## SENSATION IN CURRITUCK.

Elizabeth City, Sept. 6.—News was received here from Currituck court house this morning, that Joshua Larrison, one of the oldest citizens of Currituck county, was yesterday indicted by the grand jury of Currituck Superior Court, now in session, upon the charge of being an accomplice in the causes by which Kenneth Beasley, the young son of Hon. S. M. Beasley, disappeared more than a year ago.

A capias instanter was issued for Mr. Harrison and today he was held under arrest by an officer, pending the giving of bail. Joshua Harrison's name has been connected with this affair ever since the child disappeared.

The disappearance of Kenneth Beasley, Feb. 23, 1905, created a profound sensation in the State and remains an unsolved mystery, toward the possible solution of which the arrest of Harrison is the first step. Detectives scoured the country in vain and allefforts to locate the missing boy were futile.

## BUY A LOT AND BUILD.

Prices Will Never be Lower Than at Present.

The tobacco market is in full blast, the fall season is opening, trade is picking up, money is getting a little more plentiful, and the spirit of get up and hustle will be in evidence. When such times come the desire gets hold of some people to own a home. There is not a better time for them to think seriously of this than right now. If they are waiting for property in Greenville to get cheaper, that time is not going to come. On the contrary the building of another railroad is going to bring in more people with a corresponding increased demand for lots and the price is going to be higher. It will be wise to buy a lot while they can be had on easy terms.

Sam White has a beautiful plot of property in South Greenville, just beyond the town limits but only a short distance from the business portion of the town, that a few months ago was put on the market for residence lots. He has sold a number of these lots and nice residences have gone up on some of them and others are building. He has more of these desirable lots that will be sold at reasonable prices and on easy terms. If you wait until these nice lots are all sold and then have to pay a high price for less desirable ones elsewhere, it will bill by your own fault.

## RALLY DAY.

Tomorrow is rally day at the Baptist Sunday school and the effort will be made to have the largest attendance in the history of the school. The exercises will be interesting and everybody is invited to be present.

## No Court in Creene.

This week court was to have been held in Greene county by Judge T. J. Shaw, but owing to his sickness and inability to get to Snow Hill the court was adjourned for the term.

## WINERVILLE NOTES

### Interesting Items from Our Hustling Neighbor.

Winterville, N. C. Sept. 8th.

An informal but a most enjoyable reception was given in the auditorium of Winterville High school Friday night. Quite a large number of the citizens of the town and surrounding community were present, and of course the large crowd of students now in attendance at school was there also, to become better acquainted with one another and to receive the hearty handshake and the cordial welcome that the people of Winterville always have for the pupils of Winterville High school.

After some introductory remarks by Prof. Linebery, Miss Bessie Sams, our most excellent music teacher, rendered a delightful instrumental solo. Then Messrs. J. D. and A. G. Cox, members of the executive committee of the board of trustees, came forward and made short but very appropriate addresses of welcome to the student body to come to the homes of the citizens of the town. We are always pleased to have these gentlemen with us because we know that they have every interest of the school at heart.

Editor D. J. Whichard, of Greenville, was present and sang two beautiful solos. When he comes we know exactly what to depend upon. He is an excellent singer. He took us all by complete surprise last night in closing one of his songs "Robinson Crusoe's Isle," with an original double chorus that was a local hit on the school. This was so much enjoyed and the pupils made such eager request for the words that he consented for them to be published:

Crusoe once came to Winterville,  
The town Mr. Cox built all round his mill,  
He found the best school on any hill,  
With Lineberry pie; when the pupils came  
Nye,  
He said it filled his head with whirrs,  
To see such a fine lot of boys and girls,  
He'd stayed off yet had there been such a  
school  
On Robinson Crusoe's Isle.

Robinson Crusoe, he never knew  
Until he came here and found it true  
A Boushall of pretty teachers were here too  
So sweet and smiling, and so beguiling;  
There is Barker who will not bite,  
And one who sings sweet Sams at night,  
He never found such teacher's as these  
On Robinson Crusoe's Isle.

