AYDEN ITEMS.

Newsy Notes From a Hustling Town.

AYDEN, N. C., Apr. 17, 1906.—For some time Mr. W. I. Jenkins has been missing eggs from his geese nests, and thought a dog was the thief. He got some strychnine and put it in a egg in one nest and yesterday he went out and instead of a dog he found a fine dead fat 'possum. Billie says he'll be durn if he ain't sorry, for he was counting on that 'possum surely next fall.

Next Saturday 21st inst. A. A. Fortes, of Greenville, will be in Ayden, for the purpose of organizing a Southern Cotton Growers' Association. A large attendance of the farmers is very much desired. This association is growing very fast and is proving very popular among the farming class.

B. F. Manning, Henry Nelson, Marion Crawford and Capt. Whitehead all came over from Winterville Sunday and spent the afternoon.

Sunday was a beautiful day, and everything and everyone seemed to partake of and enjoy its beauty to the fullest. Easter was observed in the Methodist and Episcopal churches. The exercises in the Sunday schools were just splendid. The spirit which seemed to infuse those who were directly interested was contagious and the entire program was so excellently executed as to cause both surprise and pleasure at the aptness and sincerity. Indeed Sunday was a lovely day and the occasion will not soon be forgotten.

J. H. Manning, of Winterville, was here Friday.

Misses Helen Quinerly and Julia Bready went to Greenville Friday afternoon and returned Saturday evening.

Mrs. J. W. Quinerly has returned home from her visit to Greenville.

Misses Hennie Brown, Lillian Munn, Alice Taylor, Mary Long Whitehead, Mesdames F. G. Buhmana, George Cooper, W. J. Boyd G. W. Prescott and Prof. T. Cooke Covington attended the teachers' institute Saturday.

Rev. Mr. Barfield and wife went to Greenville Saturday on a visit to friends and returned yesterday.

Mrs. Sarah Patrick, from near Greenville, has been visiting the family of C. L. Patrick.

Charlie Nobles and bride left for their home in Virginia yesterday.

Misses Gussie and Annie Lawrence, two very charming young ladies of the Winterville High school, spent from Friday until yesterday with Mrs. Jos. Dixon.

Noah Jackson and family, of Greenville, have been visiting the family of C. R. Williams.

J. L. Keene, of Grifton, was here Monday on business.

Merrimon McKinney, of Washington, after a visit of several days to his mother here, left for his home this morning.

Odd Fellows meet tonight. Work in the initiatory degree. Brothers come out, remember the hour is 8 o'clock. Visiting brothers cordially invited.

R. L. Carr, N. G. E. E. Griffin, Sect'y.

BUILD BATH HOUSES.

And Provide Pleasure and Comfort.

Nothing adds more to the health and comfort of people, especially in warm weather, than bathing, and no bath surposes a plunge in enough water to swim around. After a day of labor in summer nothing is more invigorating, more refreshing, than a plunge in the water. It drives away fatigue and puts the body in condition to enjoy a night of sleep and rest. With Greenville situated right on the bank of the river it is a little remarkable that our citizens have not long had the benefit of such a luxury. It is never too late to do good, and The Reflector is going to offer a suggestion that if adopted we believe will be a profitable investment for the promotor, and be a source of much recreation and comfort to the people of the town. It is that bath houses and a pavilion be erected on the river. The river front near the foot of Washington street would be a good location for this purpose. The bath houses and pavilion could be far enough back from the river and of sufficient height to be beyond the reach of high water, with a walk way and steps leading to the river. The river bottom near the place indicated is smooth and sandy and would afford an ideal place for bathing.

The renting of bath suits and privileges would be profitable.

Now who will take hold of this and give Greenville a lot of solid comfort and pleasure the coming summer?

BLACK JACK ITEMS.

Black Jack, N. C. April 16, 1906.

There were regular services here Saturday night and Sunday, with very large congregations.

Elder Tom Barnhill, accompanied by his father, spent Saturday night with H. J. Smith, near here.

Miss Maud Holiday, of Grimesland, accompanied by Miss Fannie Dixon, of Greenville, attended church here Sunday.

