## THE FIGHT OVER.

### Agreement for Eastern Training School

At the joint meeting of the committee on education held in senate chamber last night, the report of the sub-committee on the Eastern North Carolina training school for teachers was presented, and was unanimously adopted. The bill approved was the result of conferences between the sub-committees and the advocates of the original bill, and these who opposed the proposition to establish another normal. The substitute is made a part of the high school bill introduced in the house by Representative Blount, embodying the recommendations of Superintendent Joyner, endorsed by the State superintendent of county superintendents, the North Carolina teachers' assembly and the Farmers' Alliance.

The high school bill carries an appropriation of \$50,000 for the establishment of from one to four public high schools in each county, the State to give as much as the county or district gives, \$250 for each school being the minimum and \$500 being the maximum sum available from State and county respectively.

The appropriation for the Eastern training school is \$15,000 for building in the next two years conditioned upon the raising of not less than \$25,000 by the town in which or near which it may be established, and \$5,000 annually out of the high school appropriation for maintenance. The school is to be for both sexes and is to be located by the State board of education, who are to take into consideration the convenience and desirability of the location and the amounts offered by the various towns for building and equipment. The course of study is limited to preparation for entrance into the freshman class of the University and to training in the science and art of teaching, special emphasis being laid upon thorough instruction in the branches of study required to be taught in the public school. This beginning of a definite correlated plan for high school instruction and teacher training from the State Normal and Industrial College down to the smallest school in the rural district.

The establishment of the Eastern training school for teachers was there suit of mutual concessions. It will not effect the State Normal and Industrial College or its appropriation. —Raleigh News and Observer.

### Mrs. R. R. Cotten to Speak.

At the regular meeting of the Woman's Club on Thursday evening Mrs. R. R. Cotten, of Bruce, will give a talk on "Child Study." The program will be of special interest to mothers and teachers.

Mrs. Cotten is president of the End of the Century Club of Greenville, chairman of the Department of Child Study of the North Carolina Federation of Woman's Clubs and Vice President of the National Congress of Mothers. —Raleigh News and Observer.

### Some Rabbits.

On Monday evening Mr. M. J. Murphy and a party, while burning off the land, run out and killed 47 rabbits. The occurrence took place, not in Chatham county, but on Mr. J. C. Quinley's place in the good old State of Pitt. That was a killing 'em some. —Kinston Free Press.

## WHITE VOTERS MUST BESTIR THEMSELVES.

Last issue of the Progressive Farmer contained editorial mention of the Constitutional Amendment which we think should be solemnly impressed upon the white voters of the State. Here it is: "The Constitutional Amendment of 1900 was a far-reaching measure. That no white voter might be disqualified by reason of illiteracy, this amendment provided that for eight years to come he might register and vote under the grand father clause, and that when once registered under that clause he might remain registered to the end of his days. The end of the eight years is now near at hand. The last Legislature that will sit within these years is now in session. There has been some speculation as to whether the time would be extended or not. But there need be no longer any doubt upon that point. In a caucus last week the Democrats controlling the Legislature, after discussion voted to let the amendment, date and all, stand as they now are in the Constitution. After one more year the white man who votes must prepare himself for the high privilege of voting by learning to read and write. The time will not be extended; he is face to face with an educational suffrage qualification and must prepare himself for it or accept the consequences. And this is well. With our present educational facilities any white boy worth his salt can learn to read and write before he becomes of age. To say to the shiftless and careless that we would take care of them anyhow while at the same time spurring the negro to take advantage of his school, by reason of the educational requirement, would help nobody worth the helping, would simply encourage white ignorance, and would be a plea of weakness unworthy of our race."

### Endorsed by Statesman.

It is a pleasure to witness a play or read a book that has been endorsed by great leaders of public opinion. Such is "The Clansman" which received high praise from Senator Tillman, Governor Glenn of North Carolina, Attorney General Anderson of Virginia and other able men in public life. These "Elder Statesmen" recommend "The Clansman" because of its historical truth, its dramatic quality, and in order that the younger generation may learn and profit by its story of the terrible reconstruction struggle and the brave folk who participated therein. The only visit of "The Clansman" here this season will be on Tuesday, February 26, at the Masonic temple opera house.

