HOOKERTON DISTRICT UNION.

Meeting in Christian Church of Greenville.

The Union reassembled Thursday morning with devotional exercises by J. J. Harper.

The State secretary made his report on district help on the State work, which was followed by discussion on future work.

On motion it was ordered that the donation of district funds to the work at Macesfield be continued for one year and that the funds be placed in the hands of the board for that purpose.

The question of continuing the present plan of holding district meetings was discussed by A. J. Moye, J. J. Harper and J. B. Jones, and on motion it was decided to hold one district meeting on the fifth Sunday and Saturday before as heretofore.

Ayden and Bountrees petitioned for the next Union and Bountrees was unanimously selected.

The following were elected officers for the ensuing year:

B. H. Jones, president, A. J. Moye, vice-president, L. H. Cox, secretary and treasurer.

The report of churches was again called and Farmville responded with M. L. Moye, delegate.

E. A. Moye delivered an address on the subject "Has the Christian church as represented in the churches any marked influence in society and business methods?"

"Revival method on the Sunday school method in church" was discussed by R. H. Jones.

"Atlantic Christian College and the District's Responsibility" was the subject of an address by J. J. Harper.

R. H. Jones, L. H. Cox and Joe Stroud were appointed as program committee.

A vote of thanks was tendered to the people of Greenville by the visitors for their kind hospitality.

At 1:20 p. m. the Union adjourned to meet with the church at Bountrees Dec. 29th and 30th.

A Blue Thursday.

We have heard people talk about blue Fridays, but The Reflector got its blue day this week on Thursday. To begin with the electric plant had to make some repairs which necessitated cutting off power part of the day. After power was restored, right in the midst of the hurry to catch up the lost time, a rod in our newspaper press broke and brought the paper to a stand still. But for the kindness of Mr. H. T. King in granting us the use of his press, The Reflector could not have been printed, as repairs on our press could not be made until this morning. Transferring forms and paper from one office to the other caused more delay, but we got out after a while feeling glad that there is a way to overcome difficulties.

THE WEATHER.

Rain tonight except fair in northeast portion, warmer in extreme western portion, Saturday ain.

AYDEN ITEMS.

Newsy Notes From a Hustling Town.

Ayden, N. C. Oct. 5, 1906

Miss Cora Spier after visiting friends here returned to her home in Kinston Thursday.

Mrs. R. B. Parker from Falkland, came Wednesday to visit her sister, Mrs. J. T. Smith, Sr.

Mrs. Orel Manning, of Winterville, has been visiting friends in Ayden during the week.

Misses Nora Smith and Ella Wayne left yesterday to visit in Greenville.

Mrs. W. E. Hooks and Miss Nina Cannon spent the day yesterday in Winterville.

Train Held Up—Last Tuesday a crew and conductor on a working train got hilarious at Parmele and thought they would somewhat change the general routine of their usual avocation. Filling up they started for this end of the road. Arriving at House they concluded to make a short stop and take in the city, the result of which the conductor received a thrashing from the agent at that place. Deeming their surroundings a little warm they concluded to come further on. In the mean time orders from headquarters came down the line to stop the mad career. At Winterville the signal to stop was displayed without effect. Here again the signal to hold up met their gaze and they stopped. The agent here promptly called a halt and here the train remained until next day. The conductor and crew when last heard from were looking a job. So endeth a happy spree.

C. A. Fair returned from Greensboro Tuesday evening.

The rise in cotton is bringing the fleecy staple to our market. The cotton weigher is a busy man. 10c.

We want everybody to read the ad. of J. R. Turnage & Co., in the Semi-weekly Reflector. We can recommend them as doing business strictly on a business principle. The best goods, quick sales and small profit.

Schools, cotton and money makes Ayden a lively town.

W. C. Jackson, H. E. Ellis and M. G. Bryan from this section have been drawn to serve as jurors in the Federal court at Newberne during the present month.

Mrs. E. L. Brown spent Tuesday afternoon in Kinston.

There is a movement on foot to purchase the elegant oak grove in front of the graded school and convert it into a park.

Mrs. C. A. Fair spent a day in Winterville this week.

Miss Lida Morrison has returned from the northern markets. See her notice for inspection of millinery next Wednesday.

A. D. Johnston, of Winterville, has been here during this week.

W. J. Boyd, who has been off on a long business tour has come home.

Lil Cannon, who has been with M. M. Sauls in the drug store for so long will leave in a few days for Greensboro where he will take a special course in pharmacy.

PROGRAM FOR TEACHERS MEETING.

Saturday Oct. 13th 1906.

10 a m—Devotional exercises, Rev. J. A. Hornaday

10:10 a m Election of officers, and general organization.

10:30 Exhibition of globe making, Supt. H. B. Smith.