A. O. Clark, of Grimesland, spent Saturday night and Sunday with his father, W. L. Clark.

G. S. Porter went to Grimesland Saturday.

Mrs. G. S. Johnson has gone to spend sometime with her daughter, Mrs. O. E. Whichard, near Whichard.

E. L. Clark went to Greenville Saturday.

Miss Helen Galloway and F. O. House attended church here Sunday.

Miss Bessie Adams spent Saturday night and Sunday with her sister, Mrs. Abram Dixon.

G. G. Gabriel, of Washington, was here Monday.

Elper A. A. Tyson, of Rocky Mount, conducted services here Sunday night. His many friends were glad to see him, as it had been a long while since he was here.

C. L. Burroughs and wife spent Sunday at Robert Dixon's.

R. M. Elks, T. J. Talley and T. F. Proctor, of Grimesland, were here Sunday.

TRAGEDY NEAR BETHEL.

Unknown Parties Attempt to Drag Man From His Home.

Bethel, N. C. April 17.—Sunday night at 2 o'clock a crowd of men went to the home of Mr. W. J. Teel, about 3 miles from Bethel, broke down his door, went in to his bedroom and attempted to take him out. Mr. Teel had his pistol convenient, and as the men got hold of him and were pulling him along he began firing at his assailants. He says he put the pistol in one man's breast and fired and also shot at another man's head, discharging four shots in all.

Mr. Teel called to his son who was up stairs to bring down the gun, and at this the crowd became frightened and fled. He is sure he hit one of the men, and also exhibited a hat worn by one of them which had two pistol balls in it.

Mr. Teel did not recognize any of his assailants but says they were white men; and there were six or seven in the party. He found several large switches near his house and thinks it was their intention to whip him. He was not hurt at all.

The affair has caused much excitement, and was one of the most outrageous deeds ever committed upon an innocent man in the community.

TROUBLE AT MERRY-GO-ROUND.

Manager Fined and Boy Gets a Whipping.

Will Barnes, the young man in charge of the merry-go-round, was before Mayor Wooten this morning on the charge of assaulting Oscar Brown, a son of C. O. Brown.

Boys have been making themselves very troublesome around the merry-go-round by jumping on and off the machine. Monday young Brown was among the number causing the trouble and was very persistent about it. Mr. Barnes put him off the machine, when the boy cursed him and got back on it and Barnes slapped him off, handling the boy roughly.

Mayor Wooten fined Barnes \$5 for the assault and let the boy go on condition that his father administer proper punishment, which was promised.

The trouble caused by the boys in jumping on the merry-go-round ought to be stopped. The proprietors of it pay the tax charged by the town and are entitled to official protection against annoyance and dead beating.

Which is Best?

We overheard a squad of old time anglers arguing as to which was the best pan fish. Each one enlarged on the merits of his particular favorite, when the argument narrowed down to the white perch and the river robin with honors about even between them. They are both hard to beat.

District Deputy's Visit.

Greenville Lodge No. 284 A. F. & A. M. had a pleasant visit Monday night from Deputy Grand Master C. L. Pridgen, of Kinston. The lodge enjoyed an address from him and was benefitted by his instruction in the work. There was a very large attendance at the meeting.

THE SEVEN AGES.

A little laugh,
A little fun,
A blossom bordered
Way to run.

A getting tall,
And serious, too,
And then to school
To labor through,

Then blossom bordered
Ways of love—
Just two on earth
And stars above,

Then to the altar;
Then away
To homely cares
Of every day.

Then joys untold,
Then new delight,
A baby crying
In the night!

Then something more
Than parents' glee
A grand child climbing
On your knee.

And then to sleep;
Green sod above,
But life's worth living
For the love. —Houston Post.

Sr. Cooking Club.

Reported For Reflector.

Saturday afternoon at the home of the president, Miss Mary L. Smith, the Senior Cooking Club was charmingly entertained.

Miss Smith in her usual graceful manner presided over the meeting. After the business part of the meeting was over, she entertained her guests with a very interesting contest, which a number of the guests had to cut for. Miss Mattie Moye King being the lucky one, was awarded a very nice book.