### Washington's Birthday Party.

Friday night in Perkins hall, will dress in colonial style with powdered hair. Old folks and young folks will enjoy it. Drills and tableaux, followed by free refreshments. Don't miss it.

### Weather.

Fair and colder tonight except snow flurries in mountain districts. Friday far colder in eastern portion.

Men are ashamed to have a lot of children and women not to. No woman ever thinks her dress is becoming if she knows it cost less than her next-door neighbor's.

## WINS BEFORE COMMITTEE.

### Unanimous Favorable Report for Eastern Training School

There never was better planned or better executed work than that done by the people of this section toward getting a teachers' training school for Eastern North Carolina. The good result of this work is shown in a telegram received from Raleigh this morning stating that the joint legislative committee on education at a meeting last night gave the bill unanimous favorable report.

The matter now goes to the senate and house and there is every reason to believe the bill authorizing the establishment of the school will easily pass both.

### Graduate's Attentive Brothers

It was commencement day at a well known girls' seminary, and the father of one of the young women came to attend the graduation exercises. He was presented to the principal, who said: "I congratulate you, sir, upon your extremely large and affectionate family."

"Large and affectionate!" he stammered, and looking very much surprised.

"Yes, indeed," said the principal. "No less than 12 of your daughter's brothers have called frequently during the winter to take her driving and sleighing, while your eldest son escorted her to the theatre at least twice a week. Unusually nice brothers they are." —Ladies' Home Journal.

### 54 Bodies Recovered.

Laredo, Tex., Feb. 20. —Word from Los Esperanzas, Mexico, where a disastrous mine explosion occurred yesterday states that the first reports were not exaggerated and that the dead will number between 60 and 80.

Up to five o'clock yesterday evening 54 dead bodies had been recovered from Mine No. 3, of the Mexican Coal and Coke Company. Eleven injured are in the hospital and two of the number are fatally hurt. Thirty of the dead are Japanese.

### Young Man Given Five Years in the Pen for Stealing \$1.30

Macon, Ga., Feb. 20. —For robbing W. R. Melton of one necktie, one paint box and three baskets of fruit, aggregating about \$1.30 in value. Sterling Flewellyn was yesterday sentenced in the Superior court to five years in the penitentiary. The robbery took place on Christmas day of last year.

### Express Delays, Too.

The railroads are not the only carriers complained at for delaying shipments, but the express companies are also getting a share of it. The bottling establishments here are especially doing some complaining on this score because of the tardiness of the express companies in returning empty crates delivered to them by parties to whom the goods were shipped. The properties of one of the bottling establishments in Greenville showed us an express receipt, for a lot of empties delivered at Farmville, that he had been wearing around in his pockets for ten days waiting for the crates to come in. They ought to have come through in one day.

The afternoon looks like more snow.

## LOSS OF LIFE SINCE NEW YEAR.

New York, Feb. 20. —The year 1907 has started out with a distressing record in the matter of accidents and catastrophes. Outside of the United States, the greatest tragedies have been in China, where the famine is carrying off thousands; in the Dutch East Indies, where a tidal wave destroyed 6,000; in Jamaica, where an earthquake destroyed Kingston, and in Russia, where thousands are starving. The chief catastrophes of the year in North America were as follows:

January 2d—Thirty-five persons killed in wreck of Chicago, Rock Island and Pacific railroad, near Volkland, Kan.

January 7th—Three firemen killed in fire in Roosevelt street, New York.

January 9th—Government troop kills thirty rioters in mobs in State of Vera Cruz, Mexico, over the textile troubles.

January 9th—Vaderland, Red Star liner from New York cuts down a ship at Dover, England, and drowns six.

January 10th—Fourteen men killed in bursting of blast furnaces of Jones & Laughlin Steel Company, of Pittsburgh, Pa.

January 14th—Kingston, Jamaica, wrecked by earthquake, 1,000 killed.

January 16th—Sixteen persons frozen to death in big snow storm in Minnesota.