Prof. Ragsdale, of Greenville, was then introduced and gave us an excellent address. He says that he always is glad to come to W. H. S. because there he gets his inspiration for his years' work. He told very beautifully and feelingly of the experience of his school days, of his decision to get an education his leaving home and his first impressions at school. We never heard a more fitting address for students than his was last night. We want to assure Prof. Ragsdale and Mr. Whichard that they always have an abiding place in our hearts and that there is always a hearty welcome for them at W. H. S.

Miss Laura Cox left for LaGrange today, where she will begin her work as one of the teachers in the graded school there. We wish her much success. Miss Estelle Cutler, of Washington, is visiting Mrs. B. T. Cox.

Miss Sarah Barger, who has been visiting in Norfolk, returned home this week accompanied by Miss Clifton Harris.

## COLE BROTHERS SHOW.

### In Greenville Thursday, 20.

There is a grand gala holiday treat in store for the residents of Pitt county when Cole Brothers United Shows will give an afternoon and evening performance in Greenville Sept. 20th. All work and dull care will be forgotten by old and young alike while this enormous tented amusement enterprise is in the city. The magnitude of these famous shows is almost beyond description this year. In planning for the current season, the Cole Brothers made certain that their shows would be second to none in all the world. At the very outset they combined their numerous exhibitions, retaining only the most salient features of each, discarding threadbare and securing only the newest features to be had. Every corner of the earth was searched for the rarest of animals, birds and reptiles for the triple menagerie; experienced trainers were kept employed all through the past winter breaking stock and educating different denizens of forest and jungle; contracts were negotiated with the most daring of aerialists, acrobats, tumblers, equestrians and other performers to be found both here and abroad—all this and much more having been accomplished by Cole Brothers, they are now enjoying the fruits of their endeavor. Wherever they exhibit they are accorded royal welcome and liberal patronage. Two full hours are consumed in the presentation of the imperial big show programme and every minute of the time there is something doing in the rings, upon the elevated stages, in the air or upon the vast hippodrome track. The festivities of the day will be inaugurated by the magnificent free street display, which will leave the grounds promptly at 10 o'clock in the morning of the above named day and date for a tour of the main thoroughfares. With the parade's return to the lot and again at 6.30 p. m. a series of out-door exhibitions will be given absolutely free. The big performance will begin at 2 and 8 p. m. and as the main doors will be open an hour earlier ample time will be afforded patrons to enjoy a tour of the menageries, visit the equerry and to also hear the promenade musical by Prof. Tinney's famous band

was here Wednesday to enter his daughter, Miss Olivia, in W. H. S. He is making arrangements to move here soon.

### Quinerty School.

Mr. L. J. Chapman, of Grifton, was here Friday and told us that the handsome new building for Quinerty school, to take the place of the one burned last winter, has been completed. The school opens Monday, 10th, under most favorable auspices and with an excellent corps of teachers as any school can show.

### Electric Show.

Gave the finest electric show in Opera House Monday night ever seen in our city. Judging from frequent applause and laughter the large audience was thoroughly splendid.—Editorial Emporia Messenger.

This will appear in Masonic temple opera house Monday night. Seats on sale at Reflector Book Store Monday.

### THE WEATHER.

Fair tonight and Sunday.

Yearly meeting at Briery Swamp tomorrow.

This pretty weather makes us almost forget the long bad spell recently passed through.

Farmers are not going to trouble much to bring in new cotton with the price so low as at present.

The Ladies Aid Society of the Methodist church will meet Monday afternoon with Mrs. H. L. Carr.

The teams and equipment going through town from the depot to the railroad camps look almost like a continuous caravan.

The editor spent Friday night very delightfully at Winterville and will have something to say later about the splendid school here.