Delightful refreshments were served which had been prepared by the hostess and guests.

As the sun was sinking in the west the guests departed, declaring Miss Smith an ideal hostess. The next meeting will be with Miss Mattie Moye King, Saturday April 21st.

THE BANK OF ENGLAND.

Hidden Guards Always Watch Those Who Enter or Leave.

Thousands swarm past its portals every week day hour, never suspecting the presence of two men who are invisible, yet who are so close to the traffic of the street that they might almost arrest the passing pedestrians with outstretched hand.

These two men are detective officers of the city police, and from 9 o'clock in the morning till the bank closes they never leave their posts, at least not together. If one has occasion to be absent for a moment the other always remains; but, generally speaking, they face each other the whole day long.

Why are they there? The explanation is that there is never any knowing when they may be wanted. There is a species of gentry to whom the Bank of England is always prime game. Bank notes, again, for various good reasons, are always being stopped, and there is never a moment when a stopped note may not be presented by a shady character. When this happens one of the alert watchers appears in the note room as if by magic.

As has been already said, they are rarely seen until they are wanted. In the wall which divides the main entrance into two portals is constructed a sitting box of joinery and glass, and here, facing each other, in constant readiness, the two officers sit throughout the day. The one with his back toward the street can observe every person who leaves the bank, whether on his right and or on his left. The other, with his face toward the street, can similarly see every person who enters through the gates. But neither incomer nor outgoer can see the two watchers until he comes almost abreast of the box.

It is when the clock of the Royal Exchange strikes 3 p. m., heralding the last hour of business, that the officers are most alert, for it is in the bustle of the last hour, especially of the last half hour, that anything may happen.

One rogue may hope to pass a stopped note, a second may attempt to pass a forgery, a third may be looking for an opportunity to whip off with somebody's cash bag, and a fourth may try to loaf unobserved until the doors are closed in the hope of a chance to make a haul.—St. Louis Globe-Democrat.

Over His Limit.

Marshall Field of Chicago was a kindly man and never intentionally said anything that would cause pain. A Chicagoan, according to the Troy Times, praising Mr. Field, said: "Mr. Field spoke ill of no one, and when his opinion was asked of a person and it was not a favorable opinion he would express it in such a gentle and quaint way that its sting would be quite lost. Once at a dinner I praised the conversational talent of a man across the table. I said to Mr. Field, 'Do you know him?' 'I have met him,' the other answered. 'Well, he is a clever chap,' said I. 'He can talk brilliantly for an hour at a stretch.' Then when I met him," said Mr. Field, "it must have been at the beginning of the second hour."

MAKE SALT FROM THE OCEAN

All the salt produced in California is obtained by evaporation from ocean water, there being but few salt springs or wells. Probably not less than twenty-five large salt plants are in operation around the lower arm of San Francisco bay. It is estimated that the total output of salt per year in Alameda county alone reaches 100,000 tons, while not less than 50,000 tons are annually produced in other parts of the state. The salt produced from sea water has no superior in the world in strength and purity. There is every grade produced, down to the very finest table salt, by certain refining processes. The salt output of California is shipped to the northern states of the Pacific coast, British Columbia, Mexico, Central and South America, Hawaii, Japan, Russia and even the Philippine Islands.—Technical World.

Day and Night Doctors.

Physicians in Germany propose to divide the day and night between them. They object to being subject to the call of their patients at any hour of the twenty-four. The patient is not to be left in the lurch, however. His opportunity to spend his money on medical attendance is not to be curtailed. The German doctors propose, as a matter of simple justice to themselves, a day of twelve hours. This means night and day shifts, and as doctors need rest the same as all other human beings and can do their best work only when they have it, the change proposed seems to be as clearly in the lay interest as in that of the profession.

Oxen in the South.