January 19th—Thirteen killed, many of them burned, in wreck of Queen City Special, of Big Four Road, at Fowler, Ind.

January 20th—Powder train blows up at Terre Haute, Ind., killing nineteen.

January 24th—Twenty miners, engulfed and killed in gas explosion in coal mine in Primero, Cal.

January 25th—Many persons frozen to death in cold snap in New England and other Northern States.

January 30th—Seventy-five killed in mine explosion, Fayette county, W. Va.

February 2nd—Twenty killed in a gas explosion in coal mine at Thomas, W. Va.

February 4th—Three persons killed and a number severely injured in fire White Plains, N. Y.

February 6th—Many frozen to death in Northwest by great storm that swept the country.

February 11th—Steamer Larchmont sunk by collision with the schooner Knowlton near Block Island and 143 drowned or frozen.

## WORKING TOGETHER.

### Greenville and Pitt County Stands Should'r to Shoulder for Progress.

Hurrah for Greenville and Pitt county! The people have worked together like men before the legislature in behalf of the training school for teachers in Eastern North Carolina and they will keep right on working together, for schools, for bridges, for good roads, and for all other measures looking to the betterment of the people. There never before was such a spirit of co-operation between the people of the town and country as now exists, and the continuation of this spirit will put Pitt county in the front rank of progress. We need only to improve our opportunities to be the greatest county in North Carolina. All together, and let's make Pitt the banner county of the State.

The hatchet and cherry tree story will be re-told tomorrow.

## PERSONAL POINTS.

### Pictures Printed of Passing People.

J. W. Ferrall went up the road this morning.

H. A. White went to Winterville this morning.

Prof. W. H. Ragsdale went to Grifton today.

C. C. King, of Goldsboro, came in Wednesday evening.

Mrs. Alice Harper is visiting her daughter in LaGrange.

Many of the farmers have been planting potatoes this week.

M. H. Quinley returned from Richmond Wednesday evening.

Rev. W. E. Cox returned from a trip up the road this morning.

J. N. Hart left this morning to visit relatives in Northampton.

D. L. James, F. C. Harding, J. L. Wooten, S. T. White and H. B. Smith returned from Raleigh this morning.

### Japanese Superstitions.

A Japanese student in this country gives a list of some of the superstitions which old housewives put into the minds of Japanese girls:

The shadow of a bird falling against a paper screen is the sign of a guest.

Erect a broom; your guest will leave you soon.

A dream about snakes is a sign of rising in the world.

When it rains, and the sun shines at the same time, there is a wedding of foxes.

If you cut your finger nails just before going out you will be disgraced.

Hide your thumbs when you meet a funeral, lest you court leath.

Bats are messengers from the god of wealth.

Sneezing is a sign that one is talking of you; one sneeze means that others are praising you; two sneezes mean that others are speaking evil of you; three, some one is in love with you; four that you will have an illness; five, that great good fortune is before you.

### Looking for Lost Money.

Tarboro, N. C., Feb. 5. —Monday afternoon M. A. Jones & Co., of Coakley, had over one hundred dollars in cash and a check for sixteen dollars taken from their money drawer and safe.

Mr. Jones went out a short distance to the warehouse to draw cider, leaving Henry Mabry, colored, in the store. Upon his return he found the negro gone and the money missing. Mabry succeeded in evading the officers until today, when he was arrested in Hobgood. Only \$2.50 was found in his possession. It is claimed the other money was given James Knight, who left for Rocky Mount. Mr. Jones is in Rocky Mount trying to locate Knight.

Greenville must be a great big town. Watch it grow.

THURSDAY, FEB. 21st. 1907.

It drags along mighty slow, but may thaw out by spring.

There will be something in the canal to talk about for years and years before there is any canal.

Milwaukee might settle the dispute over the design for a city seal by putting a keg of beer on it.

The two cent railroad fare bill passed its third reading in the house by a vote of 71 to 28 and is now with the senate.

Those members of the legislature who seem to have it in so hard for the newspapers may never want the papers to help them get elected any more.

The man who writes "Reflections of a Bachelor" keeping it up after marriage is counter part to the man who hasn't got any giving advice how to raise children.

