which she advocated divorce without disgrace.

Governor Pennypacker was elected president, A. M. Eaton, of Rhode Island; C. LaBue Munson, Pennsylvania; B. T. Barton, Virginia, and Albert E. Dabney, California, vice presidents; William H. Staak, of Pennsylvania, was made secretary of the congress.

Glenn Declares Himself Personally in Favor of State Prohibition.

Wilmington, N. C. Feb. 19.—Governor Glenn spoke to an immense audience in the academy of music tonight under the auspices of the W. C. T. U., of Wilmington. His subject was "Temperance," and he was listened to with rapt attention. He declared himself for State prohibition in emphatic terms, but in doing so said he would not commit the Democratic party to that issue; that was a matter for the convention. Neither would he commit the anti-saloon league or the Legislature, these were matters for these organizations themselves. He made a touching appeal in behalf of temperance, and exhorted the people to higher ideals along this line.

A Cigar Story.

A few of the friends of a Broadway cigar dealer enjoy at times high priced smokes for very little money.

The dealer in question carries several lines of one and two dollar cigars as well as one brand selling for \$2.50. These are naturally made of the richest Havana leaf and are especially attractive to an insect which burrows into the cigar, making a hole as large as the head of a pin and perhaps a quarter of an inch deep. The insect does not spoil the flavor of the tobacco. But in the higher priced grades it is impossible to offer for sale a patched wrapper, and so these cigars are laid aside to be sold to the favored ones.

They are grouped with regard to the number of perforations, those with a couple of holes selling for 35 cents each, while others go for as low as 15 cents. A bit of cigarette paper wetted and placed over the hole preserves the draft, and the cigar is every bit as good as those in the case.—New York Press.

Mixed Metaphors.

A butler was convicted of stealing his master's wine, and the judge in giving judgment exclaimed somewhat pompously:

"Dead to every claim of natural affection, blind to your own interests, you have burst through all the restraints of religion and morality and have for many years been feathering your own nest with your master's bottles. Truly it was not a bed of roses."

A Sermon That Stopped a Horse.

Archbishop Tait of Canterbury once made an effective use of a sermon. Driving down Holloway hill, he was confronted by a runaway horse, with a heavy dray, making straight for his carriage. He threw a sermon in its face. The horse was so bewildered by the fluttering leaves that it swerved and paused, the driver regained control, the sermon was picked up and the bishop proceeded on his way. "I don't know," he said to his companion, the present archbishop of York, "whether my sermon did any good to the congregation, but it was of considerable service to myself."

Knew Murphy Well.

When the late Dr. Bartlett of Woburn was pension examiner under the Cleveland administration he was one day examining witnesses. He asked one of them:

"Terence McCarty, do you swear that you know the applicant, Michael Murphy, who has made application for an increase of pension?"

"You may well say that I do," said Terence. "Me and him were shot in the same leg at Antietam."—Boston Herald.

Pity may be akin to love, but it's only a poor relation.

They never gripe or sicken but cleanse and strengthen the stomach, liver and bowels. This is the universal verdict of the many thousands who use DeWitt's Little Early Risers. A good umbrella means a frequent change of owners.

All old time Cough Syrups bind the bowels. This is wrong. A new idea was advanced two years ago in Kennedy's Laxative Honey and Tar. This remedy acts on the mucous membranes of the throat and lungs and loosens the bowels at the same time. It expels all cold from the system. It clears the throat, strengthens the mucous membranes, relieves coughs, colds, croup, whooping cough, etc. Sold by John L. Wooten.

Kindness is the silken cord that binds mankind together.

One Minute Cough Cure contains not an atom of any harmful drug, and it has been curing coughs, colds, croup and whooping cough so long that it has proven itself to be a tried and true friend to the many who use it. No need to fear of your child choking from croup with One Minute Cough Cure handy. Sold by John L. Wooten.

Never judge a man by his looks; lots of fools look otherwise.

Don't deceive yourself. If you have indigestion take Kodol Dyspepsia Cure. It will relieve you. Rev. W. E. Hocutt, South Mills, N. C., says: "I was troubled with chronic indigestion for several years; whatever I ate seemed to cause heartburn, sour stomach, fluttering of my heart, and general depression of mind and body. My druggist recommended Kodol, and it has relieved me. I can now eat anything and sleep soundly at night. Kodol Digests what you eat. Sold by John L. Wooten.

There is no use kissing a girl so that she isn't sure you did:

HAS GREENVILLE BEEN HURT BY CLOSING THE BAR ROOMS?

Is there a man who can now lift up his voice and say that the closing of bar rooms in Greenville has hurt the business of the town? We have heard such said in the past, and there may be some who would even say it now, but proof cannot be produced to sustain such a claim. On the contrary facts are abundant to show that since the bar rooms were closed the progress of Greenville has been greater than ever before. Whether the closing of the bar rooms brought this about we will not say but the facts are here just the same.