11 a m Address, the Teachers' opportunity this session. Gov. T. J. Jarvis.

11:30 a m What shall be the character of the associations work this year. General discussion.

12 a m Paper. What can be done for our school rooms? Miss Bettie Wright.

12:15 Organization of a Woman's betterment association.

1 p m Adjourn

This is the first meeting of the association and I desire to make a special request of every teacher in the county to be present. You cannot afford to miss this, if you expect to do good work this session. Nothing tells me more plainly of your lack of interest in your work than your absence from these meetings, and I say frankly to you in the beginning that unless you attend you need not expect to have your vouchers signed when presented. I propose that each one of us shall bear his part in these public gatherings and the teacher who is not willing to do so ought not to be in the work in this county. It matters not whether your school has opened or not you are expected to attend. I desire at this meeting to get a list of the teachers and where they will teach. If you are not present you and your school may be left out and in such case you could not complain. I beg you to be present. Let us begin the work with every teacher here on time and ready to enter heartily into the program.

W. H. RAGSDALE,
Supt. of Schools.

Millinery Opening.

Next week will be one of special interest to the ladies because of the three millinery openings to take place at the stores. C. L. Wilkinson & Co. will make their display on Monday and Tuesday, and C. T. Mumford and Mrs. L. Griffen & Co. will have theirs on Tuesday and Wednesday. Each of the firms will have an attractive opening.

It is Good

One of the Richmond papers published that Pawnee Bill's Wild West show was no good. The show was in Washington Thursday, and people who saw it there say the Richmond report is incorrect as the show is a good one.

STRUGGLE WITH FIEND.

Young Lady Repels Vicious Assailant.

Tarboro, N. C., Oct. 4.—Last night about 10 o'clock a negro entered the home of a merchant here and made a desperate attempt to assault Miss Kidd, a visiting young lady. She was alone in her room preparing to retire and was standing in front of the mirror combing her hair when she saw the brute's face in the glass. She wheeled around and was confronted by him. He said to her: "Give me that ring" Miss Kidd handed it to him and then endeavored to escape, but the brute seized her and began choking her. She screamed and fought desperately to free herself from his grasp.

A little child that was sleeping in the room began crying and this frightened the negro, who released his hold and the young lady fled to another room where she procured a pistol.

She returned and fired at the negro as he jumped out of the window. In the struggle the lady was bruised about the face and chest, there being blood stains on her clothing. Her screams and the pistol shot attracted an immense crowd of indignant citizens. When they reached the residence Miss Kidd, from the shock and fright, was in an hysterical condition, requiring the service of a physician. She was so excited and frightened that it was difficult to gain any information from her last night.

This morning, however, she is calm and describes the negro as being black, of medium height and whom she would readily recognize.

About one hundred citizens immediately gathered and endeavored to apprehend the negro.

The feeling in this community is running pretty high and doubtless had the negro been caught last night or today he would have been lynched. It is recalled now that a strange negro has been seen lurking about that vicinity recently sequestering himself in the shadows of the trees as if on the watch for somebody, but as he always moved along whenever he was interrogated nothing more was thought about the matter. The young lady thinks that the negro must have entered the house in the evening very quietly and secreted himself behind her bed. Who ever the negro was, he must have been one who knew the house well and the habits of the Milleis still better.

The young lady is wonderfully handsome, is only about nineteen years old, and has been here just a few weeks. She visited here last summer and has many friends in this town.

The Universalist convention began here today in DePhina Moye chapel. Quite a number of delegates are in attendance.

You may have seen circuses and circuses, but there has not been one through this section before like Pawnee Bill's Wild West Show that is coming tomorrow.

PERSONAL MENTION.

Chas. Skinner went down the road Thursday.

Rev. F. D. Viehe returned Thursday evening from South Carolina.

Mrs. Julia Nelson of Baltimore is visiting her brother, R. L. Humber.

Dr. E. A. Moye left Thursday afternoon for Philadelphia to see his brother, R. M. Moye, who is in a hospital there.

Col. F. G. James left this morning for Newport News to attend the launching of the North Carolina as a member of the governor's staff

TOWN MATTERS.

Proceedings of the Aldermen.

The board of aldermen met in monthly session Thursday night, all but one of the members being present.

Action on a controversy between W. T. Fleming and L. Fleming regarding a lot in the cemetery was postponed until a report can be had from the cemetery committee of the previous board.

Alderman Moseley was made chairman of the street committee and Alderman Carr was added to that committee.

The market committee reported the market house thoroughly cleansed and in better condition than it had been.

The cemetery committee reported that the work of enclosing the cemetery was nearly completed.

The committee on sewerage reported that Engineer Ludlow had been written to but no satisfactory reply received as to when he would take up the work.