The Durham Herald well says "if the people of the town are willing to vote for a bond issue for good roads, the people of the country should grab at the chance." That should be true everywhere. The people of the country are the ones to reap the greatest benefit from good roads and should be glad when the towns are willing to be taxed to help build roads.

In the senate Tuesday the bill of Senator Klutz to penalize telegraph companies was tabled. That was a proper disposition of it, and it should never come up again.

No more dangerous proposition has been presented to the present legislature than to enact such law. We entirely agree with Senator Farr who in a speech opposing the bill said "he had come to the conclusion that the penalty business in North Carolina had been overdone. He did not know of any law that would open up a larger floodgate of litigation than this bill, and he believed it would have a demoralizing effect if enacted into law."

LET THAT DOLLAR CIRCLE AROUND.

From time to time we have insisted in this column that there are few reasons, and most of them poor ones, why any man's money should be idle a single day. And this is especially true of persons who owe what money they get to some one else. We insist again, and do so only in the hope of doing good, that the man who owes money ought to pay it out in settling his debts as fast as he can. One dollar properly circulated may discharge ten one dollar obligations every day; and this makes it do the work of a ten one-dollar bill, multiplying itself

ten times over. If A owes B and pays him, B can pay C at once and then C can immediately pay D, and so the circle which a dollar may make in one day is large and significant. If every man in the State would live up to this principle one year, the financial condition of our people would be considered good. Put your dollar on the rounds at once and let it do its best.—Scotland Neck Commonwealth

There are but few editors in our State who have not made a vigorous and continuous fight against the city mail order house. This has been done in the interest of the home merchant, and without money and without price. If the editors of the land had received regular advertising rates for all they have said against these enemies of the country merchant they could now be wearing diamonds. Now the department store man appreciates advertising space and is willing to take all the average country editor has for sale, and at a good price. What other class of business or professional men would refuse business to help their friends, especially as many of said friends never seem in the least disposed to return the compliment or even appreciate it.—Gastonia Gazette.

**PANACEA MINERAL WATER CURES.**  
Read one among a hundreds of such testimonials. "I have suffered with NERVOUS Dyspepsia for past 10 years and have received more beneficial and lasting results from the use of PANACEA MINERAL WATER than from any other remedy of the many I have had prescribed for me. It gives me great pleasure to testify to its marvelous results in my own case and many others I have personally observed."

## Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatine.

## Kodol

### Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

### Digests What You Eat

Rests the stomach, rebuilds the tissues and gives firm flesh.

Dollar bottle holds six times as much as the trial, or 50 cent size.

Prepared at the Laboratory of Dr. W. D. Hooper, Chicago, U.S.A.

## Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

## A CLEVER PICKPOCKET.

He Was a Russian and Alarmed and Surprised a Grand Duke.

One day at the dinner table of a Russian grand duke a French ambassador extolled the dexterity of his fellow countrymen, as exemplified, among other things, in the cleverness of the Paris pickpockets.

"I should not wonder if the St. Petersburg pickpockets could give them a start," replied the grand duke. And, seeing an incredulous smile play around the features of the ambassador, he added, "Will you bet that before we rise from the table your watch or some other valuable will not be taken from your person?"

The ambassador accepted the wager for the fun of the thing, and the grand duke telephoned to the chief constable, asking him to send at once the cleverest pickpocket he could lay his hands on. The latter was to receive the full value of every article he managed to "annex" and be allowed to go unpunished.

The man came and was put into livery and told to wait at the table along with the other servants. The grand duke told him to give him a sign as soon as he had accomplished the trick. But he had to wait a long time, for the ambassador, whose watch was the article to be experimented upon, always kept on the alert and even held his hand to his job when conversing with the most distinguished guests at the table. At last the grand duke received the preconcerted signal. He at once requested the ambassador to tell him the time. The latter triumphantly put his hand to his pocket and drew forth a potato instead of his watch! There was a general burst of laughter, in which the ambassador himself joined, though with a wry face, for he was unmistakably annoyed. To conceal his feelings he would take a pinch of snuff—his snuffbox was gone! Then he missed the seal ring from his finger and lastly the gold toothpick which he always carried about with him in a little case. Amid the hilarity of the guests the sham lackey was requested to restore the articles, but the grand duke's merriment was changed into alarm and surprise when the thief produced two watches, two rings, two snuffboxes, etc. His imperial highness made the discovery that he himself had been robbed at the same time.—Neue Blatt.