## ALL OVER THE HOUSE.

### Directions For Making Dill or Dutch Pickles.

Take a big stone jar that will hold at least four gallons, or a keg without a head. Select cucumbers from six to eight inches in length, wash and wipe carefully so as not to bruise. Add two pounds coarse salt to three gallons of water, boil and skim, replacing the water that evaporates so as to keep the same quantity. Put a layer of cucumbers in the bottom of the jar, with one small African red pepper, a bunch of dill seed in stalk and a layer of green grape leaves to cover. Proceed in this way until the vessel is filled. Then cover with a layer of cabbage leaves. On the very top put a good, big flat stone. Pour in the hot salt and water and let the vessel stand while a quiet fermentation takes place. In two or three weeks the cucumbers are done and should be transparent like amber, with a subacid flavor.

### The Kitchen Sink.

Whether a kitchen sink be iron, enamel or stone it should stand on four legs with all its drainpipes exposed to full view. A very clever physician once said, "If I am called in to a case of diphtheria the first thing I look at is the kitchen sink." The danger arising from a badly kept sink cannot be exaggerated, nor can any degree of care in avoiding it be considered extreme. The waste pipe from a kitchen sink should have boiled water and ammonia or washing soda poured down it each day. At least once a week it should be treated to a dose of some good disinfectant, such as chloride of lime.

### Apple Chutney.

Put into the preserving kettle one quart of vinegar, one cup of seeded raisins, two green peppers and two onions minced fine, rejecting the seeds of the peppers. Two cups of brown sugar and two tablespoonfuls each of mustard seed, ground ginger and salt should then be added. Simmer two hours, then add sixteen tart green apples peeled and chopped and cook gently another hour. Put into small bottles and seal.

### A New Window Screen.

It is said that a fly never walks downward. Acting on this hint, a clever housekeeper has devised a window screen designed to conduct all the flies out of doors. The screen is divided in two halves and the upper laps over the lower with an inch space between. A fly lights on the screen and travels upward till he walks outdoors. Not being able to walk down, he has no way of re-entering the room.

It's the only medicine known that penetrates into every organ of the body and stays there. It's the best tonic in the world—Holgate's Rocky Mountain Tea. Tea or Tablets, 35 cents.—Wooten's Drug Store.

### Modest Claims Often Carry the Most Conviction

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, colic, cholera, pains in the stomach and bowels and has never been known to fail. For sale by J. L. Wooten.

Are your bones aching, are you tired, nights restless, is your liver trouble, energy low? These are signs of low vitality. Holgate's Rocky Mountain Tea will make you well. 35 cents. Wooten's Drug Store.

DISFASE AMONG HORSES

In connection with the recent outbreak of staggers among the horses in Hyde county, and the spread of the disease to other counties, Congressman John H. Small wrote to the bureau of animal industry of the U. S. Department of Agriculture, requesting that an expert be sent to investigate the trouble and suggest a remedy. The expert could not come at the time, but the following letter was sent which has been given us for publication because of its general interest:

Washington, D. C., Aug. 9, 1906

Dear Sir:

In response to telegrams and a letter received from Hon. John H. Small, and letters from Dr. N. M. Gibbs, of Seantou, N. C., concerning a fatal disease of horses and mules now prevalent in Hyde county, requesting that an expert be sent to that section to direct the handling of the situation, with a view to arresting the disease, I regret to state that no bureau veterinarian is immediately available for this service. But in lieu of the personal presence of an expert we could only render service in one locality at a time, it would seem probable that this method of addressing many by letter concerning the disease may be more fruitful of good.