For THE REFLECTOR we can say that its business last year was the best of any year in its history. The tobacco warehouses during the season now closing have had much larger sales than during the previous season. The statements of the banks have shown that their business has been of continuous growth. A number of the merchants have told us that their business was larger last year than in any previous year, and it is noticeable that none of them have had to cut down their advertising space because of a falling off of business.

When did you ever know the stock dealers of Greenville to sell so many horses and mules in one year as during the past season? When did you ever know our buggy factories to run out more new buggies than during the past year? When did you ever see people more eager to purchase real estate in Greenville than now? Look how the electric light and water plants have developed and many new customers have been added every month. Look how the telephone system has grown. And just think of a \$50,000 bank being organized and its stock over-subscribed in twenty-four hours as was recently the case.

But why enumerate further? These facts are enough to show the absence of bar rooms is not hurting the business of Greenville, but the town is progressing rapidly without them.

As the jury turned him loose Pat Crowe can crow some more.

Be careful now in saying you work like Beavers. One fellow by that name has worked himself in the penitentiary.

The question of how long it will take to dig the canal is not of near the importance as when will the work begin. Get the work started and stop spending so much in preliminaries and there will be a better prospect of an opening for the ships to go through.

A Greensboro man was put off of a street car and sued the company. He got a verdict for five cents, the price of a car ticket.

Charlotte seems to want a brick partition between the waiting rooms that is impervious to both sight and odor. They should not expect too much.

They are telling how many cars of strawberries are going to be shipped this season long before the plants begin to bloom. Maybe the guess will be in a thousand cars of correct.

MORE MEN THAN WOMEN.

There are 1,840,280 more men than women in the United States, and the same proportions prevail in almost every other country. The only exception is in Paraguay, where there are more than twice as many women as men. This is due to the fact that some years ago, in a political revolution and a war with Brazil and the Argentine Republic, the men were almost exterminated.—New York Commercial.

An aerial photographic instrument which can ascend to a height of 1,500 or 2,000 feet and take a perfect picture of fortifications 30 miles distant, the invention of Prof. George R. Lawrence, of Chicago, has greatly interested the President, who has called for a special report by the army and navy board. If the report be favorable, it is said, the President will see to it that the invention be bought outright by the government. The tests of the apparatus have exceeded the expectations of the inventor and if the actual work in the field comes up to the tests the instrument will prove valuable in time of war.—Charlotte Observer.

The New York Sun will never forgive itself for missing the term of Federal Court just closed here and which has been in session four weeks, for the Sun has more fun over peculiar names than any other paper. It could have found enough here to last it for many months. Just read a partial list of the witnesses, There was Eli Pike, Shadrock, Shaver, John Chubb, as representatives of the finney tribe; Eli Wolfe, Sol Bear, Pat Fox, David Mink, Nelson Coon and Luther Lyon, names that were no doubt handed down from noted hunters. As bearing on the feathery tribe, there were Wm. Bird, John Featherstone, Arey Robins, Andrew Drake, Peter Sparrow and A. L. Hawks. What a time the Sun could have over these.—Greensboro Record.

AUCTION SALE! OF VALUABLE BUILDING LOTS ON BEAUTIFUL WASHINGTON HEIGHTS, MONDAY AND TUESDAY, FEB. 26TH AND 27TH.

The Washington Investment Co., invites investors, and the public generally to be present at the opening of their new property, "Washington Heights" on Monday and Tuesday Feb. 26th and 27th.

Sales will be conducted on the grounds, beginning 10 o'clock each day. Terms of sale: 10 per cent of purchase price cash, balance 3 1-2 per cent of purchase price per month until paid.

No interest will be charged on deferred payments and no taxes. Each purchaser will be given coupon at time of first payment: One coupon in the lot will entitle the holder to one extra lot, in addition to those purchased. Rail Road fare will be allowed off the 10 per cent cash payment, to out of town purchasers within 100 miles of Washington. Company give bond for deed. As an investment these lots are far above Government Bonds; there is not a building lot within two miles of the City Hall of Washington, that will not bring 50 per cent more than it can be bought for today, within two years. Numbers of lots in Washington have doubled in value within the past two years, some have trebled, and others have increased four and five times. Washington Heights lies just beyond the corporate limits of Washington; the plot contains 165 acres of open land which the Washington Investment Company has divided into business and residential lots 50 by 150 feet in size; the streets and avenues are 60 feet wide. The plot is beautifully situated, being on a high rolling plateau some 30 feet above tide level, and giving a grand view of the broad Pamlico river, and the town of Washington in the near prospective, and not more than fifteen minutes walk from the City Hall. One hundred, only, of these lots will be sold during this sale. As an investment these lots offer the very best opportunity ever offered you. Remember the date Monday and Tuesday Feb. 26th and 27th, 1906. Come yourself and bring your friend.

Washington, N. C.