### Egyptian Geometry.

The Ahmes papyrus doubtless represents the most advanced attainments of the Egyptians in arithmetic and geometry. It is remarkable that they should have reached so great proficiency in mathematics at so remote a period of antiquity. But strange indeed is the fact that during the next 2,000 years they should have made no progress whatsoever in it. All the knowledge of geometry which they possessed when Greek scholars visited them, six centuries B. C., was doubtless known to them 2,000 years earlier, when they built those stupendous and gigantic structures, the pyramids. An explanation for this stagnation of learning has been sought in the fact that their early discoveries in mathematics and medicine had the misfortune of being entered upon their sacred books and that in after ages it was considered heretical to augment or modify anything therein. Thus the books themselves closed the gates to progress.—"History of Mathematics," Cajori.

### The Stinger Stung.

It was at an Indiana hotel of some pretentiousness. A traveling man had had his order filled. With the meat and vegetables and other material was one tea biscuit. Looking with what he considered great roguishness at the waitress, he said:

"Say, sister, do you know that that one biscuit looks to me as if it were awfully lonesome in here all by itself?"

"Very well," replied the girl, without the twitch of a facial muscle, "I'll take it back into the kitchen with the others then."

And to this day that traveling man doesn't know whether he fooled the dumbest girl on earth or was outwitted by the keenest one.—Chicago News.

### He Probably Guessed It.

"No, I don't want it cut, and I don't want it trimmed," snarled the shaggy haired young man, seating himself in the chair and glaring savagely at the barber, "and I'm not a football player or a pianist, and I haven't taken any vow not to have it cut. Perhaps that will save you the trouble of asking questions. All I want is a shave."

"Yes, sir."

The barber worked in silence for ten minutes.

"I have a brother," he remarked at last, "that's got a head shaped just like yours. He has to wear his hair the same way."

### His Pretty Thanks.

It is strange how differently children sometimes express their thanks. Alec, aged three, was given a coveted toy. He took it without a word and turned away and began to wind it up. I took it gently back again, and, bending over, I said, "Alec, what do you say to me?" He merely stared solemnly up at me and then at the toy, as though puzzling how to get it back. "What are you going to say for that nice toy, Alec?" I repeated. "Are you pleased?"

"Aye," he nodded, still staring wistfully up at the toy.

"Well," I insisted, determined to teach him better manners, "and what are you going to say to me?"

I had to bend to hear the shyly uttered answer:

"I—love—ye," he whispered as he pleadingly held out a small, fat hand.—New York Globe.

### "Clock of the Dead Kings."

The most peculiar clock in the world is that in a tower in the courtyard of the palace of Versailles. It has but a single hand and is known as "L'Horloge de la Mort du Roi" to the French people and to all other Europeans by words which signify "clock of the dead kings." It has no works, but consists merely of a face and a single hand, the face being in imitation of the sun. Upon the death of a king in any portion of Europe the hand is set at the moment of his demise and remains in that position until another king passes away. This curious custom is said to have originated in the time of Louis XIII. The clock of the dead kings is about the only relic of royalty in Versailles that escaped the furious mobs of the time of the French revolution.

### Special Treatment.

A young housekeeper in one of the suburbs had just succeeded in getting a new cook, who came highly recommended. One day Nora made a sponge cake which was so hard it could not be eaten. The housekeeper said:

"Nora, do you call this sponge cake? Why, it's as hard as can be!"

"Yes, mum," replied the cook calmly. "That's the way a sponge is before it's wet. Soak it in tea, mum."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucus surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they have offered One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, Ohio.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against the use of opium, chloroform or other unsafe ingredients commonly found in cough remedies. Dr. Shoop, it seems has welcomed the Pure Food Drug Law recently enacted, for he has worked along similar lines for many years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by Bryan's Drug Store.