The ox is essentially the moving power of the lumber world in the south in spite of the fact that every big mill throughout that section owns and operates from twenty to thirty-five miles of railway, where-with the logs are brought in. A yoke of oxen, work animals, is worth \$100; the yoke itself, with bows and all appurtenances, \$250, and then there are to be added about forty feet of two inch chain, a cart hook and a good ax. Five yoke constitute a team, and on a good road, with a good team, using a modern up to date wheel wagon, one can haul seven tons, 14,000 pounds.

ALL OVER THE HOUSE.

How to Bleach and Stiffen White Leghorn Hats.

To renovate white leghorn straw hats that have become slightly soiled wash in hot soap and water (white curd or castile soap for preference), then in clean water, and carefully brush with a stiff nail-brush and remove all dust and dirt. Then dip it in a thin size made from parchment cuttings or white gelatin. Shake off the excess and hang it up to dry. If the hat has become yellow it will probably need bleaching. This is done by exposing it to the vapor of burning sulphur while it is wet. It may also be cleaned as follows: Well brush it to remove the dust and dirt and wash it with salts of lemon (binodate of potash), using a hard nail-brush or toothbrush. Then rinse the hat in cold water to remove any traces of the acid and stiffen as described above. The hat, if properly cleaned, will not require bleaching. Should any of the salts of lemon stain the clothes of the operator the stains may be immediately removed by sponging with liquid ammonia.

The Chorus Girl's Prize.

Our old nobility has ever been of the way of drawing its new blood from the stage. Just as Napoleon's soldiers were said each to carry a field marshal's baton in his knapsack, so may every chorus girl imagine that in her makeup box lurks a peerage.—London Chronicle.

TUESDAY APRIL 17th, 1906.

Vesuvius and Prophet Dowie have both about become quiet since their eruptions.

Charlotte ought not to overlook getting a man right from Vesuvius to attend the big celebration.

Charlotte keeps in luck all along the line. Champ Clark, the famous Missourian, has been secured as orator for the 20th of May.

When Greenville gets an active chamber of commerce or board of trade representing all business interests of the community, it will be filling one of the most important needs.

The Atlanta Journal says Vesuvius "has gotten in the same class with football games and railroad wrecks." That may be true so far as the damage goes, but in the case of Vesuvius there is no danger of suing the company.

Brooklyn baseballites dodged the law against Sunday games by not charging an admission fee but taking up a collection, dropping the hint that all were expected to contribute as much as the price of admission. A way of "whipping the devil around the stump."

The small boy is responsible for a good many troubles in this world. One put his head in a church at Chicago while service was in progress and shouted "fire." A stampede in the congregation followed in which three persons were trampled to death and many others seriously injured. In the meantime the boy saw the mischief his attempt at fun caused and ran away.

People seem so prone to take chances and even though experience is a dear teacher the lesson is soon forgotten. The recent eruptions of Mount Vesuvius that caused so much ruin of property and loss of life, recalls that history records numerous such devastations. The late eruption has become quiet and work has already started looking to rehabilitation of the ruined districts. The people show a willingness to take chances that there will not be a recurrence of the eruption, at least in the lifetime of the present generation. But it is a dangerous risk, to say the least of it.

It has almost reached the point in North Carolina that if you kill a man in cold blood, and have money and influential friends, you can get out of it by paying the State a large sum. There is entirely too much of this favoritism going on and we are of the opinion that it should be stopped. If there was a few more hangings and a less number of penitentiary sentences, we believe the evil would soon cease to a great extent. —Durham Sun.

MORE NEWSPAPERS NEEDED.

We have noticed that the men who have regular employment fifty-two weeks in the year are, as a rule, our best citizens. The loafers and idlers—those who have no regular employment and don't want any regular job, are the ones who are heard from most in the courts. "An idle brain is the devil's work shop," and he turns out his work with ease through an idle brain and idle hands. Therefore, one way to exert a moral influence is to attend well to your own affairs and keep busy!

A reasonable number of newspapers coming into a home every week is a mighty good investment. And in view of the recent decision to abolish all rural routes that do not handle as much as 2,000 pieces of mail per month, it would be well for patrons on the weaker routes especially to get a hump on themselves and take more newspapers. We know some one-horse farmers who take from half a dozen to a dozen papers, and they consider it one of their best investments. You'll find such a man well up with the times. He reads these papers in his idle moments and does not lose any unnecessary time from his work. We have heard some people say they didn't have time to read even one paper. The truth of the matter is there's nobody that doesn't have plenty of time to read several papers, if he has any inclination to read and keep himself informed.