North Carolina People Caring for Themselves

"The sentiment in favor of Home Insurance Companies is stronger in North Carolina than in any other Southern State," was the remark made a few days ago by the representative of a Life Insurance Company who travels through the South. This fact speaks volumes for the future welfare of North Carolina and shows that our people are learning to care for themselves instead of relying upon others. They are caring for themselves in increasing numbers by buying from THE GREENSBORO LIFE INSURANCE COMPANY.

THE SUPERB INCOME INDEMNITY POLICY.

Which is recognized as the best Life Insurance contract yet devised. The best evidence of the superiority of this contract is to be found in the fact that more North Carolina people are buying the Income Indemnity Policy than are buying the Policies of any other Company. This Policy costs no more than others, but it affords a great deal more protection. It pays double Insurance in case of accidental death and becomes fully paid up for life in the event of total permanent disability or incapacity. Dividends are guaranteed and may be used to reduce the number of Annual Premiums.

Catskin Rug.

A lady residing near London has a hearth rug which is probably unique. It is composed entirely of the skins of her deceased feline pets. As her cats died she had the skin of each tanned and added to the rug, which is now complete and contains the skins of fourteen dead "pusies." The rug is entirely of one color, black, as the lady in question has always made a point of keeping cats of that color. On the reverse side of each skin there is an inscription recording the name of its dead owner and the period during which he or she was the lady's property.

Many other publications are desirable, and you may prefer this or prefer that fiction and art publication, but the Review of Reviews is necessary. Substantial American men and women are going to keep up with the times and they are going to take the shortest cut which is the Review of Reviews.

The Cosmopolitan

A leading magazine for 18 years. With the recent change of ownership it has been improved. It is far better in every respect, and aims to be the best in the field. Every year or so there's one notable advance in the forward movement among the many magazines. This year it is the Cosmopolitan.

Woman's Home Companion

The Woman's Home Companion is for every member of the family. For our bright, earnest, cultured, home loving American woman it is an ideal entertainer and helper in a thousand congenial ways; but the fathers and brothers and sons join in its perusal by the fireside; children eagerly turn to the pages that are written for them!

The American Farmer is the leading Agricultural paper of the country, and pertinent to farming, live stock and poultry raising. Every farmer should have it

THE AVERAGE JURY.

As a Rule Its Verdict Is About Right In Doing Justice.

The average jury will sit for an hour or so listening attentively to the evidence, "sizing up" the witnesses, and particularly the defendant, bringing to bear their knowledge of the conditions prevailing among the class and in the part of the city in which the crime was committed, and will then file out to the jury room, through the closed doors of which can be heard loud and often heated and profane wranglings, which will suddenly cease, and then they will come filing back with a self satisfied air and deliver a verdict which in 95 per cent of cases is just about right when looked at from the broad point of view of doing substantial justice. Keeping in mind that the defendant's guilt must be proved beyond a reasonable doubt, it is but seldom that a fair minded prosecuting officer can quarrel with the verdicts of acquittal rendered in the county of New York. Frequently juries will disagree in the most exasperating manner, owing to the presence of "the eleven obstinate men." But when a verdict is rendered it is safe to say that it is a vindication of the wisdom of the fathers in leaving the question of the guilt or innocence of a citizen to the judgment of twelve of his fellow citizens. Before that body the innocent man may gladly come, assured that his fellow citizens composing it desire to acquit rather than convict and that their combined intelligence and knowledge of men will appreciate and sympathize with his embarrassment or slowness of wit, while the guilty man dreads the scrutiny of those twelve stolid common sense faces, for whose composite he knows he is no match, and with reluctance does he break the silence which was formerly imposed upon him by the law.—C. C. Nott, Jr., in Atlantic.

THE CANADIAN.

He Is Sturdier, Slower and Less Nervous Than the American.

Writing of the differences between Canadians and Americans, a correspondent says: "The differences are mostly of degree. The superb self confidence of the average American woman as she walks abroad, the licensed obtrusiveness of children, the perpetual degeneracy of conversation into story telling—these characteristics are less marked in Canada than in the United States. In fact, Canada presents as yet a sub-American variety of civilization, though in some ways rapidly assimilating to the United States. Physically the Canadian seems to be a sturdier stock of heavier build, slower moving and less nervous than the American. This is particularly applicable to the women, whose movements and conversation are quieter and who are without the hunted look in the eyes which marks so many Americans.

"It may be that the colder climate exercises some moderating influence, but probably the chief explanation of these differences lies in the fact that most Canadians are country born and bred. There are few large cities, and even the dwellers in these cities keep up a most constant contact with country life. Nowhere in Canadian cities does one see the profusion of luxury and waste visible in New York or Chicago. Though most persons seem to live in fair comfort, there is no class of millionaires dominating 'society' and making the form and pace for servile imitation among the less wealthy classes.

"Hunting and fishing, with their accompaniments of camping out, play a large part in the national life, sport not having degenerated into the merely gambling and spectatorial habits. Altogether, the Canadian lives a healthier life. Even busy cities like Toronto and Montreal conduct their business life more quietly than cities of corresponding caliber in the United States."—Chicago News.