The agreement entered into between the mayor and county commissioners relative to laying the line of sewer from the river to the court house was approved.

The several officers made their usual reports which were approved.

Licenses to the following were granted to W. C. Hines and J. H. Starkey, and to run a colored pool room to Hopkins & Short.

Orders were drawn on the treasurer amounting to \$907.20.

DEMOCRATIC SPEAKINGS.

The candidates of the Democratic party in Pitt county will speak at the following times and places:

Fountain, Tuesday, Oct. 9.
Bell's X Roads, Wednesday, 10.
Gardner's X Roads, Friday, 12,
Ayden, Sunday, 13.

Senator Overman will speak with the candidates at Ayden on the 13th, and will also speak in Greenville that night. Everybody invited to attend these speaking.

The tobacco warehouses had large sales today.

The cotton market is something to watch now.

The county campaign will open Tuesday at Fountain.

A HORSE'S HARNESS.

The Exact Way It Should Be Fitted to the Animal.

To fit a harness to a horse is the simplest of operations, and only neglect and the good nature and patience of the animal allow any departure from exactness. Few browbands fit as they should, but are so loose that the ears are painfully pinched. Blinkers carelessly kept become warped out of shape and seriously obstruct vision, while if they flare or the cheek pieces are too loose they lose their effect in the one case and are dangerous as affording glimpses of the following vehicle in the other. Bits are generally too wide rather than too narrow; bridoon bits too thin and sharp, curb chains are often sharpened or "roughed" through carelessness or too tightly drawn. Collars are often too much bent at the top. Our horses are rather straight shouldered as a rule, and sore or chafed necks are very frequent in consequence.

Pads are usually broader in the tree than is best, especially if a horse is light in flesh, and the ridge suffers unless a housing is worn. When placed well back, as they should be, however, they generally fit better, and the girth does not chafe the thin skin at the elbows. Breastplates generally are far too loose, dangling aimlessly about, whereas they have vitally important duties to perform in handling the load. Backbands, if tight, are always dangerous, as inciting to a kicking scrape, especially if the crupper is not thickly padded. Tight girthing is never necessary. The breeching should hang in the right place and be just tight enough to come into play when traces slack, without that length which leaves it dangling about, and stopping the vehicle with a sudden jerk. Pole pieces should, while controlling the pole head instantly, not be drawn so tight that the horses are jammed against the pole, nor should they dangle loosely about. No strap ends should stick up or out, but everything be snugly billeted. As a rule backbands are made long enough for a dromedary and girths big enough for an elephant, with from four to six holes each, that are never visited by a buckle tongue. Nose bands should have a lot of holes, close together, and be used when needful to assist biting. At all events they should fit snugly. Throatlashes should always be quite loose. Coupling reins should be long, with several holes at bit ends. The hand reins should have more holes and rather closer together than usually punched.—F. M. Ware in Outing Magazine.

How Houdon Was Saved.

During the reign of terror David had Houdon, the sculptor, arrested and wished to have him guillotined, as he had declared war against all the artists, his colleagues. Mme. Houdon went to Barrere and urged him to save her husband. "I see no way," Barrere said. "But tell me, for which of his works has he been imprisoned?" "For a statue of St. Scholastica," said Mme. Houdon. "What does she look like?" "A fine woman, with a scrap of paper in her hand." At that moment entered Collot-d'Herbois. Barrere said to him: "Houdon has made a statue of Philosophy meditating on the revolution. You must have it bought by the assembly and placed in the room in front of the assembly room and declare that Houdon has deserved well of the country." This was done, and Houdon was saved.

Tennis.

Tennis was first played in the early part of the sixteenth century in England and France. Matches for considerable wagers were frequently held, and rather than give up the game many men played for parts of their wearing apparel after their money was gone. In England toward the last of the century covered tennis courts were erected, and nearly all the nobility played, including the women. Henry VII. was a devoted follower of tennis, and Henry VIII. was also fascinated by the sport. The first royal tennis match was played between this monarch, with the Emperor Maximilian for a partner, against the Prince of Orange and the Marquis de Brandenburg. Charles II. was the first person to adopt a tennis costume.

Modest Claims Often Carry the Most Conviction.

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. what they do claim is that it will positively cure diarrhea, dysentery, pains in the stomach, cholera and has never been failed. Such occurrences as the one in Tarboro, Tuesday night, when a negro entered the room of a visiting young lady and attempted to assault her, are calculated to bring on lynchings. Doubtless there would have been on in this case had the negro been caught. If race troubles come from causes of this kind the negroes themselves will be blameable for it.

In suits: Long Coats are the thing, with long, narrow lapels and semi-shaped backs. The newest idea is to have no vent in back, though men men prefer side or centre vents. All coats are "three button" this year, and those cut either "straight front" or nearly so, are considered the best style. Colors are mostly dark mixtures,—black, blues, and browns,—though greys are still very popular. Plain colors are always stylish.