The descriptions given indicate that the disease is staggers, or so-called cerebro spinal meningitis, similar to the outbreak which occurred in Hyde county in August, 1901, when Dr. Hickman of this bureau was sent there at Congressman Small's request. The disease exerts its most marked effects on the great nerve centers: brain, and spinal cord, and is usually rapidly fatal which facts, especially in acute cases, render attempts at curative treatment unsatisfactory or useless. The mildest attacks are usually manifested by a partial paralysis or loss of control over the legs or loss of power over the tail. The appetite is impaired and there is apt to be difficulty in swallowing. The mucous membranes of the eyes and nose are congested of a reddish brown color. In the more severe forms violent trembling, stupor, great weakness, or paralysis may appear suddenly. The animal staggers and falls to the ground and there may be an entirely inability to swallow. Another common symptom is rigid contraction of the muscles of the back, neck, and loins; the parts being tender to the touch. Paroxysms of delirium set in sooner or later, complete stupor and paralysis appear, and death occurs in from five to forty-eight hours. In the treatment of a disease of such a nature and so fatal, prevention must be the first consideration, and it depends primarily upon the re-

moval of the cause. Outbreaks seem to be invariably traceable to unsound or moldy forage or feed, or to contaminated water. The disease has been experimentally produced in horses by giving them water to drink which had been previously percolated through moldy silage. Horses at pasture may contract the disease when the growth of grass is such that it mats together, the lower part dies and ferments and becomes moldy, or by drinking water from wells or pools containing surface water which has drained through decomposing and moldy vegetation and contains organic matter.

TREATMENT

Animals should be removed to a clean dry, airy building, and the old building thoroughly cleaned and whitewashed. The lime wash should contain four ounces of chloride of lime or four ounces of crude carbolic acid to each gallon. Animals should not be returned until the stable is thoroughly dry. At the onset of the disease a purgative must be given, such as an ounce of aloes in the form of a bolus, or ball in which one or two drams of extract of belladonna has been incorporated or mixed. If difficulty in swallowing should prevent this form of medication, a half a dram of barium chloride or 1 1/2 to 2 grains of eserine should be administered hypodermically. The horses should be put in slings, if at all able to stand with their assistance. Iodide of potassium in dram doses can be given with advantage in advanced stages and in convalescence. Cold applications to the head are commended. If a complete change in feed and water is made and the animals given none but sound feed and forage and pure water, the development of new cases may be prevented, and treatment as above may be expected to save some of the less acute cases, but it is important to remember that prevention is the form of treatment to be depended upon.

Very respectfully,  
A. D. MELVIN,  
Chief of Bureau

Business men of Greenville why do you persist in wasting the days of opportunity in which so much could be done for the advancement of the town. There was never a time when more favorable opportunities for making this one of the best towns in the State surrounded us than right now, and the thing to do is be up and take advantage of these opportunities. Instead of this there is no concert of effort, no united action, no cooperation, but just a moving along in the some old ruts of every man for himself. By all means a chamber of commerce should be started without further delay and all interests work together to build up the town. The town needs a representative body of this kind to speak and act for it. Come together men and be doing something.

### Saved His Comrades Life.

"While returning from the Grand Army Encampment at Washington City, a comrade from Elgin, Ill., was taken with Cholera Morbus and was in a critical condition," says Mr. J. E. Houghland, of Eldon, Iowa. I gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged ten years in immigration work and conducted many parties to the south and west. I always carry this remedy and have used it successfully on many occasions. Sold by J. L. Wooten.

### Summer Diarrhoea in Children.

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system. Rev. M. H. Stockland, pastor of the First M. E. Church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by J. L. Wooten.

### CONDENSED STORIES.

How a Celebrated Statesman Was Treated to a Surprise. Famous men are sometimes just like other men in the eyes of children. One day the celebrated Edward Everett was riding along a road in Massachusetts. At length a bright and sunny girl got into the cars and took the vacant seat by his side. He entered into conversation

THE STATESMAN SMILED.

with her and was much entertained by her fresh and vivacious comments. When the train was entering Boston he determined to give her a pleasant surprise and so said blandly: "Now, would you like to know who it is with whom you have been talking?" "Oh, yes," answered the girl, upturning her burning cheeks. The statesman smiled benignantly. "I am Mr. Everett—Mr. Edward Everett," he said. "The girl started in amazement. She could not believe that she had met a man of her rank and position. She became oppressive. Finally she said to herself, 'I must have been mistaken.' She repeated—'do you know me?'"