If a man takes no interest in papers himself, he ought to take them for the benefit of his children, for the newspapers constitute a big factor in educational influences. A boy or girl will read the local happenings before they become interested in other classes of literature. The papers create the incentive for other classes of printed knowledge and leads them on to a greater desire for literary information, and it's a mighty sorry man that doesn't want to raise intelligent children. Take more papers. It will pay in something that is more beneficial than dollars and cents—Our Home.

FIRST ANNIVERSARY

OF

F. M. HORNADAY'S

General Insurance Agency.

On April 14th, 1905, we opened our doors to the people of Greenville and adjoining community, earnestly soliciting a share of their patronage. As a result of our labors we have gained the confidence and friendship of the vast majority of the insuring public and on this our happy anniversary, we wish to return to them our thanks for more than

One Hundred and Fifty Thousand Dollars

of Life insurance placed through his agency in addition to many thousands of dollars in Fire, Health, Accident, Burglary, and Plate Glass insurance which we also control. The enormous volume of business during our first year, and the great superiority of our contracts, have placed us in a position, as representatives of the leading insurance companies of the world, to successfully meet competition, and our earnest wish is that those desiring insurance give our contracts a thorough examination.

Having spent a pleasant and successful year in Greenville we wish to state that "We Are Here To Stay" and shall appreciate a share of YOUR patronage.

Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatine.

Kodol

Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

Digests What You Eat

Rests the stomach, rebuilds the tissues and gives firm flesh.

A Puzzle.

I'm essential to every game of cards;
I'm part of a watch or clock;
I'm used as a measure in stable yards
Where horsemen and jockeys talk.

I'm a man who works for a weekly wage;
I'm part of the human frame;
Though I'm often "lent" or "given away,"
I belong to it just the same.
(Answer—Hand.)

Syllable Enigma.

My first is laid at the door;
My second is made into bread;
My third none can live without;
My whole is the happy state which perpetuates human life.
Answer—Mat, rye, money, matrimony.

How He Won Him.

"Tommy," said Mrs. Blimber to her eldest hopeful, "pass the Rev. Mr. Todgers a potato."

Tommy seized the potato between a thumb and finger, and before his mother could utter a horrified remonstrance he had tossed it across the table and squarely into the good man's lap.

"Judgment!" cried Tommy.
"One strike," quoth the good man.
"Tommy, leave the table!" shrieked his mother.

"Madam," said the pastor, "do not judge him harshly. See how beautifully he put the sphere over the plate."

And now there isn't a more earnest worker in all the big Sunday school than that same Master Tommy.

FOR THE LITTLE ONES.

How to Perform the Penetrative Quarter Trick.

To perform this trick you must have a handkerchief with a quarter sewed up in one corner of it. Take your handkerchief out of your pocket and ask some person in the company to lend you a quarter, which you must seem carefully to wrap up in the handkerchief, but at the same time keep the quarter in the palm of your hand, and in its stead wrap the corner in which the coin is sewed into the middle of the handkerchief and bid the person who loaned you the coin to feel that his money is there. Lay the handkerchief under a hat upon the table, take a glass or teacup in the hand that holds the quarter, place it under the table, under which knock three times, saying: "Presto! Come quickly!" Then let the quarter drop from your hand into the glass. Take the handkerchief by the corner that holds the sewed in coin and shake it, and, the coin not being there, it will appear to have passed through the table into the glass or teacup.

The Game of "Hidden Hearts."

To play the game of "hidden hearts" pretty little pear shaped candy boxes are provided. In each box is hidden a dainty gift. The boxes are then concealed about the drawing room, hall, etc. Attached to each box is a long piece of twine or baby ribbon. The ribbons are wound about the rooms as for a spider party. The object of the play is to find the treasure attached to the piece of ribbon assigned the player.