"Make Hay While the Sun Shines"

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the snows which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. Sold by J. L. Wootens, Druggist.

Young ladies should be most particular about their looks. Don't attire yourself carelessly; be faultlessly dressed, and Helliter's Rocky Mountain Tea will do the rest. Tea or Tablets, 25 cents. Wootens' Drug Store.

The End of the World

of troubles that robbed E. H. Wolfe, of Bear Grove, Ia., of all usefulness, came when he began taking Electric Bitters. He writes: "Two years ago kidney trouble, caused me great suffering, which I would never have survived had I not taken Electric Bitters. They also cured me of General Debility." Sure cure for all Stomach, Liver and Kidney complaints, Blood diseases, Headache, Dizziness and weakness or bodily decline. Price 50c. Guaranteed by J. L. Wootens' drug store.

Saved His Comrades Life.

"While returning from the Grand Army Encampment at Washington City, a comrade from Elgin, Ill., was taken with Cholera Morbus and was in a critical condition," says Mr. J. E. Houghland, of Eldon, Iowa. "I gave him Chamberlain's Colic Cholera and Diarrhoea Remedy and believe saved his life. I have been engaged ten years in immigration work and conducted many parties to the south and west. I always carry this remedy and have used it successfully on many occasions." Sold by J. L. Wootens.

Summer Diarrhoea in Children

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system. Rev. M. H. Stockland, pastor of the first M. E. church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by J. L. Wootens.

Odd Theories as to the Location of Paradise and Hades.

Hell and heaven beliefs had their origin about the year 150 B. C., and since that time there have been thousands of attempts to locate these places, the one of future punishment and the other of everlasting happiness. The old mediaeval idea of hell is the one which gives us to understand that the devil and his imps have their furnaces and their caldrons and other articles of infernal utility constantly working somewhere within the bowels of the earth. On the other hand, we are told and believe that heaven is an abode of light, beauty and joy located far above the earth. One writer believes that heaven will be on a planet which will be prepared for the saints in the last day, and another believes that this earth, burned over and purified by fire, will be the final resting place of those who escape the horrors of perpetual punishment in the hell that has been prepared "for those who love sin." Dr. Whiston, the friend of Sir Isaac Newton and the first of the great race of "speculative astronomers," believes that hell is located on a comet.

But the most curious theory we have ever investigated was that advanced by Dr. Mortimer, author of "The Spirit of God as Fire." One of the several substitutes of this remarkable book was one which gave the reader to understand that the author believed that heaven is located on the inner globe of the sun. This substitute was "The Globe Within the Sun Our Heaven." According to Mortimer's theory, our sun is surrounded by an envelope or photosphere of flame 100,000 miles itself. Taken all together, this idea of the photosphere is a vast non-luminous void. Farther on is the great globe of the sun itself.

Taken all together, this idea of the sun may be aptly compared to a peach or plum. The envelope of flame occupies the place of the skin, the "vast nonluminous void" the place of the meat of the fruit and the central globe (true sun) the place of the seed. On this sun globe, inside the great fiery envelope, Dr. Mortimer believed heaven to be situated. The photosphere or envelope of fire he took to be hell or the place of future punishment for the wicked. The "nonluminous void," according to Mortimer, is the "great gulf between," which is mentioned quite frequently in the Scriptures.

Wasted Effort.

A benevolent old gentleman brimful of information saw a rustic sitting on a fence gazing earnestly at telegraph wires. Going up to the countryman, he said:

"Waiting to see a message go 'long, eh?"

The man grinned and said, "Aye." The benevolent old gentleman got on the wall, and for the next quarter of an hour tried hard to dispel his ignorance.

"Now," he said at last, "as you know something about the matter, I hope you will spread your knowledge among your mates on the farm."

"But I don't work on a farm," replied the rural citizen.

"Where, then, may I ask?"

"Me and my mates are telegraph linemen, and we are testing a new wire."—London Globe.

Coinmaking.

Coin of all descriptions is manufactured by dies which cut from a metal rod the exact diameter of the coin disks of suitable size, which are called blanks. These are afterward passed on to a machine which stamps them with the devices employed on obverse and reverse and mills the edges. The milling machine is considered to be the greatest improvement in the manufacture of coin, since, by its use, coins cannot be chipped as they were before it was employed. Such wonderful accuracy is shown by the stamping machines that for a coin to vary in weight even a single grain is very rare. Every coin is weighed in balances so delicate that they detect the slightest variation and are so adjusted that if a coin is too light it is thrown to one side, if too heavy, to the other, and if exactly right it passes on to the receptacle provided for the perfect coins.