Witness my hand and seal, this July 19th 1906. D. C. MOORE, A. SUGG, C. S. C. Atty for Plaintiff.

### "Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by J. L. Wooten, Druggist.

### In Self Defense

M. J. Hamm, editor and manager of the Commercial Appeal, Memphis, Ky., writes: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by J. L. Wooten's drug store.

**A HUMOROUS PATIENT.**

Surgery has much to gain from spinal cocainization, says Robert Jones, a Liverpool surgeon, in the Medical Press. He advocates this process in cases where patients cannot or will not take other anaesthetics. The resulting insensibility to pain lasts more than an hour, but the patient often develops abnormal loquacity.

Mr. Jones tells of an operation in which he cocainized the spine. It was that of a big man, who as soon as he had taken two or three whiffs of chloroform jumped off the operating table and scampered away. This happened twice, and Mr. Jones tried cocainization, injecting cocaine into the cerebro spinal fluid. By this means a troublesome operation of cutting out bones in the leg was safely carried out. The man, an old poacher, meantime regaled the doctors with stories of his art, only once interrupting, when the surgeon was chiseling a bone, to ask, "What is that knocking?"—London Mail.

**Fall of the Bicycle.**

In one of the principal streets, where the tide of commerce flows strong, the sign "Bicycles Stored" stands out from the wall of a building where bicycles were much stored eight years ago. "Yes," said a man in charge, "there was a time when we kept the wheels of business men and clerks during the day, and it was a paying thing too. Our regular customers paid us by the month, and there were over 200 of them. Then every day we took care of the wheels of from twenty to fifty transients. How many do we have now? None—exactly none. The men who rode on bicycles to and from their offices never ride wheels downtown and, as far as that goes, rarely ride at all. It's all off; nothing doing."—Philadelphia Record.

**COUNTY CONVENTION**

By direction of the Republican County Executive Committee for Pitt county, a convention of the people of Pitt county is hereby called to assemble in the court house in Greenville Saturday Sept 15th, 1906 at 12 o'clock for the purpose of nominating candidates for the various county offices, and to transact such other business may come before the convention. The people are requested to meet at the several voting precincts of the county on Saturday the 8th day of September, 1906, at 3 p. m. to nominate candidates for Justices of the Peace and Constables for their respective townships and to appoint delegates to attend the county convention. It is suggested that all citizens who desire to affiliate with the Republican party in this campaign, and see to a good opposition county ticket in the field, be invited and requested to act as delegates from their respective townships to the county convention.

The time has come, when two well organized and active political parties in Pitt county is essential to the proper administration of public affairs and the preservation of the independence and rights of the people. Prominent speaker will address the convention.

**A LIQUID COLD CURE  
—AND—  
LAXATIVE COUGH SYRUP**

The Red Clover Blossom and the Honey Bee on Every Bottle.

"A Cold or a Cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Nearly all other cough cures are constipating, especially those containing Opiates. Kennedy's Laxative Honey and Tar moves the bowels, contains no Opiates.

**KENNEDY'S  
LAXATIVE  
HONEY AND TAR**

Relieves Colds by working them out of the system through a copious action of the bowels.

Relieves Coughs by cleansing and strengthening the mucous membranes of the throat, chest, lungs and bronchial tubes.

For Croup, Whooping Cough, La Grippe, Influenza, Bronchitis, and all Coughs, Colds, Lung and Bronchial affections no remedy is equal to Kennedy's Laxative Honey and Tar. Children like it.

Put up in 25c, 50c and \$1.00 bottles at the Laboratory of E. C. DeWitt & Co., Chicago, U.S.A.
